PART I: AutoCAD and AutoCAD LT Basics 1

| | |
|---|----|
| Quick Start: Drawing a Window | 3 |
| Chapter 1: Starting to Draw | 13 |
| Chapter 2: Opening a Drawing | 27 |
| Chapter 3: Using Commands | 35 |
| Chapter 4: Specifying Coordinates | 57 |
| Chapter 5: Setting Up a Drawing | 95 |

PART II: Drawing in Two Dimensions 109

| | |
|---|-----|
| Chapter 6: Drawing Simple Lines | 111 |
| Chapter 7: Drawing Curves and Points | 119 |
| Chapter 8: Viewing Your Drawing | 135 |
| Chapter 9: Editing Your Drawing: Basic Tools | 169 |
| Chapter 10: Editing Your Drawing: Advanced Tools | 195 |
| Chapter 11: Organizing Drawings with Layers, Colors, Linetypes, and Lineweights | 253 |
| Chapter 12: Obtaining Information from Your Drawing | 291 |
| Chapter 13: Creating Text | 315 |
| Chapter 14: Drawing Dimensions | 363 |
| Chapter 15: Creating Dimension Styles and Tolerances | 405 |
| Chapter 16: Drawing Complex Objects | 443 |
| Chapter 17: Plotting and Printing Your Drawing | 487 |

Part III: Working with Data 519

| | |
|--|-----|
| Chapter 18: Working with Blocks and Attributes | 521 |
| Chapter 19: Referencing Other Drawings | 585 |
| Chapter 20: Working with External Databases | 607 |

Part IV: Drawing in Three Dimensions 643

| | |
|---|-----|
| Chapter 21: Specifying 3D Coordinates | 645 |
| Chapter 22: Viewing 3D Drawings | 671 |
| Chapter 23: Creating 3D Surfaces | 713 |
| Chapter 24: Creating Solids and Editing in 3D | 749 |
| Chapter 25: Rendering in 3D | 803 |

| | |
|---|-------------|
| Part V: Organizing and Managing Drawings | 833 |
| Chapter 26: Keeping Control of Your Drawings | 835 |
| Chapter 27: Working with Other Applications | 893 |
| Chapter 28: Getting on the Internet | 915 |
| | |
| Part VI: Customizing AutoCAD | 941 |
| Chapter 29: Customizing Commands, Toolbars, and Tool Palettes | 943 |
| Chapter 30: Creating Macros and Slide Shows with Script Files | 965 |
| Chapter 31: Creating Your Own Linetypes and Hatch Patterns | 975 |
| Chapter 32: Creating Shapes and Fonts | 987 |
| Chapter 33: Customizing Menus | 999 |
| | |
| PART VII: Programming AutoCAD | 1033 |
| Chapter 34: Understanding AutoLISP and Visual LISP Basics | 1035 |
| Chapter 35: Exploring AutoLISP Further | 1051 |
| Chapter 36: Exploring Advanced AutoLISP Topics | 1077 |
| Chapter 37: Programming with Visual Basic for Applications | 1095 |
| | |
| PART VIII: Appendixes | 1125 |
| Appendix A: Installing and Configuring AutoCAD and AutoCAD LT | 1127 |
| Appendix B: AutoCAD and AutoCAD LT Resources | 1153 |
| Appendix C: What's on the CD-ROM | 1159 |
| | |
| Index | 1167 |

Contents

Foreword vii

Preface ix

Acknowledgments xvii

Part I: AutoCAD and AutoCAD LT Basics 1

Quick Start: Drawing a Window 3

 Summary 11

Chapter 1: Starting to Draw 13

 AutoCAD's Advantages 13

 Comparing AutoCAD and AutoCAD LT 14

 Starting AutoCAD and AutoCAD LT 14

 Creating a New Drawing 15

 Using the AutoCAD and AutoCAD LT Interface 16

 The drawing area 17

 The menus and toolbars 17

 The command line 18

 The status bar 18

 Creating a New Folder 19

 Using the Interface 20

 Saving a Drawing 22

 Closing a Drawing and Exiting from AutoCAD and AutoCAD LT 24

 Summary 25

Chapter 2: Opening a Drawing 27

 Creating a New Drawing from a Template 27

 Working with Templates 29

 Customizing the default template 29

 Creating your own templates 29

 Opening a Drawing with Default Settings 30

 Opening an Existing Drawing 30

 Using other ways to open drawings 31

 Using shortcuts in dialog boxes 31

 Using an Existing Drawing as a Prototype 32

 Saving a Drawing Under a New Name 32

 Summary 34

| | |
|---|-----------|
| Chapter 3: Using Commands. | 35 |
| The AutoCAD and AutoCAD LT Interface | 35 |
| Using menus | 35 |
| Using shortcut menus | 36 |
| Using dialog boxes | 37 |
| Using toolbars | 38 |
| Using tool palettes | 39 |
| The Command Line and Dynamic Input. | 39 |
| Understanding command names | 40 |
| Responding to commands | 41 |
| Command Techniques | 43 |
| Repeating commands | 44 |
| Using recent input | 44 |
| Canceling commands | 44 |
| Undoing a command | 45 |
| Redoing a command | 46 |
| Using one command within another command. | 48 |
| Of Mice and Pucks | 49 |
| Getting Help | 50 |
| Getting help on a command. | 51 |
| Finding help with Quickstart links | 51 |
| Using the main Help system. | 52 |
| Working with Help screens | 53 |
| Using the Info palette | 53 |
| Getting more help | 54 |
| Summary | 55 |
| | |
| Chapter 4: Specifying Coordinates | 57 |
| Understanding the X,Y Coordinate System. | 57 |
| Drawing units | 58 |
| Types of measurement notation | 58 |
| Typing Coordinates | 58 |
| Using the Dynamic Input tooltip to enter coordinates. | 58 |
| Absolute Cartesian coordinates | 62 |
| Relative Cartesian coordinates | 64 |
| Polar coordinates. | 65 |
| Direct distance entry. | 67 |
| Orthogonal mode. | 67 |
| Polar tracking | 68 |
| Displaying Coordinates | 71 |
| Picking Coordinates on the Screen | 72 |
| Snap settings | 72 |
| Object snaps | 77 |
| Running object snaps and OSNAP mode | 81 |
| Overriding Coordinate Settings | 82 |
| Locating Points. | 85 |
| Object snap tracking. | 85 |
| Tracking in AutoCAD LT | 89 |
| Point filters | 89 |
| From feature | 91 |
| Summary | 93 |

| | |
|---|-----------|
| Chapter 5: Setting Up a Drawing | 95 |
| Choosing Unit Types | 95 |
| Setting the drawing units | 96 |
| Setting the angle type | 96 |
| Setting the angle measure and direction | 97 |
| Drawing Limits | 98 |
| Understanding Scales | 99 |
| Working with scale formats | 101 |
| Customizing the scale list | 102 |
| Deciding on a scale and sheet size | 103 |
| Creating a Title Block | 104 |
| Specifying Common Setup Options | 104 |
| Customizing with the MVSETUP Command | 107 |
| Using the Setup Wizards | 107 |
| Summary | 108 |

Part II: Drawing in Two Dimensions **109**

| | |
|---|------------|
| Chapter 6: Drawing Simple Lines | 111 |
| Using the LINE Command | 111 |
| Drawing Rectangles | 112 |
| Drawing Polygons | 113 |
| Creating Construction Lines | 116 |
| Creating Rays | 117 |
| Summary | 118 |
| Chapter 7: Drawing Curves and Points | 119 |
| Drawing Circles | 119 |
| Understanding the circle options | 119 |
| Drawing circles | 120 |
| Drawing Arcs | 122 |
| Understanding arc options | 122 |
| Drawing arcs | 123 |
| Creating Ellipses and Elliptical Arcs | 126 |
| Understanding ellipse options | 126 |
| Drawing ellipses | 127 |
| Making Donuts | 129 |
| Understanding DONUT options | 130 |
| Drawing donuts | 130 |
| Placing Points | 131 |
| Changing the point style | 131 |
| Creating points | 132 |
| Summary | 133 |
| Chapter 8: Viewing Your Drawing | 135 |
| Regenerating and Redrawing the Display | 135 |
| Panning | 136 |
| Using the PAN command | 136 |
| Using the scroll bars | 136 |

| | |
|--|-----|
| Using the ZOOM Command | 138 |
| Understanding ZOOM options. | 139 |
| Using ZOOM Dynamic | 140 |
| Using Aerial View | 143 |
| Saving Named Views | 145 |
| Saving a view | 145 |
| Displaying a view | 147 |
| Using other View control functions. | 147 |
| Using named views to manage a drawing | 148 |
| Working with Tiled Viewports | 150 |
| Configuring tiled viewports | 151 |
| Using tiled viewports | 153 |
| Saving and restoring viewport configurations | 153 |
| Using Snap Rotation | 156 |
| Understanding User Coordinate Systems | 158 |
| Understanding UCS options | 158 |
| Saving and restoring a custom UCS. | 159 |
| Controlling the UCS icon | 160 |
| Using a custom UCS. | 161 |
| Creating Isometric Drawings | 163 |
| Understanding isometric planes | 163 |
| Drawing in Isometric mode | 164 |
| Summary | 167 |

Chapter 9: Editing Your Drawing: Basic Tools 169

| | |
|--|-----|
| Editing a Drawing. | 169 |
| Understanding object-selection basics. | 169 |
| Erasing objects | 170 |
| Moving objects | 171 |
| Copying objects. | 174 |
| Copying and moving objects from one drawing to another | 176 |
| Rotating objects. | 178 |
| Scaling objects | 181 |
| Using the CHANGE command | 183 |
| Selecting Objects | 184 |
| Selecting objects after choosing a command | 184 |
| Cycling through objects | 188 |
| Selecting objects before choosing a command | 188 |
| Implied windowing | 189 |
| Customizing the selection process | 190 |
| Summary | 194 |

Chapter 10: Editing Your Drawing: Advanced Tools 195

| | |
|--------------------------------------|-----|
| Copying and Moving Objects | 195 |
| Using the MIRROR command | 195 |
| Using the ARRAY command | 197 |
| Offsetting objects | 202 |
| Aligning objects | 205 |
| Resizing Commands | 208 |
| Trimming objects | 208 |
| Extending objects | 211 |
| Lengthening objects | 214 |
| Stretching objects. | 216 |

| | |
|---|-----|
| Using Construction Commands | 219 |
| Breaking objects | 219 |
| Joining objects | 220 |
| Creating chamfered corners | 223 |
| Creating rounded corners | 225 |
| Creating a Revision Cloud | 228 |
| Hiding Objects with a Wipeout | 229 |
| Double-Clicking to Edit Objects | 230 |
| Grips | 231 |
| Stretching with grips | 232 |
| Moving with grips | 233 |
| Rotating with grips | 234 |
| Scaling with grips | 234 |
| Mirroring with grips | 235 |
| Customizing grips | 237 |
| Editing with the Properties Palette | 238 |
| Managing the Properties palette | 238 |
| Using the Properties palette | 239 |
| Selection Filters | 240 |
| Using Quick Select to select objects | 241 |
| Using the FILTER command | 242 |
| Naming and editing filters | 245 |
| Using filters | 245 |
| Groups | 247 |
| Creating and modifying groups in AutoCAD | 247 |
| Changing a group | 248 |
| Creating and modifying groups in AutoCAD LT | 249 |
| Using groups | 250 |
| Summary | 251 |

Chapter 11: Organizing Drawings with Layers, Colors, Linetypes, and Lineweights. 253

| | |
|---|-----|
| Working with Layers | 253 |
| Understanding layers | 254 |
| Creating new layers | 254 |
| Using layers | 263 |
| Modifying layers | 271 |
| Changing Object Color, Linetype, and Lineweight | 276 |
| Changing an object's color | 276 |
| Changing the current color | 278 |
| Changing an object's linetype | 278 |
| Changing the current linetype | 279 |
| Changing an object's lineweight | 279 |
| Changing the current lineweight | 280 |
| Working with Linetype Scales | 282 |
| Changing linetype spacing by using a different linetype | 282 |
| Changing linetype spacing by changing the global linetype scale | 283 |
| Changing linetype spacing by changing the object linetype scale | 284 |
| Importing Layers and Linetypes from Other Drawings | 286 |
| Matching Properties | 287 |
| Summary | 289 |

Chapter 12: Obtaining Information from Your Drawing 291

| | |
|---|-----|
| Drawing-Level Information | 291 |
| Listing the status of your drawing | 291 |
| Listing system variables | 292 |
| Tracking drawing time | 293 |
| Object-Level Information | 295 |
| Listing objects | 295 |
| Calculating distances | 296 |
| Finding coordinates | 296 |
| Calculating area and perimeter | 298 |
| Getting information from the Properties palette | 301 |
| Measurement Commands | 301 |
| Dividing objects | 301 |
| Measuring objects | 303 |
| AutoCAD's Calculator | 304 |
| Calculating numbers | 306 |
| Using coordinates | 307 |
| Using object snaps | 308 |
| Using the scientific calculator | 308 |
| Converting units | 309 |
| Working with QuickCalc variables | 310 |
| Using QuickCalc in the Properties palette | 311 |
| Summary | 313 |

Chapter 13: Creating Text 315

| | |
|--|-----|
| Creating Single-Line Text | 315 |
| Justifying single-line text | 316 |
| Setting the height | 318 |
| Setting the rotation angle | 319 |
| Adding special characters and formatting | 319 |
| Using the TEXT command | 322 |
| Editing single-line text | 322 |
| Understanding Text Styles | 325 |
| Creating a new text style | 325 |
| Renaming and deleting text styles | 327 |
| Modifying a text style | 328 |
| Making a style current or changing a text object's style | 329 |
| Importing a text style | 329 |
| Creating Multiline Text | 330 |
| Using the In-Place Text Editor | 330 |
| Editing paragraph text | 337 |
| Importing text | 338 |
| Creating Tables | 340 |
| Inserting a table | 340 |
| Specifying a table style | 341 |
| Entering data into a table | 344 |
| Modifying a table | 345 |
| Inserting Fields | 349 |
| Creating fields | 350 |
| Editing and updating fields | 351 |

| | |
|---|-----|
| Managing Text | 353 |
| Using Quicktext | 353 |
| Using AutoCAD and AutoCAD LT fonts | 354 |
| Freezing text layers | 354 |
| Using MIRRTEXT | 354 |
| Finding Text in Your Drawing | 357 |
| Checking Your Spelling | 358 |
| Customizing the spelling dictionary | 359 |
| Summary | 361 |

Chapter 14: Drawing Dimensions 363

| | |
|---|-----|
| Working with Dimensions | 363 |
| The elements of a dimension | 363 |
| Preparing to dimension | 365 |
| Drawing Linear Dimensions | 365 |
| Specifying the dimensioned object | 366 |
| Using dimension options | 368 |
| Drawing Aligned Dimensions | 370 |
| Specifying the dimensioned object | 371 |
| Using the options | 371 |
| Creating Baseline and Continued Dimensions | 373 |
| Drawing baseline dimensions | 373 |
| Drawing continued dimensions | 374 |
| Dimensioning Arcs and Circles | 377 |
| Marking arc and circle centers | 377 |
| Dimensioning arc lengths | 377 |
| Creating radial dimensions | 378 |
| Creating diameter dimensions | 379 |
| Dimensioning Angles | 379 |
| Creating Ordinate Dimensions | 383 |
| Drawing Leaders | 385 |
| Using the Leader Settings dialog box | 386 |
| Creating a leader | 389 |
| Using Quick Dimension | 391 |
| Editing Dimensions | 394 |
| Editing associativity | 394 |
| Using the DIMEDIT command | 396 |
| Using the DIMTEDIT command | 397 |
| Flipping dimension arrows | 398 |
| Editing dimension text | 399 |
| Using the Properties palette to edit dimensions | 399 |
| Using Quick Dimension to edit dimensions | 399 |
| Using grips to edit dimensions | 400 |
| Editing objects and dimensions together | 401 |
| Summary | 403 |

Chapter 15: Creating Dimension Styles and Tolerances 405

| | |
|--|-----|
| Understanding Dimension Styles | 405 |
| Defining a New Dimension Style | 407 |
| Managing dimension lines | 408 |
| Defining symbols and arrows | 410 |

| | |
|---|------------|
| Managing dimension text | 414 |
| Fitting dimensions into tight spaces | 417 |
| Defining primary units | 422 |
| Defining alternate units | 424 |
| Formatting tolerances | 427 |
| Changing Dimension Styles | 429 |
| Choosing a new current dimension style | 430 |
| Creating a variant of a dimension style | 430 |
| Modifying a dimension to use a new dimension style | 430 |
| Modifying dimension styles | 431 |
| Overriding a dimension style | 431 |
| Updating dimensions | 432 |
| Comparing dimension styles | 432 |
| Copying dimension styles from other drawings. | 433 |
| Creating Geometric Tolerances. | 436 |
| Starting the tolerance frame. | 437 |
| Inserting the tolerance frame | 439 |
| Editing a tolerance frame | 439 |
| Summary | 440 |
| Chapter 16: Drawing Complex Objects | 443 |
| Creating and Editing Polylines | 443 |
| Using the PLINE command. | 444 |
| Editing polylines with the PEDIT command | 447 |
| Editing polylines using the Properties palette | 449 |
| Drawing and Editing Splines | 450 |
| Creating splines | 451 |
| Editing splines. | 452 |
| Creating Regions | 455 |
| Creating Boundaries | 457 |
| Creating Hatches | 459 |
| Understanding hatch patterns | 459 |
| Defining a hatch. | 460 |
| Determining the hatch boundary | 464 |
| Dragging and dropping hatch patterns. | 468 |
| Creating gradient fills. | 468 |
| Editing hatches | 470 |
| Using the SOLID command. | 472 |
| Creating and Editing Multilines | 472 |
| Creating a multiline style. | 473 |
| Drawing multilines | 477 |
| Editing multilines | 479 |
| Creating Dlines | 480 |
| Using the SKETCH Command | 481 |
| Digitizing Drawings with the TABLET Command | 483 |
| Summary | 485 |
| Chapter 17: Plotting and Printing Your Drawing | 487 |
| Preparing a Drawing for Plotting or Printing | 487 |
| Doing a draft plot | 487 |
| Plotting a drawing from model space. | 488 |

| | |
|---|-----|
| Creating a Layout in Paper Space | 488 |
| Entering paper space | 488 |
| Using the Layout Wizard | 489 |
| Laying out a drawing in paper space on your own | 494 |
| Working with Plot Styles | 505 |
| Setting the plot-style mode | 506 |
| Creating a plot-style table | 507 |
| Attaching a plot-style table to a layout | 511 |
| Setting the plot-style property for a layer or object | 512 |
| Plotting a Drawing | 513 |
| Choosing a plotter/printer | 514 |
| Previewing your plot | 516 |
| Creating the plot | 517 |
| Summary | 518 |

Part III: Working with Data

519

Chapter 18: Working with Blocks and Attributes 521

| | |
|---|-----|
| Combining Objects into Blocks | 522 |
| Understanding base points and insertion points | 522 |
| Creating a block | 523 |
| Redefining a block | 525 |
| Saving blocks as files | 526 |
| Replacing an existing file | 527 |
| Inserting Blocks and Files into Drawings | 528 |
| Using the Insert dialog box | 529 |
| Using the DesignCenter | 531 |
| Managing Blocks | 535 |
| Working with layers | 535 |
| Exploding blocks | 538 |
| Using the XPLODE command | 539 |
| Editing blocks | 540 |
| Creating and Using Dynamic Blocks | 543 |
| Understanding the work flow of dynamic blocks | 544 |
| Defining a dynamic block | 545 |
| Inserting and modifying dynamic blocks | 554 |
| Using Windows Features | 560 |
| Manipulating objects with the Windows Clipboard | 560 |
| Using drag-and-drop | 561 |
| Working with Attributes | 564 |
| Creating attribute definitions | 564 |
| Inserting blocks with attributes | 569 |
| Editing attributes | 570 |
| Extracting a database from attributes | 577 |
| Summary | 584 |

Chapter 19: Referencing Other Drawings 585

| | |
|---|-----|
| Understanding External References | 585 |
| Attaching an external reference | 585 |
| Opening an xref | 587 |
| Viewing xref relationships | 588 |

| | |
|--|-----|
| Editing an Xref within Your Drawing | 590 |
| Choosing the xref or block to edit | 590 |
| Editing the xref | 592 |
| Controlling Xref Display | 594 |
| Xrefs and dependent symbols | 594 |
| Circular references | 595 |
| Clipping xrefs | 595 |
| Speeding up the display of large xrefs | 597 |
| Managing Xrefs | 601 |
| The Xref Manager | 601 |
| Xref notification | 602 |
| DesignCenter | 603 |
| The xref log file | 604 |
| Summary | 606 |

Chapter 20: Working with External Databases 607

| | |
|--|-----|
| Understanding External Database Access | 607 |
| Preparing for Database Connectivity | 609 |
| Installing AutoCAD's database feature | 609 |
| Organizing the database structure | 610 |
| Configuring a data source | 611 |
| Connecting to Your Database | 615 |
| Connecting a database to a drawing | 616 |
| Opening a data table | 617 |
| Editing data in the Data View window | 621 |
| Linking Data to Drawing Objects | 622 |
| Creating a link template | 622 |
| Creating a link | 624 |
| Creating Labels | 629 |
| Creating label templates | 629 |
| Creating attached labels | 631 |
| Creating freestanding labels | 631 |
| Querying with the Query Editor | 632 |
| Using the Quick Query tab | 633 |
| Using the Range Query tab | 635 |
| Using the Query Builder tab | 635 |
| Using the SQL Query tab | 637 |
| Creating selection sets with Link Select | 639 |
| Working with Query Files | 640 |
| Storing queries | 640 |
| Importing and exporting queries | 641 |
| Summary | 641 |

Part IV: Drawing in Three Dimensions

643

Chapter 21: Specifying 3D Coordinates 645

| | |
|---|-----|
| Working with 3D Coordinates | 646 |
| Absolute and relative Cartesian coordinates in 3D | 647 |
| Cylindrical and spherical coordinates | 648 |

| | |
|--|------------|
| Using editing commands with 3D wireframes | 649 |
| Using point filters, object snaps, and grips in 3D | 652 |
| Creating 3D polylines | 654 |
| Using Elevation and Thickness | 655 |
| Creating surfaces with thickness | 655 |
| Using the HIDE command | 656 |
| Adding elevation to objects | 659 |
| Working with the User Coordinate System | 661 |
| Using the UCS icon | 661 |
| UCS options | 664 |
| Summary | 669 |
| Chapter 22: Viewing 3D Drawings | 671 |
| Working with the Standard Viewpoints | 673 |
| Using the VPOINT command | 673 |
| Looking at a drawing from the standard viewpoints | 673 |
| Using DDVPOINT | 679 |
| Working with the Tripod and Compass | 682 |
| Displaying a Quick Plan View | 684 |
| Shading Your Drawing | 685 |
| Using the shading options in AutoCAD | 686 |
| Using the shading options in AutoCAD LT | 686 |
| Using materials | 686 |
| Using 3D Orbit | 688 |
| Starting 3D orbit | 689 |
| Refining your 3D orbit view | 695 |
| Using Tiled Viewports | 700 |
| Defining a Perspective View | 700 |
| Using DVIEW | 701 |
| Understanding the DVIEW options | 702 |
| Laying Out 3D Drawings | 708 |
| Using SOLVIEW to lay out paper space viewports | 708 |
| Using SOLDRAW to create hidden lines and hatching | 709 |
| Using SOLPROF to create profiles | 710 |
| Summary | 712 |
| Chapter 23: Creating 3D Surfaces | 713 |
| Drawing Surfaces with 3DFACE | 714 |
| Using the 3DFACE command | 714 |
| Making 3D face edges invisible | 715 |
| Drawing Surfaces with PFACE | 719 |
| Creating Polygon Meshes with 3DMESH | 724 |
| Drawing Standard 3D Shapes | 726 |
| Box | 726 |
| Wedge | 727 |
| Pyramid | 728 |
| Cone | 729 |
| Sphere | 730 |
| Dome | 731 |
| Dish | 731 |

| | |
|--|------------|
| Torus | 732 |
| Mesh | 733 |
| Drawing a Revolved Surface. | 736 |
| Determining the angle of rotation. | 737 |
| Setting the number of segments | 738 |
| Using the REVSURF command. | 739 |
| Drawing an Extruded Surface | 740 |
| Drawing Ruled Surfaces | 743 |
| Drawing Edge Surfaces. | 746 |
| Summary | 748 |
| Chapter 24: Creating Solids and Editing in 3D | 749 |
| Drawing Standard Shapes | 749 |
| Drawing a box | 750 |
| Drawing a sphere | 751 |
| Drawing a cylinder | 752 |
| Drawing a cone | 753 |
| Drawing a wedge | 754 |
| Drawing a torus | 754 |
| Creating Extruded Solids | 757 |
| Drawing Revolved Solids | 760 |
| Creating Complex Solids. | 761 |
| Adding solids | 761 |
| Subtracting solids. | 762 |
| Creating a solid from the intersection of two solids | 762 |
| Creating a new solid using INTERFERE. | 763 |
| Sectioning and Slicing Solids | 767 |
| Using the SECTION command | 767 |
| Using the SLICE command | 768 |
| Using Editing Commands in 3D | 771 |
| Mirroring in 3D | 771 |
| Arraying in 3D | 773 |
| Rotating in 3D | 777 |
| Aligning in 3D | 779 |
| Trimming and extending in 3D | 781 |
| Filleting in 3D | 784 |
| Chamfering in 3D | 786 |
| Exploding 3D objects | 789 |
| Editing Solids | 789 |
| Editing faces | 789 |
| Editing edges | 796 |
| Editing bodies | 797 |
| Listing Solid Properties | 800 |
| Summary | 801 |
| Chapter 25: Rendering in 3D | 803 |
| Understanding Rendering | 803 |
| Learning the steps | 804 |
| Doing a default rendering | 804 |

| | |
|--------------------------------------|-----|
| Creating Lights | 806 |
| Assigning color to a light | 807 |
| Setting the north location | 807 |
| Setting the ambient light | 807 |
| Creating a point light | 808 |
| Creating a spotlight | 809 |
| Creating a distant light | 811 |
| Creating shadows | 813 |
| Creating Scenes | 817 |
| Working with Materials | 818 |
| Adding materials | 819 |
| Attaching materials | 825 |
| Using Backgrounds | 826 |
| Doing the Final Render | 828 |
| Statistics | 831 |
| Saving rendered images | 831 |
| Unloading Render | 832 |
| Summary | 832 |

Part V: Organizing and Managing Drawings

833

Chapter 26: Keeping Control of Your Drawings 835

| | |
|--|-----|
| Accessing Drawing Components with the DesignCenter | 835 |
| Navigating with the DesignCenter | 836 |
| Accessing named drawing components | 838 |
| Controlling the DesignCenter display | 840 |
| Accessing Drawing Content with Tool Palettes | 842 |
| Creating a new tool palette | 843 |
| Adding content tools | 843 |
| Adding command tools | 844 |
| Copying a tool | 845 |
| Setting tool properties | 845 |
| Organizing tool palettes | 848 |
| Using a tool palette | 848 |
| Setting Standards for Drawings | 851 |
| Using the CAD Standards tools | 851 |
| Translating layers | 858 |
| The Communication Center | 861 |
| Renaming named objects | 861 |
| Organizing Your Drawings | 862 |
| Archiving drawings | 862 |
| Finding drawings | 863 |
| Specifying drawing properties | 864 |
| Working with Sheet Sets | 865 |
| Understanding sheet sets | 866 |
| Creating a sheet set | 867 |
| Setting up sheet-set references | 871 |
| Using a sheet set | 879 |

| | |
|---|-----|
| Maintaining Security | 884 |
| Password protection | 884 |
| Digital signatures | 885 |
| Keeping Track of Referenced Files | 886 |
| Handling Errors and Crashes | 887 |
| Taking care of temporary files. | 887 |
| Repairing corrupted drawing files | 888 |
| Using backup drawings. | 889 |
| Recovering from a crash | 889 |
| Managing Drawings from Prior Releases | 890 |
| Summary | 891 |

Chapter 27: Working with Other Applications 893

| | |
|--|-----|
| Importing and Exporting Other File Formats | 893 |
| Exporting drawings | 894 |
| Importing files | 897 |
| Inserting a DXF file | 897 |
| Working with Raster Images. | 898 |
| Inserting images. | 899 |
| Managing images | 900 |
| Clipping images | 901 |
| Controlling image display | 902 |
| Pasting, Linking, and Embedding Objects | 905 |
| Embedding objects into a drawing | 905 |
| Using Paste Special | 907 |
| Linking data | 911 |
| Summary | 914 |

Chapter 28: Getting on the Internet. 915

| | |
|---|-----|
| Sending Drawings. | 915 |
| Using eTransmit. | 915 |
| Specifying transmittal settings | 916 |
| Opening Drawings from the Web | 918 |
| Using the Browse the Web – Open dialog box. | 918 |
| Using i-drop to drag objects into a drawing | 918 |
| Creating Object Hyperlinks | 919 |
| Creating a hyperlink | 919 |
| Using a hyperlink | 921 |
| Editing a hyperlink | 921 |
| Publishing Drawings | 922 |
| Understanding DWF files. | 923 |
| Creating 2D DWF files. | 923 |
| Creating 3D DWF files. | 928 |
| Using the Publish to Web Wizard | 929 |
| Posting DWF files directly | 932 |
| Editing Web pages | 932 |
| Viewing DWF drawings | 933 |
| Using DWF Composer and the Markup Manager | 937 |
| Summary | 939 |

Part VI: Customizing AutoCAD**941****Chapter 29: Customizing Commands, Toolbars, and Tool Palettes 943**

| | |
|---|-----|
| Working with Customizable Files | 943 |
| Editing customizable files | 945 |
| Backing up customizable files | 946 |
| Using the command-line form of commands | 947 |
| Documenting your files | 949 |
| Creating Keyboard Shortcuts for Commands | 949 |
| Creating shortcuts to Windows programs | 949 |
| Creating keyboard shortcuts to commands | 950 |
| Customizing Toolbars | 952 |
| Using the Customize User Interface dialog box | 952 |
| Removing buttons from an existing toolbar | 953 |
| Creating a new toolbar | 953 |
| Customizing Tool Palettes | 962 |
| Summary | 963 |

Chapter 30: Creating Macros and Slide Shows with Script Files. 965

| | |
|---|-----|
| Creating Macros with Script Files | 965 |
| Creating the script file | 965 |
| Running a script file | 967 |
| Creating Slide Shows | 970 |
| Creating slides | 971 |
| Viewing slides | 971 |
| Using scripts to create slide shows | 972 |
| Creating Slide Libraries | 973 |
| Summary | 974 |

Chapter 31: Creating Your Own Linetypes and Hatch Patterns. 975

| | |
|--------------------------------------|-----|
| Creating Linetypes | 975 |
| Creating simple linetypes | 975 |
| Creating complex linetypes | 977 |
| Creating Hatch Patterns | 980 |
| Summary | 986 |

Chapter 32: Creating Shapes and Fonts 987

| | |
|--------------------------------|-----|
| Creating Shapes | 987 |
| Using shape files | 988 |
| Creating shape files | 988 |
| Editing shape files | 996 |
| Creating Fonts | 997 |
| Summary | 998 |

Chapter 33: Customizing Menus. 999

| | |
|---|------|
| Working with the Customization File | 999 |
| Understanding the menu file | 999 |
| Loading and unloading customization files | 1000 |

| | |
|--|------|
| Customizing a Menu | 1003 |
| Looking at a drop-down menu | 1004 |
| Writing menu macros | 1006 |
| Swapping menus | 1007 |
| Customizing mouse buttons and tablet buttons | 1008 |
| Customizing drop-down menus | 1011 |
| Customizing image-tile menus | 1023 |
| Customizing tablet menus | 1025 |
| Working with the Screen menu | 1026 |
| Creating keyboard shortcuts | 1026 |
| Summary | 1030 |

Part VII: Programming AutoCAD

1033

Chapter 34: Understanding AutoLISP and Visual LISP Basics 1035

| | |
|---|------|
| Introducing Visual LISP | 1036 |
| Opening Visual LISP | 1036 |
| Opening and loading an AutoLISP file with Visual LISP | 1036 |
| Loading an AutoLISP file | 1037 |
| Using an AutoLISP routine in AutoCAD | 1039 |
| Looking at an AutoLISP routine | 1040 |
| Using the Visual LISP interface | 1041 |
| Closing a file and Visual LISP | 1042 |
| Getting Help in Visual LISP | 1043 |
| Working with AutoLISP Expressions | 1044 |
| Understanding AutoLISP syntax | 1044 |
| Working with numbers and text | 1045 |
| Using AutoLISP on the Command Line | 1047 |
| Creating AutoLISP Files | 1048 |
| Summary | 1050 |

Chapter 35: Exploring AutoLISP Further 1051

| | |
|---|------|
| Creating Variables | 1051 |
| Working with AutoCAD Commands | 1052 |
| Accessing AutoCAD commands | 1052 |
| Creating functions | 1053 |
| Creating functions with arguments | 1056 |
| Working with system variables | 1057 |
| Working with Lists | 1059 |
| Using lists for coordinates | 1059 |
| Creating dotted pairs | 1060 |
| Setting Conditions | 1060 |
| Conditional structures | 1060 |
| Loop structures | 1062 |
| Managing Drawing Objects | 1065 |
| Getting information about an object | 1065 |
| Modifying objects | 1067 |
| Creating selection sets | 1067 |

Getting Input from the User 1070
 Putting on the Finishing Touches 1072
 Summary 1075

Chapter 36: Exploring Advanced AutoLISP Topics. 1077

Understanding Local and Global Variables 1077
 Working with Visual LISP ActiveX Functions 1079
 Reviewing AutoLISP retrieval and modification 1079
 Using ActiveX with Visual LISP. 1083
 Debugging Code. 1086
 Using the Error Trace window 1088
 Working with break points 1088
 Using the Watch window 1091
 Summary 1093

Chapter 37: Programming with Visual Basic for Applications. 1095

Starting to Work with VBA 1095
 Opening the VBA environment. 1096
 Getting acquainted with VBA. 1097
 Investigating the hierarchy model. 1098
 Accessing help 1100
 Writing VBA Code 1101
 Looking at VBA syntax 1103
 Saving a VBA routine 1104
 Loading a VBA routine 1105
 Running a VBA routine 1105
 Using the Visual Basic Editor. 1105
 Understanding variables 1107
 Creating VBA statements 1109
 Getting User Input. 1110
 Creating Dialog Boxes 1112
 Understanding the Toolbox toolbar. 1113
 Changing dialog-box properties 1114
 Adding dialog-box controls. 1115
 Modifying Objects. 1120
 Using constants 1120
 Using functions 1120
 Debugging and Trapping Errors. 1122
 Moving to Advanced Programming. 1123
 Summary 1123
 A Final Word 1123

Part VIII: Appendixes 1125

Appendix A: Installing and Configuring AutoCAD and AutoCAD LT 1127

Installing AutoCAD and AutoCAD LT 1127
 Preparing to install 1127
 Starting installation 1128

| | |
|---|-------------|
| Changing an installation | 1131 |
| Authorizing AutoCAD and AutoCAD LT | 1131 |
| Configuring and Using Workspaces | 1132 |
| Creating and modifying a workspace | 1132 |
| Switching between workspaces | 1133 |
| Configuring AutoCAD | 1133 |
| Customizing the status bar | 1133 |
| Configuring options | 1133 |
| Starting AutoCAD Your Way | 1146 |
| Using command-line switches | 1146 |
| Understanding configuration files | 1147 |
| Creating multiple configurations | 1149 |
| Configuring a Plotter | 1149 |
| Using the Plotter Manager | 1150 |
| Editing a plotter configuration | 1150 |
| Appendix B: AutoCAD and AutoCAD LT Resources | 1153 |
| Discovering AutoCAD and AutoCAD LT | 1153 |
| Using AutoCAD and AutoCAD LT Help resources | 1153 |
| Learning from your dealer | 1153 |
| Taking a course | 1154 |
| Learning from other users | 1154 |
| Reading the magazine | 1154 |
| Accessing Technical Support | 1154 |
| Autodesk User Groups | 1155 |
| Internet Resources | 1156 |
| Appendix C: What's on the CD-ROM | 1159 |
| System Requirements | 1159 |
| Using the CD-ROM with Microsoft Windows | 1160 |
| What's on the CD-ROM | 1160 |
| Using the Drawings folder | 1160 |
| Using the Results folder | 1161 |
| Using the Links folder | 1161 |
| Using the Software folder | 1161 |
| Applications | 1163 |
| Using the eBook version of AutoCAD 2006 and AutoCAD LT 2006 Bible | 1166 |
| Troubleshooting | 1166 |
| Index | 1167 |
