<i>Foreword</i>	<i>xxiii</i>
<i>Introduction</i>	<i>xxvii</i>
Chapter 1 Web Analytics—Present and Future	1
A Brief History of Web Analytics	2
Current Landscape and Challenges	6
Traditional Web Analytics Is Dead	8
What Web Analytics Should Be	10
Measuring Both the What and the Why	12
Trinity: A Mindset and a Strategic Approach	15
Chapter 2 Data Collection—Importance and Options	23
Understanding the Data Landscape	24
Clickstream Data	25
Web Logs	26
Web Beacons	28
JavaScript Tags	30
Packet Sniffing	33
Outcomes Data	39
E-commerce	40
Lead Generation	40
Brand/Advocacy and Support	40
Research Data	42
Mindset	42
Organizational Structure	43
Timing	43
Competitive Data	44
Panel-Based Measurement	44
ISP-Based Measurement	46
Search Engine Data	47
Chapter 3 Overview of Qualitative Analysis	51
The Essence of Customer Centricity	52
Lab Usability Testing	52
Conducting a Test	53
Benefits of Lab Usability Tests	56
Things to Watch For	56

Heuristic Evaluations	57
Conducting a Heuristic Evaluation	58
Benefits of Heuristic Evaluations	60
Things to Watch For	61
Site Visits (Follow-Me-Home Studies)	61
Conducting a Site Visit	62
Benefits of Site Visits	63
Things to Watch For	64
Surveys (Questionnaires)	64
Website Surveys	64
Post-Visit Surveys	65
Creating and Running a Survey	66
Benefits of Surveys	69
Things to Watch For	70
Summary	72
Chapter 4 Critical Components of a Successful Web Analytics Strategy?	75
Focus on Customer Centricity	76
Solve for Business Questions	79
Follow the 10/90 Rule	81
Hire Great Web Analysts	84
Identify Optimal Organizational Structure and Responsibilities	93
Centralization	95
Decentralization	96
Centralized Decentralization	96
Chapter 5 Web Analytics Fundamentals	99
Capturing Data: Web Logs or JavaScript tags?	100
Separating Data Serving and Data Capture	100
Type and Size of Data	101
Innovation	101
Integration	102
Selecting Your Optimal Web Analytics Tool	102
The Old Way	103
The New Way	104
Understanding Clickstream Data Quality	108
Implementing Best Practices	113
Tag All Your Pages	114
Make Sure Tags Go Last (Customers Come First!)	114
Tags Should Be Inline	114
Identify Your Unique Page Definition	114
Use Cookies Intelligently	115
Consider Link-Coding Issues	116

Be Aware of Redirects	118
Validate That Data Is Being Captured Correctly	120
Correctly Encode Your Your Website Rich Media	120
Apply the “Three Layers of So What” Test.	121
Key Performance Indicator: Percent of Repeat Visitors	122
Key Performance Indicator: Top Exit Pages on the Website	123
Key Performance Indicator: Conversion Rate for Top Search Keywords	123
Chapter 6 Month 1: Diving Deep into Core Web Analytics Concepts	125
Week 1: Preparing to Understand the Basics.	126
Monday and Tuesday: URLs	126
Wednesday: URL Parameters	127
Thursday and Friday: Cookies	129
Week 2: Revisiting Foundational Metrics	132
Monday: Visits and Visitors	132
Tuesday and Wednesday: Time on Site	136
Thursday and Friday: Page Views	140
Week 3: Understanding Standard Reports.	142
Monday and Tuesday: Bounce Rate	142
Wednesday through Friday: Referrers—Sources and Search Key Phrases	145
Week 4: Using Website Content Quality and Navigation Reports. . .	149
Monday and Tuesday: Top Pages—Most Viewed, Top Entry, Top Exit	150
Wednesday: Top Destinations (Exit Links)	154
Thursday and Friday: Site Overlay (Click Density Analysis)	156
Chapter 7 Month 2: Jump-Start Your Web Data Analysis	161
Prerequisites and Framing.	162
Week 1: Creating Foundational Reports	162
Monday: Top Referring URLs and Top Key Phrases	164
Tuesday: Site Content Popularity and Home Page Visits	166
Wednesday and Thursday: Click Density, or Site Overlay	168
Friday: Site Bounce Rate	168
E-commerce Website Jump-Start Guide.	170
Week 2: Measuring Business Outcomes	170
Week 3: Indexing Performance and Measuring Merchandizing Effectiveness and Customer Satisfaction	174
Support Website Jump-Start Guide	177
Week 2: Walking in the Customer’s Shoes and Measuring Offline Impact	178
Week 3: Measuring Success by Using VOC or Customer Ratings (at a Site and Page Level)	182
Blog Measurement Jump-Start Guide	184
Week 2: Overcoming Complexity to Measure the Fundamentals (by Using New Metrics)	184
Week 3: Competitive Benchmarking and Measuring Cost and ROI	187
Week 4: Reflections and Wrap-Up	191

Chapter 8	Month 3: Search Analytics—Internal Search, SEO, and PPC	193
	Week 1: Performing Internal Site Search Analytics	194
	Monday: Understand the Value of the Internal Search	194
	Tuesday: Spot Internal Search Trends	198
	Wednesday: Analyze Click Density by Using the Site Overlay Report	200
	Thursday: Measure Effectiveness of Actual Search Results	200
	Friday: Measure Outcome Metrics for Internal Searches	202
	Week 2: Beginning Search Engine Optimization	202
	Monday: Understand the Impact of, and Optimize, Links	204
	Tuesday: Link to Press Releases and Social Sites	204
	Wednesday and Thursday: Optimize Web Page Tags and Content	205
	Friday: Provide Guidance for Search Robots	206
	Week 3: Measuring SEO Efforts	207
	Monday: Check How Well Your Site Is Indexed	207
	Tuesday: Track Inbound Links and Top Keywords	208
	Wednesday: Split Organic Referrals from PPC	210
	Thursday: Measure the Value of Organic Referrals	211
	Friday: Measure Optimization for Top Pages	212
	Week 4: Analyzing Pay per Click Effectiveness	214
	Monday: Understand PPC Basics	215
	Tuesday: Measure Search Engine Bid-Related Metrics	215
	Wednesday: Define Critical Bottom-Line-Impacting Metrics	216
	Thursday: Measure Unique Visitors	217
	Friday: Learn PPC Reporting Best Practices	217
Chapter 9	Month 4: Measuring Email and Multichannel Marketing	219
	Week 1: Email Marketing Fundamentals and a Bit More	220
	Monday: Understand Email Marketing Fundamentals	220
	Tuesday and Wednesday: Measure Basic Response Metrics	221
	Thursday and Friday: Measure Outcome Metrics	222
	Week 2: Email Marketing—Advanced Tracking	223
	Monday and Tuesday: Measure Website Effectiveness	223
	Wednesday: Avoid Email Analytics Pitfalls	224
	Thursday and Friday: Integrate Your Email Campaign with Your Web Analytics Tools	225
	Weeks 3 and 4: Multichannel Marketing, Tracking, and Analysis . .	225
	Week 3: Understanding Multichannel Marketing, and Tracking Offline-to-Online Campaigns	226
	Week 4: Tracking and Analyzing Multichannel Marketing	231
Chapter 10	Month 5: Website Experimentation and Testing— Shifting the Power to Customers and Achieving Significant Outcomes	237
	Weeks 1 and 2: Why Test and What Are Your Options?	238
	Week 1: Preparations and A/B Testing	238
	Week 2: Moving Beyond A/B Testing	242

Week 3: What to Test—Specific Options and Ideas.	250
Monday: Test Important Pages and Calls to Action	250
Tuesday: Focus on Search Traffic	251
Wednesday: Test Content and Creatives	251
Thursday: Test Price and Promotions	252
Friday: Test Direct Marketing Campaigns	253
Week 4: Build a Great Experimentation and Testing Program	254
Monday: Hypothesize and Set Goals	254
Tuesday: Test and Validate for Multiple Goals	256
Wednesday: Start Simple and Then Scale and Have Fun	257
Thursday: Focus on Evangelism and Expertise	258
Friday: Implement the Two Key Ingredients for Every Testing Program	259
Chapter 11 Month 6: Three Secrets Behind Making Web Analytics Actionable	263
Week 1: Leveraging Benchmarks and Goals in Driving Action	264
Monday and Tuesday: Understand the Importance of Benchmarks and Setting Goals	264
Wednesday: Leverage External Benchmarking	266
Thursday: Leverage Internal Benchmarking	269
Friday: Encourage and Create Goals	271
Week 2: Creating High Impact Executive Dashboards	275
Monday: Provide Context—Benchmark, Segment, and Trend	275
Tuesday: Isolate Your Critical Few Metrics	277
Wednesday: Don't Stop at Metrics—Include Insights	278
Thursday: Limit Your Dashboard to a Single Page	279
Friday: Know That Appearance Matters	280
Week 3: Using Best Practices for Creating Effective Dashboard Programs	281
Monday: Create Trinity Metrics That Have a Clear Line of Sight	281
Tuesday: Create Relevant Dashboards	283
Wednesday: One Metric, One Owner	284
Thursday: Walk the Talk	286
Friday: Measure the Effectiveness of Your Dashboards	286
Week 4: Applying Six Sigma or Process Excellence to Web Analytics	286
Monday: Everything's a Process	287
Tuesday through Thursday: Apply the DMAIC Process	293
Friday: Reflect on What You've Learned	296
Chapter 12 Month 7: Competitive Intelligence and Web 2.0 Analytics	297
Competitive Intelligence Analytics.	298
Week 1: Competitive Traffic Reports	299
Week 2: Search Engine Reports	304
Web 2.0 Analytics	314
Week 3: Measuring the Success of Rich Interactive Applications (RIAs)	315
Week 4: Measuring the Success of RSS	320

Chapter 13	Month 8 and Beyond: Shattering the Myths of Web Analytics	329
	Path Analysis: What Is It Good For? Absolutely Nothing	330
	Challenges with Path Analysis	331
	An Alternative: The Funnel Report	333
	Conversion Rate: An Unworthy Obsession	336
	Problems with Conversion Rate	337
	An Alternative: Task Completion Rate by Primary Purpose	338
	Perfection: Perfection Is Dead, Long Live Perfection	340
	Perfect Data	341
	Web at the Speed of Web	342
	Fractured Multisource Data	343
	Real-Time Data: It's Not Really Relevant, and It's Expensive to Boot	343
	Results of Getting Real-Time Data	344
	A Checklist for Real-Time Data Readiness	345
	Standard KPIs: Less Relevant Than You Think	347
Chapter 14	Advanced Analytics Concepts—Turbocharge Your Web Analytics	351
	Unlock the Power of Statistical Significance	352
	Use the Amazing Power of Segmentation	354
	Segmenting by Bounce	355
	Segmenting by Search	356
	Combining Search and Bounce	357
	Trending Segmented Data	357
	Make Your Analysis and Reports “Connectable”	359
	Using Pretty Pictures	360
	Using Connectable Language	361
	Use Conversion Rate Best Practices.	363
	Forget about Overall Site Conversion Rate	365
	Trend over Time and Don't Forget Seasonality	365
	Understand Your Website's/Company's Acquisition Strategy	366
	Measure Conversion Rate by the Top Five Referring URLs	367
	Don't Measure Conversion Rate by Page or Link	367
	Segment like Crazy	368
	Always Show Revenue Next to Conversion Rate	368
	Measure Conversion Rate with a Goal in Mind	369
	Elevate Your Search Engine Marketing/Pay Per Click Analysis	370
	Measure Your Bounce Rate (in Aggregate and by Top Key Phrases)	371
	Audit Your Vendors/Agencies	372
	Measure PPC Campaigns Cannibalization Rate (vs. Organic)	373
	Aggressively Push for Testing and Experimentation	375
	Strive for Multigoal Understanding of Visitors	375
	Measure the Adorable Site Abandonment Rate Metric	376
	Using Segmentation with Abandonment Rate	378
	Finding Actionable Insights and Taking Action	379

Measure Days and Visits to Purchase	380
How to Measure the KPIs	382
Finding Actionable Insights and Taking Action	382
Leverage Statistical Control Limits	385
Calculating Control Limits	387
A Practical Example of Using Control Limits	388
Measure the Real Size of Your Convertible “Opportunity Pie”	390
Use Bounce Rate	391
Filter Out Search Bots, Image Requests, 404 Errors, Website-Monitoring Software “Visits”	393
Use Customer Intent	394
Take Action	396
Chapter 15 Creating a Data-Driven Culture—Practical Steps and Best Practices	401
Key Skills to Look for in a Web Analytics Manager/Leader	402
Deep Passion for the Job	403
Loves Change, Owns Change	403
Questions Data to the Point of Being Rude	403
CDI Baby, CDI (Customer-Driven Innovation)	404
Not Really Good “Numbers Gods”	404
Raw Business Savvy and Acumen	405
Impressive People Skills	405
When and How to Hire Consultants or In-House Experts	406
Stage 1: Birth	408
Stage 2: Toddler to Early Teens	409
Stage 3: The Wild Youth	411
Stage 4: Maturity—You Are 30+	412
Seven Steps to Creating a Data-Driven Decision-Making Culture . . .	414
Go for the Bottom Line First (Outcomes)	414
Remember That Reporting Is Not Analysis, and Encourage the Latter	415
Depersonalize Decision Making	416
Be Proactive Rather Than Reactive	416
Empower Your Analysts	417
Solve for the Trinity	417
Got Process?	418
