Foreword	vii
Preface	ix
Acknowledgments	xiii
About the Authors	xv
Part I: Using Panther	1
Chapter 1: Why Having Chosen Mac OS X Was by No Means a Dopey Idea	3
If Mac OS 9 Were Really Your Friend, It Wouldn't Crash on You So Often	4
Panther Is Non-Crashy and Faster	5
Panther Is Non-Crashy <i>and</i> Faster <i>and</i> Easier to Use	6
In Most States, Your Spouse Legally Owns Half of That \$2,000 Mac	6
<i>The Lord of the Rings</i> Soundtrack Isn't Coming Out on 8-Track	7
You Can Still Run Your Old Apps	7
Panther's Got a Creamy Nougat Center of Thick, Rich Unix	7
Because I <i>Said</i> So, Young Man/Missy!	8
Chapter 2: Installing, Saying Hello, Saying Goodbye	9
Rehab versus Scorched Earth: Updating	10
The Questions You Should Ask Yourself Before Installing	10
Should you perform a Clean Install?	11
Should you perform an Easy or Custom Install?	12
Human factors to consider when installing	12
Part I: Installing Basic Files	13
Part II: Configuring a New Installation	16
Installing Applications	20
Getting Software Updates	20

Contents

Chunnngggg! Welcome to Macintosh: Startup and Login	22
Startup Keys	24
Specifying Startup Items	24
Shutdown and Restart	25
Performing a clean shutdown	26
Quitting manually	26
Sleep and Energy Saver	26
Setting Automatic Inactivity	26
Setting Scheduled startups and shutdowns	27
Chapter 3: Getting to First Base with the Mac User Interface	29
The Desktop: What Lies Beneath	30
Menus: Drop (down) Squad	33
Submenus	34
Keyboard shortcuts for menu options	34
Apple's Standard Menus	35
The Apple Menu	35
Application menu	36
The File menu	38
The Edit menu	38
The Help and Window menus	39
Menulets	39
Pointing Devices: Mouse Hunt	41
Clicking and double-clicking	41
Changing the double-click and tracking speed of your mouse	42
Contextual menus	43
Selecting more than one item	43
Dragging	44
Mouse pointer shapes	44
Windows: View from the Top	45
Fanfare for the Common Window	45
Window controls	46
Scroll bars and scrolling	47
Window toolbars	48
Windows with panes	48
Exposé: Sliding Doors	49

 Contents

Keyboard Controls: Key Largo	51
Special keys	51
Assigning Function keys	52
Choosing alternative keyboard layouts	54
Viewing a character set	55
Monitors: Through a Glass, Darkly	56
Setting display resolution	56
Configuring multiple monitors	57
Help!	57
Chapter 4: Leopard-Skin Pillbox Mac: Making Your Mac Your Own	59
Custom Desktops	59
Replacing the default Desktop image	60
Multiple Desktop images	62
Custom Colors	62
Custom Sounds	64
Customizing your sound	64
Using your own sounds	65
Custom Screen Savers	66
Changing the screen saver	66
Using hot corners	67
Working with Fonts: The Font Book	68
Disabling fonts	68
Adding new fonts	70
Creating font collections	70
Universal Access Options	71
Zooming in on the screen	71
Contrast and color	72
Flashing alerts	72
Pressing only one key at a time	72
Using the keyboard instead of a mouse	73
Chapter 5: I Don't Know Why They Call It the Finder, Either	75
What's on the Desktop	76
Finder Window Views	76
Icon view	76
List view	79
Column view	80

Contents

Using the Toolbar	81
Using the Sidebar	83
Filenames: More Interesting Than Supposed	84
Finding Things	85
Find a folder	85
Searching by a file's contents	86
Creating Folders	87
Trashing Things	87
Moving Things Around	89
Custom Labels	90
Getting Information	91
Chapter 6: The Dock, and Why It Doesn't Stink Even a Little	95
Meet the Dock	96
Dock Scripting via Python/Perl	96
No, Seriously, Meet the Dock	96
Dock Basics	97
What Dock Icons Do	97
Adding To and Deleting From the Dock	98
Bouncing Icons	98
Contextual Menus	99
But What If the Dock Still Stinks?	101
Positioning the Dock	101
Showing and hiding the Dock	102
Size and magnification	102
Animating Windows	103
One Final Word...	104
Chapter 7: Just Deal with It: Apps	105
Installing Applications	105
Downloading Applications	110
Switching Between Applications	112
Performance Slowdowns	112
What <i>Is</i> That Application Doing?	113
Taking Care of Comatose Applications	117
Does the Mac Do Windows?	118

Contents

Chapter 8: Coping with Files and Folders	119
Creating, Opening, and Saving Files	119
The standard Open/Save dialog	120
Opening files from the Finder	121
Hiding Behind an Alias	122
File Permissions	123
More Fun with Get Info: Locking Files and Making Stationery	124
Platform-Independent File Formats	124
What a friend we have in Microsoft Office	125
What a friend we have in TextEdit	125
What a friend we have in PDF	125
Graphics file formats	126
File Format Translation	127
Chapter 9: Using Hard Drives, CDs, DVDs, and Other Silos of Data	129
And Volumes Are...?	130
The Boot Volume	130
Mounting and Unmounting Volumes	131
Mounting volumes	132
Unmounting volumes	132
External Drives: USB and FireWire	133
Burning CDs and DVDs	135
The burning process	135
Burning an optical disc	136
Memory-Based Storage	138
Networked Volumes	139
Connecting to a server	139
Finding the address of a piece of hardware	141
Other networked volumes: FTP and iDisks	142
Using Target Disk Mode	143
Disk Images	143
Keeping Volumes Healthy	146

Contents

Chapter 10: Archiving to Analog Pulpware Substrate (Printing)	149
Printing Concepts	149
Setting Up OS X for Printing	150
Adding printers	151
Creating desktop printer icons	153
Changing the Page Size and Orientation	154
Printing from Within an Application	156
The Copies & Pages page	157
The Layout page	158
The Scheduler page	158
The Paper Handling page	159
The Paper Feed page	159
The Summary page	160
The Preset option	160
Can I <i>Please</i> Click the “Print” Button Now?!	161
Managing Printing	161
Accessing the print queue	162
Canceling a print job	162
Suspending and resuming a print job	162
Starting and stopping the print queue	163
Changing assigned printers	163
Pooling printers	163
Faxing	164
Sending a fax	164
Receiving a fax	165
Chapter 11: Networking on Copper, Air, and a Prayer	167
The Wired Part: Cables, Hubs, and Switches	168
The Wireless Part: AirPort and Base Stations	170
DHCP? Whuzzat?	171
But back to AirPort	172
Connecting to an AirPort network	173
Cable Modems and DSL Modems	175
Modems: The Adorably Quaint Way to Connect	176
Dialing and Connecting	177

Contents

Antisocial Networking: Direct Mac-to-Mac Networks	179
FireWire Networking	179
Juggling Lots of Different Network Connections	181
Locational Guidance Counselor	182
Sharing Your Internet Connection	183
Bluetooth	185
Chapter 12: The Apps Wot You Get for Nothin'	191
Mail	192
Setting up an account	192
Receiving email	194
Screening out junk	196
Organizing your mail	197
Sending email	197
Address Book	199
The Address Book display	199
Adding a new card	200
Editing a card	202
Deleting a card	202
Finding cards	203
Choosing default card contents	203
Working with groups of cards	204
.Mac and the <i>Point of .Mac</i>	205
iCal	206
Adding and editing events	208
Adding and editing To-Do List items	212
Creating and editing your own calendars	214
Publishing and subscribing to calendars	214
Finding events and to-do list items	218
Handling outdated events and items	218
iChat	219
Setting up iChat	220
Using the iChat Buddy List	221
Status messages	222
Being chatted	223

Contents

Chatting	223
Swapping files	225
Sherlock	226
Safari	227
Bookmarks	228
The Google box	230
SnapBack	230
iSync	231
Synchronizing to an iDisk via .Mac	232
Syncing with iDisk	233
Chapter 13: More Built-in Apps: The Junior Varsity	237
TextEdit	238
It's file-compatible with Microsoft Word	238
Finer control over text and paragraph formatting	239
It's got styles!	240
But what are its limitations?	241
Grab	241
The Calculator	244
Stickies	247
DVD Player	248
Chess	252
Chapter 14: Coal-Fired Submarines, Mac OS 9, and Other Relics	255
The Classic Environment	256
Starting Classic	257
Closing the Classic Environment	258
Final Classic Malarkey	259
Chapter 15: I Love People! I Want to Share My Mac!	261
Multiple Users on the Same Mac	262
Just what exactly is a <i>user</i> ?	263
Why the wretched misanthrope should add users	264
Creating new users	264
Changing login options	268
Switching between users	269
Deleting users	270

Contents

Sharing Volumes and Folders	271
Turning on File Sharing	272
The Public folder	272
The Shared folder	273
Making other folders public, or sort of public	273
Sharing Services	275
FTP	275
Personal Web Services	276
Remote Login	278
Printer Sharing	279
Sharing with Windows Users	279
Chapter 16: I Loathe People! I Want to Secure My Mac!	283
Physical Security	284
Passwords	284
Fostering Distrust Between You and Your Mac	286
Passwording startup	286
Passwording sleep and the screen saver	287
Managing Passwords with the Keychain	288
Creating Multiple Keychains	289
Using the Keychain Access application	290
Placing Keychain Access on a menu bar	290
Creating new Keychains	290
Manually adding items to a Keychain	291
Changing a Keychain item's name	292
Adding specific applications to the control list	292
Storing secure information on a Keychain	293
Using multiple Keychain files	293
Turning Off Unnecessary Services	294
Limiting Access with Firewalls	295
Protecting Files with FileVault	296
Deleting a File Securely	298
Backing Up!	298
Wireless Security	299
Your Mother Is Probably at Least Moderately Fond of You, Actually	302

Contents

Part II: The Technical Bits	303
Chapter 17: Automating with AppleScript	305
Meet AppleScript	306
What makes AppleScript so gosh-darned super?	307
But is there anything about AppleScript that will make me want to drop my mouse, stomp outside, and go chuck rocks at birds?	308
Using Scripts	308
Launching scripts yourself	309
Attaching scripts to Mail rules	310
Attaching scripts to folders	312
Creating Your Own Scripts	314
Script Editor	315
Recording scripts	317
Saving scripts	319
Examining AppleScript dictionaries	320
Learning AppleScript: Resources	321
The AppleScript-Users mailing list (www.lists.apple.com/)	322
Apple's Scriptable Applications page (www.apple.com/applescript/apps/)	322
MacScripter.net (www.macscripter.net/)	322
Doug's AppleScripts for iTunes (www.malcolmadams.com/itunes/)	322
Scriptus Annotatus	322
Chapter 18: Unix...Alas, the Name Is Its Only Funny Part	325
The Brass Tacks	326
The Command Line: Meet the Shell, circa 1983	326
Your First Commands: Listing and Launching Files	327
Look! It Does Tricks, Too!	330
How long has my Mac been running?	330
How do I empty the Trash when the Finder's being all snitty about it?	330
How do I make a catalogue listing every file on my hard drive?	331
On what day of the week was my grandmother born?	332
My boss won't let me have a DVD player in my office.	
Can I still watch the greatest movie ever made?	332

Contents

Part III: Bonus Material	335
Chapter 19: Twenty Questions from My Aunt Estelle	337
Chapter 20: Drop the Book and Come Out Peacefully: Online Resources	349
Chapter 21: Troubleshooting by the Seat of Your Pants	353
Chapter 22: One Final Lesson	361
Index	367
