Foreword	xxv
Preface	xxvii
List of Abbreviations	xxxi
1 INFECTIOUS DISEASES	1
1.10 Prolonged fever in the adult	2
1.20 Yersiniosis	4
1.21 Tularaemia	5
1.22 Erysipeloid	6
1.23 Listeriosis	6
1.24 Tetanus	7
1.25 Diphtheria	8
1.28 Methicillin-resistant Staphylococcus aureus (MRSA)	8
1.29 Lyme borreliosis (LB)	10
1.40 Influenza	14
1.41 Herpes zoster	16
1.42 Mononucleosis	17
1.43 Nephropathia epidemica (NE)	18
1.44 Pogosta disease	20
1.45 HIV infection	20
1.46 Suspicion of rabies	23
1.50 Schistosomal dermatitis	25
1.51 Echinococcosis	25
1.52 Tapeworm disease	26
1.53 Trichinosis	27
1.54 Ascariasis	27
1.55 Pinworm (enterobiasis)	28
1.60 Giardiasis	28
1.61 Cryptosporidiosis	30
1.62 Toxoplasmosis	31
1.63 Amoebiasis	33
1.70 Septicaemia	34
1.71 Infections in immunosuppressed and cancer patients	35
1.72 Prevention and treatment of infections in splenectomized patients	37
1.80 Ecology of the use of antimicrobial drugs	38
1.81 Guidelines for antimicrobial therapy	39
1.93 Streptococcal epidemics	41
2 TRAVELLING AND TROPICAL DISEASES	43
2.1 Traveller's infection prophylaxis	44
2.2 Diagnosis and prevention of malaria in travellers	45
2.3 Prevention and first aid treatment of traveller's diarrhoea	47
2.4 Air travel and illness	48
2.30 Fever in returning traveller	49
2.31 Bacterial diseases in warm climates	51
2.32 Viral diseases in warm climates	56
2.33 Parasitic diseases in warm climates: protozoa and worms	58
3 VACCINATIONS	63
3.1 Vaccinations	64

4	CARDIOVASCULAR DISEASES	69
4.1	Interpretation of adult ECG	70
4.2	Ventricular hypertrophies (RVH, LVH) in ECG	71
4.3	Bundle branch blocks in the ECG	72
4.5	Ambulatory ECG monitoring	77
4.6	Computerised ECG interpretation	78
4.7	Long QT syndrome (LQT)	78
4.8	Echocardiography	80
4.11	The most common acquired adult valvular heart diseases and associated murmurs	81
4.12	Heart valve replacement: patient follow-up	85
4.20	Hypertension: definition, prevalence and classification	87
4.21	Risk factors for hypertension	88
4.22	Diagnosis of and initial investigations for hypertension	88
4.23	Thresholds for starting therapy and targets for treatment of hypertension	90
4.24	Non-pharmacological therapy for hypertension	91
4.25	Pharmacotherapy of hypertension	93
4.26	Antihypertensive drug choice for different patient groups	96
4.27	Left ventricular hypertrophy (LVH) in hypertensive patients	98
4.28	Secondary hypertension	100
4.35	Symptoms of arrhythmia and examination of an arrhythmia patient	102
4.36	Syncope: causes and investigations	103
4.37	Supraventricular ectopic beats	106
4.38	Sinus tachycardia	106
4.39	Supraventricular tachycardia (PSVT)	107
4.40	Ventricular ectopic beats	110
4.41	Ventricular tachycardia	111
4.42	Differential diagnosis of broad complex tachycardia	111
4.43	Bradycardia	112
4.45	Atrial fibrillation: drug treatment and electric cardioversion	113
4.46	Indications and contraindications for anticoagulation in atrial fibrillation	115
4.47	Sick sinus syndrome	118
4.48	Cardiac pacemakers: follow-up of patients and surveillance of pacemaker function	118
4.55	Differential diagnosis of chest pain	121
4.58	Unstable angina pectoris	122
4.59	Nitrate infusion in angina pectoris and myocardial infarction	124
4.60	Myocardial infarction	125
4.61	Thrombolytic therapy and PTCA in acute ST elevation myocardial infarction (STEMI)	132
4.62	Right ventricle infarction	135
4.63	Coronary heart disease (CHD): symptoms, diagnosis and treatment	136
4.64	Coronary angiography and indications for CABG or angioplasty	141
4.65	Follow-up of a revascularized patient	142
4.70	Acute pulmonary oedema	143
4.71	CPAP treatment in pulmonary oedema	144
4.72	Chronic heart failure	145
4.81	Prevention of bacterial endocarditis	152
4.82	Myocarditis	153
4.85	Dilated cardiomyopathy	155
4.86	Hypertrophic cardiomyopathy	156
4.90	Primary pulmonary hypertension	156
5	VASCULAR DISEASES	159
5.10	Leg oedema	160
5.11	Calf pain	162
5.20	Doppler stethoscopy in diagnostics	162
5.35	Superficial venous thrombosis	164

5.40	Deep venous thrombosis	165
5.41	Thrombophilia (inherited).....	168
5.42	Prevention of venous thrombosis	170
5.43	Pulmonary embolism (PE).....	172
5.44	Oral anticoagulation therapy.....	176
5.50	Conservative treatment of leg ulcers	179
5.52	Pinch grafting of the skin.....	180
5.53	Intermittent compression for leg swelling.....	181
5.60	Ischaemic disease of the lower limb.....	181
5.61	Cholesterol embolization.....	184
5.62	Vibration syndrome (vibration-induced white fingers).....	184
5.63	Aortic aneurysm and dissection.....	185
6	PULMONARY DISEASES	187
6.1	Haemoptysis.....	188
6.2	Prolonged cough in adults	188
6.3	Dyspnoea	190
6.4	Hyperventilation	192
6.5	Acute respiratory failure	193
6.7	Pulmonary function tests.....	194
6.10	Acute bronchitis	197
6.11	Pneumonia.....	199
6.12	Mycoplasma pneumoniae infections	201
6.20	Exposure to tuberculous infection	202
6.21	Diagnosing tuberculosis.....	204
6.22	Antituberculous medication in ambulatory care	205
6.23	Atypical mycobacterial infections.....	206
6.24	Bronchiectasias	207
6.30	Asthma: symptoms and diagnosis.....	208
6.31	Long-term management of asthma.....	210
6.32	Treatment of acute exacerbation of asthma	212
6.33	Occupational asthma	214
6.34	Chronic obstructive pulmonary disease (COPD).....	216
6.40	Pulmonary fibrosis.....	219
6.41	Allergic alveolitis (farmer's lung, etc.).....	220
6.42	Eosinophilic pneumonia.....	221
6.43	Sarcoidosis	221
6.44	Acute pulmonary reactions to irritant gases	223
6.50	Lung cancer	224
6.51	Palliative treatment of a patient with lung cancer.....	226
6.55	Asbestos-related diseases	226
6.56	Silicosis	228
6.60	Foreign body in the respiratory passages	229
6.61	Pneumothorax	230
6.62	Pneumomediastinum	232
6.71	Sleep apnoea	232
6.80	Pleural effusions; thoracentesis.....	234
7	ORAL MEDICINE	237
7.10	Dryness of the mouth	238
7.11	Cheilitis.....	239
7.12	Disturbances of taste	239
7.13	Bad breath.....	240
7.14	Swelling of the salivary glands	240
7.15	Burning mouth and glossalgia.....	242

7.17	Malocclusions	244
7.20	Oral mucosal ulcers	245
7.21	Viral infections of the oral mucosa	245
7.22	Oral fungal infections	247
7.23	Skin diseases and the mouth	248
7.24	Benign lesions of the tongue	252
7.25	Cancer and oral health	253
7.26	Cleft palate	253
7.30	Developmental defects in teeth	254
7.31	Dental caries and other diseases of the hard tissues of the teeth and dental pulp	256
7.32	Periodontal diseases (gingival inflammation and dental calculus)	257
7.33	Dental traumas	257
7.34	First aid for severe dental pain	258
7.36	Emergency treatment of a gingival abscess	259
8	GASTROENTEROLOGY	261
8.1	Involuntary weight loss	262
8.2	Nausea and vomiting	263
8.3	Motion sickness	265
8.4	Dysphagia	266
8.5	Haematemesis	268
8.6	Faecal incontinence	269
8.7	Obstipation in the adult	271
8.8	Abdominal pain and swelling—the irritable bowel	272
8.9	Acute abdomen in the adult	274
8.10	Syndroma pelvis spastica	276
8.20	Organizing endoscopy in primary care	276
8.21	Gastrosocopy	277
8.22	Sigmoidoscopy and colonoscopy	279
8.30	Heartburn; reflux oesophagitis	281
8.31	Dyspepsia	284
8.32	Treatment of dyspepsia, peptic ulcer and helicobacter infection	287
8.33	Safe use of non-steroidal anti-inflammatory drugs (NSAIDs)	289
8.40	Orientation on diarrhoea in adult patients	291
8.41	Clinical features and treatment of diarrhoea in adults according to aetiology	293
8.42	Antibiotic diarrhoea	296
8.43	Food poisoning	297
8.44	Prolonged diarrhoea in the adult	298
8.50	Examining a patient with rectal bleeding	300
8.51	Diseases causing rectal bleeding	301
8.52	Melena	303
8.60	Anal pain	303
8.61	Pruritus ani	306
8.62	Haemorrhoids	306
8.63	Anal fissure	308
8.64	Anal abscess	308
8.70	Colorectal cancer	309
8.71	Prevention and screening of colorectal cancer	310
8.72	Postoperative follow-up of colorectal cancer	311
8.73	Long-term follow-up of patients at risk of colorectal cancer	312
8.80	Chronic inflammatory bowel disease	312
8.81	Intestinal obstruction, paralytic ileus, and pseudo-obstruction	315
8.82	Diverticulitis and diverticulosis	316
8.83	Lactose intolerance	317
8.84	Coeliac disease	318
8.85	Hernias	320
8.86	Postoperative gastric problems	322

9 HEPATOLOGY AND PANCREATIC DISEASES	323
9.10 The icteric patient	324
9.11 Gilbert's syndrome	325
9.12 Assessing a patient with an abnormal liver function test result	325
9.13 Alkaline phosphatase (ALP).....	326
9.20 Viral hepatitis	327
9.21 Chronic hepatitis	332
9.22 Cirrhosis of the liver	333
9.23 Primary biliary cirrhosis	335
9.24 Cholelithiasis	336
9.25 Sclerosing cholangitis	337
9.30 Acute pancreatitis.....	338
9.31 Recurrent or chronic pancreatitis	339
9.32 Pancreatic insufficiency	340
9.33 Carcinoma of the pancreas	341
10 NEPHROLOGY	343
10.1 Polyuria	344
10.2 Elevated serum creatinine.....	345
10.3 Proteinuria	346
10.4 Sampling and investigating urine	348
10.10 Treatment of urinary tract infection	350
10.20 Acute renal failure	352
10.21 Treatment of chronic renal failure	354
10.22 Kidney transplantation	357
10.30 Nephrotic syndrome	358
10.31 Glomerulonephritis	359
10.32 IgA nephropathy	360
10.40 Renal cysts	361
10.41 Rhabdomyolysis	362
11 UROLOGY	365
11.2 Poor urine flow	366
11.3 Urinary retention.....	366
11.4 Urinary incontinence in women.....	367
11.5 Haematuria	368
11.6 Urinary bladder tamponade (blood clots in the bladder)	370
11.7 Haematospermia	371
11.10 Acute prostatitis.....	371
11.11 Chronic prostatitis	371
11.12 Benign prostatic hyperplasia.....	372
11.13 Prostate cancer	374
11.20 Balanitis, balanoposthitis, and paraphimosis in the adult.....	377
11.21 Peyronie's disease (Induratio penis plastica)	378
11.22 Testis pain	378
11.23 Enlarged scrotum or palpable mass in scrotum	379
11.30 Choosing a method for bladder emptying.....	379
11.31 Catheterization of the urinary bladder	380
11.32 Suprapubic cystostomy.....	380
11.40 Impotence	381
11.41 Urinary calculi	383
11.43 Cancers of the urinary system and testes	385
11.45 Hypogonadism in the aging male	387

12 SEXUALLY TRANSMITTED DISEASES	389
12.1 Chlamydial urethritis and cervicitis.....	390
12.2 Gonorrhoea	392
12.3 Syphilis	393
12.4 Human papillomavirus (HPV) infection (Condyloma).....	394
12.5 Genital herpes	396
12.6 Rare venereal diseases: chancres	397
13 DERMATOLOGY	399
13.1 One-glance diagnosis of dermatoses	400
13.2 Itch	402
13.3 Hair loss	404
13.5 Diagnostic tests in dermatology	405
13.6 Indications for and techniques of skin biopsy	406
13.10 Hand dermatitis	407
13.11 Inguinal dermatitis.....	409
13.12 Leg dermatitis	410
13.13 Allergic dermatitis	412
13.14 Toxic eczema.....	412
13.15 Seborrhoeic dermatitis	413
13.16 Nummular eczema.....	414
13.18 Herpesvirus skin infections	415
13.20 Erysipelas.....	416
13.21 Necrotising fasciitis and gas gangrene	418
13.22 Impetigo and other pyoderma	418
13.23 Skin abscess and folliculitis	420
13.30 Warts (verruca vulgaris)	421
13.31 Molluscum contagiosum	422
13.40 Scabies	423
13.41 Head lice and pubic lice	425
13.42 Insect bites and stings	425
13.50 Dermatomycoses	427
13.51 Pityriasis versicolor.....	433
13.60 Acne	433
13.61 Rosacea	435
13.62 Perioral dermatitis	436
13.70 Chronic bullous diseases (dermatitis herpetiformis, pemphigoid)	436
13.71 Psoriasis	438
13.72 Pityriasis rosea	442
13.73 Lichen planus	442
13.74 Hives (urticaria).....	443
13.75 Erythema nodosum	445
13.76 Solar keratosis	445
13.77 Skin cancer	446
13.79 Keloid.....	452
13.80 Ingrowing toenail: avulsion of the nail edge and phenolization	452
13.81 Protecting the skin from freezing, sun, and drying	453
13.82 Drugs and light sensitivity.....	454
13.83 Prevention and treatment of pressure sores	455
14 ALLERGOLOGY	457
14.1 Anaphylaxis	458
14.2 Investigation of atopy	459
14.3 Hypersensitivity to drugs	460

14.4	Food additives and hypersensitivity	464
14.5	Latex allergy	465
14.6	Food hypersensitivity and allergy	465
14.7	Cow's milk allergy	467
14.8	How to investigate symptoms associated with foods?	469
14.9	Allergen-specific immunotherapy	470
14.10	Hereditary angioedema (HAE) and ACE inhibitor-induced angioedema	471
15	HAEMATOLOGY	475
15.1	Bone marrow examination	476
15.2	Blood films	477
15.3	Elevated ESR (hypersedimentation)	477
15.4	Leucocytosis	479
15.5	Leucocytopenia	480
15.6	Eosinophilia	482
15.7	Erythrocytosis	484
15.8	Macrocytosis (increased MCV)	485
15.9	Thrombocytosis	485
15.10	Thrombocytopenia	486
15.20	Assessment of anaemia in adults	488
15.21	Iron deficiency anaemia	489
15.22	Anaemia of pregnancy	490
15.23	Secondary anaemia	491
15.24	Megaloblastic anaemia	491
15.25	Haemolytic anaemia	493
15.30	Easy bruising, petechiae and ecchymoses	494
15.31	Assessment and treatment of a patient with bleeding diathesis	496
15.32	Haemophilia and von Willebrand's disease	498
15.39	Tumours of haematopoietic and lymphoid tissues: general guidelines	499
15.40	Chronic myelogenous leukaemia (CML)	500
15.41	Polycythaemia vera (PV)	502
15.42	Myelofibrosis (MF)	503
15.43	Chronic lymphocytic leukaemia (CLL)	505
15.44	Lymphomas	506
15.45	Acute leukaemia in adults	509
15.46	Multiple myeloma (MM)	511
15.47	Waldenström's macroglobulinaemia (WM)	513
15.48	Myelodysplastic syndromes (MDS)	514
15.49	Essential thrombocythaemia (ET)	515
15.60	Indications for and techniques of red cell transfusion	516
15.61	Transfusion reactions	518
16	ONCOLOGY	519
16.1	Adverse effects of radiotherapy	520
16.2	Adverse effects of antineoplastic drugs	521
16.10	Pharmacological treatment of cancer pain	522
16.11	Palliative treatment of cancer	525
16.20	Public health policy on screening for cancer	531
16.21	Problems of long-term survivors of childhood cancer	532
17	ANAESTHESIOLOGY	535
17.1	Resuscitation	536
17.2	Endotracheal intubation	538

CONTENTS

17.3	Prehospital emergency care.....	539
17.10	Blood gas analysis and acid-base balance	545
17.11	Pulse oximetry	546
17.20	Treatment of poisoning	548
17.21	Drug poisoning	551
17.22	Poisoning caused by inebriating substances (alcohols, drugs)	554
17.24	Carbon monoxide poisoning.....	556
17.30	Preoperative assessment.....	557
17.40	Chronic pain	560
18	TRAUMATOLOGY AND PLASTIC SURGERY	565
18.1	Facial injuries	566
18.2	Skull and brain injury	567
18.3	Brain concussion (commotio cerebri)	568
18.4	Brain contusion	569
18.5	Intracranial haematomas	569
18.6	Dislocation of the temporomandibular joint	571
18.10	Fractures of the spine	571
18.11	Spinal cord injuries.....	572
18.12	Fractures of the ribs and pelvis	574
18.20	Fractures of clavícula and scapula	575
18.21	Dislocation of the shoulder	575
18.22	Dislocation of the acromioclavicular joint	576
18.23	Treatment of humeral and forearm fractures.....	577
18.24	Dislocation of the elbow joint.....	579
18.25	Treatment of wrist and metacarpal fractures.....	579
18.26	Dislocation of the interphalangeal (IP) joint and injury of the first metacarpophalangeal (MCP) collateral ligament.....	582
18.30	Femoral fractures	583
18.31	Knee fractures.....	584
18.32	Dislocation of the patella	585
18.33	Knee injuries	586
18.34	Fractures of the leg.....	587
18.35	Casts in the treatment of lower extremity fractures.....	588
18.36	Ankle fractures.....	589
18.37	Sprain of the ankle	591
18.38	Treatment of foot fractures	592
18.39	Post-operative treatment of osteosynthesis and indications for the removal of the osteosynthetic material	593
18.40	Burn injuries	593
18.41	Electrical trauma	595
18.42	Frostbite injuries	596
18.43	Hypothermia	596
18.50	Indications for plastic surgery	597
18.51	Injuries requiring plastic surgery.....	597
18.52	Lymphoedema.....	598
18.53	Replantation of the extremity or part of the body	598
18.54	Breast reconstruction	599
18.60	Subunguinal haematoma	600
18.61	Muscle injuries.....	600
18.62	Bite wounds	601
18.63	Acute heat illnesses	601
18.64	Stress fracture	603
19	SPORTS MEDICINE	605
19.1	Physical activity in the prevention, treatment and rehabilitation of diseases.....	606
19.2	Contraindications to physical exercise.....	611

19.4	Diving medicine and hyperbaric oxygen therapy	611
19.10	ECG in athletes	614
19.11	Doping in sports	615

20 PHYSICAL MEDICINE AND ORTHOPAEDICS 617

20.1	Neck and shoulder pain	618
20.2	Examination of the shoulder joint	620
20.5	Disorders of the rotator cuff of the shoulder	621
20.6	Biceps muscle tendinitis and rupture	623
20.9	Winged scapula (Scapula alata)	623
20.20	Tennis elbow	624
20.21	Radial styloid tendovaginitis (De Quervain's disease).....	624
20.22	Ganglion	625
20.23	Lunatomalacia (Kienböck's disease).....	625
20.24	Dupuytren's contracture.....	626
20.30	Low back pain	626
20.33	Lumbar spinal stenosis	633
20.34	Groin pain	634
20.35	Buttock and hip pain	635
20.36	Trochanteric bursitis.....	635
20.40	Painful knee	636
20.41	Examination of knee instability	636
20.42	Patellar chondromalacia.....	637
20.43	Jumper's knee.....	638
20.44	Meniscus tears	638
20.45	Baker's cyst	639
20.46	Bursitis (patella and elbow)	639
20.47	Osteochondritis dissecans in the knee	640
20.50	Painful conditions of the ankle and foot in children and adults	640
20.51	Heel pain	641
20.52	Achilles tendon peritendinitis and tendon rupture.....	642
20.53	Hallux valgus	643
20.60	Thoracic outlet syndrome.....	645
20.61	Carpal tunnel syndrome (CTS).....	645
20.62	Ulnar tunnel syndrome.....	647
20.63	Meralgia paraesthetica	647
20.72	Acupuncture	648
20.75	Treatment of osteoarthritis.....	650
20.76	Early recognition of complications after joint replacement	653
20.80	Restless legs, akathisia and muscle cramps.....	654
20.81	Muscle compartment syndromes	654
20.90	Bone tumours	655
20.91	Sarcomas	656
20.92	Fibromyalgia	657
20.93	Tietze's syndrome	658
20.94	Treatment of an amputated inferior limb.....	658

21 RHEUMATOLOGY 661

21.1	Clinical examination of patients with joint inflammation in primary health care.....	662
21.2	Diagnosis of joint inflammation in the adult	664
21.3	Disease-specific symptoms and signs in patients with inflammatory joint diseases	665
21.4	Raynaud's phenomenon and acrocyanosis	667
21.10	Local corticosteroid injections in soft tissues and joints	668
21.11	Investigation of synovial fluid.....	669
21.20	Drug treatment of rheumatoid arthritis	670
21.21	Follow-up of a patient with rheumatoid arthritis.....	673

CONTENTS

21.22	Rheumatic surgery	674
21.30	Psoriatic arthropathy.....	675
21.31	Reactive arthritis and rheumatic fever.....	676
21.32	Ankylosing spondylitis.....	678

30 GENETICS

Emerging topic for future edition

31 PAEDIATRIC INFECTIOUS DISEASES 937

31.1	Child with fever but no localizing symptoms	938
31.2	Treatment of fever in children	938
31.3	Fever and rash in a child	940
31.10	Tonsillitis and pharyngitis in children	940
31.11	Sinusitis in children	941
31.12	Wheezing in children.....	943
31.13	Treatment of obstructive bronchitis and acute asthma in children	944
31.14	Diagnosis and treatment of childhood asthma.....	946
31.15	Laryngitis in children	949
31.16	Epiglottitis in children and adults.....	950
31.17	Prolonged cough in children.....	951
31.19	Whooping cough.....	952
31.20	When should a child with a cough be treated with antibiotics?.....	953
31.21	Treatment of pneumonia in children.....	954
31.22	Indications for and interpretation of chest x-ray in a child with symptoms of an infection	954
31.23	Cystic fibrosis	955
31.30	Oral candidiasis in children	956
31.31	Stomatitis in children.....	956
31.39	Prevention of otitis media in children	957
31.40	Otitis media in children: definition, epidemiology and diagnosis	958
31.42	Treatment and follow-up of acute otitis media in children.....	961
31.43	Acoustic impedance testing.....	964
31.44	Treating low middle ear pressure with nasal insufflation.....	965
31.45	Otorrhoea in children with tympanostomy tubes	966
31.50	Chickenpox.....	966
31.52	Rubella.....	967
31.53	Erythema infectiosum	968
31.54	Exanthema subitum.....	969
31.60	Urinary tract infection in a child.....	969
31.61	Urine aspiration sampling in children	972
31.70	Meningitis in children.....	972
31.71	Encephalitis in children	973
31.81	Infections in immunocompromized children.....	974
31.83	Mumps.....	974
31.84	Discharging BCG scars in infants	975

32 PAEDIATRICS 977

32.1	Anaemia in children	978
32.2	Bruises and purpura in children: ITP and its differential diagnosis	979

CONTENTS

32.3	Enlarged lymph nodes and other neck lumps in children	980
32.10	Interpretation of ECG in children	981
32.11	Hypertension in children	983
32.20	Investigating a child with abdominal symptoms	984
32.21	Acute abdominal symptoms in children	985
32.22	Recurrent abdominal pain in children	987
32.23	Diarrhoea and vomiting in children	988
32.25	Foreign body in the gastrointestinal tract of a child	989
32.30	Ingestion of a caustic substance in a child	989
32.31	Adder (<i>Vipera berus</i>) bite	990
32.40	Nappy rash	992
32.41	Itch in a child	992
32.42	Atopic dermatitis in children: clinical picture and diagnosis	992
32.43	Treatment of atopic dermatitis in children	993
32.50	Clinical examination of a child with arthritic symptoms	994
32.51	Diagnosis and epidemiology of arthritis in children	995
32.52	Urticaria and arthritis (serum sickness)	996
32.53	Henoch-Schönlein purpura	997
32.54	Transient synovitis of the hip	998
32.55	Enteroarthritis, borrelia and other acute forms of arthritis in children	998
32.56	Juvenile rheumatoid arthritis	999
32.57	Kawasaki disease	1000
32.60	A child with a limp or refusing to walk	1000
32.61	Epiphysiolysis of the femoral head	1001
32.62	Perthes' disease (Legg-Calvé-Perthes disease, pseudocoxalgia)	1002
32.63	Osgood-Schlatter disease	1002
32.64	Back problems in children and adolescents	1003
32.65	Innocent leg aches in children	1004
32.70	Injuries in children: lacerations and incisions	1004
32.71	Excoriations and bite injuries in children	1005
32.73	Fractures in children	1006
32.74	Joint and ligament injuries in children	1007
32.75	Central nervous system injuries in children	1007
32.76	Intra-abdominal injuries and bleeding in children	1008
32.77	Suturing a wound	1008
32.80	Incidental glucosuria in children	1009
32.82	Rickets	1009
32.83	Diagnosis and treatment of childhood hypercholesterolaemia	1010
32.91	Guidelines regarding sudden unexpected death in infancy	1011

33 PAEDIATRIC PSYCHIATRY

1015

33.1	Babies with a tendency to cry – from the point of view of a child psychiatrist	1016
33.2	Recurring psychogenic stomach-aches and headaches among children	1018
33.3	Childhood depression	1018
33.4	Adjustment disorders in childhood	1021
33.5	Childhood panic disorder	1021
33.6	Obsessive-compulsive disorder in children	1022
33.7	Learning disorders	1023
33.8	Conduct disorders of children and adolescents	1024
33.9	A child psychiatrist's view of enuresis	1025
33.10	Encopresis	1026
33.11	Tic disorders in childhood	1027
33.12	Selective mutism	1028
33.13	Autism	1028
33.14	Suicidal behaviour in childhood and adolescence	1030
33.15	Psychiatric illness of a parent with respect to the child	1031

33.20	Psychopharmacotherapy of children and adolescents	1032
33.21	Psychotherapeutic forms of treatment for children and adolescents.....	1034
33.30	Bullying at school	1036
33.32	Violence and abuse towards children and adolescents.....	1037
33.33	Recognition and treatment of sexual abuse of a child.....	1039
34	ADOLESCENT PSYCHIATRY	1041
34.10	Eating disorders among children and adolescents.....	1042
34.11	Depression of adolescents	1043
34.12	Risk of suicide in adolescence	1045
34.13	Adolescent psychosis.....	1046
34.14	The adolescent and long-term illness.....	1048
34.15	Marginalization of adolescents	1049
34.20	Psychiatric evaluation and referral to treatment of adolescents.....	1049
34.30	Substance abuse of adolescents	1051
35	PSYCHIATRY	1053
35.1	Mental disorders due to organic disease	1054
35.2	A patient with psychosomatic symptoms	1055
35.3	Treatment of insomnia	1057
35.4	A violent patient	1059
35.5	A Suicidal patient	1060
35.11	Schizophrenia	1061
35.12	Delusional disorder	1064
35.13	Postpartum psychosis and other postpartum mental disorders	1065
35.14	Neuroleptic malignant syndrome (NMS).....	1067
35.20	Recognition and diagnostics of depression	1068
35.21	Major depressive disorder	1069
35.22	Bipolar disorder (manic-depressive disorder).....	1071
35.23	Chronic depression (dysthymia).....	1073
35.25	Depression and other psychiatric disorders	1074
35.27	Depression, drugs and somatic diseases.....	1075
35.29	Panic disorder	1076
35.31	Anxiety disorder	1078
35.32	Obsessive-compulsive disorder (OCD).....	1080
35.33	Antisocial personality disorder	1081
35.34	Adjustment disorders.....	1082
35.36	Acute stress reaction and post-traumatic stress disorder.....	1083
35.40	Drugs used in psychiatric emergencies.....	1085
35.41	Antidepressants from the General Practitioner's viewpoint	1087
35.42	Clozapine therapy	1092
35.43	Drug treatment of anxiety and related disorders	1093
35.50	Psychotherapy in general practice	1094
35.51	Psychotherapies for adults	1095
35.62	Transsexualism.....	1098
36	NEUROLOGY	1101
36.1	Evaluation of a neurological patient	1102
36.2	Paralysis—muscle weakness	1102
36.3	Gait disturbances	1104
36.4	Differential diagnostics of paroxysmal loss of consciousness	1105
36.5	An unconscious patient	1106
36.6	Involuntary movements	1109
36.7	Size difference between pupils.....	1110

CONTENTS

36.8	Double vision (diplopia)	1111
36.9	Sleep disorders	1112
36.10	Fatigued or tired patient	1113
36.15	Clinical use of neuroradiological imaging	1114
36.16	Clinical use of neurophysiological tests	1116
36.17	Lumbar puncture, examination of cerebrospinal fluid and findings	1117
36.20	Memory disorders and dementia	1119
36.21	Examination of patients with memory disorders and dementia	1121
36.22	Treatable causes of dementia and memory disorder	1122
36.23	Vascular dementia	1123
36.24	Alzheimer's disease	1124
36.25	Other conditions leading to dementia	1125
36.27	Treatment of dementia	1126
36.28	Neuropsychological disorders	1127
36.30	Transient ischaemic attack (TIA)	1128
36.31	Cerebral infarction	1130
36.32	Subarachnoid haemorrhage (SAH)	1133
36.33	Intracerebral haemorrhage	1135
36.34	Rehabilitation of the stroke patient	1136
36.40	Aphasia and dysphasia	1137
36.45	Examination of patients with epileptic symptoms	1139
36.46	Treatment of status epilepticus	1140
36.47	Treatment of epilepsy in adults	1140
36.48	Epileptic patients in traffic and at work	1144
36.49	Alcohol and epilepsy	1144
36.55	Infection and central nervous system manifestation	1145
36.56	Meningitis	1146
36.57	Encephalitis	1148
36.58	Brain abscess	1150
36.59	Slow viral infections of the central nervous system	1150
36.60	Poliomyelitis and post-polio syndrome	1151
36.65	Headache	1151
36.66	Tension-type headache	1154
36.67	Migraine	1155
36.68	Cluster Headache (Horton's syndrome)	1156
36.70	Tremor	1157
36.71	Essential tremor	1158
36.72	Parkinson's disease	1159
36.73	Neurological complications of alcoholism	1162
36.75	Multiple sclerosis (MS)	1164
36.81	Rehabilitation in spinal cord injuries	1165
36.82	Diseases of the spinal cord	1166
36.83	Treatment of spasticity	1168
36.84	Amyotrophic lateral sclerosis (ALS)	1169
36.85	Myopathies	1171
36.86	Myasthenia gravis and myasthenic syndrome	1173
36.87	Peripheral neuropathies: examination of the patient	1174
36.88	Nerve entrapment and compression disorders	1175
36.89	Quick diagnostics of peripheral nerve disorders	1177
36.90	Polyneuropathies	1178
36.91	Radiculopathies	1180
36.92	Guillain-Barré syndrome (polyradiculitis)	1182
36.93	Facial paralysis	1183
36.94	Trigeminal neuralgia	1184
36.95	Hiccup	1185
36.96	Increased intracranial pressure	1185
36.98	Sequelae of traumatic brain injury	1186
36.99	Brain tumours	1187

37 OPHTHALMOLOGY	1191
37.1 Assessment of vision	1192
37.2 Assessment of visual impairment and disability	1193
37.3 Refractive errors	1194
37.4 Work with visual display terminals (VDTs) and health	1196
37.5 Impaired vision	1196
37.6 Red, wet, or sore eye	1202
37.7 Pain in and around the eye	1203
37.10 Entropion and ectropion	1203
37.11 Ptosis	1204
37.12 Lagophthalmos	1204
37.13 Chalazion and hordeolum	1205
37.15 Blepharitis	1205
37.16 Preseptal cellulitis and eyelid wounds	1206
37.20 Orbital cellulitis	1206
37.21 Subconjunctival haemorrhage (suggillation)	1206
37.22 Conjunctivitis	1207
37.23 Pterygium	1208
37.24 Corneal ulcers and erosions	1209
37.25 Marginal ulcer of the cornea	1209
37.26 A foreign body on the cornea	1210
37.27 Ocular injuries	1210
37.28 Photophobia	1211
37.29 Eye problems in contact lens users	1212
37.30 Dry eye syndrome	1213
37.31 Episcleritis	1213
37.32 Iridocyclitis (iritis)	1214
37.33 Cataract	1215
37.34 Glaucoma	1216
37.40 Occlusion of the central retinal artery	1217
37.41 Retinal venous thrombosis	1218
37.42 Vitreous haemorrhage (VH)	1219
37.43 Detached retina	1220
37.44 Age-related macular degeneration (ARMD)	1220
37.45 Retinoblastoma	1221
37.46 Quinine amblyopia	1222
38 OTORHINOLARYNGOLOGY	1223
38.1 Upper respiratory tract infections in adults	1224
38.2 Hoarseness, laryngitis and dysphonia	1225
38.3 Ear pain in an adult	1227
38.4 Tinnitus	1227
38.5 Ear wax	1228
38.6 Disturbances of the sense of smell	1229
38.8 A lump on the neck	1229
38.9 Globus syndrome (sensation of a lump in the throat)	1230
38.15 Interpretation of an audiogram: impaired hearing	1231
38.16 Technical rehabilitation of hearing impairment	1233
38.17 Otosclerosis	1234
38.20 Sore throat and tonsillitis	1235
38.21 Throat bacterial swab	1237
38.22 Drainage of a peritonsillar abscess	1238
38.24 Chronic pharyngitis	1239
38.30 Diagnosis of sinusitis	1240
38.31 Acute maxillary sinusitis	1241
38.32 Acute frontal sinusitis	1242

CONTENTS

38.33	Chronic sinusitis	1243
38.35	Acute otitis media in adults	1244
38.36	Chronic otitis media	1244
38.37	Otitis externa	1246
38.38	Acute mastoiditis	1247
38.40	Injuries of the auricle	1247
38.41	Barotitis and barotrauma	1248
38.42	Noise-induced hearing loss	1249
38.43	Fracture of the nose	1250
38.44	Foreign body in the ear canal	1250
38.45	Foreign body in the nose	1251
38.46	Epistaxis	1251
38.50	Allergic rhinitis	1253
38.51	Examination of a nasal smear	1254
38.53	Occupational rhinitis	1255
38.54	Nasal polyposis	1256
38.55	Nasal obstruction	1257
38.56	Atrophic rhinitis and ozaena	1258
38.60	Tumours of the ear canal	1258
38.61	External tumours of the nose	1259
38.62	Tumours of the nasal and paranasal cavities	1260
38.70	Vertigo	1261
38.71	Ménière's disease	1263
38.72	Benign positional vertigo	1264

39 CLINICAL PHARMACOLOGY

Emerging topic for future edition

40 ALCOHOL AND DRUGS 1267

40.1	Recognition of alcohol and drug abuse	1268
40.2	Providing care for an alcohol or drug abuser	1271
40.3	Brief interventions for heavy use of alcohol	1272
40.5	Treatment of alcohol withdrawal	1274
40.6	Drugs used in alcohol dependence	1275
40.10	Encountering a drug addict in ambulatory care	1276
40.11	Treatment of drug addicts	1277
40.12	Steroid doping	1280
40.20	Smoking cessation	1281
40.21	The most common health risks of smoking	1285

41 FORENSIC MEDICINE 1287

41.2	Determining the time of death	1288
------	-------------------------------------	------

42 RADIOLOGY 1291

42.1	Opacity in chest x-ray	1292
42.2	Urography and pyelography	1293
42.3	Ultrasonographic examinations: indications and preparation of the patient	1293
42.4	Determining the volume of residual urine by ultrasonography	1295

43 ADMINISTRATION 1297

43.53	Health care for refugees arriving in Northern Europe	1298
-------	--	------

44 OCCUPATIONAL HEALTH SERVICE	1301
44.20 Physical hazards at work	1302
44.21 Chemical hazards at work	1302
44.23 Occupational exposure to viral agents	1304
44.25 Burnout	1305
45 POLLUTION AND HEALTH	1307
45.1 Adverse health effects of ambient air pollution	1308
45.2 Epidemics due to contaminated drinking water	1308
45.3 Indoor air pollution	1309
45.4 Exposure to microbes in water-damaged buildings	1310
