Contents

<i>Introduction</i>	xxix
Part I • Building Basic FrontPage Web Sites	1
Chapter 1 • Introduction to Web Design	3
Planning Your Web Site	5
Step 1: Set Goals and Get Organized	5
Step 2: Define Your Target Audience	7
Step 3: Create a Folder Structure	9
Step 4: Create a Storyboard	11
Step 5: Develop a Look and Feel	13
Web Site Dos and Don'ts	16
Exploring Successful Page Designs	17
Simple, Friendly, and Clear	17
Terrifically Clickable	19
A Selective Color Palette	20
Clean Columns	21
Fully Functional Frames	22
An Effective Button-Style Navigation Bar	23
Up Next	25
Chapter 2 • Exploring FrontPage 2002	27
Web Pages, Web Sites, and HTML	29
What Is FrontPage?	31
FrontPage Builds Web Sites Big and Small	32
FrontPage Is a Collaborative Software Program	33
FrontPage Web-Building Basics	33
Starting FrontPage	34
Creating a Web Site with Templates	35
Creating a Site with a Wizard	38
Creating an Empty Web Site	40
Importing an Existing Web Site into FrontPage	40
FrontPage Views	43
Page View	43
Folders View	46

Reports View	48
Navigation View	49
Hyperlinks View	50
Tasks View	52
Adding Pages to a Web Site	52
Creating a Blank Web Page	52
Creating a Web Page from a Template	53
Importing Web Pages for Your Web Site	54
Opening a FrontPage Web Site You Created	56
Deleting a Web Site	57
Quitting FrontPage	58
Up Next	58
Chapter 3 • Working in Page View	59
Opening the Web Page You Want to Work On	61
Introducing the Web Page Toolbars	63
Understanding Properties	64
Using the Text-Editing Tools	66
Moving and Copying Text	66
Checking for Spelling Errors	68
Finding Synonyms in the Thesaurus	70
Finding Text	71
Replacing Text	73
Saving Your Web Pages	74
Saving a Web Page as a Template	76
Previewing a Page	77
Viewing a Page with the Preview Tab	77
Viewing a Page with a Web Browser	78
Printing Your Web Pages	79
Up Next	80
Chapter 4 • Creating Basic Pages	81
Titling a Web Page	83
Entering Text on a Web Page	85
Using Special Characters	86
Making Paragraphs Work	87
Inserting a Paragraph Break	87
Breaking a Line	88
Aligning Paragraphs	90
Indenting Paragraphs	91

Understanding the HTML behind Your Web Page	94
Working with Graphics	96
Getting Clip Art and Photos from the Clip Organizer	96
Putting Your Own Clip Art and Photographs on a Web Page	99
Importing Many Graphics for Use in Your Web Site	100
Changing a Graphic's Size, Alignment, and Spacing	102
Using Ruled Lines	106
Inserting a Ruled Line	107
Changing the Look of a Ruled Line	107
Using a Graphic as a Ruled Line	109
Creating Backgrounds for Web Pages	112
Choosing a Background Color	112
Choosing a Background Graphic for Web Pages	114
Choosing a Theme for Web Pages and Web Sites	115
Including Hyperlinks on Web Pages	118
Creating a Hyperlink: The Basics	118
Linking to a Different Page in Your Web Site	120
Creating a Bookmark so You Can Link to a Specific Place	121
Linking to a Different Place on the Same Web Page	122
Linking to a Specific Place on a Different Web Page	122
Linking to a Web Page on the Internet	123
Creating Links to E-Mail Addresses	124
Up Next	126
Chapter 5 • All about Text	127
Communicating with Text	129
Understanding the Purpose of Text	131
Working with Browser Defaults	132
Using Text and Paragraph Styles	134
Formatting Text for Emphasis	135
Using Other Physical Text Styles	136
Using Logical Text Styles	137
Using Paragraph Styles	139
Using Lists	142
Using Bulleted Lists	142
Using Numbered Lists	143
Using Definition Lists	146
Including Headings	146
Up Next	148

Chapter 6 • Fantastic Fonts	149
Typography and the Web	151
Looking at Types of Type	151
Adding Fonts to a Page	153
Managing Web Fonts	155
Stacking Fonts for Cross-Platform Typography	155
Embedding Fonts	159
Microsoft Core Fonts	160
Using Font Tips and Tricks	160
Changing Font Size	163
Choosing Colors for Text	167
Choosing the Default Text Color for a Web Page	168
Changing Font Colors	170
Choosing a Color for Hyperlinks	171
Up Next	172
Chapter 7 • Managing Tasks	173
Creating a New Task	175
Creating a Linked Task	175
Creating an Unlinked Task	177
Spell-Check and Page-Creation Tasks	178
When FrontPage Wizards Create Tasks	179
Reading the Tasks List	180
Embarking on a Task on the Tasks List	182
Managing Tasks on the Tasks List	183
Modifying a Task Description	183
Marking a Task as Complete	184
Deleting a Task from the Tasks List	185
Using the Tasks View in a Team Setting	186
Assigning a Task to a User	187
Tracking Modifications	188
Up Next	188
Chapter 8 • Publishing Your Pages	189
What Is “Publishing”?	191
The Stages of Publishing	191
Weighing Your Web Publishing Options	193
Choosing an Internet Service Provider	193
Registering a Domain Name	195

Publishing Your Web Site for the First Time	197
Publishing to a Server with FrontPage Server Extensions	200
Publishing to an FTP Server	202
Publishing Your Web Site on an Intranet	203
Publishing a Web Site the Next Time Around	204
Deleting Remote Web Pages That You've Published	207
Up Next	208
Part II • Creating Sophisticated Designs	209
Chapter 9 • Designing Graphics for the Web	211
A Look at Imaging Programs	213
GIFs and JPEGs	213
Using Microsoft Photo Editor	216
Getting Up and Running with Photo Editor	216
Changing the Size of, Rotating, and Cropping Graphics	219
Choosing Corners and Mat Styles for Graphics	221
Adjusting a Graphic's Overall Appearance	222
Touching Up a Graphic	223
Changing the Texture of a Graphic	224
Using the FrontPage Drawing Tools	225
Drawing a Line or Shape	226
Selecting Lines, Shapes, AutoShapes, and Other Objects	227
Changing the Shape, Size, or Location of an Object	227
Adding a Background Color or Border to an Object	228
Creating Shadow and 3-D Effects	228
Making Objects Overlap	228
Making Better Image Maps	229
Creating an Image Map	230
Adjusting Hotspots	232
Up Next	233
Chapter 10 • Adding Multimedia	235
Presenting Video on a Web Site	237
About Video Formats	238
Placing Video on a Page	239

Playing Sound and Music on a Web Site	244
About Sound Formats	245
Playing Sound on a Web Page	246
Streaming Video and Sound	253
Up Next	254
Chapter 11 • Using Tables for Advanced Layout	255
What Are Tables?	257
Creating a Table from a Template	259
Creating a Table on Your Own	262
Creating a Table with the Insert Table Button	263
Creating a Table in the Insert Table Dialog Box	264
Drawing a Table and Using the Tables Toolbar	266
Introducing the Tables Toolbar	266
Placing Text and Images in a Table	268
Aligning Text and Images in a Table Cell	269
Creating Table Headers	272
Creating Table Captions	272
Editing an Existing Table	273
Changing the Size of a Table	274
Changing the Alignment of a Table	275
Inserting Rows and Columns	276
Adding a Single Cell	277
Splitting Cells	278
Splitting a Table in Two	280
Merging Cells to Form a Single Cell	280
Removing Rows and Columns	281
Some Fancy Table Options	282
Letting the AutoFormat Command Do the Work	282
Cell Padding, Cell Spacing, and Border Width	284
Adding Color to Tables	286
Coloring the Borders and Gridlines	288
Using Table Background Images	289
Up Next	290

Chapter 12 • Fantastic Frames	291
How Frames Work	293
Uses for Frames	295
Planning a Frames Page	296
Creating Frames Pages from a Template	297
Editing Frames and Frames Pages	300
Altering the Frames Page Layout	300
Attaching an Initial Page to a Frame	304
Attaching a New Page to a Frame	306
Saving a Frameset	306
Editing Pages in the Frames Page	308
Choosing How Each Frame Looks and Acts	309
Choosing What All Frame Borders Look Like	314
Creating an Inline Frame	316
Setting Targets	318
Naming the Frames in the Frameset	318
Creating Target Settings	320
Up Next	323
Chapter 13 • Getting in Style with Cascading Style Sheets	325
What Are Cascading Style Sheets?	327
Introducing Style Sheets	328
Style Sheet Terms and Concepts	329
What Is a Style Sheet?	330
All about Class	332
All about Inheritance	333
When to Use Style Sheets	334
Working with Style Sheets in FrontPage	336
Applying an Inline Style to a Single Page Element	337
Embedding a Style Sheet in a Page	339
Applying Styles throughout a Web Site	342
Up Next	346
Chapter 14 • Making Interactive Pages with Forms	347
What Is a Form?	349
What You Can Do with Forms	350
What Forms Do	351
Using the Form Page Wizard to Construct a Form	352

Editing a Form	359
Copying, Cutting, and Pasting Forms and Form Fields	360
Creating a One-Line Text Box	360
Creating a Scrolling Text Box	366
Creating Check Boxes	368
Turning On Option Buttons	369
Ordering from Drop-Down Menus	371
Adding Hidden Fields	375
Adding Submit and Reset Buttons	376
Using Pictures as Buttons	379
Setting Up a Form Handler	380
Working with Custom Scripts	380
Saving Results to a File	382
E-mailing Form Results	385
Offering Confirmation	388
Setting Up a Confirmation Page	388
Making Your Form Call Up the Confirmation Page	389
Up Next	391
Chapter 15 • Special Effects	393
Using the Web Components	395
Placing an Ad Banner on a Web Page	396
Adding a Hit Counter	397
Creating Hover Buttons	399
Adding a Marquee	402
Including a Page within a Page	403
Including Pages or Pictures Based on a Schedule	405
Including Specified Information throughout the Site	407
Adding a Search Form to a Web Page	410
Building a Table of Contents	412
Site Management Effects	413
Adding Dynamic Date and Time	414
Including Comments	415
Registering Users	416
Shared Borders for Creating Effects across Multiple Pages	418
Enabling and Disabling Shared Borders	419
Adding Elements to a Shared Border	420
Adding a Link Bar	420
Extra Web Component Goodies	423
Up Next	423

Chapter 16 • Cross-Browser Design	425
Who's Surfing the Web?	427
What to Design For?	428
Who Has What? (And What to Do about It)	430
Creating Multiple Versions of Web Pages	432
Browser Wars: Who Does What	433
Netscape Navigator Features	435
Microsoft Internet Explorer Features	435
Other Browsers (Including Lynx)	437
What People Might Miss	437
Tables, Frames, and Style Sheets	437
Active Content	438
FrontPage's Internet Explorer-Only Features	438
Testing, Testing, One, Two, Three	440
Previewing in Different Browsers	440
Testing in Other Environments	443
Up Next	444
Part III • Advanced Web Graphic Design	445
Chapter 17 • Understanding Advanced Web Design	447
Space	449
Margins	449
Graphics and Space	462
Tables and Space	466
Color	472
About Web Color	473
Using Safe Colors	474
Using Color Intelligently	476
Controlling Color with Style Sheets	477
Shapes	478
Using Graphics to Add Shape	479
Type Tour	480
Up Next	483

Chapter 18 • Working with Professional Graphics Programs	485
Understanding Imaging and Illustration Programs	487
Imaging and Illustration Programs for the Professional	487
Adobe Photoshop	488
Adobe Illustrator	491
Macromedia Fireworks	493
Helpful Utilities	497
Compression Utilities	497
Filters	498
Scanning Techniques	500
Finding Stock Materials on the Web	502
GIF Animation Programs	503
Up Next	504
Chapter 19 • Creating Advanced Sites with FrontPage	505
Pre-Production	507
Understanding Your Web Site	507
Designing Content	512
Production	518
Setting Up Folders, Files, and Tasks	519
Generating Site Graphics	521
Page-by-Page Design	523
Preparing Your Site for Publication	524
Post-Production	525
Up Next	525
Part IV • Taking Your Web Site to the Top	527
Chapter 20 • Integrating Sites with Microsoft Office	529
Previewing an Office File in a Web Browser	531
Copying and Pasting to Create Content	532
Using Word to Create HTML Documents	534
Converting Word Documents to HTML	534
Filtering to Remove the HTML Tags	535
Using Excel to Create Web Pages	536
Converting Excel Worksheets to Web Pages	537
Inserting a Live Excel Worksheet	539

Working with PowerPoint	540
Turning a PowerPoint Presentation into a Web Site	541
Displaying Access Data on a Web Page	545
Linking to Office Documents	547
Up Next	549
Chapter 21 • JavaScript, VBScript, and Dynamic HTML	551
About JavaScript	553
About VBScript	555
Specifications, Standards, and Recommendations	556
Why Use Standards?	556
The ECMAScript Standard	557
Other Standards, Recommendations, and Specifications	558
Choosing a Scripting Language	559
Inserting a Script	561
Dynamic HTML	566
Animating Text	566
Animating Images	570
Setting Transitions between Pages	573
The Microsoft Script Editor	574
Obtaining Help with the Microsoft Script Editor	575
Up Next	577
Chapter 22 • Specialty Programming Techniques	579
About ActiveX	581
Locating and Inserting ActiveX Controls	581
Obtaining Additional ActiveX Controls	585
Changing ActiveX Control Properties	586
Creating ActiveX Controls	590
About Java	591
Creating Java Applets	592
Finding Java Applets	593
Inserting Java Applets	594
Changing Applet Properties	597
Dealing with Archived Java Applets	598
Up Next	599

Chapter 23 • Adding Databases for Maximum Impact	601
About Databases and Web Sites	603
What Is a Database?	604
Relational Database Basics	605
When a Database Is What You Need	605
Adding Database Information to Your Page	606
Step 1: Create the Database	607
Step 2: Set Up a Database Connection	607
Step 3: Use the Database Results Wizard	614
Step 4: Save Your Page	619
Changing Database Properties	621
Viewing Your Page	622
Up Next	624
Chapter 24 • Site Maintenance and Promotion	625
Managing Maintenance of Your	
Web Site	627
Organizing and Assigning Maintenance Tasks	627
Verifying Hyperlinks	630
Finding Text and Replacing It Globally	635
Reports for Seeing How Your Site Is Being Used	638
Promoting Your Site and Building Traffic	639
Finding Your Target Audience	640
Planning Your Campaign	640
Getting Listed with Directories and Search Engines	643
Retroactive Linking	647
Announcing Your Site in Selected Newsgroups	648
Getting Listed in Magazines and Newspapers	649
Taking Advantage of E-Mail Publicity	650
Using Assorted Other Media to Support Your Online Efforts . . .	653
Up Next	654
Part V • Back-End Applications and Professional Management	655
Chapter 25 • Server Extensions and SharePoint Team Services	657
What Are the Server Extensions?	659
Which Servers Are Supported?	660
About SharePoint Team Services	662

Installing SharePoint Team Services and the Server Extensions for Windows	662
Configuring Your SharePoint Site	664
Customizing Your SharePoint Site With FrontPage	666
Up Next	668
Chapter 26 • Understanding CGI	669
What Is CGI?	671
Web Servers and Browsers	673
CGI and Programming	676
Perl	676
Other Programming Languages	677
Getting the Right Server	678
Finding Scripts	680
Getting Ready to Work with Scripts	681
FTP Client	682
Telnet	684
Adding Scripts to FrontPage Webs	685
Placing Your Script on the Server	686
Changing Permissions With chmod	686
Pointing to the CGI from Your HTML	688
Testing Your Script	690
Up Next	690
Chapter 27 • Using Active Server Pages	691
ASP Overview	693
ASP Structure	694
Scripting Choices in ASP	695
ASP Tools	699
Adding a Script to a Page	704
Up Next	706
Chapter 28 • Databases in Detail	707
About Databases	709
Popular Database Products	711
File Server Databases	711
Client/Server RDBMSs	713
Database Structure	714

Applying Database Concepts: A Closer Look	715
Normalization of Data	715
Data Relationships	716
Optimizing Database Performance	717
Configuring Hardware	717
Up Next	718
Chapter 29 • Using FrontPage with Microsoft's Visual InterDev	719
What Is Visual InterDev?	721
Rapid Application Development (RAD)	721
Avoiding Mistakes	722
Following Good Development Practices	723
Risk Management	725
Visual InterDev Close-Up	726
Database Design	729
Programming Model for Web Developers	730
The Development Team Model	731
Up Next	732
Part VI • Step-by-Step FrontPage Sites	733
Chapter 30 • Creating a Personal Web Page	735
What Is a Personal Web Page?	737
Planning the Site	738
Audience and Intent	738
Short- and Long-Term Goals	739
Preparing for Production	739
Creating a Look and Feel	739
Preparing for Technology	740
Production	740
Laying Out the Pages	741
Working with FrontPage	745
Creating the Splash Page	747
Designing an Internal Page	748
Customizing the Guestbook	751
Preparing Your Site for Publication	753
Post-Production	755
Up Next	755

Chapter 31 • Designing a Small-Business Web Site	757
Understanding Site Intent and Demographics	759
Working the Business Plan	760
Short- and Long-Term Goals	761
Branding a Product	764
Developing the Look and Feel	765
Preparing for Technology	767
Laying Out the Pages	769
Working with FrontPage	772
Designing the Splash Page	774
Designing an Internal Page	775
Customizing the Feedback Form	777
Adding the JavaScript	779
Getting Ready to Publish Your Site	783
Post-Production Needs	785
Up Next	786
Chapter 32 • Building a Community Site	787
What Is Online Community?	789
Why an Online Community?	789
Planning the Community	790
Community Structure	790
Audience and Intent	791
Short- and Long-Term Goals	792
Getting Ready for Production	793
Creating a Visual Design	793
Community Technology	794
Producing the Site	794
Laying Out the Pages	795
Using FrontPage to Create the Community Site	796
Creating the Welcome Page	800
Customizing the Forum and the Table of Contents	802
Adding Chats	802
Preparing Your Site for Publication	803
Managing Community	803
Moderated Forums	803
Chat Hosts	804
Content Managers	804
Up Next	808

Chapter 33 • Constructing and Managing a Large-Scale Site	809
Web Site Structure	811
Linearity	812
Tier-Based Models	814
A Simple Tier Model	814
A Complex Tier Model	814
Shared, Complex Tiers	816
Planning a Large-Scale Site	817
Audience and Intent	818
Short- and Long-Term Goals	818
Site Structure	818
Preparing for Production	819
Creating a Look and Feel	820
Preparing for Technology	821
Production	822
Laying Out the Pages	822
Working with FrontPage	824
Creating the Welcome Page in FrontPage	826
Creating and Customizing a Site Map	827
Adding a Feedback Page	829
Preparing Your Site for Publication	830
Managing Growth	831
Up Next: Your Future	831
 Appendices	 835
Appendix A • Configuring FrontPage 2002	837
General Customization	838
Configuring FrontPage 2002 for Your Proxy Server	840
Configuring FrontPage 2002 to Use Other Editors	843
Additional FrontPage 2002 Configuration	845
Appendix B • Setting Up Web Servers	847
Using Web Services for Windows 2000 Professional and Server	848
Installing the Web Services	849
Starting, Stopping, and Pausing Servers	850
Configuring the Web Server	852

Configuring the FTP Server	858
Logging Access to the Servers	864
Alternate Web Servers and Platforms	867
Appendix C • Installing and Testing Network Connections	869
Installing and Configuring TCP/IP	870
Installing and Binding the TCP/IP Protocol	871
Setting TCP/IP Properties	875
Identifying Your Computer on a Network	880
For Windows 2000 Users	880
For Windows ME Users	881
Running the FrontPage TCP/IP Test Program	881
Testing Your Intranet Connection	885
Accessing Your Web Server across the Internet	887
Appendix D • Using the Microsoft Clip Organizer	889
Getting Acquainted with the Microsoft Clip Organizer	890
Finding the File You Need	892
Searching for a File	893
Getting a File from the Collection List	895
Organizing the Files so You Can Find Them Easily	895
Cataloging Files	895
Copying Files to the Favorites or Another Folder	896
Creating New Folders for Your Files	897
Using the Clip Organizer to Store Your Own Files	898
Appendix E • HTML Reference	899
HTML Tags and Attributes	900
 <i>Index</i>	 923
