JOSSEY-BASS LEADERSHIP LIBRARY IN EDUCATION

Ann Lieberman, Lynne Miller

TEACHER LEADERSHIP

Teacher Leadership is written for teachers who assume responsibility for educational success beyond their own classrooms by providing peer support, modeling good practice, or coordinating curriculum and instruction. This book explores the topic of teacher leadership by providing an overview of the field, a summary of research, examples of good practice, and guidelines for the future.

ISBN 0-7879-6245-7 Paperback 112 Pages (approx.) 2004

James Ryan

INCLUSIVE LEADERSHIP

The culture of schools and the diversity of those who lead them have not kept pace with the growing diversity in the student population. The culture of today's school is often "Balkanized"—making effective leadership a particular challenge. James Ryan's work focuses on leadership as an intentionally inclusive practice that values all cultures and all types of students in a school. This book draws on his groundbreaking research to develop the powerful new idea of inclusive leadership.

ISBN 0-7879-6508-1 Paperback 128 Pages (approx.) 2005

James Spillane

DISTRIBUTIVE LEADERSHIP

"Distributive Leadership" is a new concept in education—the ways in which leadership is exercised in everyday practice through communications and actions, and via others in the school community such as teachers and parents. In this book, James Spillane, the leading expert on "Distributive Leadership," explores the distribution of leadership among various people in the school, and the extent to which leadership is stretched over tools and physical materials in the organization such as memos, scheduling procedures, evaluation protocols, computer programs, and more.
