- Ballot problem, 64
- Bartoszyński, R., 85, 124
- Basu theorem, 439
- Bayes' formula, 87
- Bayesian statistics, 360
- Bayesian intervals, 440
- Berger, R. L., 349
- Bernoulli trials, 257, 485
- Bertrand paradox, 28
- Binomial:
  - coefficients, 55, 56
  - thinning, 185
  
- Birthday problem, 51
- Blackwell, D., 43
- Boes, D. C., 393
- Bootstrap:
  - $t$  CI, 451
  - percentile interval, 451
  - tests, 512
- Borel-Cantelli lemma:
  - first, 39
  - second, 97, 332
- Borel-Kolmogorov paradox, 192
- Box-Mueller transformation, 329
- Box-plot, 355
- Bray, T. A., 329
- Brownian motion, 21
  
- Casella, G., 349
- Categorical data, 371
- Cdf, 6, 128, 165
  - bivariate, 165
  - empirical, 560
- Censoring, 179, 363
- Central limit theorem, 342, 346
  - Laplace, 343
  - Liapunov, 347
  - Lindeberg and Feller, 348, 572
  - Lindeberg and Lévy, 342, 400
- Chain rule, 76
- Characteristic function, 235

- Chebyshev inequality, 253, 338  
 Chi-square test, 598, 590  
     of homogeneity, 597  
     of independence, 594  
 Chow, Y. S., 19, 71  
 Chung, K. L., 19, 27, 562  
 Closure of a class of events, 18, 236  
 Color blindness gene, 74, 82  
 Combinations, 55  
 Combinatorics, 39  
 Commutativity law for events, 13  
 Completeness, 436  
 Concordant pair, 613  
 Conditional:  
     density, 181  
     distribution, 180  
     expectation, 248  
     independence, 99  
     probability, 73  
 Confidence:  
     bound, 441  
     interval, 440, 441  
 Conjugate prior, 409  
 Consistency of estimators, 378  
     of tests, 599  
 Contamination, 420  
 Contingency table, 593, 613  
 Continuity correction, 345  
 Convergence:  
     a.e. (almost everywhere), 332  
     a.s. (almost sure), 332  
     in distribution, 334  
     in probability, 331, 332  
     stochastic, 331  
     with probability one, 332  
 Correlation coefficient, 243, 244  
 Countable additivity, 26  
 Covariance, 239  
 Cramér, H., 590  
 Critical region, 461, 549  
 D'Alembert, 99  
 Davidson, D., 43  
 Decision rule, 460  
 Decomposition, 601  
 De Groot, M., 450  
 Delta method, 348  
 Density,  
     bivariate, 162  
     conditional, 181  
     joint, 162, 320  
     marginal, 169, 197  
     posterior, 407  
     prior, 407  
 De Morgan's laws, 13  
 Descriptive statistics, 353  
 Design of experiment, 359  
 Devore, J. L., 602  
 Discordant pair, 613  
 Distribution, 127  
     beta, 305-307  
     binomial, 139, 254, 258, 274  
     bivariate, 161  
     Cauchy, 211  
     chi-square, 156, 293  
     conditional, 180  
     conjugate prior, 409  
     continuous, 143  
     discrete, 139  
     Erlang, 285  
     exponential, 146  
     Frank, 330  
     lognormal, 300  
         memoryless property of, 290  
     *F*, 317  
     folded normal, 156, 300
