

Index

- a posteriori, 132, 195, 198, 202
- acoustic modeling, 117, 127, 133, 163, 167
- acyclic, 28, 31, 120, 121, 123
- adaptation, 132, 133, 170, 178, 195, 198, 199, 202, 203, 211, 212
- area under curve (AUC), 176, 180, 182, 184–187, 189–192
- Augmented Statistical Models, 83, 86, 92, 97
- authentication, 195, 196

- Bayesian factor analysis, 214, 219
- bigram, 119, 124, 125, 130, 131
- blind source separation, 247

- client, 195–197, 199, 201, 202, 205, 208, 210, 212–214, 216
- clustering, 221–223, 225, 227–230, 233–237, 239, 244–247
- Conditional Maximum Likelihood, 83, 96, 102, 103, 108
- Conditional Model, 127
- Conditional Random Fields, 94, 143
- confusion network, 94, 97

- decoding graph, 125, 126, 130
- detection error trade-off (DET), 202, 205, 209
- determinization, 120, 121, 124, 126, 169
- discriminant function, 107, 141, 142, 196, 200
- discriminative models, 94, 134, 189
- discriminative training, 6, 9, 67, 93, 95, 101, 102, 105, 107, 112, 117, 118, 133, 160, 180
- dual coordinate ascent, 25
- dynamic kernels, 9, 83, 84, 86–88, 93, 94, 97
- dynamic programming, 54, 56, 63, 72, 108, 142, 144, 149, 153, 169, 184

- eigenvalue, 224, 225, 227, 231–233
- eigenvector, 224, 225, 232, 233, 237
- enrollment data, 202

- equal error rate, 202
- error decomposition, 17
- expectation maximization (EM), 5, 6, 102, 103, 108, 176, 178, 189, 198, 208
- expected performance curve (EPC), 202

- failure transition, 124
- false acceptance, 197
- false rejection, 178, 197
- feature selection, 134, 144, 155, 222, 236
- finite state, 120
- finite state transducer (FST), 169
- Fisher information matrix, 90, 206, 207, 209
- Fisher kernel, 84, 88, 90, 205, 206, 209–212, 217, 219
- Fisher score, 216
- forced alignment, 9, 53, 54, 57, 59, 64, 66, 165, 167, 182

- Gaussian, 5, 6, 9, 66, 69, 78, 79, 86, 87, 89, 95, 96, 102, 103, 105, 106, 108, 109, 126, 128, 143, 178, 184, 188, 195, 197–199, 202, 203, 207, 218, 222, 223, 234, 237, 239, 243
- Gaussian Mixture Model (GMM), 5, 86, 89, 103, 105, 106, 110, 178, 188, 191, 195, 199, 205, 208, 210–213, 216–218
- generalized linear discriminant sequence kernel (GLDS), 204, 205, 213, 218, 219
- generative kernel, 87–91
- generative methods, 93
- generative model, 54, 83, 88, 89, 97, 130, 133, 155, 178, 199, 205, 209
- GMM supervector linear kernel (GSLK), 210–215, 217–219

- half total error rate (HTER), 202, 203, 218
- Hamming distance, 107, 110–112, 150

- Hidden Markov Model (HMM), 4, 84, 85
- Hidden Markov Perceptron, 143, 144
- Hidden Markov Support Vector Machines, 149, 153

- impostor, 195–198, 201, 202, 214, 216

- K*-means, 221, 227, 246
- K*-nearest, 215
- kernel methods, 7, 8
- kernel trick, 199
- kernels, 9, 42, 69, 83, 84, 86–90, 92, 94, 97, 153, 167, 200, 203, 204, 207, 216, 218
- keyword detection, 178

- language model, 5, 96, 97, 117–120, 122, 123, 126–134, 139, 156, 159, 161, 164, 165, 167, 178
- large margin training, 101–103, 105–113, 159
- large scale, 8, 18, 245
- large vocabulary continuous speech
 - recognition (LVCSR), 96, 97, 117–123, 125–128, 130–134, 161
- linear model, 27, 127
- long-distance dependencies, 121
- loss function, 12–14, 16, 20–22, 33–35, 39, 73, 145, 159, 197, 198

- machine translation, 118, 132
- MAP, 13, 27, 87, 122, 124, 132, 133, 142, 198–200, 202, 203, 207, 208, 211, 212, 230, 243
- margin, 6–9, 53, 54, 56, 57, 65–67, 83, 93, 101–103, 105–113, 118, 139, 140, 144–146, 149–152, 155, 156, 159–161, 164, 165, 176, 180, 183, 188, 190, 192, 215, 217, 219
- Maximum a posteriori, 132, 195, 198
- Maximum Likelihood, 6, 83, 95, 96, 102, 103, 108, 111, 160, 199, 236
- minimization, 15, 23, 53, 106, 121, 160, 200, 226, 227, 229, 236, 241, 247
- Minimum Classification Error (MCE), 6, 102, 103, 108, 128, 179
- multicategorization, 27, 31, 32, 37, 39–41
- multiclass, 13, 14, 33–35, 37, 38, 42–44, 71, 75, 79, 96, 139, 144, 145, 199
- multinomial, 118

- n*-gram, 118, 119, 122–128, 130–132
- Nuisance Attribute Projection (NAP), 213, 214, 216–219

- observation-label dependency, 142
- online learning, 36, 40, 42, 43, 79, 107, 144
- optimization, 6–8, 11–18, 21–23, 33, 35, 39–42, 44, 45, 48, 54, 56–58, 61–63, 72, 79, 102, 105–109, 113, 118, 128, 129, 131, 132, 143, 146, 149–152, 154, 155, 161, 165–167, 169, 176, 185, 186, 200, 223, 225, 231, 236, 238
- out-of-vocabulary (OOV), 122

- parameter sharing, 213, 215, 219
- Part-of-Speech tagging, 139
- person authentication, 195, 196
- phone classification, 83, 95, 96
- phoneme classification, 69
- phoneme recognition, 14, 75, 167, 168
- pitch, 243–247
- polynomial expansion, 205, 207
- polynomial kernel, 87, 155, 200, 204, 205, 207, 219

- rank risk, 143, 145
- receiver operating characteristic (ROC), 9, 175, 176, 181, 182, 189, 202
- regularization, 11, 12, 19, 25, 41, 118, 128–130, 132, 155, 180, 234
- reranking, 120–123, 125
- rescoring, 120–122, 133
- row selection procedure, 151

- segmentation, 3, 9, 78, 95, 139, 184, 221, 236, 240–243, 245, 246, 248
- semiring, 120, 121, 125
- Sequence AdaBoost, 144, 145, 153–155
- sequence kernel, 69, 88, 204
- sequence labeling, 139, 140, 143, 156
- similarity matrix, 9, 221–223, 227–230, 233–236, 238, 244, 245
- slack variable, 57, 58, 72, 150, 167
- sparse data, 118
- spectral clustering, 221–223, 227–230, 233, 234, 236, 237, 239, 245, 247
- spectral methods, 222, 247
- spectrogram, 237, 239–243, 246, 248

- speech recognition, 4, 5, 43, 54, 84, 85, 93, 95–97, 101, 117, 118, 131, 139, 144, 159–161, 163, 164, 170, 177, 195
- static kernels, 90
- stochastic gradient descent, 11, 12, 18, 19, 25, 215
- Support Vector Machine (SVM), 3, 6–9, 11–13, 16–18, 22, 25, 56–61, 63, 70–72, 79, 80, 83, 92, 93, 96, 97, 133, 165, 167, 169, 183, 195, 199, 200, 203, 205, 213–218
- support vectors, 27, 44, 77, 210, 212, 214, 216
- surrogate function, 150
- temporal correlation modeling, 86, 97
- text-independent speaker verification, 88, 195, 211, 212
- trigram, 96, 127
- unbalanced, 183, 189, 191, 192, 224
- unigram, 124, 125
- variance flooring, 78
- weighted finite state automata (WFA), 120, 121, 123
- word lattice, 94, 119, 123
- word-error rate (WER), 6, 71, 159, 160, 164, 167, 170
- world model, 199, 205, 208–212
