Preface **xxvii**

Chapter 1 _____

Evidence-Based Social Work: An Overview **1**

Bruce A. Thyer

Overview of the Problem **1**

First Principles **7**

1. There Is an Objective Reality 7
2. Psychosocial Phenomena Are a Part of That Reality 8
3. Knowledge of Psychosocial Phenomena Can Be Arrived At 10
4. Scientific Inquiry Is the Most Reliable Way to Arrive at Valid Knowledge 12
5. There Are Some Good Methods to Measure Psychosocial Phenomena 15
6. There Are Some Empirically Supported Interventions 17
7. We Have a Professional Obligation to Apply This Knowledge 18
8. We Have a Professional Obligation to Empirically Evaluate the Outcomes of Our Interventions 19
9. We Have a Professional Obligation to Promote Evidence-Based Practice 22

Summary **23**

Study Questions **24**

References **25**

PART I

Disorders Usually First Diagnosed in Infancy, Childhood, or Adolescence **29**

Chapter 2 _____

Mental Retardation **31**

John Gerdtz and Susan Gerdtz

Overview of the Problem **31**

Operational Definitions of the Problem	32
Future Terminology	36
General Characteristics of Persons with Mental Retardation	36
Evidence-Based Approaches to Assessment	38
Self-Report Methods	38
Behavioral Assessment	41
Evidence-Based Approaches to Intervention	42
Individual Therapies	42
Family Interventions	45
Community Interventions	47
Summary	48
Study Questions	48
References	49

Chapter 3

Autistic Disorder	53
<i>Claire J. Calohan and Colin M. Peeler</i>	
Overview of the Problem	53
Operational Definitions of the Problem	55
Evidence-Based Approaches to Assessment	57
Evidence-Based Approaches to Intervention	60
Individual Therapies	60
Marital, Couple, and Family Therapies	65
Summary	68
Study Questions	68
References	69

Chapter 4

Attention-Deficit/Hyperactivity Disorder	75
<i>David R. Dupper and Joy B. Musick</i>	
Overview of the Problem	75
Operational Definitions of the Problem	78
Evidence-Based Approaches to Assessment	79
Structured Teacher and Student Interviews	80
Rating Scales	80
Direct Observations	82

Evidence-Based Approaches to Intervention	82
Behavioral Parent Training	84
Classroom Applications of Contingency Management Techniques	85
Summary	88
Study Questions	90
Appendix	90
Internet Resources	90
Model Programs	91
Suggested Readings for Professionals	92
Suggested Readings for Parents and Other Caregivers	93
References	94

Chapter 5

Conduct Disorder	97
<i>Carolyn Hilarski</i>	
Overview of the Problem	97
Operational Definition of the Problem	98
Additional Specifiers	98
Comorbidity	99
Prevalence	100
Cost	100
Implications for Social Work	101
Evidence-Based Approaches to Assessment	102
Person Interviews or Self-Reports	102
Collaterals	103
Family Assessment	103
School Functioning	103
Physiological Evaluation	103
Diagnostic Formulation	104
Evidence-Based Approaches to Intervention	104
Individual Therapy	104
Child- and Parent-Focused and School-Based Interventions	105
Child-Focused and School-Based	105
Group Therapies	106
Family Therapy	107
Multisystemic Therapy	108
Community Interventions	108
Summary	110

Study Questions	110
References	111

Chapter 6

Oppositional Defiant Disorder 117

Lisa A. Rapp-Paglicci

Overview of the Problem	117
Operational Definitions of the Problem	119
Evidence-Based Approaches to Assessment	119
Evidence-Based Approaches to Intervention	122
Individual Interventions	122
Group Interventions	123
Family Interventions	123
Community and Multifaceted Programs	126
Summary	127
Study Questions	128
References	129

Chapter 7

Pica 133

Irma A. Molina, Matthew T. Theriot, and Catherine N. Dulmus

Operational Definitions of the Problem	133
Overview of the Problem	134
Prevalence and Characteristics among Children	134
Prevalence and Characteristics among Women	135
Prevalence and Characteristics among the Developmentally and Intellectually Disabled	138
Social and Financial Costs	139
Evidence-Based Approaches to Assessment	139
Evidence-Based Approaches to Intervention	140
Overcorrection Procedure	140
Negative Practice (Mild Punishment)	141
Brief Physical Restraint	142
Noncontingent Reinforcement	143
Differential Reinforcement of Incompatible Behavior	144
Discrimination Training with Punishment Component	145

A Combination of Noncontingent Reinforcement and Differential Reinforcement of Alternative Behavior	145
Simplified Habit Reversal	146
Use of Social Interactions without Aversive Stimuli	146
Use of a Comprehensive Treatment Package	147
Iron Therapy and Vitamin Supplement	148
Summary	148
Study Questions	150
References	150
PART II	
Substance-Related Disorders	155
Chapter 8	
<hr/>	
Alcohol Abuse	157
<i>Nancy J. Smyth and Charles D. Syms</i>	
Operational Definitions of the Problem	157
Moderate and Risky or Heavy Drinking	157
Alcohol-Related Disorders	158
People with Alcohol Problems	159
Prevalence, Incidence, and Social and Financial Costs	159
Relevance of Social Work's Involvement	160
Evidence-Based Approaches to Assessment	161
Structured Clinical Interviews	161
Computerized Assessment Methods	162
Self-Report Methods	162
Screening and Diagnostic Measures	163
Evidence-Based Approaches to Intervention	166
Individual Therapies	168
Group Therapies	169
Marital and Family Therapies	171
Community Interventions	174
Summary	175
Study Questions	175
References	176

Chapter 9

Cannabis-Related Disorders	183
<i>Melissa Radey and Laura Hopson</i>	
Overview of the Problem	183
Prevalence and Incidence	183
Social and Financial Costs	184
Social Work Involvement	185
Operational Definitions of the Problem	186
Evidence-Based Approaches to Assessment	187
The Culture Surrounding Marijuana Use	187
Marijuana Use and Adolescence	188
Overview of Assessment Instruments	188
Diagnostic Interviews	189
Assessment Specific to Cannabis	190
Biological Assessment Measures	191
Computerized Assessment Methods	192
Evidence-Based Approaches to Intervention	192
Individual Therapies	193
Pharmacological Interventions	193
Group Therapies	194
Family Therapies	194
Community Interventions	195
Summary	196
Study Questions	196
References	197

Chapter 10

Cocaine-Related Disorders	201
<i>Patrick S. Bordnick, Hilary L. Copp, and Bruce A. Thyer</i>	
Overview of the Problem	201
Operational Definitions of the Problem	203
Evidence-Based Approaches to Assessment	204
Self-Report Methods	204
Behavioral Assessment	206
Physiological Measures	207
Evidence-Based Approaches to Intervention	208
Individual Therapies	209
Group Therapies	218
Community Interventions	219
Summary	220

Study Questions	222
References	222

Chapter 11

Opioid-Related Disorders **229**

Laura Hopson and Melissa Radey

Overview of the Problem **229**

Prevalence and Incidence	229
Social and Financial Costs	230
Social Work Involvement	230

Operational Definitions of the Problem **231**

Evidence-Based Approaches to Assessment **232**

Structured Clinical Interviews	233
Screening Questionnaires	234
Assessment Specific to Opioids	236
Physiological Measures	237
Computerized Assessment Methods	238

Evidence-Based Approaches to Intervention **238**

Individual Therapies	239
Pharmacological Interventions	240
Group Therapies	241
Couples and Family Therapies	241
Community Interventions	242

Summary **243**

Study Questions **243**

References **244**

PART III

Schizophrenia and Other Psychotic Disorders **249**

Chapter 12

Schizophrenia **251**

*Kia J. Bentley, Joseph Walsh, A. Suzanne Boyd, and
Melissa Floyd Taylor*

Overview of the Problem **251**

Operational Definitions of the Problem **252**

Prevalence, Incidence, Social and Economic Costs	254
Relevance of Social Work Involvement	255

Evidence-Based Approaches to Assessment	256
Instruments Used in Research Studies	256
Symptom Measures for Use in Clinical Settings	257
Scales Measuring Quality of Life	259
Social Functioning Scales	260
Assessing the Adverse Effects of Medication	261
Evidence-Based Approaches to Intervention	263
Individual Interventions	264
Family Approaches and Group Therapies	267
Community Interventions	269
Summary	278
Study Questions	279
References	280
PART IV	
Mood Disorders	287
Chapter 13	
Major Depressive Disorder	289
<i>Michael J. Holosko, Nansy Jean-Baptiste, Trang Le, Allison Eaton, and Lisa Power</i>	
Overview of the Problem	289
Gender Differences	290
Ethnic Minority Issues	291
Operational Definitions of the Problem	292
Evidence-Based Approaches to Assessment	293
Self-Report Methods and Other Administered Interview Guides	293
Self-Report Interviews and Self-Administered Methods	294
Evidence-Based Approaches to Intervention	295
Biological and Biochemical Interventions	295
Combination Therapies	296
Individual Therapies	296
Group Therapies	298
Marital, Couple, and Family Therapies	300
Community Interventions	301
Summary	302
Study Questions	302
References	303

Chapter 14

Dysthymic Disorder	307
<i>Michael J. Holosko, Trang Le, Nansy Jean-Baptiste, Lisa Power, and Allison Eaton</i>	
Overview of the Problem	307
Prevalence	308
Social Impairment	309
Lost Productivity and Economic Costs	310
Treatment Costs	310
Operational Definitions of the Problem	311
Evidence-Based Approaches to Assessment	313
Self-Report Instruments	314
Observer-Rating Scales	314
Semistructured Interviews	315
Evidence-Based Approaches to Intervention	316
Individual Interventions	316
Couples Therapy	321
Group Interventions	322
Community Interventions	322
Summary	323
Study Questions	323
References	324

PART V

Anxiety Disorders	329
--------------------------	------------

Chapter 15

Panic Disorder and Agoraphobia	331
<i>Joseph A. Himle, Daniel J. Fischer, and Laura M. Lokers</i>	
Overview of the Problem	331
Evidence-Based Approaches to Assessment	333
Clinical Interview	333
Clinician-Rated and Self-Report Measures	334
Behavioral Avoidance Test	335
Evidence-Based Approaches to Intervention	335
Real-Life Exposure to External Cues	335
Exposure to Internal Cues (Interoceptive Exposure)	336
Cognitive Therapy	338
Anxiety Management Techniques	340

Summary	344
Study Questions	346
References	346

Chapter 16

Agoraphobia without History of Panic Disorder 351

Bruce M. Hyman

Overview of the Problem	352
Operational Definitions of the Problem	352
Evidence-Based Approaches to Assessment	356
Semistructured Diagnostic Interviews	356
Unstructured Clinical Interviews	357
Self-Report Measures	358
Behavioral Avoidance Tests	358
Evidence-Based Approaches to Intervention	358
In Vivo Exposure: Overcoming Fear of External Situations	359
Interoceptive Exposure: Overcoming Fear of Internal Sensations	361
Typical Problems	362
Cognitive Strategies	363
Self-Regulation Strategies Reconceptualized	366
Spouse or Significant Other Involvement in Cognitive-Behavioral Therapy	367
Summary	368
Study Questions	371
References	372

Chapter 17

Obsessive-Compulsive Disorder 377

Barbara Van Noppen, Joseph A. Himle, and Gail Steketee

Overview of the Problem	377
Prevalence	377
Financial and Social Costs	378
Operational Definitions of the Problem	380
Evidence-Based Approaches to Assessment	382
Structured Clinical Interviews	383
Self-Report Measures	385
Observational Measures	386

Evidence-Based Approaches to Intervention	386
Individual Behavioral Treatment	386
Cognitive Interventions	388
Biological Interventions	390
Group Interventions	391
Family Interventions	391
Summary	392
Study Questions	393
References	393

PART VI

Sexual Disorders	401
-------------------------	------------

Chapter 18

Sexual Desire and Arousal Disorders	403
<i>Sophia F. Dziegielewski, Barbara F. Turnage, Gary Dick, and Cheryl Resnick-Cortes</i>	
Operational Definitions of the Problem	403
Sexual Desire Disorders	405
Evidence-Based Approaches to Assessment	407
Assessment Scales and Methods	411
Evidence-Based Approaches to Intervention	414
Sexual Desire Disorders	415
Sexual Arousal Disorders	417
Combination Approaches	420
Sexual Dysfunction among Gay Men	421
Summary	422
Study Questions	423
References	423

Chapter 19

Orgasmic Disorders	427
<i>Sophia F. Dziegielewski, George Jacinto, Gary Dick, and Cheryl Resnick-Cortes</i>	
Overview of the Problem	427
Operational Definitions of the Problem	428
Sexual Development	428
Defining Sexual Dysfunctions	430

Prevalence Estimates of Sexual Dysfunction	430
Prevalence Estimates of Male Orgasmic Disorders	431
Prevalence Estimates of Female Orgasmic Disorders	432
Categories of Orgasmic Disorders	432
Anorgasmia	433
Premature Ejaculation	434
Evidence-Based Approaches to Assessment	435
Assessment Scales	437
Special Considerations in Assessment	440
Evidence-Based Approaches to Intervention	441
Anorgasmic Disorders	442
Premature Ejaculation	447
Summary	450
Study Questions	452
References	452
 <i>PART VII</i>	
Eating Disorders	457
 <i>Chapter 20</i>	
Anorexia Nervosa, Bulimia Nervosa, and Binge Eating Disorder	459
<i>Laura L. Myers</i>	
Overview of the Problem	459
Operational Definitions of the Problem	460
Bulimia Nervosa	460
Anorexia Nervosa	461
Atypical Eating Disorder	462
Binge Eating Disorder	463
Prevalence	463
Prognosis	464
Evidence-Based Approaches to Assessment	465
Structured Clinical Interviews	465
Self-Report Questionnaires	466
Computerized Assessment Methods	467
Observational Methods	468
Evidence-Based Approaches to Treating Bulimia Nervosa	468
Cognitive-Behavioral Treatment	468
Advanced Cognitive-Behavioral Therapy Research	469

Interpersonal Psychotherapy	470	
Nutrition Therapy	470	
Pharmacological Treatment	471	
Evidence-Based Approaches to Treating Anorexia Nervosa		472
Behavior Therapy	472	
Behavioral Family Therapy	473	
Cognitive-Behavioral Treatment	473	
Pharmacological Treatment	474	
Evidence-Based Approaches to Treating Binge Eating Disorders	474	
Cognitive-Behavioral Treatment	474	
Interpersonal Psychotherapy	475	
Behavioral Weight Loss Treatment	475	
Pharmacological Treatment	476	
Evidence-Based Approaches to Treating Atypical Eating Disorders		476
Summary		476
Study Questions		477
References		477

PART VIII

Personality Disorders **483**

Chapter 21

Antisocial Personality Disorder **485**

Carolyn Hilarski

Overview of the Problem **485**

Operational Definitions of the Problem **487**

Diagnostic and Statistical Manual of Mental

Disorders IV Criteria 487

Prevalence 488

Cost 488

Implications for Social Work 488

Evidence-Based Approaches to Assessment **489**

Self-Report Methods 489

Semistructured Assessment 490

Multidimensional Structured Interview 491

Evidence-Based Approaches to Intervention **491**

Treatment Prognosis 491

Pharmacological Treatments 492

Individual Therapies	493	
Group Therapies	493	
Community Prevention and Intervention Models	494	
Family Therapies	494	
Summary		496
Study Questions		496
References		497

Chapter 22

Borderline Personality Disorder		503
<i>André Ivanoff, Jennifer Manuel, and Henry Schmidt III</i>		
Overview of the Problem		503
Operational Definitions of the Problem		504
Evidence-Based Approaches to Assessment		506
Self-Report Methods	506	
Evidence-Based Approaches to Intervention		509
Psychopharmacological Treatments	509	
Individual Therapies	510	
Psychodynamic and Psychoanalytic Therapies	515	
Cognitive Therapy	516	
Dialectical Behavior Therapy	516	
Marital/Couple/Family Therapies	517	
Summary		518
Study Questions		518
References		519

PART IX

Conclusions		525
--------------------	--	------------

Chapter 23

The Role for Social Workers in the Managed Health Care System: A Model for Evidence-Based Practice		527
<i>Kimberly J. Long, Lindsay Homesley, and John S. Wodarski</i>		
Overview of the Problem		527
Managed Health Care		528

Psychosocial Treatment Configuration	529
Worker and Client Characteristics	530
Professionals versus Paraprofessionals	531
Worker Characteristics	531
Treatment Components	532
Length of Therapy	532
Behavior Acquisition	533
Evidence-Based Approaches to Intervention	533
Evidence-Based Approaches to Treatment	535
Implementation of Change Strategy: Level of Intervention	536
Macrolevel Intervention	537
Relapse Prevention	538
Analysis of Social Work Practice: Economic Perspective	539
Cost Analysis	539
Cost Benefits	539
Cost Effectiveness	540
Evaluation Summary	540
Profiling the Clinical Social Worker	541
