Table of Contents

***Introduction* 1**

Woe Is Computer	1
About the For Dummies approach	2
Who Are You?	2
How This Book Works.....	3
How the DVD Works.....	4
Terms and Stuff to Know	5
Icons Used in This Book	5
Where to Go Now?.....	6
Final Thots.....	6

***Book 1: Hardware* 9**

Chapter 1: Let There Be PC 11

In the Beginning, There Was Power	11
What happens	11
What could go wrong	12
The First Test: Hardware Self-Diagnostics	12
What happens	12
What could go wrong	13
Your PC's Setup program	14
The Search for an Operating System	14
What happens	15
What could go wrong	15
The boot loader.....	16
Operating System Initialization.....	16
What happens	17
What could go wrong	17
Log On to Windows	17
What happens	17
What could go wrong	18
Personalized Start-Up.....	18
What happens	18
What could go wrong	18
Use Your PC.....	19
What happens	19
What could go wrong	19
The Last Thing You Do	19

Chapter 2: Birth Pangs	21
The Onset of PC Heartbreak.....	21
Nothing — I see nothing.....	22
POST errors	23
CMOS errors	24
There’s a BIOS password!	25
“Did my PC secretly restart?”	26
Operating System Trouble	26
The horrifying, blinking cursor	26
Changing the boot order.....	27
The No Operating System sisters	29
“Press any key to boot from the optical disc”	29
Removing a boot loader	30
Start-Up Menus	30
The boot menu	31
The F8 menu	32
The F5 menu	34
Start-up and recovery options	35
Windows Error Recovery menu.....	36
Chapter 3: Death Throes	39
To Quit or Not to Quit?	39
Shutting down a PC.....	39
Ending your Windows day.....	41
Finding the shutdown options	42
Setting the power button function.....	44
Shutdown Malaise	45
General shutdown advice	45
Turning off a stubborn PC	45
Slow shutdown.....	46
Someone else is logged in!.....	46
End now?.....	47
“The computer was improperly shut down!”	48
Windows Error Recovery menu	48
Power Management Issues	49
Activating power management in Windows XP	50
Enabling power management for specific devices	50
Activating hibernation	51
Finding hibernation	52
What is hybrid sleep?.....	53
Recovering from a PC coma	54
Problems with Restarting	54
Random restarts	55
Automatic restarts.....	55

Chapter 4: Mass Storage Issues	57
Mass Storage Overview.....	57
Understanding mass storage.....	57
Finding mass storage in Windows	58
Using the Disk Management console.....	59
Understanding Medea	60
Adding drives and media	60
Removing media.....	61
Removing drives	62
Hard Drive Stuff	63
Hard drive technical trivia.....	64
Partitions.....	65
The Master Boot Record.....	67
Optical Drive Death and Misery.....	68
Is the drive dead?.....	68
“A disk is stuck in the drive!”	69
The program won’t install	69
AutoPlay issues	70
The drive doesn’t record	71
The disc doesn’t record.....	73
On cleaning an optical drive.....	73
Professional Data Recovery	74
 Chapter 5: Pain in the Printer	 75
Marginal Printer Stuff.....	75
Amazing printers.....	75
Printing in Windows	76
Using the Page Setup dialog box.....	78
Dealing with printers.....	80
Checking the printer driver	81
Working with print jobs	82
Cancelling a print job	83
Using the Printing Troubleshooter.....	84
Visiting the Print Management window	84
General Printer Problems	85
Print Preview lies	85
Wrong colors, streaks, madness.....	86
Weird characters on the page.....	86
Page after page of gobbledygook.....	87
Printer jams	87
Page orientation.....	88
Envelopes must eat, too.....	88

Chapter 6: Seeing Trouble	91
The PC Graphics System	91
Know the terms	91
Graphical system overview	92
The display adapter	93
Display adapter info	94
The monitor	96
That second-monitor thing	99
Captain Video the Troubleshooter	100
Seeing nothing	101
Swapping solutions	101
Adjusting the monitor	102
Dealing with dead or stuck pixels	104
Saving the screen	104
Saving power	105
Adjusting the resolution	106
Changing the icon size	108
Setting the dpi	109
Setting color depth	111
Configuring color management	111
Updating drivers	113
Using the troubleshooting helpers	115
Chapter 7: Peripheralitis	117
General Hardware Troubleshooting	117
Keyboard and Mouse	118
Troubleshooting basic input dilemmas	118
Taming the wild mouse	119
Making the mouse faster or slower	120
Making the mouse pointer more visible	121
Looking southward	122
Honing the keyboard	123
Undoing the Sticky Keys warning	124
Speaking of Trouble	125
Testing the speakers	126
Connecting the speakers	127
Fixing silence	129
Testing the microphone	131
Your Pal, the Device Manager	132
Starting the Device Manager	133
Finding errant hardware	134
Troubleshooting a gizmo in Windows XP	134
Updating driver software	135

Chapter 8: Deep Inside the Computer Case 137

- Into the Case 137
 - Opening the case 137
 - Grounding yourself 139
 - Closing the case 139
- The PC Console Adventure Map 140
- Common Problems and Solutions 144
 - Checking for loose cables 145
 - Dissipating heat 146
- Upgrade, Replace, Maintain 146
 - Buying replacement parts 147
 - Replacing the power supply 148
 - Replacing the clock battery 150
- The Miracle of Expansion Cards 150
 - Exploring expansion slots 150
 - Inserting an expansion card 152
 - Updating a display adapter 155
 - Removing an expansion card 155
 - Reseating expansion cards 156
- Your PC Wants More Memory 157
 - Understanding memory banks 157
 - Getting the right DIMM 158
 - Adding memory 159
- More Storage for You! 162
 - Knowing the terms 163
 - Choosing a new hard drive 164
 - Choosing a new optical drive 165
 - Installing the drive 166

Book II: Software 169

Chapter 1: Windows Gone AWOL 171

- The General Windows Fix 171
 - Restarting Windows 171
 - Deciphering error codes 172
 - Peeking at that debug information 172
- Windows Updates, Doesn't It? 173
 - Understanding Windows Update 173
 - Configuring updates 174
 - Permitting an update 176
 - Reviewing the updates 177
 - Undoing an update 177

Files Missing and Found	178
Searching for files	178
Really searching for files.....	179
Searching the Recycle Bin	180
Really, really searching for files.....	181
Adding items to the search index.....	183
Rebuilding the search index.....	185
A file is missing.....	185
A Smattering of Annoying Things in Windows	187
Blue screen of death.....	187
Silence the sounds	188
Anchor the taskbar	190
Move the taskbar	190
Resize the taskbar.....	190
Hide the taskbar.....	191
See all the icons on the Quick Launch bar	191
Show the date and time in the notification area.....	192
Show the volume control in the notification area	193
Restore the Show Desktop shortcut on the Quick Launch bar ...	193
Retrieve a window that slid off the screen	194
Windows appear at odd sizes and positions.....	194
Change the image viewer	195
Folders and icons change position.....	195
Line up icons on the desktop	195
Clear the desktop.....	196
Get rid of the Desktop Cleanup Wizard.....	196
Turn off the Documents/Recent Items menu	
on the Start menu.....	196
See the Windows Explorer menus in Windows Vista.....	197
Update a window	197
Read-only files and folders	197
The message “Your activation period has expired” appears.....	198
Icons go missing.....	198
What file is this?	199
Chapter 2: Programs, Processes, and Services	201
What’s an Application? What’s a Process? What’s a Service?	201
Understanding the weird terms	201
Visiting the Task Manager	202
Understanding the Application/Process relationship.....	203
Viewing the whole mess o’ processes.....	204
Enjoying the services	205
Ending a stuck program	206
Halting a process	207
Stopping or disabling a service.....	208
Understanding svchost.exe	210
Peeking at that rundll32.exe thing	211

Start-Up Programs	212
Disabling start-up programs	213
Using MSCONFIG to set start-up stuff	214
Finding start-up programs for your account	216
Dealing with blocked start-up programs	218
Chapter 3: The Safe Mode Chapter	221
Safe Mode to the Rescue	221
Using Safe mode	221
Entering Safe mode unexpectedly	223
Getting into Safe mode at boot time	224
Restarting in Diagnostic Mode with MSCONFIG	224
Ending Safe mode	226
Ending Diagnostic Mode	226
Safe Mode Troubleshooting	226
Understanding Safe mode	226
Knowing the three problem sisters	227
Disabling start-up files	228
Chapter 4: Putting the Pep Back into the PC	229
Man, Your PC Is Slow!	229
Understanding slow	229
Testing multiple tasks	230
Checking virtual memory	231
Problems That Slow Down Your Computer	233
Unclogging the spyware	233
Finding a memory leak	233
Speed Up Your PC	235
Performing regular maintenance	235
Using ReadyBoost	235
Setting the number of CPUs in Windows Vista	237
Disabling unnecessary services	238
Chapter 5: User Accounts	243
The User Account	243
Understanding the user profile	245
Configuring your account	245
Changing to an administrator-level account	246
Deleting a user account	247
Disabling the Guest account	248
Finding the secret Administrator account	248
Changing the Windows XP logon	248
Avoiding the Windows XP Logon	249
Ode to the Password	250
Creating a strong password	250
Changing your account password	251

Recovering your password.....	251
Protecting folders with a password	253
The Windows Vista User Account Control.....	254
Disabling the UAC	255
Disabling UAC Secure Desktop mode.....	256
Changing the UAC beep	257

Chapter 6: Unexpected Application Situations 259

Installation Issues.....	259
Adding new software.....	259
Dealing with installation problems.....	260
Resolving Windows Vista compatibility issues with your program	260
Banish the Unwanted	261
Uninstalling software.....	261
Pruning Windows programs	262
Removing bloatware.....	264
Dealing with phantom removed programs.....	265
Cleaning up the crud	267
The Good and Evil of File Association	267
Understanding file association.....	267
Hiding or showing file extensions.....	268
Reviewing associations in Windows Vista.....	269
Opening a file with a different program	270
Changing file association (the easy way).....	272
Dealing with unknown file types	272
Creating an association for unassociated files.....	273
Common Problems and Solutions	274
Running older software.....	274
Repairing a program.....	276
Opening a Word document in an oddball format	276
Eliminating personalized menus	276
Getting rid of recently opened file lists.....	277
Running a program with elevated permissions in Windows Vista.....	279

Chapter 7: Reporting for Duty 281

The Joys of System Resources.....	281
Understanding resources	281
Getting system information	282
Monitoring system resources	283
What Has Gone On Here?	286
Reviewing events	286
Using the Windows Vista Event Viewer	288
Filtering and searching events	290
Finding logs.....	292

Problems and Solutions for Windows Vista.....	294
Reviewing problems and solutions	294
Checking on new solutions	295
Perusing recent issues	295
Diagnostics	296
Understanding diagnostics	296
Diagnosing DirectX	296
Using the Memory Diagnostic Tool	298
Doing a hardware diagnostic.....	299

Chapter 8: Recovery Options 301

Restore the System, Restore Your Sanity.....	301
Using System Restore.....	302
Restoring to a specific date and time.....	304
Setting a restore point.....	305
Undoing a System Restore.....	307
Disabling System Restore	307
Windows Vista Time Travel	308
The System File Checker	310
Running SFC in Windows Vista	311
Reviewing the cbs.log file in Windows Vista	312
Running SFC in Windows XP.....	314
Windows Recovery.....	315
Understanding the recovery console.....	315
Starting the recovery console in Windows XP.....	317
Getting to the recovery console in Windows Vista	318
Fixing the master boot record.....	321
Booting into a recovery partition	321
Using a recovery disc	322
Reinstalling Windows	323

Chapter 9: Registry Fixes 325

Behold the Registry.....	325
Understanding the Registry.....	326
Using the Registry Editor	328
Backing up the Registry	329
Modifying the Registry	330
Finding stuff in the Registry.....	332
Registry Cleaning.....	334

Book III: Laptops..... 335

Chapter 1: Laptop Asleep, Laptop Awake, Laptop Dead 337

Laptop Start-Up Issues.....	337
Laptop just won't start.....	338
Laptop is slow to start.....	339
Laptop won't wake up.....	340
Check the display.....	340
Laptop starts and then turns off.....	341
Laptop turns off and then immediately starts.....	341
Laptop won't stay asleep.....	341
Before sending the laptop into the shop.....	342
What Happens When You Close the Lid.....	342
Power Management Issues.....	344
Explaining Windows Vista hybrid sleep.....	345
Finding hibernation in Windows Vista.....	346
Speeding up hibernation.....	347
Testing the power management hardware.....	348
Updating power drivers.....	349
A Battery of Issues.....	350
Monitoring battery life.....	351
Setting low battery warnings.....	352
Swapping batteries.....	354
Prolonging battery life.....	355
Maintaining the battery.....	356

Chapter 2: A More Usable Laptop 357

A Home for the Laptop.....	357
Making the laptop feel at home.....	357
Selecting devices for the laptop.....	358
Using a port replicator or docking station.....	360
Cooling Mr. Laptop.....	360
Handy Laptop Utilities.....	361
Magnifying the screen.....	362
Using the On-Screen Keyboard.....	363

Chapter 3: Out on the Road 365

The Elsewhere Laptop.....	365
Choosing a proper laptop bag.....	365
Packing the laptop bag.....	366
Checking stuff before you leave.....	367
Resuming life after you travel.....	368
Life in the Air.....	369
Getting through security.....	369
Storing the laptop.....	370
Using your laptop in the air.....	371

Chapter 4: Laptop Maintenance 373

- A Sparkling Laptop 373
 - Making the case beautiful again 373
 - Washing the screen 375
 - Kleaning the keyboard 376
- Hardware Upgrades 376

***Book IV: Internet* 379**

Chapter 1: Internet Malaise 381

- Problems Getting (and Staying) Online 381
 - Testing broadband Internet 382
 - Checking dialup connections 384
 - Remembering your dialup Internet password 386
 - Dialing in manually 386
 - Dialing randomly 387
 - Dealing with dialup timeouts 388
 - Disabling call waiting 390
- Internet Troubleshooting Tools 392
 - Checking to see whether the Internet is really out there 392
 - Confirming that an Internet location exists 394
- Choose Your Internet Programs 395
- Binary Breadcrumbs 397
 - Revising history 397
 - Removing cookies 399
 - Purging temporary files 401
 - Dealing with AutoComplete 402
 - Contending with e-mail AutoComplete 403

Chapter 2: Woes on the Web 405

- Internet Explorer Hates Your Guts 405
 - Showing the menu bar 406
 - Managing toolbars 406
 - Dealing with add-ons 407
 - Resetting Internet Explorer 409
 - Upgrading Internet Explorer 410
 - Understanding the “work offline” thing 410
- Secret Ingredient: ActiveX 411
 - Understanding ActiveX 411
 - Restricting ActiveX controls 412
 - Removing ActiveX controls 413
- What’s Up, Pop? 414
 - Understanding pop-ups 414
 - Dealing with pop-ups 415

Web Page Hell	417
Adding a Web site to your trusted zone	417
Fixing weirdly sized windows.....	419
Looking bigger (smaller).....	419
Printing a Web page.....	420
Disabling JavaScript error messages	422
Dealing with missing pictures	423

Chapter 3: E-Mail Postage Due 425

Message for You, Sir!.....	426
Understanding e-mail	426
Leaving mail on the server	428
General E-Mail Melancholy.....	430
Dealing with drafts.....	430
Trashing a message	431
Multiple message mayhem	433
Repairing hyperlinks in Outlook Express	435
Fixing that e-mail disconnection urge	437
“Why doesn’t the address book work?”	438
“I can’t read your message!”	438
Unable to send e-mail	439
E-Mail You Don’t Want	440
Blocking senders.....	440
Unblocking senders	441
Junking e-mail.....	442
Creating a junk mail filter.....	443
Editing a junk mail rule	445
Deleting a mail rule.....	447
Skipping e-mail over a certain size	447

Chapter 4: Wicked Software 451

Malicious + Software = Malware	451
Understanding malware.....	451
Finding malware.....	452
Protecting your PC.....	454
When Mr. Virus Comes Calling	456
Inoculating your computer.....	456
Disabling antivirus software.....	457
Hook, Line, and Stinker	458
Understanding the phishing scam.....	458
Fighting phishing in Internet Explorer	459
Avoiding evil e-mail	461
I Spy, with My Little Eye	462
Understanding spyware	462
Getting Windows Defender	463
Using Windows Defender	464
Scanning for spyware in Windows Defender	466

Scheduling Windows Defender	466
Exploring software.....	467
Life Behind the Firewall	468
Understanding firewalls	468
Setting up a router with a firewall	470
Using the Windows Firewall	471
Disabling the Windows Firewall.....	472
Disabling Windows Remote Assistance	472

Chapter 5: The File Transfer Chapter 475

What Is a File?	475
The Art of Downloading.....	478
Downloading the right term	478
Grabbing an image from a Web page	480
Downloading a program from a Web site	480
E-Mail Attachment Irritants	483
E-mailing a file	484
E-mailing a photo	485
Choosing the right graphics file format	487
Receiving an attachment.....	488
FTP Trouble.....	489
Understanding FTP	489
Accessing an FTP server in Windows Explorer	491
Accessing a password-protected FTP site.....	493
Remembering an FTP site for future access	494
Setting file permissions	496

***Book V: Networking*..... 499**

Chapter 1: Network Hardware Help 501

The Network Big Picture.....	501
Understanding networking	502
Discovering network hardware.....	503
Putting a printer on the network	506
Adding a network hard drive.....	509
You Say Rooter, I Say Router	510
Understanding the router	510
Connecting the router	511
Configuring the router.....	512
Resetting the router.....	514
Pinging the router	514
Adding more Ethernet ports to the router	516
General Network Troubleshooting.....	518
Inspecting the NIC.....	518
Upgrading the NIC's driver	520

Disconnecting from the network	521
Resetting the broadband modem	522
Restarting the entire network	523
Chapter 2: The Soft Side of Networking.	525
Where Is the Network?.....	525
Finding network locations in Windows Vista.....	525
Finding network locations in Windows XP	533
IP Gone Wrong	537
Understanding the IP address	537
Checking your PC's IP address.....	538
Understanding DHCP	539
Resolving an IP conflict	540
Renewing the DHCP lease	540
Manually assigning an IP address.....	541
Network Troubleshooting	543
Repairing the network.....	544
Using the Windows XP Network Troubleshooter	544
Disconnecting from the network	545
Chapter 3: Peer-to-Peer Networking	547
Once Upon a Time, There Was This Workgroup.....	547
Understanding the workgroup	547
Creating a workgroup.....	550
Browsing the workgroup in Windows Vista	551
Browsing the workgroup in Windows XP	552
Everybody Share.....	553
Making sharing possible in Windows Vista	553
Making sharing possible in Windows XP	554
Sharing your PC's printer	555
Sharing a folder	556
Setting shared folder permissions.....	558
Managing multiple shares in Windows Vista	560
Accessing shared folders.....	562
Discovering which folders you're sharing.....	563
Unsharing a folder	563
Workgroup Woes	564
Checking the network privacy in Windows Vista	564
Reaching unreachable PCs	566
Allowing local traffic through the Windows firewall	567
Getting at multiple networks.....	567
Finding out who else is using your computer	568
Chapter 4: Networking Unplugged	571
Unwired Networking Basics	571
Setting up a wireless network	571
Using the proper wireless network standard.....	573

Configuring the wireless base station	576
Connecting base stations	577
Restricting access to your wireless network	579
Resetting a base station	581
When the Hook-Up Gets Hung Up.....	581
Enabling the wireless NIC	581
Finding a wireless network.....	582
“But I can’t find the network!”	585
Managing wireless connections.....	587

Book VI: Maintenance..... 589

Chapter 1: Backup, Backup, Backup 591

That Emergency Copy.....	591
Understanding backup	591
Making that backup copy.....	593
Using a backup program	596
The Computer Backs Up for You.....	597
Getting an external hard drive	598
Finding the backup program in Windows Vista.....	598
Configuring (and making your first) backup	600
Confirming that the backup worked.....	603
Making an immediate backup.....	604
Modifying the backup routine	605
Stopping a backup in progress.....	606
Disabling the backup program.....	606
Files from Days of Yore.....	607
Restoring something from the last backup	607
Restoring from an older backup	611
Restoring all your personal files	612
Using the Advanced Restore option.....	613
The Complete PC Backup	614
Understanding Complete PC Backup	614
Setting up an external hard drive for Complete PC Backup.....	615
Backing up your entire computer	617
Restoring your entire computer	619

Chapter 2: Pampering the Hard Drive 621

Free Up Some Disk Space	621
Looking at the storage situation	622
Removing large files.....	625
Using Disk Cleanup	628
Moving your program files	630
Using file compression	632
Compressing every dang doodle file on a hard drive	634

Disk Drive Tools.....	635
Understanding fragmentation	635
Finding the disk tools	640
Defragmenting a hard drive.....	641
Checking the disk.....	644
Media Manipulation Mania.....	647
Opening the Disk Management Console	647
Changing drive letters	648
Joining a disk drive to a folder.....	650
Formatting a volume.....	651
Messing with Volumes in Windows Vista.....	655
Repartitioning a drive.....	655
Shrinking a volume	656
Making use of unallocated drive space.....	658
Unallocating a volume.....	660
Extending a volume	661

Chapter 3: On Schedule 663

Windows Vista Task Scheduler.....	663
Opening the Task Scheduler	664
Making your own task folder	667
Creating a new task.....	668
Creating a task to run a program.....	670
Creating a task to send e-mail	674
Creating a task to display a pop-up message.....	675
Test-running a task.....	676
Halting a task.....	677
Confirming that a task has run.....	678
Editing a task	679
Disabling a task	679
Deleting a task	680
Windows XP Scheduled Tasks	680
Opening the Scheduled Tasks window	680
Creating a task.....	681
Running a task.....	684
Confirming that a task has run.....	684
Editing a task.....	686
Disabling a task.....	687
Deleting a task.....	687

Chapter 4: A Time to Clean 689

Your Cleanliness Arsenal.....	689
Outside the Box	691
Cleaning surfaces and stuff.....	692
Cleaning the console vents.....	692

Cleaning the keyboard 693
Dealing with liquid spilled in a keyboard 693
Cleaning a mouse 694
Cleaning the screen 695
Buffing an optical disc 696
Inside the Box 696

Appendix A: About the DVD..... 699

System Requirements 699
DVD Setup..... 699
What You'll Find on the DVD 700
 Author-created material..... 700
 AVG Anti-Virus Free..... 701
 PerfectDisk 2008..... 701
 Vopt9 701
Customer Care 701

Index..... 703
