Preface	xiii
Intended Audience	xiv
What's Inside?	xiv
Acknowledgments	xvii
PART ONE Are You Prepared?	1
<hr/>	
CHAPTER 1 The Challenges	3
The Brain Power	4
The Horse Power	6
Options and VaR Ascendancy	7
Rain Clouds or Urine?	10
News Folly	12
Eyes on the Goal	13
CHAPTER 2 The Opportunities	15
Choose Your Battles	16
Take the Offensive	17
Prepare and Perform	26
Quiet the Noise	29
Opportunities Outnumber Challenges	30
CHAPTER 3 The Foundation: Preparations for Exploring Volatility-Based Technical Analysis	31
The Preparations Needed	32
Trading the Invisible Indicators: Original Development	33
Tenets of Volatility-Based Technical Analysis	34
	vii

	Component Testing	40
	MetaSwing QuickStart	40
	Discover by Doing	51
PART TWO	Seeing the Invisible	53
<hr/>		
CHAPTER 4	New Volatility Indicator Design	55
	Volatility Unmasked	56
	Standard Deviation	57
	Example: Volatility-Based Support and Resistance	61
	Average True Range	66
	Molding a Volatility-Based Indicator	69
	The Whole Picture	83
	Building Blocks	86
CHAPTER 5	Integrated Volatility Indicator Design	87
	Volatility Pointed Forward	87
	Projected Implied Volatility	90
	More from the Math Toolbox	101
	Using Tools to Leverage TTI ATR Extreme	107
	Development Efficiency	114
	Inventing Wheels: You're Not Alone	115
	Onward	126
CHAPTER 6	The Framework: A Structural Approach for Cross-Verification	127
	Adopting a Structure	128
	Think and See Volatility	129
	The Framework Components	141
	Constructing a Compound Derivative	146
	The Framework	156
	Going Forward	161
CHAPTER 7	Traditional Technical Analysis: What Works, What Doesn't, and Why	162
	Line Studies	163
	Chart Patterns	173

Oscillators	185
Choose the Best	198
PART THREE Trading the Invisible	199
CHAPTER 8 Bull Bear Phase Prediction: The Intermediate- and Short-Term Market Swing	201
Why Swing with the Market?	202
Intermediate-Term Market Direction	204
Short-Term Market Swing	211
Seek the Advantage	223
CHAPTER 9 Trading the Short-Term Reversal with Volatility-Based Technical Analysis—The Adeo	224
The Adeo Point	225
The Adeo Trend Rally	232
The Meandering Adeo	236
The Adeo Short	240
Adeo and FOREX	245
The Fractal Adeo	246
Open Your Can of Spinach	249
CHAPTER 10 Trading the Trend with the 1-2-3	250
Rectangles Everywhere	251
The Traditional Approach	253
The 1-2-3 Construct	254
The Daily 1-2-3	259
The Weekly 1-2-3	263
The 1-2-3: Inside and Outside	269
As Simple as 1-2-3	279
CHAPTER 11 Hidden Momentum with Adeo High Slope	280
We Are Experiencing Technical Difficulties; Please Stand By	281
Momentum Hide and Go Seek	283

Momentum Found	289
The Quick and the Broke	303
CHAPTER 12 Designing the Exit	305
The Objective: Optimize the Profit Target	306
Using Time Slicing to Understand Your Time Frame	310
Fifth-Grade Arithmetic	312
Exit Tactics	315
Achieving the Objective	331
CHAPTER 13 Correction and Surge: An Early Warning System	333
Market Breadth	334
The Correction Event	338
The Surge Event	348
The Best Free Advice	355
CHAPTER 14 Trading System Design: Detecting the Invisible	356
Seeing through the Fog of War	357
Nail It Down: Recognize the Specifics	358
The Importance of Believing	359
System Design Structure	360
System Design Tactics	365
Ask the Questions and Use the Advantages	382
APPENDIX A TradeStation Examples and EasyLanguage Code	384
Average True Range	384
The TTI ATR Extreme	386
The TTI Stochastic Extreme	393
The TTI Fabric LR	399
The TTI Trend Strength	403
The TTI RSIV	405
The TTI Composite	409
The Relative Exit	412
Correction and Surge	420
MetaSwing for TradeStation	423

APPENDIX B The PIV Options Advantage: Using Projected Implied Volatility to Trade the Butterfly, Condor, Strangle, and Straddle	427
PIV for the Butterfly and Condor	427
PIV for the Strangle and Straddle	436
PIV for Option Spreads	440
APPENDIX C About the Companion Web Site	441
Notes	443
About the Author	447
A Special Offer from MetaStock	449
Index	451
