# Index

---

- adsorbent, 277, 278  
adsorption, 277–279  
anti-fouling paint, 67
- ballpoint, 174  
bi-continuous phase, 263  
Bingham fluid, 290  
bio-fouling of ships, 67  
brainstorming, 74  
buyer-seller interaction, 185
- cake, 262  
capacity of adsorbent, 282  
capillary rise, 272  
capsulated herbicide, 118  
catalyst, 187  
CMC, 280  
coacervation, 121  
coatings, powder, 107  
coffee, 5, 233  
communicating, 249  
competition, 57  
concept tree. *See* mind map  
concepts, creating, 70  
concepts-criteria matrix, 91  
concurrent development, 21  
contact angle, 271  
    advancing, 274  
    retreating, 275  
contacting the customer, 186  
continuous phase, 262  
converging in development, 21  
costs, 128  
Couette flow, 290, 292  
creating concepts, 70  
creep, 286  
criteria, for products, 91  
crystallizer, 158  
customers, finding, 41
- Deborah number, 287  
decomposing a product, 31  
density of two phases, 268  
detergent, 7, 31  
development  
    concurrent, 21  
    evolutionary, 21  
development and learning, 19  
development and research, 25  
development, disruptive, 199  
development, sustaining, 194  
diabetes, 82  
differential viscosity, 290  
dimensional analysis, 113  
dispersed phase, 263  
dispersions, 261, 269, 289  
disruptive development, 199  
disruptive products, 47  
diverging in development, 21  
document projects, 229  
document the project, 28  
drying, 122
- electric lighting, 199  
emulsion, 262  
    O/W oil in water, 262  
    W/O water in oil, 262  
engineering estimates, 90  
evolutionary development, 21  
expenses, 128  
experimental design, 111  
extruder, 143, 158
- fibre, 262, 266  
filler-binder, 150  
filter, 121, 157  
finding customers, 41  
firm, 11  
floc, 262  
flow behaviour. *See* rheology

- flow diagrams, 123
- foam, 261, 266
- four-phase method, 21
- functional organisation, 11
- functions in firms, 11
  
- gates in a project, 22
  
- HEMP, 162
- herbicide, capsulated, 118
- hydrogen bond, 277
  
- in/out analysis, 29
- injector for insulin, 82
- insulating windows, 41
- insulation, thermal, 161
- insulin injector, 82
- interface, 269–271
  - area, 269
  - tension, 270
  - thickness, 269
- interpreting interviews, 45
- interviewing, 256
- interviewing customers, 44
- inulin, 150
- investment, 176
- ion, 279
- ion exchange., 279
  
- Langmuir isotherm, 281
- learning and development, 19
- lighting, electric, 199
- limiting experimental work, 111
- list of needs, 55
  
- marking concepts, 92
- mat
  - ordered, 262
  - random, 262
- matches, 127
- matrix organisation, 13
- Maxwell equation, 286
- measuring flow properties, 292
- methanol, 187
- method
  - for creating concepts, 70
  - for equipment selection, 147
  - for flowsheeting, 126
  - for formulating, 116
  - for list of needs, 49
  - for product planning, 202
  - for scaling up, 149
  - for selecting, 85
  - for specification, 56
  - four-phase, 21
  - HEMP, 162
  - mind mapping, 35
  - NPV, 182
  - top-down, 85
  - VP, 174
- metrics, 57
- micelle, 280
- milestones in a project, 22
- mind map, 73
- mind mapping, 234
- mixer, 121, 158
- modelling
  - economic, 174
  - financial, 133
  - sensitivities, 174
- modelling of structures, 266–267
- models
  - numerical, 60
  - physical, 60
- models of structures, 266
- morphology. *See* structure
  
- negotiations, 190
- normal stresses, 288
- NPV analysis, 182
  
- oil tanker, 68
- overview, constructing an, 35
  
- paint, anti-fouling, 67
- pastes, 6
- patents, 100
- performance of products, 28
- pharmaceutical tablets, 150
- phases in projects, 20–21
- planning process, 193
- Poiseuille flow, 290
- polarity, 277
- polymer, 265, 278, 280, 286
- powder coatings, 107
- powders, 6
- preparing an interview, 253
- presentation, 248
- presentation content, 241
- presentation layout, 243

- process operations, 139
- product plan, 197
- products in a system, 29
- productssystem with a product, 29
- profit, 132
- project organisation, 12
- Project Teams, 13–14
- publications, 102
  
- ranking needs, 46
- rebound, 286
- relaxation, 286, 287
- research and development, 25
- rheogram, 289
- rheology, 285–293
- rheoplectic, 291
