
INDEX

A

- “A” Frame for Advocacy, 208*fig*
AAHP (American Association of Health Plans), 220
Abington Memorial Hospital, 234
Abrams, R., 64
Acceptability, 128
Achievement-oriented leading, 139
Achieving role clarity, 91
Adams, J. S., 125
Adams’s equity theory, 125–127
Adjournment (or dissolution) stage, 91
Advocacy, 207–208*fig*
AHRQ (Agency for Healthcare Quality and Research), 219
Alderfer, C., 118, 119, 120
Alderfer’s ERG theory, 118–120
Alexander, G. R., 68
All-channel network, 200*fig*, 201
AMA (American Medical Association), 29, 220
AMA *Principles of Medical Ethics*, 29
American College of Healthcare Executives, 29
American Hospital Association Quest for Quality Prize, 234
American Nurses Association, 29
American Organization of Nurse Executives, 205
Andreasen, A. R., 244, 263
Ashmos, D. P., 90
Assessing: during external situational analysis, 45–46; of progress and controlling performance, 56–63
Atkinson, J. W., 121
Austin, C. J., 59, 162
Authority: balancing responsibility with, 12; distribution of, 11; as key organizational design concept, 86–88
Autocratic decision making, 147, 148
Autocratic leaders, 135
Baldrige Award, 222, 223*fig*
Barer, M. L., 3
Barry, R., 225
Bateman, T. S., 124, 128, 138, 142
Bateson, J.E.G., 246
Bayles, M. D., 27, 29
Beauchamp, T. L., 26
Behaviors approach, 131, 132*fig*, 133–137
Benchmarking, 228
Beneficence, 26–27
Berkman, L. F., 3
Berkowitz, E. N., 205, 252
Berlowitz, D. R., 15, 224, 233
Berry, L. L., 251
Berscheid, E., 126
Beta Curve for Time Estimates (PERT network), 170*fig*–171
Beyerlein, M. M., 90
Beyerlein, S. T., 90
Bickman, L., 3
Billings, J., 9
Blake, R. R., 135
Blanchard, K., 137
Bone Health Program of Magee-Womens Hospital, 259

B

- Bailey, D. E., 221
Baldes, J. J., 127

Bono, J. E., 111
 Bottom-up approaches to implementation, 176
 Boundary spanners, 203
 Boundary spanning, 202–203
 Bounded rationality, 151
 Bowen, D. E., 15, 221
 Boxerman, S., 59, 162
 Brainstorming, 160
 Branding, 259
 Breast Cancer Program of Dana-Farber-Harvard Cancer Center, 49
 Brennan, T. A., 209
 Brook, R. H., 3, 218, 220
 Brooke, P. P., Jr., 22
 Brubaker, C. E., 225
 Budget control: effective, 60, 62–63; program's operating budget for year X, 61*e*
 Bullet Proof Business Plans, 65
 Burns, J., 112
 Business plan, 64–66

C

Cameron, K. S., 53
 Case, T., 111
 Cause-and-effect diagram, 155, 156*fig*, 231–232*fig*
 CDC (Centers for Disease Control and Prevention), 69, 70, 246
 CDCynergy model, 69
 Chain of command, 86
 Chain network, 200*fig*, 201
 Change agents, 60
 Changing to new state, 179
 Charismatic power, 130
 Charns, M. P., 2
 Chassin, M. R., 225
 Childress, J. F., 26
 CI (continuous improvement): FOCUS-PDCA model of, 226–229, 227*fig*, 231, 241–242; overview of, 224–226; Six Sigma approach to, 225–226; tools for, 231–233; TPS (Toyota Production System) approach to, 226
 Clarke, R. N., 243
 Classical concepts of organization design, 84
 Clustering: basis of worker unit, 88–90; participants into work groups/teams, 90–91; span of control, 91–93
 Coercive power, 87
 Cohen, S. G., 221
 Collaborative/interpersonal competency, 21, 22
 Collins, M. L., 81
 Commercial competency, 21, 23
 Commercial marketing strategies: as core management activity, 14*fig*, 15–16; ethics in, 263–266; evaluating, 266–267*t*, 268; 4 Ps of, 249–259, 250*fig*; identifying and quantifying patient/customer target markets, 247–249; overview of, 244–246. *See also* Social marketing
 Communicating: addressing consequences, 212–214; barriers to effective, 192–197; to contain and minimize damage, 211–212; with external stakeholders, 202–206; as facilitating activity, 14*fig*–15; importance of, 184–185; to influence public policy, 207*fig*–208*fig*; as key to effective stakeholder relations, 185–189; model of process of, 189*fig*–192; preventing things from going wrong, 210–211; within programs and projects, 197–202; symbolism of action/inaction in, 190–191; types of errors in clinical settings, 209*fig*; when something goes wrong, 209*fig*–214
 Communication barriers: contextual, 192–194; interpersonal, 194–196; minimizing, 196–197
 Communication flows: downward, 198*fig*; horizontal and diagonal, 198*fig*, 199–200; informal, 201–202; networks and, 200*fig*–201; upward, 198*fig*–199
 Communication networks, 200*fig*–201
 Comparison other (or referent), 125
 Competencies: Longest extension of Katz model using, 20–24; underpinning management work, 19–20. *See also* Skills
 Concealment approach, 212, 213*fig*
 Conceptual competency, 21–22
 Conceptual skills, 19–20
 Conflict minimization, 12–13
 Conger, J. A., 81
 Consideration, 133–134
 Consultative decision making, 147, 148
 Consultative leaders, 136
 Contact chart, 104, 105*fig*
 Contextual communication barrier, 192–194
 Contingency model, 137
 Control techniques/steps, 10
 Controlling performance: assessing progress and, 56–63; in HIV-screening program's laboratory, 58*fig*
 Coons, A. E., 133
 Coordination mechanisms: overview of, 95; selecting from menu of, 98–99; types listed, 95–98
 Coordination (or integration): challenge of determining degree of, 12; mechanisms for achieving, 95–99; as organization design concept, 94–99; as stage in team development, 91
 Corrigan, J. M., 209
 Cost-benefit analysis, 167–168
 Coulter, M. K., 161
 CQI (continuous quality improvement), 211, 214, 220
 Credentialized workers, 85
 Crosby, P. B., 220
 Cross training, 86
 Customers. *See* Patients/customers
 Customs, 98

D

Daley, J., 224
 Damage control communication, 211–212
 Dansky, K. H., 81
 Darr, K., 78, 220
 Database (DSS), 172–173
 Database management system (DSS), 173
 D’Aunno, T. A., 114
 De Souza, G., 81
 Dean, J. W., Jr., 15, 221
 Decision grid, 162, 163*fig*
 Decision making: characteristics of management, 150–152; defining, 146–147; evaluating, 181–182; five approaches to, 147–148; involving other participants in, 147–149, 150; as management work activity, 14*fig*; problem-solving vs. opportunistic, 146–147; regarding desired results, 54; Vroom’s decision process flowchart on, 148, 149*fig*, 150
 Decision making alternatives: choosing an, 174–175; cost-benefit analysis, 167–168; decision grid, 162, 163*fig*; decision tree, 165–166*fig*, 167; DSSs (decision support systems) during, 162, 171–174, 173*fig*; payoff table, 162, 163*fig*–164; PERT (program evaluation and review technique), 168–169*fig*, 170–171
 Decision making implementation: actual, 179–181; Lewin’s three steps in, 179–180*fig*; participant resistance to, 177–179; planning for, 175–179
 Decision making process: cause-and-effect or fishbone diagram on, 155, 156*fig*, 231–232*fig*; creative process of, 159–160; Pareto chart on, 157*fig*, 232; step 1: becoming aware, 153–154; step 2: defining problem of opportunity, 155, 157–158; step 3: developing

relevant alternatives, 158–162; step 4: assessing the alternatives, 162–174; step 5: choosing an alternative, 174–175; step 6: implementing the decision, 175–181; step 7: evaluating the decision, 181–182; steps taken during, 152–153*fig*; stimulating/supporting creativity during, 160–162

Decision tree, 165–166*fig*, 167
 Decisional roles, 17*fig*, 18–19
 Defensiveness approach, 213*fig*
 Delbanco, T. L., 224
 Delbecq, A. L., 160
 Deming, W. E., 210, 220
 Democratic leaders, 136
 Designing activity: application of key organization design concepts, 99–104; creating organization designs, 84; designing logic models, 76–82; designing processes component of logic models, 82–84; informal aspects of organization designs, 104–108; key concepts in organization design, 84–99; overview of, 9*fig*, 11–13
 Diagonal communication flow, 198*fig*, 199–200
 Differentiation, 91
 Direct supervision, 96
 Direct work, 2
 Directive leading, 139
 Disequilibrium, 91
 Dissatisfiers (or hygiene factors), 120
 Disseminating information, 46–47
 Division of work, 85–86
 Donabedian, A., 218, 219, 241
 Donaldson, M. S., 209
 Dowling, W. L., 9
 Downward communication flow, 198*fig*
 Dreachslin, J. L., 81
 Druskat, V. U., 140
 DSSs (decision support systems), 162, 171–174, 173*fig*
 DuBrin, A. J., 14, 146
 Duncan, W. J., 10, 42, 250

E

Earley, C., 128
 Edgman-Levitan, S., 224
 Elton, J. J., 9
 Emotional intelligence, 132–133
 Employee-centered leader behavior, 134
 Employees. *See* Participants
 EPM (epidemiological planning model), 247–249, 268
 Equity theory, 126–127
 Erez, M., 128
 ERG theory, 118–120
 Ethical management: applied to commercial and social marketing, 263–266; beneficence and nonmaleficence, 26–27; justice, 26; need for, 24–25; respect for persons, 25–26; supporting ethical behavior in programs/projects, 27–29
 Ethics analysis, 264–266
 Evans, R. G., 3
 Evidence-based management, 9
 Expectancy, 123, 124
 Expectancy theory, 122*fig*–124
 Expert power, 87, 130
 Expressed need, 245, 246
 External situational analysis: assessing step of, 45–46; described, 41, 42; forecasting step of, 44–45; monitoring step of, 43–44; scanning step of, 42–43; using and disseminating step of, 46–47
 External stakeholders: “A” frame for advocacy with, 208*fig*; communicating for effective relations with, 185–189; communicating in marketing and, 205–206; communicating with public sector, 206; influencing public policy, 207*fig*; map for health program, 186*fig*; receiving messages from, 203–205; relationships between programs or projects and, 187*fig*
