# INDEX

- Accessories, installation of, 212–214  
Accreditation of architecture schools, 135  
ACM (agency CM), 252  
Activity, 252  
“Actual cost of the project” bidding, 167  
Addenda, 157–158, 252  
Additional services, 252  
A/E, *see* Architect/Engineer  
Agency CM (ACM), 252  
Agents, 252  
    CM as, 76, 145  
    designers as, 18  
    design professional as, 48  
Agreement for Construction, *see* Construction Contract/Agreement  
Air handling system, 205  
Alarm systems, 183, 205  
Allen, Edward, 172  
Allowance, 252  
Alterations, 253  
Alternate bids, 253  
Apparent low bidder, 253  
Application for Payment, 253  
Apprentices, 148, 253  
Approved, defined, 253  
Approved bidders list, 253  
Approved changes, 253  
Arbitration, 253  
Architects, 35–36  
    defined, 253  
    hiring, 41–45  
Architect/Engineer (A/E), 252, 253  
Architectural design, defined, 253.  
    *See also* Design  
Architectural drawings, defined, 253–254. *See also* Drawings  
Architectural practice, changes in, 5–8  
Architecture:  
    aspects of, 12–13  
    defined, 2  
    elements of, 3–4  
    fundamental axiom defining, 10–12  
    genesis of, 16–17  
    paper, 2  
    relationship of construction and, 1, 2  
    rhetorical, 2  
    utilitarian, 3  
    variety of projects/styles in, 8–10  
    virtual, 2–3  
As-built drawings, 254  
Assemblies, 254  
Associates, 37  
Attorneys:  
    in contract award, 167–168  
    in team selection, 41  
Attorney-in-fact, 254  
Award of contracts, 167–168  
Back charge, 220, 254  
Bankers, 33–34  
Basis of Design, 215  
Bearing wall systems, 187, 193  
Beneficial occupancy, 254  
Bids:  
    “actual cost of the project,” 167  
    defined, 254  
    “lowest and best bid,” 166–167  
    receipt of, 158–161  
    review and analysis of, 166–167  
    submittal of, 161–163  
Bid bonds, 254  
Bid depository, 254  
Bidding:  
    “actual cost of the project,” 167  
    assistance in, 156–158  
    bid review and analysis, 166–167  
    defined, 255  
    errors in, 167  
    guidelines for, 158–161  
    preparation for, 155–156  
    process for, 163–166  
    receipt of bids, 158–161  
    submittal of bids, 161–163  
Bidding documents, 124  
Bidding period:  
    construction team formulation during, 142  
    defined, 255  
Bidding requirements, 158  
    defined, 255  
    in Project Manual, 123–124  
Bid division, 254  
Bid division description, 254  
Bid documents, 156, 158, 254–255  
Bid forms, 162–163, 255  
Bid opening, 255  
Bid price, 49  
Bid review and analysis, 157, 166–167  
Bid shopper, 255  
Bid shopping, 157, 255  
Bid time, 255  
Blind work, 84  
Blueprints, *see* Drawings  
BOCA (Building Officials and Code Administrators), 138  
Bonds, 255  
Bonding company, 255–256  
Branch systems, connecting to  
    mechanical equipment, 209–211  
Bridge projects, 175  
Budget estimate, 256  
Buildability, 83, 256. *See also* Constructibility  
Buildable area, 53, 60  
Buildings:  
    defined, 256  
    as goal of design, xiii–xiv

- Building codes, 138–139
  - defined, 256
  - International Building Code, 138
- Building code officials, 256
- Building envelope (“skin”) systems, 185–192
  - cast-in-place or precast concrete, 187, 192
  - installation of, 199–204
  - lightweight framing, 185, 188–189
  - masonry, 185, 186
  - structural framing with subsystem, 187, 190–191
- Building inspectors, 256
- Building layout, 173–174
- Building line, 256
- Building Officials and Code Administrators (BOCA), 138
- Building permits, 32, 256
- Building process, 256
- Building restriction (setback) lines, 256–257. *See also* Setbacks
- Building sections—cross and longitudinal, 96, 98–99
- Building the Empire State* (Carol Willis and Donald Friedman), 25
- Built-ins, installation of, 212–214
- Bulletin, 257
- Buy-in, by contractors, 4–5, 22
  
- CAD drafting, 81
- CAD operator/technician, 39, 81
- Call-backs, 227, 229
- Callouts, 257
- Cast-in-place concrete:
  - building envelope systems, 187, 192
  - framing systems, 196–197
- Caudill, William W., xiii–xiv
- CCDs (Construction Change Directives), 129
- Certificate of Need, 30
- Certificate of Occupancy (CO), 222–223, 257
- Certificate of Substantial Completion, 218
- Changed conditions, 257
- Change Orders (COs), 129, 169–170, 257
- Change Order Request, 257
- Cladding construction, *see* Building envelope (“skin”) systems
- Claims, 257
- Clearing and grubbing process, 172–173
- Clerk-of-the-work, 154–155, 257
  
- Clients, 32. *See also* Owners
  - defined, 257
  - in design effort, 11
  - drawing information from, 67–68
  - relationship with design professional, 46–50
- Closed bid, 257
- CM, *see* Construction management
- CMs, *see* Construction managers
- CM partnering, 257
- CM services, 258
- CO, *see* Certificate of Occupancy
- COs, *see* Change Orders
- Codes, building, 138–139
- Code compliance, 138–140
  - programming for, 68
  - responsibility for, 139–140
- Code enforcement officer, 258
- Code-writing organizations, 248–249
- Cofferdams, 176
- Commissioning, 215–216, 258
- Commissioning Plan, 216
- Communications systems, 183, 205
- Completion date, 221, 222
- Completion schedule, 258
- Concrete:
  - building envelope systems, 187, 192
  - framing systems, 196–197
- Conditions of the Contract, 258
- Consideration, 130
- Construct, defined, 258
- Constructibility, 83–84, 258
- Construction:
  - blending of design, management, and, 17–19
  - common goal of design and, xiv–xv
  - defined, 1–2
  - functional knowledge for, 12–13
  - imperfection in, 115–116
  - relationship of architecture and, 1, 2
  - as team activity, 14–16, 19–20
- Construction budget, 258
- Construction Change Directives (CCDs), 129
- Construction Contract/Agreement, 85, 258
- Construction coordination, 258
- Construction cost, 258
- Construction document review, 258–259
- Construction (contract) documents, 85–86, 124–125, 259
- Construction inspector, 259
  
- Construction management (CM), 59
  - defined, 259
  - forms of, 145
- Construction Management Contract, 259
- Construction managers (CMs), 145–147
  - constructibility review by, 83–84
  - defined, 259
  - degree of involvement for, 146
  - in design phase, 75–76
  - input from, 49
  - professionals demeaned/discredited by, 49, 50
- Construction notes, 88
- Construction phase, 171–214
  - building “skin” installation, 199–204
  - connecting branch systems to mechanical equipment, 209–211
  - defined, 259
  - earthwork, grading, excavation, 180–181
  - extension of utility lines and systems, 199
  - finishes, installation/application of, 211–213
  - initial on-site operations, 173–174
  - initiation of material and systems purchases, 178–180
  - installation of specialties, built-ins, furnishings, and accessories, 212–214
  - interior walls and partitions, 206–209
  - mechanical systems installation, 204–207
  - mobilization, 174–177
  - on-site mobilization and staging, 174–176
  - project progress meetings, 177–178
  - project schedule, 178
  - raw (undeveloped) site, 172–173
  - renovations, mobilizing for, 176–177
  - roof and floor framing system installation, 197–199
  - roof system installation, 204
  - substructure (foundation) system installation, 182–186
  - superstructure (structural system) erection, 185–197
  - underground utilities installation, 183

- Construction (project) schedule, 171, 172, 178, 259
- Construction Specifications Institute (CSI), 125, 137–138
- Construction support items, 259
- Construction team, 260
- Construction Users Roundtable (CURT), 16
- Constructors, 141–142. *See also* Contractors
  - distrust between designers and, 18–19
  - responsibilities of design professionals vs., 142
- Consultants, 45–46, 260
- Contingencies, 260
- Contracts. *See also* Construction Contract/Agreement
  - award of, 167–168
  - defined, 130, 260
  - function of and necessity for, 130–131
  - standard forms for, 168
- Contract administration, 260
- Contract administrator, 40–41
- Contract bond, 260
- Contract date, 260
- Contract documents, 124. *See also specific documents, e.g.:* Specifications
  - Change Orders, as part of, 169–170
  - defined, 260–261
  - PDS effect on, 58
  - production of, *see* Document production phase
  - relationships among, 132–136
  - review of, 139
- Contract document phase, 260
- Contract document review, 260
- Contract drawings, *see* Working drawings
- Contract for Construction, *see* Construction Contract/Agreement
- Contract forms and conditions, in Project Manual, 123–124
- Contractibility, 261
- Contractibility manager, 38–39
- Contracting officer, 261
- Contract modifications, as contract documents, 124
- Contractors, 141. *See also specific types of contractors*
  - apprentices, 148
  - buy-in of, 4–5, 22
  - and code compliance, 140
  - completion dates for, 221, 222
  - construction managers, 145–147
  - constructors, 141–142
  - defined, 141, 261
  - distrust between designers and, 18–19
  - friction with design professionals, 49
  - general contractors, 141, 142
  - journeymen, 148
  - legal responsibilities of, 130–131
  - as part of construction team, 20
  - postoccupancy evaluations by, 230
  - in progression of project, 23
  - progress meetings for, 177–178
  - selection of, 166
  - sensitivity to owner's situation, 31
  - subcontractors, 142, 147

- Design phase, 70–80
  - design development, 80–82
  - project design, 70–73
  - revisions, changes, and additions, 75–76
  - schematic design development, 73–77
  - subsurface investigation, 77–80
- Design professionals:
  - compliance responsibilities of, 140
  - defined, 264
  - hiring, 41–45
  - as part of construction team, 19, 20
  - postcompletion evaluations by, 230–236

- Design professionals (*cont'd*)
  - in progression of project, 23
  - qualifications of, 35
  - relationship with owner, 46–50
  - responsibilities of constructors vs., 142
  - selection of, 35, 41–45
  - sensitivity to owner's situation, 31
- Design team, 45–46
- Details:
  - defined, 112, 264
  - and finished construction, 115–116
  - and long-term product, 114–116
  - wall, 100–101
  - Frank Lloyd Wright's attention to, 117
- Detailed construction schedule, 264
- Detailing, 111–121
  - attitudes toward, 113–114
  - college course in, 119
  - defined, 112
  - flawed, 117, 118
  - and legal liability, 120–121
  - perspective for process of, 119–120
  - and quality of product, 114–116
  - value of, 120
- Developers, 32–33
- Direct costs, 264
- Discipline lead, 38
- Documentation. *See also* Specifications
  - adversariality in, 21
  - for bidding, 124, 156, 158
  - CM's role in, 146
  - construction documents, 124–125
