

INDEX

- Access/quality approach,
communication management,
139–141
- Accountability, in online classes,
11–12
- Accuracy, peer and self-assessment,
57–58
- Achievement-oriented culture,
169–170
- Adaptive structuration theory,
communication management,
140–141
- Advocacy, leadership skills
and, 33
- Affective commitment:
as cultural trait, 168–169
perceived organizational support,
26–27
- Altruism, organizational citizenship
behavior and, 28
- Ambassadorial Leadership, 24–25
research on, 35–39
support for, 33–34
- Anonymity, peer and
self-assessment, 58
- APA standards, plagiarism and,
177–178
- Ascription-oriented culture,
169–170
- Assessment tools, virtual
team-building and, 117
- Assignments for online classes:
case studies in, 96–99
collaborative tools for, 132–133
feedback for, 108
multiple team projects, 107
project design guidelines, 94–99
small team creation, 101–103
student reactions to, 68–70
virtual engineering
team-building, 248–249
- Asynchronous communication:
e-mail systems, 142–144
virtual engineering
team-building, 249–250
- Audio-conferencing, virtual
team-building, 148–150
- Authority, shared leadership and
delegation of, 31–32
- Backfilling operations, notice of
violation reduction, 224–230
- Bandwidth capabilities, virtual
team-building and, 116

- Behavioral traits:
 conflict management and, 68–72
 external boundary spanning,
 29–31
 internal boundary spanning, 29
 organizational citizenship
 behavior, 27–29
 research on, 33–34
 small team assignments and,
 103–106
 team member behavior, 25
- Bezoz, Jeff, 93
- Bias, peer and self-assessment,
 52–54, 57–58
- Bibliographies, applications for
 preparing, 131
- Blogs, as collaborative tool,
 125–126
- Bottleneck location, gas mapping
 process improvement,
 corporate virtual teaming,
 235–237
- Boundary spanning:
 advocacy and, 33
 instructor's role in, 72–77
 leadership behaviors, 29–31
- “Breathless in” behavioral trait:
 case study of, 80–81
 conflict management and, 70–72
- Browser requirements, virtual
 team-building and, 117
- Call analysis process mapping, help
 desk call volume reduction case
 study, 213–219
- Capabilities analysis, collaborative
 tools selection, 116–118
- Case studies, use of,
 virtual team-building
 instruction, 4–5
- Cause and effect diagram, help desk
 call volume reduction case
 study, 215–219
- Chat tools:
 collaborative learning and,
 124–125
 group dynamics and, 103–106
 virtual engineering
 team-building, 248
- Cheerleading, conflict management
 and, 73–77
- Choice theories, communication
 technology, 137–141
- Civic virtue, organizational
 citizenship behavior and, 28
- Class size:
 assignment guidelines and, 94–99
 benefits of small teams, 106–108
 management of, 99–101
 peer and self-assessment and, 57
 team creation and, 101–103
- Coattail effect, in virtual team-
 building, 11–12
- Cohesion building:
 advocacy and, 33
 leadership skills and, 19–20
 recognition and, 32
 social networking and, 22–24
- Collaborative learning:
 assignment guidelines, 132–133
 bibliographies, 131
 blogs, 125–126
 budget and schedule, 122–123
 capabilities assessment, 116–118
 chat and meeting tools, 124–125
 communication skills, 119–120
 corporate virtual teaming, 237–240
 feedback, 128
 goal setting and, 118–119
 information broadcasting,
 125–127
 information gathering, 127–128
 information sharing, 127
 instructor's role in, 72–77
 learning management systems,
 130–131
 many-to-many interactions, 133
 needs analysis, 113–114
 one-to-one interactions, 133–134
 online tools for, 113–134
 peer and self-assessment, 46–47
 podcasts, 127

- problem solving, 115
- project management and scheduling, 128
- RSS feeds and other “push” technologies, 130
- selection criteria and tasks, 120–121
- social networking, 131
- software suites, 123–124
- status reports and team notes, 133
- surveys, 128
- SWOT analysis, 115–116, 119
- task lists, 131–132
- team input, 134
- technology training, 132
- time tracking, 128
- tool categories, 123
- webinars and presentations, 126
- wikis, 129–130
- Collaborative team-work, increased reliance on, 5–6
- Collectivist cultures, 165–166
- Commerce, global corporate virtual teams, 198–200
- Commitment, perceived organizational support and, 26–27
- Communication management:
 - conflict management in, 67
 - corporate virtual teaming, 228–230, 238–240
 - cross-cultural communication, 203–205
 - discussion forums, 145–146
 - e-mail technology, 142–144
 - external boundary spanning, 29–31
 - for global corporate virtual teams, 193–197, 203–207
 - for online students, 11
 - guidelines and recommendations, 150–156
 - high-context *vs.* low-context cultures, 165–167
 - instant messaging, 146–148
 - multicultural differences, 184–185
 - technological research and selection criteria, 150–156
 - telephone, mobile phone, texting, 144–145
 - theories and terminology, 137–141
 - tools for, 119–120, 137–156
 - videoconferencing and audio-conferencing, 148–150
 - virtual engineering teams, 241–242, 245–248
 - virtual team-building and, 39
 - webcasting, 150
- Community building, in multicultural classes, 181–182
- Competition, encouragement in online classes of, 12–13
- Conference calls, virtual team-building and, 117
- Conflict management, 65–89
 - case studies, 80–89
 - checklist for, 85–89
 - instructor’s role in, 72–80
 - in student teams, 71–72
 - interventions, 79–80
 - role players in, 70–71
 - sources of conflict and, 68
 - student reactions to team assignments, 68–70
- Conscientiousness, organizational citizenship behavior and, 28
- Consolidated Edison Company case study, corporate virtual teaming, 211–240
- Construction projects, dewatering challenges, corporate virtual teaming, 231–234
- Continuance commitment, perceived organizational support, 26–27
- Cooperative technologies, virtual engineering team-building, 250–253
- Copyright compliance, virtual team-building and, 117

- Corporate virtual teaming, 211–240
dewatering challenges in
 construction projects, 231–234
 gas mapping process
 improvement, 234–237
 help desk call volume reduction,
 213–219
 recruitment process, 219–221
 tips for success in, 237–240
 violation notice reduction,
 221–230
- Cost-benefit analysis, online
 learning, 122–123
- Courtesy, organizational citizenship
 behavior and, 28
- Cross-functional team selection,
 corporate virtual teaming,
 237–238
- Cultural factors:
 global corporate virtual teams,
 201–207
 global virtual team-building and,
 164–191
 in student responses, 178–179
 leadership skills and, 20
 multicultural virtual teams,
 174–175
 U.S. and Taiwan students case
 study, 171–172
 virtual team-building and, 39
- Cultural intelligence, multicultural
 differences and, 187
- Decision-making, conferencing
 technology and, 149–150
- Define-measure-analyze-improve-
 control (DMAIC) process,
 corporate virtual teaming,
 212–213
- Discussion forums, virtual
 team-building and, 145–146
- Disk space, virtual team-building
 and, 117
- Diversity:
 global corporate virtual teams,
 201–202
 virtual team-building and, 39
- Division of work, corporate virtual
 teaming, 238–240
- “Elevator pitch,” in online classes, 8
- E-mail systems:
 cross-cultural communication
 with, 206
 virtual engineering team-
 building, 250–253
 virtual team-building and,
 142–144
- Emerson, Ralph Waldo, 14
- Engineering teams, virtual
 team-building, 241–253
 assignments and grades, 248–249
 communication management,
 245–248
 cooperative technologies, 250–253
 Hong Kong Netherlands (HKNet)
 project, 243
 online classes, 243–245
 technology portfolio, 249–250
- Equipment capabilities, virtual
 team-building and, 117
- Ethical values, multicultural virtual
 teams and, 176–177
- Ethnocentric traits:
 assessment checklist, 189–191
 multicultural differences and, 187
- “Excuse-meister” behavioral trait,
 conflict management and, 70–72
- Expectations, guidelines for setting:
 in multicultural classes, 182
 virtual-team building and, 7–8
- External boundary spanning,
 leadership behavior, 29–31
- Face-to-face interaction:
 cross-cultural communication
 and, 207
 global corporate virtual teams,
 193–195
 leadership skills and, 21–22
- Facilitation, instructor’s role in,
 72–77
- Failure, as learning opportunity,
 14–15

- Feedback:
 as collaborative tool, 128
 external boundary spanning,
 29–31
 for team projects, 108
 multicultural differences and,
 185–187
- Fishbone diagram, recruitment
 process, corporate virtual
 teaming, 220–221
- Flowchart applications, gas
 mapping process
 improvement, corporate virtual
 teaming,
 235–237
- Follett, Mary Parker, 31–32
- Foreign students, virtual team-
 building and, 171, 173
- Formative assessment, peer and self-
 assessment as, 58–59
- Gas mapping process improvement,
 corporate virtual teaming, 234–
 237
- Global commerce, global corporate
 virtual teams, 198–200
- Global Leadership Centre, 193
- Global virtual team-building, 161–191
 achievement *vs.* ascription, 169–170
 affective *vs.* neutral cultures,
 168–169
 corporate virtual teams, 193–207
 high-context *vs.* low-context
 cultural dimensions, 165–167
 individualism *vs.* collectivism, 165
 monochronic *vs.* polychronic
 time, 167–168
- Grading guidelines:
 clarity in, 107–108
 project design and, 94–99
 team behavior and, 73–74, 84–85
 virtual engineering team-
 building, 248–249
- Grounded theory analysis, peer and
 self-assessment and, 53–54
- Group dynamics:
 small team interaction, 103–106
 social networking and, 22–24
 virtual team size, 93–94
- GroupSystems software, virtual
 engineering team-building,
 250–253
- Help desk call volume reduction
 case study, corporate virtual
 teaming, 213–219
- High-context cultures, 165–167, 170
- Hong Kong Netherlands (HKNet)
 project, virtual engineering
 team-building, 243–253
- House of Quality diagram, notice of
 violation reduction, 224–230
- Individual differences, peer and
 self-assessment, 55
- Individualistic cultures, 165
- Informational gathering, external
 boundary spanning, 30–31
- Information broadcasting,
 collaborative learning and,
 125–127
- Information gathering, 127–128
- Information sharing, 127
 corporate virtual teaming, 228–
 230
- Infrastructure, leadership skills
 and, 21
- Instant messaging:
 virtual engineering team-
 building, 250–253
 virtual team-building, 146–148
- Institutional governance, virtual
 team-building and, 117
- Instructor's role in online learning:
 clarity in instructions and grading,
 107–108
 conflict management role of, 72–77
 interventions in conflict, 79–80
 MAB and MWB teams, 179–187
 multiculturalism and, 180
 overinvolvement in student
 response, 13
 team formation and, 77–78
 teaming management, 78–79

- Interactive voice response (IVR),
 help desk call volume reduction
 case study, 215–219
- Interdependence, leadership skills
 and, 19–20
- “Interference” projects, corporate
 virtual teaming, 231–234
- Internal boundary spanning,
 leadership behaviors, 29
- Internal workflow chart, notice of
 violation reduction, 222–230
- Internet access:
 global corporate virtual teams,
 196–197
 virtual engineering team-
 building, 248
 virtual team-building and, 117
- Interventions:
 case studies of, 80–84
 in conflict management, 79–80
- Intranet access, virtual team-
 building and, 117
- Isolation, leadership skills and, 21
- Knowledge management systems,
 virtual team-building and, 117
- Language issues:
 cross-cultural communication, 205
 global corporate virtual teams,
 202–205
 multicultural differences and,
 184–185
 multicultural virtual teams,
 175–176
- Leadership skills, 17–39
 advocacy, 33
 Ambassadorial Leadership, 24–25
 challenges and opportunities in,
 34–38
 external boundary spanning,
 29–31
 internal boundary spanning, 29
 organizational citizenship
 behavior, 27–29
 organizational support, 26–27
 recognition, 32
 research on, 33–34
 shared leadership, 31–32
 social networking, 22–24
 team member behavior, 25–29
 virtual distance and, 20–22
 virtual team-building and, 9–10, 39
- Learning context, peer and self-
 assessment, 54–55
- Learning contracts, for online
 classes, 74–77
- Learning management systems
 (LMS):
 blogs and, 125–126
 collaborative learning and,
 130–131
 selection criteria, 120–121
 virtual team-building using,
 116–118
- Learning team charter, 74–77
- Learning Team Handbook*, 93–94
- Low-context cultures, 165–167, 170
- Macro-environmental forces:
 corporate virtual teaming, 225–230
 global virtual team-building and,
 162–164, 170
- Majority-rules policies, conflict
 management and, 81–82
- Management guidelines, corporate
 virtual teaming, 237–240
- Many-to-many communication, 120
 technical training for, 133
- Many-to-one communication, 120
- Marketing, virtual team-building
 for, 5–6
- “Martyr” behavioral trait, conflict
 management and, 70–72
- Media richness theory,
 communication management,
 139–141
- Meeting software suites:
 collaborative learning and, 125
 webinars and presentations, 126
- Mobile phone systems, virtual team-
 building and, 144–145

- Mueller, Jennifer S., 101
- Multicultural across borders (MAB) teams, 179–187
- Multicultural differences:
- achievement *vs.* ascription, 169–170
 - class component checklist, 180–181
 - communications challenges, 184–185
 - community creation checklist for, 181–182
 - feedback checklist, 185–187
 - global corporate virtual teams, 193–207
 - global virtual team-building and, 161–191
 - goals and expectations with, 182
 - high-context *vs.* low-context cultural dimensions, 165–167
 - individualism *vs.* collectivism, 165
 - in online classes, 171, 179–187
 - instructor's role in, 180
 - monochronic *vs.* polychronic time, 167–168
 - resources for, 187
 - socialization and orientation checklist, 182–183
 - U.S. and Taiwan students case study, 171–172
- Multicultural virtual teams (MVTs):
- case study of, 177–178
 - challenges of, 175
 - characteristics of, 173–179
 - ethical values and, 176–177
 - expectations, perception, and attitudes, 178–179
 - global classroom and, 174–175
 - language challenges, 175–176
 - time management, 176
- Multicultural within borders (MWB) teams, 179–187
- Multitasking, leadership skills and, 22
- “Mussolini” leadership style, containment of, 9–10
- Needs analysis, collaborative tools selection, 113–114
- Neutral cultures, 168–169
- Normative commitment, perceived organizational support, 26–27
- Notice of violation (NOV) reduction, corporate virtual teaming, 221–230
- One-to-many communication option, 120
- One-to-one communication, 120
- technical training for, 133–134
- Online assessment system (OAS), for peer and self-assessment, 49–52
- Online classes:
- accountability in, 11–12
 - collaborative tools for, 113–134
 - communication skills for, 11
 - competition in, 12–13
 - conflict management in, 65–89
 - enrollment statistics, 91–93
 - global corporate virtual teams, 193–197
 - global virtual team-building and, 161–191, 171
 - instructor's role in, 72–77
 - multicultural components checklist, 180–181
 - multicultural virtual teams and, 173–179
 - peer and self-assessment in, 52–54, 56
 - real-time presentations, 14
 - risk-taking in, 13
 - small class size, 91–108
 - structuring guidelines, virtual team-building, 4–5
 - student and marketing myths concerning, 5–6
 - student reactions to team assignments, 68–71
 - student response to, 7–14
 - virtual engineering team-building, 243–245

- Organizational citizenship behavior (OCB), leadership and, 25, 27–29
- Organizational infrastructure. *See also* Organizational citizenship behavior; Perceived organizational support leadership skills and, 21
- Orientation techniques, in multicultural classes, 182–183
- Pareto chart, help desk call volume reduction case study, 215–219
- Participation, encouragement in online courses of, 10–11
- Peer relationships: accuracy and bias, 57–58 anonymity, 58 collaborative learning, 46–47 formative assessment, 58–59 group size and, 57 impact on teams, 56–57 individual differences, 55 learning context, 54–55 online assessment scale, 49–52 online learning community, 56 self-assessment and, 47–48 student perception, 52–54 teamwork assessment scale, 48–49
- Perceived organizational support (POS), team member behavior, 25–27
- Personality traits, small team assignments and, 105–106
- Plagiarism: case study of, 82–84 instructor's role in reducing, 74 multicultural issues with, 177–178 virtual team-building and violations of, 117
- Planning and analysis guidelines: collaborative tools for setting, 113–120 corporate virtual teaming, 231–234 virtual engineering team-building, 247–248
