Introduction x

Chapter 1 Introducing DVD Studio Pro 2 1

Configuring DVD Studio Pro 2 2

Looking at the DVD Studio Pro 2 Interface 5

Manipulating the Interface 5

Other Interface Elements 8

Saving Configurations 11

Understanding the Interface 12

Using Projects 20

Loading Assets 22

Using the Assets Tab 22

Managing Assets 26

Using the Palette Media Tabs 28

Solution: Build and Burn a Looping DVD 31

Solution: Build and Burn a Looping Slideshow 34

Chapter 2 Building Basic Menus 37

Types of DVD Studio Pro 2 Menus 38

Identifying Menu Elements 38

Menu Creation Tools 40

Looking at the Menu Editor 41

Using the Outline Tab to Manage Menus 42

Building Basic Menus 43

Enabling Design Features 44

Using Drag and Drop to Build Menu Items 45

Creating Buttons, Drop Zones, and Text 46

Populating Drop Zones and Buttons 48

Setting the First Play 54

Checking Your Menus 54

Chapter 3 Creating Overlay and Layered Menus 63

Solution: Build a Custom Highlight Shape 55

Solution: Build a Custom Drop Zone Shape 58

Solution: Reuse iDVD Drop Zone Patches 60

Creating Basic Overlay Menus 64

Moving on to Advanced Overlay Menus 69

Adding Layered Menus 75

Controlling Button Order 81

Creating Language-Specific Versions of Your Menus 84

Building Widescreen Menus 89

Solution: Add Anti-Aliased Text Highlights 91

Solution: Add a Pop-Out Button with Advanced Overlays 94

Solution: Create a Rollover Menu 98

Chapter 4 Preparing Video Assets 105

Preparing Safe Colors 106

Using Safe Zones 110

Understanding Pixel Shape 114

Preparing Stills with Graphic Converter 116

Chapter and Compression Markers 121

Choosing an Audio Format 132

Preparing Sound with QuickTime Pro 134

Converting MPEG Audio 135

Solution: Build a Custom, Reusable Template 136

Solution: Create a simple Chapter Menu 140

Chapter 5 Compressing Video and Audio 145

Bit Rates, Compression, and Playback 146

Choosing Bit Rates 147

Compressing Video with QuickTime MPEG-2 Encoder 152

Encoding with Compressor 155

Creating Custom Presets 158

Encoding AC-3 Sound with A.Pack 165

	Solution: Create Motion Buttons for Your Menus from Your Compressed Movies	168
	Solution: Add Background Audio to Your Menu	171
Chapter 6	Building Tracks	175
	Track Essentials	176
	Track Creation Tools	178
	Building Tracks	179
	Exploring the Outline Tab	181
	Exploring the Track Editor	185
	Adding Material to Streams	190
	Adding Angles	193
	Previewing with the Viewer Tab	196
	Simulating from Tracks	197
	Solution: Create a Multiangle Track with Alternate Audio	198
	Solution: Use Mixed-Angle Footage	200
	Solution: Build and Test a Wide-Angle (16:9) Track	202
	Solution: Connect a Menu Button to a Track	204
	Solution: Choose an Audio Stream	205
Chapter 7	Markers and Stories	209
	Understanding Marker Roles	210
	Creating Markers	211
	Creating Stories	219
	Delving into the Connections Tab	225
	Solution: Create a Story	229
	Solution: Build Virtual Tracks, Adding More Videos Per Disc	232
	Solution: Add DVD @ccess to Your Movie	235
Chapter 8	Subtitles	239
	Subtitle Capabilities	240
	Transcribing Text	240
	Creating Subtitles	243
	Setting Subtitle Color	257
	Exploring Other Subtitle Features	258

Chapter 9 Building and Using Slideshows 273

Adding Buttons Over Video	262
Testing Subtitles	265
Solution: Build an Animated Subtitle Sequence	266
Solution: Add a Button to an Animation	268
Slideshow Pros and Cons	274
Setting Slideshow Preferences	275
Understanding the Slideshow Tab	275
Managing Slides and Slideshows	276
Understanding How Pauses Work in Tracks	282
Solution: Create a Slideshow with Arrows	285
Solution: Create a 16:9 Slideshow	287
Solution: Create a Slideshow with Transitions	289
Solution: Create a Video “Slideshow”	292

Chapter 10 Scripting DVDs 295

Adding Scripts to Projects	296
The Script Editor and Inspectors	298
Discovering the Elements of Scripting	302
Building Scripts	307
Saving Scripts	309
Loading Scripts	311
Discovering Advanced Simulator Features	311
Solution: Use the Info Drawer to Monitor Registers	312
Solution: Play a Random Track	314
Solution: Use a Prescript to Control Subtitles	316
Solution: Count Menu Timeouts and Send a Message	319
Solution: Create a Shuffle Play	321

Chapter 11 Advanced Interaction Menus and Methods 325

Auto Action and Invisible Buttons	326
Selecting a Default Menu Button	327

Setting the Menu Drop Shadow	331
Customizing Motion Menu Loops	332
Using Display Condition	335
Reviewing DVD @ccess Features	338
Controlling User Interactions	340
Solution: Navigate through Menus with Arrows	343
Solution: Build a Simple Easter Egg	345
Solution: Create a Loop Point	348
Solution: Add a Copyright Notice Screen to Your Movies	349

Chapter 12 Building and Burning 353

Building DVDs That Work	354
Reviewing Disc Properties	354
Building and Formatting Your Project	358
Burning with Toast	360
Backing Up Your Work	363
Creating Item Description Files	363
Using Replicators	365
Getting Help	367
Solution: Adding DVD-ROM Data	367
