# Table of Contents

## ***Introduction*** ..... 1

Why Should I Spend My Time Reading This Book? .....	1
How to Use This Book .....	3
What I Expect You Already Know and Have .....	4
You know how to use a Mac.....	4
You're not a hacker .....	5
You have AppleScript.....	5
You know what a path to a file looks like .....	5
What the Silly Little Pictures Mean.....	6
Typeface Conventions .....	7

## ***Part 1: Getting Started***..... 9

### **Chapter 1: A Cannonball Dive into the Scripting Pool** ..... 11

Writing Your First Script.....	11
The first, and in this case only, script line .....	13
Writing a Second (And Even Better) Script .....	14
Line 1: Displaying a dialog.....	16
Line 2: Accessing the user's choice .....	18
Line 3: Responding to the user's choice.....	18
Line 4: Filling a variable .....	19
Line 5: Greeting the user.....	19
Line 6: Examining alternatives .....	20
Line 7: Macs do have feelings! .....	20
Line 8: Ending the if.....	21
Saving Your Work .....	21
Running Your Script .....	22

### **Chapter 2: AppleScript Basics without Stomach Acid** ..... 25

What Is Scripting? What If Your Penmanship Is Poor? .....	25
Apple Events Aren't Just Parties Anymore! .....	26
Levels of Scripting.....	27
What Can I Do with a Script? .....	29
What Can a Real Expert — You with a Few Months' Experience — Do with a Script?.....	31

<b>Chapter 3: Writing a Script without Ink</b> .....	<b>33</b>
The Path toward a Script .....	33
Step 1: Figure out what you want to do .....	34
Step 2: To script or not to script: That is the question .....	35
Step 3: Define how the script will work .....	36
Step 4: Write the script .....	37
Step 5: Test the script .....	37
Step 6: Find and fix the problems .....	38
Step 7: Document the script .....	38
Script Editor: Free and Worth a Lot More .....	39
The basics .....	40
Great new stuff .....	41
Menus aren't just for meals anymore .....	42
Wetting Your Whistle by Bossing Around a High-Paid Hacker's Code ....	49
Line 1: Pick a database to work with .....	51
Line 2: Start bossing around FileMaker .....	51
Line 3: Open the selected database .....	52
Line 4: Alphabetize the records .....	52
Line 5: Select the reporters you care about .....	52
Line 6: How many reporters were selected? .....	52
Line 7: If there's at least 1 relevant reporter .....	53
Line 8: Process each reporter in turn .....	53
Line 9: Get each reporter's first name .....	53
Line 10: Get his/her company's name .....	54
Line 11: Start bossing Mariner Write around .....	54
Line 12: Make a new press release .....	54
Line 13: Write the salutation .....	54
Line 14: Let Mariner Write know you're done .....	55
Line 15: End of stuff repeated for each reporter .....	55
Line 16: If you can't find a good reporter .....	55
Line 17: Let the script tell you something .....	56
Line 18: End of the if .....	57
Line 19: Finish with FileMaker .....	57

***Part II: All You Ever Needed to Know about  
AppleScript You Learned in Part I*** .....

<b>Chapter 4: Values: Different Types of Information</b> .....	<b>61</b>
Values Are Classy Things .....	61
AppleScript Values .....	63
Integer .....	63
Real .....	64
String or Text .....	64

List.....	67
Record.....	68
Boolean.....	69
Reference.....	69
Date.....	70
Units.....	71
Constants and global properties.....	72
Styled text.....	72
Unicode text.....	73
Number.....	73
Data.....	73
Class.....	73
File.....	74
Alias.....	74
Application.....	74
Machine.....	74
<b>Chapter 5: Variables: Data Cupboards.....</b>	<b>75</b>
Rules for Naming Variables.....	75
Using Variables.....	78
When to Use Set and When to Use Copy.....	79
<b>Chapter 6: Operators: Math without Mistakes.....</b>	<b>81</b>
Operator? Can You Place This Number?.....	81
Math Operators.....	82
The addition operator: +.....	83
The subtraction operator: -.....	83
The division operator: /.....	83
The multiplication operator: *.....	83
The exponent operator: ^.....	83
Other math operators.....	84
Date arithmetic.....	84
Logical and Comparison Operators.....	85
Miscellaneous Operators.....	86
&.....	86
as.....	87
a reference to.....	88
Precedence: When to Use Parentheses.....	88
<b>Chapter 7: References: Being Picky about Data.....</b>	<b>91</b>
What Is a Reference?.....	91
Different Kinds of Reference Forms.....	97
arbitrary.....	97
every.....	98
filter (called a whose clause by those in the know).....	99

ID.....	100
index.....	101
middle.....	103
name.....	103
property.....	104
range.....	105
relative.....	106
Referencing Files.....	107
<b>Chapter 8: Commands: Ordering AppleScript Around .....</b>	<b>109</b>
Basic Commands.....	110
activate.....	110
clipboard info.....	111
copy.....	112
count.....	113
current date.....	114
delay.....	115
get.....	116
info for.....	116
launch.....	119
list disks.....	120
list folder.....	121
mount volume.....	123
offset.....	124
path to.....	126
random number.....	129
round.....	130
set.....	131
set the clipboard to.....	132
set volume.....	133
summarize.....	134
the clipboard.....	135
time to GMT.....	135
Advanced Commands.....	136
do shell script.....	136
scripting components.....	138
system attribute.....	138
ASCII character.....	140
ASCII number.....	141
<b>Chapter 9: I/O (I Owe) without Credit Cards .....</b>	<b>143</b>
I/O Commands.....	143
display dialog.....	144
choose from list.....	149
beep.....	151

say .....	151
choose application .....	152
choose URL .....	154
choose file .....	155
choose file name .....	156
choose folder .....	157
choose color .....	158
A Final Word .....	158
<b>Chapter 10: If: Letting Your Computer Make Decisions So You Can Blame It Later .....</b>	<b>159</b>
The Ever-Famous if Statement .....	159
Logical Operators .....	160
and .....	161
or .....	161
=, is, equal, equals, is equal to .....	162
≠ (option =), is not, isn't, isn't equal to, is not equal to, doesn't equal, does not equal .....	162
>, is greater than, comes after, is not less than or equal to, isn't less than or equal to .....	163
<, is less than, comes before, is not greater than or equal to, isn't greater than or equal to .....	163
≥ (Option+Shift+>), >=, is greater than or equal to, is not less than, isn't less than, does not come before, doesn't come before .....	164
≤ (Option+), <=, is less than or equal to, is not greater than, isn't greater than, does not come after, doesn't come after .....	164
start[s] with, begin[s] with .....	165
ends with .....	165
contains .....	166
does not contain, doesn't contain .....	166
is in, is contained by .....	167
is not in, is not contained by, isn't contained by .....	167
not .....	167
A parting shot .....	168
How Your Script Can Make Up Its Mind .....	168
<b>Chapter 11: Repeat: Going in Circles for Fun and Profit .....</b>	<b>175</b>
The Repeat Statement .....	175
Searching for a word that may not be in the text file .....	178
Working with lists and records .....	180
Finding files containing keywords .....	181
Using repeat times .....	182
Using repeat forever .....	182

<b>Chapter 12: Try: Dealing with Problems without Crashing</b> .....	<b>185</b>
Using the try Statement — the Simple Way .....	186
Advanced try Options .....	190
<b>Chapter 13: Handlers: Organizing Your Script</b> .....	<b>193</b>
Getting a Handle on Messages .....	193
Calling a handler with variables .....	194
Calling a handler with values .....	195
Understanding a variable scope .....	197
Passing data between handlers .....	198
Other handler syntaxes .....	201
<b>Chapter 14: Properties: Storing Data for Awhile</b> .....	<b>203</b>
Defining Properties .....	203
Using Read and Write .....	204
The read and write Commands .....	211
get eof .....	212
read .....	214
set eof .....	215
write .....	216
open for access .....	217
close access .....	217
<b>Chapter 15: Deploying Scripts: Cool Ways to Access Scripts</b> .....	<b>219</b>
Creating a Drag-and-Drop Script Application .....	219
Testing Your Drag-and-Drop Script .....	221
Using the Script Menu .....	222
Writing a Toolbar Script .....	224
Triggering Scripts with Speech .....	226
<b>Chapter 16: Autonomous Scripts: Working Unsupervised</b> .....	<b>227</b>
Writing Autonomous Scripts (Agents) .....	227
Displaying the Startup Screen .....	230
Testing Agents .....	231
Dealing with Quitting .....	232
Reacting to Changes: Folder Actions .....	232
Periodically Launching Scripts .....	235
Launching Scripts at Login and Logout .....	236
Scripting the Digital Hub .....	239
Scripts Can Be Applications, Too! .....	240

<b>Chapter 17: Taking Charge of Applications</b> .....	<b>241</b>
The Basics of Bossing Around Apps .....	241
Using a Dictionary without Knowing How the Words Are Spelled .....	244
Reading a value type (class) entry .....	244
Reading a command entry .....	247
Dictionaries aren't perfect .....	248
Differentiating between Good Applications and Pond Scum .....	251
Tell: Getting Applications to Pay Attention .....	253
Making a Good Recording — Even If You Can't Sing .....	256
<b>Chapter 18: Debugging: Fixing Problems without DDT</b> .....	<b>259</b>
The Art of Debugging .....	259
Not using global variables .....	260
Labeling variable names clearly .....	261
Breaking large scripts into modular handlers .....	261
Incrementally testing your script .....	264
Using rapid prototyping .....	265
Use lots of comments .....	265
Savvy Troubleshooting .....	266
Understanding the problem .....	267
Figuring out where the problem occurs in the script .....	268
Pinpointing why the error occurs .....	268
A diversion: Using the Event Log window to see what's going on in your script .....	270
Fixing the problem .....	275
Testing the solution .....	276
<b>Chapter 19: Scripting Additions: Taking AppleScript to New Heights</b> .....	<b>277</b>
Working with Scripting Additions .....	277
<b>Chapter 20: Script Objects: Recycling Scripts for a Healthy Environment</b> .....	<b>279</b>
Creating a Script Object .....	279
Using Inheritance .....	283
Using the continue statement .....	285
store script .....	286
load script .....	288
run script .....	289
<b>Chapter 21: Miscellaneous Advanced Stuff</b> .....	<b>291</b>
Timeout: Dealing with Slowpoke Applications .....	291
Transactions: Dealing with States .....	292
Considering and Ignoring: Changing the Rules .....	292

**Part III: How to Control the World —  
or at Least Some Common Programs.....295****Chapter 22: Finder/System Tricks without Touching the Mouse . . .297**

Some Quick Finder Tricks .....	298
Playing Hide and Seek with the Finder .....	300
Cleaning Up the Desktop by Tiling Windows .....	300
Showing Free Disk Space.....	304
Finding Scriptable Applications and Processing Every File to Boot .....	305
Working with System Events .....	307

**Chapter 23: Business Applications and Microsoft Office 2004 . . . .309**

FileMaker Pro.....	309
Scripting and Office: A History.....	311
Microsoft Word.....	312
Microsoft Excel.....	316
Microsoft PowerPoint.....	319

**Chapter 24: Layout and Graphics Applications . . . . .321**

OS X's Built-In Graphics Engine.....	321
Photoshop CS .....	323
InDesign CS .....	325

**Chapter 25: Scripting the Web . . . . .329**

Opening a Web Page .....	329
Scripting Web Surfing .....	330
Automating Your E-Mail.....	332
Working with iDisk .....	334
Working over a Network.....	335
Automating Web Services .....	338

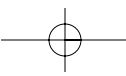

**Chapter 26: Scripting iLife . . . . .341**

Scripting iTunes .....	341
Scripting iPhoto.....	345
Scripting iDVD .....	347
Working with DVD Player .....	349
Working with iCal .....	350

**Chapter 27: GUI Scripting . . . . .351**

How GUI Scripting Works .....	351
Addressing an Item .....	352

<b><i>Part IV: The Part of Tens</i></b> .....	<b>355</b>
<b>Chapter 28: More Than Ten Scriptable Applications</b> .....	<b>357</b>
Business (Database, Spreadsheets).....	357
Charts/Drawing.....	358
Graphics/Digital Photos .....	358
Internet-Related (E-Mail, Web Browsers) .....	359
Miscellaneous .....	359
Multimedia (Music/Movies).....	360
Page Layout.....	360
Script Launchers/Utilities .....	360
Utilities.....	361
Web Development .....	361
Writing .....	362
<b>Chapter 29: More Than Ten Scripting Resources</b> .....	<b>363</b>
Web Sites .....	363
Mailing Lists/Discussion Boards .....	364
Tools.....	364
Scripting Additions .....	365
The Author or a Reasonable Facsimile Thereof .....	366
<b><i>Index</i></b> .....	<b>367</b>

***xviii*** **AppleScript For Dummies, 2nd Edition**
