I Starting Out with Excel 2007	1
1 Getting In and Out.....	3
Starting Excel	3
The Excel environment	4
Getting help	10
Opening workbook files	14
Using hyperlinks.....	17
Saving workbook files.....	18
Creating and using templates	21
Closing workbook files.....	24
Quitting Excel	25
Just the facts.....	25
2 All About Worksheets.....	27
Worksheet basics	28
Selecting worksheets.....	29
Naming worksheets	31
Color-coding workbook contents	32
Rearranging worksheets	33
Adding and deleting worksheets.....	35
Moving around in a worksheet	37
Multiple windows.....	42
Zooming your view.....	45
Just the facts.....	46
II Crunching Numbers	47
3 Entering and Editing Data.....	49
Entering data directly.....	49
Using data entry techniques	52
Creating a dynamic list/table.....	65
Validating data during entry.....	67

Editing cell entries	69
Finding and replacing data	70
Moving and copying data.....	73
Inserting, deleting, and rearranging.....	76
Breaking a column into multiple columns.....	80
Adding worksheet comments.....	81
Checking your spelling	82
Just the facts	84
4 Working Data Magic with Calculations	85
Simple calculations, quick answers.....	85
About cell references	89
Writing formulas	92
Moving and copying formulas.....	94
Linking worksheets and workbooks.....	96
Using cell names	98
Editing formulas.....	105
Tracing a formula.....	106
Locating worksheet errors	108
Just the facts	110
5 Excel Functions	111
Using functions.....	111
Common and useful functions.....	114
Combining functions for more power.....	132
Just the facts	139
III Dressing Up Your Data.....	141
6 Formatting Cells.....	143
The Font and Alignment Ribbon groups.....	143
Formatting the font	144
Working with borders	146
Adding colors.....	148
Fitting the text in the cell	152
Copying formatting with Format Painter.....	160
Just the facts	161
7 Formatting Numbers and Using Styles	163
Applying number formats to cells.....	163
Ribbon buttons for formats	164

The Format Cells dialog box.....	165
Formatting dates and times.....	167
Formatting text entries.....	169
Creating custom formats.....	169
Applying conditional number formats	171
Converting actual values to displayed values	173
Hiding zeroes.....	174
Using styles to streamline formatting	175
Just the facts	179
IV Organizing Data	181
8 Organizing Data.....	183
Sorting lists.....	183
Filtering records	188
Calculating filtered records	192
The Query Wizard — A better filter	193
Query a Web page.....	200
Just the facts	202
9 Finding and Comparing Answers.....	203
Consolidating a table	204
Subtotaling a table.....	206
Scenarios	208
Compare answers with data tables.....	212
Goal seeking for simple answers.....	215
Answering complex questions with Solver.....	218
Just the facts	222
10 Summarizing Data Dynamically with PivotTables	223
Using PivotTables	223
PivotTable terms.....	224
Creating a PivotTable	224
The PivotTable Tools tab	229
Changing PivotTable arrangement.....	230
Changing PivotTable calculations	237
Showing underlying details	239
Formatting numbers.....	239
Just the facts	239

11	Displaying PivotTables Graphically with PivotCharts	241
	PivotCharts versus normal charts.....	242
	Creating PivotCharts	242
	Rearranging PivotCharts	245
	Formatting PivotCharts.....	246
	Embedding a PivotChart on a worksheet.....	246
	Just the facts	248
V	Presenting Your Data	249
12	Presenting Data Visually with Charts	251
	Creating a chart	251
	The Charts group	254
	Types of charts.....	256
	Changing chart data.....	260
	Quickly changing chart layout	261
	Moving and resizing an embedded chart.....	262
	Changing the chart location	263
	Just the facts	264
13	Formatting Charts.....	265
	Chart formatting possibilities	265
	Formatting chart elements	266
	Changing axis scale	269
	Reordering the series	271
	Enlarging and exploding a pie chart	272
	Changing 3-D perspective	274
	Adding a trendline.....	276
	Adding a secondary axis	281
	Working with data labels	283
	Creating picture markers	285
	Saving and reusing your custom chart format.....	286
	Just the facts	289
14	Adding Pictures and Graphic Objects	291
	Using the Shapes group.....	291
	Drawing basic shapes	293
	Formatting for all graphic objects	294
	Creating AutoShapes	299
	Drawing text boxes	300
	Creating WordArt	300

Inserting pictures and clip art	301
Creating SmartArt	303
Pasting pictures of cells.....	304
Just the facts	306
VI Sharing Excel Data	307
15 Printing Just What You Need	309
Previewing printed pages.....	309
Printing a quick copy of a worksheet	311
Printing part of a worksheet.....	311
Printing a chart.....	315
Printing several worksheets.....	316
Just the facts	317
16 Formatting the Printed Page	319
Setting page breaks	319
Changing the page layout	321
Printing a specific number of pages.....	328
Printing row/column labels on every page	329
Creating a header or footer	332
Printing worksheet gridlines.....	337
Printing in black and white.....	337
Formatting printed charts	338
Just the facts	340
17 Sharing a Workbook with Other Users.....	343
Sharing a workbook	344
Reviewing changes in a shared workbook	346
Sending and routing workbooks	351
Protecting workbooks and worksheets.....	352
Just the facts	356
18 Sharing a Workbook Between Programs	357
Shared-data terminology	357
Sending data between Excel and Word	358
Sending data between Excel and Access	366
Pasting Excel data into PowerPoint.....	367
Dragging a hyperlink into Excel	367
Saving a worksheet as a Web page	368
Just the facts	369

VII Making Excel Your Own371

19 Customizing Your Workspace373

- Changing your screen display373
- Minimizing the Ribbon375
- Customizing the Quick Access toolbar376
- Personalizing features377
- Proofing options.....379
- Setting Advanced options380
- Just the facts381

20 Adding Controls to a Worksheet383

- What can worksheet controls do?384
- Forms Controls386
- All worksheet controls388
- List boxes and combo boxes389
- Option buttons and group boxes391
- Scroll bars and spinners.....394
- Check boxes.....397
- Button controls398
- Labels.....399
- Just the facts399

21 Using Macros to Automate Repetitive Work.....401

- Introducing macros401
- Recording a macro403
- Running a macro406
- Exploring the Visual Basic Editor.....408
- Editing a macro413
- Deleting a macro417
- Setting macro virus protection.....417
- Just the facts419

VIII Appendixes421

- Appendix A: Build Creative Worksheets.....423**
- Appendix B: Recommended Resources443**
- Glossary447**
- Index465**
