Foreword	xv
Introduction	xvii
Chapter 1: Introducing the Project — mbrdesigncorp.com at a Glance	1
Problem	1
Design	2
Solution	3
Summary	5
Chapter 2: Installing DotNetNuke 4.8.2	7
DotNetNuke Framework vs. HTML	7
Problem	8
Prerequisites	8
Design	9
Scenarios	10
Solution	10
FAST and EASY on Windows XP Home	10
Most Common on Windows XP Professional	20
Newest OS on Windows Vista	37
Production Web Server on Windows 2003	56
Summary	69
Chapter 3: Designing for DotNetNuke — Skins and Skin Components	71
Problem	72
Design	72
An Introduction to Skinning	73
Solution	78
Limitations and Best Practice Guidelines	86
Summary	90

Contents

Chapter 4: Preparing the Design and Creating an HTML-Based Skin Package	91
Problem	91
Design	92
Solution	93
Poor Organization Can Lead to Wasted Time and Increased Costs	96
Creating Slices with Photoshop	97
Summary	132
Chapter 5: Packaging, Installing, and Applying Skins to a Live DNN Instance	133
Problem	134
Design	134
Solution	135
Creating the Zip Files	136
Installing an HTML-Based Skin Package	136
Installing Skins at the Admin Level	137
Installing Skins at the Host Level	141
Installing Separate container.zip Files	141
Previewing Skins and Containers	141
Deleting/Uninstalling Skin Packages	143
Applying Skins and Containers Globally to a Live DNN Instance	148
Summary	153
Chapter 6: Working with Pages	155
Problem	155
Design	156
Solution	156
Adding Top-Level Pages	157
Adding Sub-Level/Child Pages	161
Previewing Pages	162
Moving Pages	163
Copying Pages	164
Deleting Pages	167
Changing Skins	168
More About Advanced Page Settings	171
Summary	175

Chapter 7: Building Content — Working with Modules	177
Problem	177
Design	178
Solution	179
Installing Modules	179
Adding New Modules to a Page	182
Adding Existing Modules to a Page	183
The Action Menu	184
Moving Modules within the Same Page	186
Moving Modules to a Different Page	188
Deleting Modules	189
Containers	189
The Text/HTML Module	190
The Media Module	208
The Announcements Module	210
The Links Module	216
The Survey Module	218
The FAQ Module	223
Summary	231
Chapter 8: Customizing with CSS	233
Problem	234
Design	234
Solution	234
CSS Inheritance	235
Best Practices	236
The portal.css File	236
CSS Updates via the Stylesheet Editor	237
CSS Updates via FTP	243
CSS Updates via the File Manager	243
Locating the skin.css File	246
Customizing Existing skin.css Attributes	249
Creating and Applying Custom CSS Styles	253
Customizing Container CSS	256
Customizing the Control Panel	257
Summary	258

Contents

Chapter 9: Working with Security	261
Problem	261
Design	262
Solution	262
Registration Options	263
Selecting Registration Options	264
Specifying Fields for Registration — Working with User Profiles	265
Creating and Editing User Accounts	273
Editing User Accounts	275
Creating Security Roles	276
Summary	304
Chapter 10: Tips, Tricks, and Additional Resources	305
Skinning	305
To Div or Not to Div ...	308
Use Content Panes Wherever Possible	309
Content	310
Displaying Content on All Pages ... or Not	312
Creating Page Templates	313
Applying a Logo	316
Changing Your Password	319
Editing the Terms and Privacy Statement	321
Resources for DNN Products	324
DotNetNuke Marketplace	325
Summary	325
Index	327
