Introduction

xv

Chapter 1	Configuring Dreamweaver for ASP.NET	1
	Defining a Site	3
	Using the Site Definition Wizard	3
	Using the Advanced Tab to Define a Site	6
	Setting Up the IIS Environment for Development	11
	Installing IIS	12
	Configuring IIS	13
	Configuring Dreamweaver MX for Use in Versioning Software	14
	Checking In and Checking Out	14
	Configuring for Concurrent Versions System (CVS)	16
	Configuring for Perforce	16
	Configuring for Visual SourceSafe	18
	The Art of Managing the Web.config File	19
	Web.config Elements and Attributes	22
	Deploying the Dreamweaver Control	35
	Wrapping Up	36
Chapter 2	SQL and Dreamweaver Web Applications	37
	Learning About SQL	38
	The Fastest Primer Ever on Relational Databases	39
	Tables: The Building Blocks of Databases	40
	Creating Relationships with Keys	40
	Creating Tables	46
	Determining Datatypes	47
	Creating a Table Using a GUI	50
	Creating a Table Using SQL	55
	A Crash Course in Data Manipulation	57
	The SELECT Statement	57

	The INSERT Statement	63
	The UPDATE Statement	66
	The DELETE Statement	66
	Stored Procedures	67
	Wrapping Up	68
Chapter 3	Working with Databases: An Introduction	69
	How to Build Connection Strings	70
	Another Way to Make a Connection String	74
	Creating a New Data Source	76
	Creating DataSets	80
	Checking for Primary and Foreign Keys	80
	Building the DataSet	81
	Understanding Form Variables and the Process of Passing Them	87
	Building Dynamic Tables	97
	Introducing Templates	99
	Working with Repeating Regions	101
	Using DataLists	106
	Using DataGrids	112
	Customizing a DataGrid	114
	Accessing Data in Stored Procedures	120
	Wrapping Up	125
Chapter 4	Working with the Dreamweaver Custom Control	127
	Using .NET Controls	128
	HTML Controls	130
	Web Controls	131
	Custom Controls	132
	Introducing .NET Custom Tags	132
	Working with Dreamweaver Custom Tags	135
	The Dreamweaver Control	135
	The MM:DataSet Element	137
	The MM:Insert Tag	162
	The MM:Update Element	170
	The MM>Delete Element	172
	The MM:PageBind Element	179

	The MM:If Element	181
	Deploying DreamweaverCtrls.dll	184
	Wrapping Up	185
Chapter 5	Using Web Server Controls	187
	The Vast World of Web Server Controls	188
	Inserting Web Server Controls Using Dreamweaver	190
	Getting Information about Controls	194
	Text and Layout Controls	194
	Using the Panel Control	194
	Using the Label Control	195
	Using The Placeholder Control to Store Dynamically Created Controls	198
	Using TextBox Controls	200
	Using the Literal Control	203
	Button and Hyperlink Controls	205
	Using Button Controls	206
	Using HyperLink Controls	216
	Check Boxes and Radio Controls	221
	Using CheckBox Controls	221
	Using RadioButton Controls	225
	ListBox Controls	227
	Using the ListItem Control	228
	Using CheckBoxList and RadioList Controls to Group Controls	229
	Using ListBox and DropDownList Controls	234
	Table Controls	235
	Working with the Table Control	235
	Managing Row Sets	237
	Creating a Calendar Control in Dreamweaver	240
	Wrapping Up	244
Chapter 6	Working with .NET Validation Controls	245
	Understanding Validation Controls	246
	Comparing Values Using a CompareValidator Control	247
	Creating a CompareValidator Control in Dreamweaver	253
	CompareValidator Control Syntax	256

The RequiredFieldValidator Control	262	
Creating a RequiredFieldValidator Control	262	
The RangeValidator Control	265	
Creating a RangeValidator Control	265	
Using RangeValidator Datatypes	266	
The RegularExpressionValidator Control	268	
Creating a RegularExpressionValidator Control	270	
The ValidationSummary Control	273	
Creating a ValidationSummary Control	273	
Wrapping Up	276	
Chapter 7	Getting Your Hands Dirty: Hand-Coding with Dreamweaver MX	277
The Dreamweaver IDE	278	
Working with Script	279	
The Fastest Primer Ever on C#	280	
Storing Data in C#	280	
Working with Control Structures	299	
Using Code-Behind with Dreamweaver MX and .NET	310	
Accessing a Code-Behind Page	312	
Event Handling	313	
Building and Using Custom Controls	315	
Using the .NET Compiler	316	
Wrapping Up	319	
Chapter 8	Web Services and Dreamweaver MX	321
What Are Web Services?	322	
Consuming a Web Service	323	
Finding a Web Service	324	
Steps Toward Analyzing WSDL Files	326	
Building an ASP.NET File for Consuming a Web Service	333	
Creating a Web Service	338	
First Step: Building a Stored Procedure	338	
Building the Web Service Function	339	
Testing the Web Service	344	
Generating a Proxy	349	

	Compiling the Web Service Using a Batch File	351
	Consuming the Notes Service	352
	Wrapping Up	352
Chapter 9	Putting It All Together: The Realtor Application	353
	An Overview of the Realtor Application	354
	Developing the Administrative Area	354
	First Things First: Building the Login Page	355
	Building the Administrative Area	361
	Developing the Public Access Area	370
	Building the Public Entry Page	370
	Building the Registration and Login Area	373
	Exploring the Realtor Site	373
	Wrapping Up	374
Appendix A	Errors Using Dreamweaver MX and ASP.NET	377
	Configuration Issues with Dreamweaver and .NET	378
	Unsuccessful URL Test or FTP Connection	378
	Dreamweaver’s Nefarious “Waiting For Server” Message	379
	Human-Readable ASPX Files Appear in the Browser or No Documents Are Served	380
	403 Forbidden: Execute Access Forbidden	380
	DreamweaverCtrls Not Found	380
	Unable to find script library	381
	Troubleshooting Runtime Errors	381
	Browser Tries to Download an ASP.NET File	381
	You’re Unable to Create a Web Application on a LAN That Uses a Proxy Server	382
	System.IndexOutOfRangeException	382
	SQL Errors Show Up on Return Pages	382
	Page.IsValid cannot be called before validation has taken place	383
	Empty Values for Dreamweaver Elements	383
	‘System.Data.DataRowView’ does not contain a property with the name undefined	384
	Identifier expected, ‘checked’ is a keyword	384

Array Initializer Error	384
The type or namespace name 'xxxx' could not be found	385
'TextBox' cannot have children of type 'DataBoundLiteralControl'	385
allowDefinition='MachineToApplication' Error	386
Dreamweaver Sets Quotes Improperly on the Hyperlink Control	386
not all code paths return a value	387
Macromedia's Error Website	387
<i>Index</i>	389
