| Acknowledgments. | xv |
| Introduction | xvii |

Part I: Navigating the Amazing Knoppix Toolkit 1

Chapter 1: Unraveling the Knoppix Toolkit Maze 3

| | |
|--|----|
| Beautifying Knoppix | 3 |
| Replacing System Fonts | 4 |
| Changing Application Fonts | 9 |
| Setting Up Printers | 11 |
| Enjoying Multimedia | 14 |
| Listening to Sound | 14 |
| Viewing Images | 19 |
| Watching Video | 25 |
| Burning CDs with K3b | 25 |
| Setting Burn Speed | 28 |
| Burning in Sessions | 29 |
| Keeping Yourself Informed | 30 |
| Understanding Filesystems | 30 |
| Fine-Tuning CD-R/W Filesystems. | 32 |
| Ready, Set, Burn. | 34 |
| Using Text Editors | 34 |
| Editing Configuration Files on the Command Line with vim | 34 |
| Editing Configuration Files Using the GUI Editor Kate | 36 |
| Working with Office Software. | 37 |
| Enjoying Interoperability with OpenOffice.org | 37 |
| Desktop Publishing with Scribus | 39 |
| Viewing PDFs with Adobe Acrobat Reader | 40 |
| Comparing Two or More Files with Kompare | 42 |
| Summary. | 43 |

Chapter 2: Maximizing Knoppix Internet Tools 45

| | |
|-------------------------------------|----|
| Accessing the Internet | 45 |
| Connecting via Your Modem | 45 |
| Getting Broadband Working | 47 |
| Cruising Wirelessly | 48 |
| Setting a Static Address. | 51 |

| | |
|--|-----------|
| Working on the Internet | 52 |
| Sharing Files with BitTorrent | 53 |
| Browsing the Web with Mozilla Firefox | 55 |
| Reading and Sending Email with KMail | 58 |
| Instant Messaging with Buddies Using Gaim | 64 |
| Summary | 66 |
| Chapter 3: Connecting to Other Machines and Resources | 67 |
| Understanding Remote Control | 67 |
| Controlling Another Computer with Remote Desktop Connection | 67 |
| Exploring FreeNX | 69 |
| Setting Up FreeNX | 70 |
| Understanding FTP | 71 |
| Exploring SSH and Its Descendants | 73 |
| Ensuring SSH Is On for Secure Connections | 73 |
| Using SSH | 73 |
| Using SFTP | 74 |
| Using SCP | 75 |
| Sharing Files and Printers | 76 |
| Starting and Configuring Samba | 76 |
| Accessing Files and Printers with Samba | 78 |
| Sharing and Accessing Files with NFS | 85 |
| Serving Up Web Pages with Apache | 87 |
| Summary | 88 |

Part II: Rescuing and Recovering Systems Using Knoppix 89

| | |
|---|-----------|
| Chapter 4: Fixing Linux with Knoppix | 91 |
| Ensuring That a Machine Will Run Linux | 91 |
| Repairing Boot Issues | 92 |
| Restoring a Missing MBR | 92 |
| Fixing LILO | 93 |
| Fixing GRUB | 94 |
| Working with Key System Files | 94 |
| Resetting Forgotten Root Passwords | 94 |
| Fixing X | 95 |
| Performing a Filesystem Check | 96 |
| Working with Linux Partitions | 98 |
| Partitioning with QTParted | 98 |
| Backing Up Partitions | 100 |
| Restoring Lost Partitions | 102 |
| Summary | 103 |

| | |
|--|------------|
| Chapter 5: Fixing Windows with Knoppix | 105 |
| Resizing Windows Partitions. | 105 |
| Preparing to Partition | 106 |
| QTParted Partitioning. | 106 |
| Taking Charge When Key System Files Have Problems | 111 |
| Accessing boot.ini to Resolve Start Issues. | 111 |
| Editing the System Registry When It Goes Bump in the Night | 114 |
| Recovering Data | 115 |
| Preparing for Data Recovery. | 116 |
| Saving Data to a USB Jump Drive | 116 |
| Burning Data to a CD or DVD. | 117 |
| Emailing Data to Yourself. | 119 |
| Copying Data over the Network. | 120 |
| Summary | 120 |
| Chapter 6: Assessing Security with Knoppix. | 121 |
| Encrypting Data with GnuPG | 121 |
| Generating GnuPG Keys | 122 |
| Importing GnuPG Keys. | 123 |
| Using GnuPG Keys | 124 |
| Testing for Vulnerabilities | 128 |
| Verifying the Absence of Rootkits with Chkrootkit. | 128 |
| Scanning for Open Ports with Nmap | 130 |
| Checking for Dangerous Weaknesses with Nessus | 134 |
| Sniffing Packets on a Network | 140 |
| Analyzing Network Traffic with Ethereal. | 141 |
| Performing Forensics with the Coroner's Toolkit | 147 |
| Using Grave-robber | 148 |
| Running Mactime | 150 |
| Looking at Unrm and Lazarus | 151 |
| Wiping a Hard Drive. | 153 |
| Employing dd | 154 |
| Employing Wipe | 155 |
| Summary | 156 |

Part III: Knoppix Variants

157

| | |
|---|------------|
| Chapter 7: Clustering with Knoppix | 159 |
| Understanding Basic Clustering Concepts. | 160 |
| Understanding ParallelKnoppix | 161 |
| Setting Up ParallelKnoppix | 161 |
| Exploring ParallelKnoppix Demo Applications. | 162 |
| Getting Data into a ParallelKnoppix Cluster | 164 |
| Creating a Semi-Permanent Cluster for Using ParallelKnoppix | 165 |

- Understanding ClusterKnoppix 167
 - Setting Up ClusterKnoppix 167
 - Exploring ClusterKnoppix Applications 169
- A Glance at Other Science-Oriented Knoppix Variants 172
 - BioKnoppix 173
 - DistCCKnoppix 173
 - Morphix-NLP 173
 - PaiPix 173
 - Quantian 174
- Summary 174

Chapter 8: Checking Out Security Distros 175

- Inspecting Auditor 175
 - Scanning Your Web Servers with Nikto 177
 - Detecting and Sniffing Wireless Networks with Kismet 182
- Exploring Helix 185
 - Imaging a Hard Drive with GRAB 186
 - Finding All the Images on a Drive with Retriever 186
 - Working on a Live Windows Machine 188
- Using INSERT 196
 - Scanning for Viruses with ClamAV 197
 - Reading and Writing NTFS Partitions 199
 - Changing a Windows Administrator Password 200
 - Testing Your System's RAM 200
 - Tracing That Route 201
- Summary 202

Part IV: Customizing Knoppix and Live CDs 203

Chapter 9: Changing Knoppix to Fit Your Needs 205

- Using apt-get and KPackage to Install New Software 205
- Changing Knoppix Without Remastering 207
 - Using the saveconfig Script 208
 - Using the knoppix-mkimage Script 209
- Summary 211

Chapter 10: Remastering Knoppix 213

- Preparing Knoppix 214
 - Mounting the KNOPPIX/KNOPPIX File 214
 - Using the cloop Command-Line Utilities 215
- Installing and Removing Software 216
 - Using apt-get 216
 - Other Customizations 217

| | |
|---|------------|
| Booting with a Different Kernel | 219 |
| Installing a Pre-Made Kernel from the Debian Archive | 220 |
| Using make-kpkg to Create Your Own Kernel Package | 221 |
| Adding the cloop Linux Kernel Module | 222 |
| Updating the Initial RAM Disk | 223 |
| Copying the Kernel | 225 |
| Mastering the CD | 226 |
| Testing! | 226 |
| Summary | 226 |
| Chapter 11: Creating Archix, Knoppix for Kids | 227 |
| Preparing Knoppix | 228 |
| Creating a New Distro | 229 |
| Preparing Your Environment | 229 |
| Removing Software You Don't Need | 230 |
| Installing the Software You Want | 235 |
| Customizing the Look of Your Distro | 238 |
| Getting a Desktop Background | 238 |
| Changing the Boot Screen | 239 |
| Mastering the CD | 241 |
| Testing Archix | 242 |
| Summary | 242 |
| Chapter 12: Creating Myppix, Your Personal Knoppix | 243 |
| Before You Begin | 243 |
| Configuring Your World | 244 |
| Saving Those Changes | 245 |
| Preparing Knoppix | 247 |
| Creating Your New Distro | 247 |
| Customizing the Look of the Distro | 251 |
| The Big Secret | 252 |
| Mastering the CD | 252 |
| Testing Myppix | 253 |
| Summary | 253 |
| Appendix A: Booting Knoppix | 255 |
| Appendix B: Installing Knoppix to Your Hard Drive | 269 |
| Index | 281 |
