# Contents

<i>Introduction</i>	<i>xv</i>
<i>Assessment Test</i>	<i>xxiv</i>
<b>Chapter 1</b>	<b>Installing and Upgrading to Oracle 10g</b>
	<b>1</b>
Installing Oracle 10g	2
Using the Oracle Universal Installer	3
Examining the OUI Support for New Features	6
Introducing Installation Enhancements	10
Configuring Oracle 10g	13
Examining DBCA Enhancements	14
Using the DBCA to Clone a Database	14
Simplifying Instance Configuration	17
Using the Enterprise Manager	18
Viewing Database Usage	23
Upgrading the Database	26
Introducing Upgrade-Supported Releases	27
Validating the Database Before Upgrade	28
Performing the Upgrade	35
Summary	46
Exam Essentials	47
Review Questions	49
Answers to Review Questions	53
<b>Chapter 2</b>	<b>Moving Data and Managing the Scheduler</b>
	<b>55</b>
Introducing Data Pump	56
Introducing the Architecture of Data Pump	57
Introducing Data Access Methods	59
Exploring the Advantages of Data Pump	60
Using Data Pump Clients	61
Using the Data Pump Wizard	83
Making Data Movement Enhancements	86
Using Cross-Platform Transportable Tablespaces	87
Writing and Projecting External Tables	90
Managing the Scheduler	95
Understanding Scheduler Concepts	96
Creating Basic Scheduler Components	97
Using the Scheduler	107
Managing Advanced Scheduler Components	114
Querying the Data Dictionary	121

	Summary	123
	Exam Essentials	125
	Review Questions	126
	Answers to Review Questions	130
<b>Chapter 3</b>	<b>Automating Management</b>	<b>133</b>
	Collecting Performance Statistics	134
	Using the Automatic Workload Repository	135
	Working with Automatic Workload Repository	138
	Base Statistics and Metrics	145
	Diagnosing Performance Statistics	146
	Using the Automatic Database Diagnostic Monitor	147
	Using Server-Generated Alerts	151
	Building Your Own Alert Mechanism	156
	Automating Database Management	157
	Using Automatic Shared Memory Management (ASMM)	157
	Tuning Automatic Undo Retention	160
	Tuning the Automatic Checkpoint	163
	Collecting Automatic Optimizer Statistics	164
	Identifying the Advisory Framework	171
	Automating Tasks	179
	Resource Manager Enhancements	179
	Automatic Session Switchback	180
	Setting Idle Timeout	181
	Creating a Mapping	181
	Changes to Resource Allocation Method	185
	Summary	185
	Exam Essentials	186
	Review Questions	188
	Answers to Review Questions	192
<b>Chapter 4</b>	<b>General Storage Management</b>	<b>195</b>
	Managing Tablespaces	196
	The <i>SYSAUX</i> Tablespace	197
	Bigfile Tablespaces	204
	Temporary Tablespace Groups	210
	Other Tablespace Enhancements	213
	Making Partitioning Enhancements	219
	Partition Maintenance Using EM Database Control	219
	Partitioned Index Organized Tables (IOTs)	220
	Local-Partitioned Index Enhancements	222
	Leveraging Index Enhancements	224
	Skipping Unusable Indexes	224

	Maintaining Index Partition Storage Characteristics	224
	Bitmap Index Storage Enhancements	230
	Summary	230
	Exam Essentials	232
	Review Questions	234
	Answers to Review Questions	240
<b>Chapter 5</b>	<b>Automated Storage Management</b>	<b>243</b>
	Enhancing Space Management	245
	Proactive Tablespace Monitoring	245
	Segment Management	257
	Miscellaneous Space Management Features	279
	Automatic Storage Management	284
	ASM Architecture	284
	Creating an ASM Instance	286
	ASM Instance Characteristics	288
	ASM Dynamic Performance Views	290
	ASM Filenames	291
	ASM File Types and Templates	293
	Administering ASM Disk Groups	296
	Summary	306
	Exam Essentials	307
	Review Questions	308
	Answers to Review Questions	315
<b>Chapter 6</b>	<b>Performance and Application Tuning</b>	<b>317</b>
	Managing Optimizer Statistics	318
	Gathering Automatic Statistics	319
	Leveraging Enhanced Query Optimization	320
	Gathering Data Dictionary Statistics	322
	Monitoring DML Tables	323
	Understanding Rule-Based Optimizer Desupport	324
	Understanding the SQL Tuning Advisor	324
	Introducing the SQL Tuning Advisor	325
	Using SQL Tuning Advisor	328
	Understanding the SQL Access Advisor	334
	Introducing the SQL Access Advisor	334
	Using the SQL Access Advisor	335
	Accessing the Database Control Performance Pages	339
	Summary	342
	Exam Essentials	342
	Review Questions	344
	Answers to Review Questions	349

<b>Chapter 7</b>	<b>Backup, Recovery, and High Availability</b>	<b>351</b>
	Leveraging the Flash Recovery Area	353
	Flash Recovery Area Occupants	353
	Flash Recovery Area and SQL Commands	354
	Flash Recovery Area and the EM Database Control	355
	Flash Recovery Area Management	356
	Flash Recovery Directory Structure	356
	Backing Up the Flash Recovery Area	358
	Flash Recovery Area Data Dictionary Views	358
	Flash Recovery Area Best Practices	361
	Performing Incremental and Incrementally Updated Backups	361
	Recovery with Incrementally Updated Backups	361
	Fast Incremental Backups	363
	Using Miscellaneous Backup Features	366
	RMAN Command Changes	366
	Online Backup Mode	368
	Backing Up Different Object Types with RMAN	369
	Compressed Backups	373
	Introducing Miscellaneous Recovery Features	375
	Fast Recovery Using <i>SWITCH DATABASE</i>	376
	Recovery Using <i>RESETLOGS</i>	376
	Flashing Back Any Logical Error	376
	Flashback Database	377
	Flashback Drop	383
	Flashback Query	390
	Flashback Table	395
	Guaranteed Undo Retention	397
	SCN and Time Mapping Enhancements	397
	Flashback Privileges	398
	Summary	398
	Exam Essentials	399
	Review Questions	400
	Answers to Review Questions	406
<b>Chapter 8</b>	<b>Security and SQL Enhancements</b>	<b>409</b>
	Securing Data	411
	Leveraging Virtual Private Database	411
	Auditing Enhancements	418
	Introducing SQL New Features	426
	MERGE Improvements	426
	Partitioned Outer Join	433
	Spreadsheet Computations Using the <i>MODEL</i> Clause	438
	Regular Expressions	448

## xiv Contents

	Data Type Enhancements	453
	Case- and Accent-Insensitive Queries	456
	Quote Operator	457
	Introducing Miscellaneous Database Enhancements	458
	<i>MAXTRANS</i> Ignored	458
	Flushing the Buffer Cache	459
	Resumable Space Allocation	459
	Materialized View Enhancements	460
	Database Connectivity Improvements	464
	LogMiner Enhancements	466
	Transaction Rollback Monitoring	466
	Tracing Enhancements	467
	Summary	474
	Exam Essentials	476
	Review Questions	477
	Answers to Review Questions	482
<b>Appendix A</b>	<b>SQL*Plus Enhancements</b>	<b>485</b>
	Enhancements to the <i>DESCRIBE</i> Command	486
	Changes to Profile File Calls	487
	Supporting Whitespace in Filenames	487
	Changes to the <i>SPOOL</i> Command	487
	Introducing New Predefined Variables	488
	Changes to the <i>SHOW</i> Command	489
	Invoking SQL*Plus	489
<b>Appendix B</b>	<b>New and Obsolete Initialization Parameters</b>	<b>491</b>
	New Parameters	492
	Obsolete Parameters	493
	Deprecated Parameters	495
<b>Appendix C</b>	<b>PL/SQL Enhancements and New Packages</b>	<b>497</b>
	Enhancements to the PL/SQL Compiler	498
	Enhancements to PL/SQL	499
	New Packages in PL/SQL	500
	<b>Glossary</b>	<b>503</b>
	<i>Index</i>	515
