     Utilities .....244

**Chapter 12: The Classic Environment: Like Mac OS 9,  
 Only Better .....257**

You Can Call It Classic .....258  
     What’s so great about Classic? .....259  
     Doin’ the Classic dance .....259  
 Working with Classic .....260  
     Launching Classic (or letting it launch itself) .....260  
     Opening a Classic app .....262  
     Getting oriented (“Toto, we’re not in OS X, anymore . . .”) .....263  
     Getting back to OS X .....265  
     Setting Classic preferences .....265  
     Getting more info on Classic .....267  
     Booting from Mac OS 9.2.2 .....267

**Chapter 13: What Your Mac Prefers . . . . .271**

|                                                     |     |
|-----------------------------------------------------|-----|
| Introducing System Preferences .....                | 271 |
| Using System Preferences .....                      | 272 |
| Unlocking a preference .....                        | 274 |
| Locking a preference .....                          | 276 |
| Setting Preferences .....                           | 276 |
| Personal preferences .....                          | 276 |
| Hardware preferences .....                          | 286 |
| Internet & Network preferences .....                | 292 |
| System System preferences (kind of redundant) ..... | 296 |

**Part IV: Networking & Troubleshooting .....305****Chapter 14: Mine! Miiiiine! Sharing Your Mac and Liking It . . . . .307**

|                                                              |     |
|--------------------------------------------------------------|-----|
| Introducing File Sharing .....                               | 308 |
| Portrait of home office networking .....                     | 310 |
| Three ways to build a network .....                          | 310 |
| Setting Up File Sharing .....                                | 312 |
| Turning on file sharing .....                                | 312 |
| Starting AppleTalk .....                                     | 314 |
| Sharing with TCP/IP .....                                    | 314 |
| Access and Privileges: Who Can Do What .....                 | 316 |
| Users and groups and guests .....                            | 316 |
| Creating users .....                                         | 317 |
| Mac OS X knows best: Folders shared by default .....         | 323 |
| Sharing a folder or disk by setting privileges .....         | 324 |
| Useful settings for access privileges .....                  | 329 |
| Consummating the Act of Sharing .....                        | 332 |
| Connecting to a shared disk or folder on a remote .....      | 333 |
| Unsharing a folder .....                                     | 335 |
| Disconnecting from a shared volume .....                     | 337 |
| Changing your password .....                                 | 337 |
| Setting up shortcuts to remote volumes (and folders) .....   | 339 |
| Connecting to your own computer from a remote computer ..... | 340 |

**Chapter 15: Troubleshooting Mac OS X . . . . .347**

|                                                           |     |
|-----------------------------------------------------------|-----|
| Dem Ol' Sad Mac Chimes of Doom Blues .....                | 347 |
| The ultimate startup disk: The OS X installation CD ..... | 348 |
| Booting from CD-ROM .....                                 | 349 |
| Question Mark and the Mysterians .....                    | 351 |
| Step 1: Run First Aid .....                               | 352 |
| Step 2: Safe Boot into Safe Mode .....                    | 354 |
| Step 3: Zapping the PRAM .....                            | 356 |
| Step 4: Reinstalling OS X .....                           | 356 |
| Step 5: Take your Mac in for repair .....                 | 357 |
| If You Crash at Startup .....                             | 357 |

***Part V: The Part of Tens* .....359**

**Chapter 16: Ten (Or So) Ways to Speed Up Your Mac Experience .....361**

- Use Those Keyboard Shortcuts .....361
- Learn to Type Better .....363
- Resolution: It's Not Just for New Year's Anymore .....364
- A Mac with a View — and Preferences, Too .....365
  - When bigger isn't better .....366
  - Calculated moves .....366
  - Getting ahead-er and other stuff .....367
- Get a New, Faster Model or Upgrade Yours .....367
- Get an Accelerator .....368
- Get an Accelerated Graphics Card .....368
- Get a New Hard Drive .....368
- Add Storage with FireWire or USB 2 Drives .....369

**Chapter 17: Ten (Or So) Ways to Make Your Mac Better by Throwing Money at It .....371**

- RAM .....371
- Backup Software .....372
- A Better Monitor (or a Second One) .....372
- A Fast Internet Connection .....372
- Additional Hard/Removable/Optical Drive(s) .....373
- Games .....373
- Multimedia Titles .....374
- Some Big Honking Speakers with a Subwoofer .....374
- A New Mouse and/or Keyboard .....374
- A PowerBook or an iBook .....375
- A New Mac .....375

**Chapter 18: Ten (Or So) Great Web Sites for Mac Freaks .....377**

**Chapter 19: Ten (Or So) Mac OS X Apps That You Might Need Someday .....381**

- Web Sharing .....381
- FTP Access .....382
- ColorSync Utility .....383
- Image Capture .....384
- Text to Speech .....385
- VoiceOver .....385
- Speech Recognition .....386
- NetInfo Manager .....386
- UNIX Tools: Terminal, Console, and Activity Monitor .....387
  - Terminal .....387
  - Console .....388
  - Activity Monitor .....388
