

Contents at a Glance

<i>Introduction</i>	1
<i>Part I: Examining the Thyroid</i>	9
Chapter 1: The Big Role of a Little Gland	11
Chapter 2: How the Thyroid Works.....	21
Chapter 3: Finding a Thyroid Doctor	33
Chapter 4: Testing Your Thyroid	45
<i>Part II: Diagnosing and Treating Thyroid Conditions</i>	61
Chapter 5: Dealing with Decreased Thyroid Function.....	63
Chapter 6: Taming the Hyperactive Thyroid	79
Chapter 7: Thyroid Nodules.....	99
Chapter 8: Thyroid Cancer	109
Chapter 9: Multinodular Goiters: Thyroids with Many Nodules	123
Chapter 10: Drugs That Impact Your Thyroid	131
Chapter 11: Thyroid Infections and Inflammation	147
Chapter 12: Iodine Deficiency and Excess Disease	157
Chapter 13: Surgery of the Thyroid	173
<i>Part III: Reviewing Special Considerations in Thyroid Health</i>	185
Chapter 14: The Genetic Link to Thyroid Disease.....	187
Chapter 15: The Thyroid and Your Mental Health	205
Chapter 16: What's New in Thyroid Treatment?	211
Chapter 17: The Thyroid and Pregnancy	231
Chapter 18: Thyroid Conditions and Children	245
Chapter 19: Thyroid Disease and the Elderly	261
Chapter 20: Diet, Exercise, and Your Thyroid.....	275
<i>Part IV: The Part of Tens</i>	295
Chapter 21: Ten Myths about Thyroid Health	297
Chapter 22: Ten Ways to Maximize Thyroid Health.....	307
Chapter 23: Ten Questions Readers Have Posed	317

<i>Part V: Appendixes</i>	327
Appendix A: A Glossary of Key Terms	329
Appendix B: Sources of More Information	333
<i>Index</i>	337

Table of Contents

.....

<i>Introduction</i>	1
About This Book.....	2
Conventions Used in This Book	3
Assumptions	4
How This Book Is Organized.....	4
Part I: Examining the Thyroid.....	4
Part II: Diagnosing and Treating Thyroid Conditions	5
Part III: Reviewing Special Considerations in Thyroid Health	5
Part IV: The Part of Tens.....	6
Part V: Appendixes.....	6
Icons Used in This Book.....	6
Where to Go from Here.....	7
<i>Part I: Examining the Thyroid</i>	9
Chapter 1: The Big Role of a Little Gland	11
Discovering the Extent of the Problem	12
Identifying an Unhappy Thyroid	13
Recognizing Who’s at Risk	14
Realizing the Importance of a Healthy Thyroid	14
Treating What Ails You	15
Examining Additional Contributors to Thyroid Ailments.....	16
Realizing the Consequences of Delaying Treatment	17
Paying Attention to Special Groups and Considerations.....	18
Keeping the Rest of Your Body Healthy	19
Staying Informed	20
Chapter 2: How the Thyroid Works	21
Picturing Your Thyroid.....	21
Examining the Production of Thyroid Hormones.....	23
Meeting the hormones.....	24
Identifying the importance of iodine	25
Moving thyroid hormones around	26
Regulating thyroid hormones with TSH	27
Understanding the Function of Thyroid Hormones	27
General functions	28
Metabolism	28
Development	29
Muscle function	29
Energy sources.....	29

Organ-specific functions	30
The heart and blood vessels	30
The lungs	30
The stomach, intestines, and liver	31
The skin, hair, and nails	31
The brain and cerebral functioning.....	31
Sexual functioning and menstruation	32
The bones and teeth	32
Chapter 3: Finding a Thyroid Doctor	33
Asking the Right Questions.....	34
Is the doctor board certified in endocrinology?	34
Does the doctor belong to a specialty society?	35
Where was the doctor trained?	36
Has the doctor been disciplined for any infraction?	37
Consulting Possible Sources.....	37
Searching your insurance plan	37
Checking with your doctor	38
Turning to family and friends	38
Approaching major medical centers.....	39
Looking at magazines.....	40
Making use of the Internet	41
American Thyroid Association	41
American Association of Clinical Endocrinologists	41
Endocrine Society	41
American Association of Endocrine Surgeons	42
National Institutes of Health	42
Questions for and Observations about the Doctor on First Meeting.....	42
Reviewing Special Considerations When	
Choosing a Thyroid or Eye Surgeon.....	43
Chapter 4: Testing Your Thyroid	45
Checking Thyroid-Hormone Levels with Older Tests.....	45
Total thyroxine	46
Resin T3 uptake	47
Free thyroxine index	48
Checking Your Levels with the Best Tests	49
Free thyroxine (FT4)	49
Thyroid-stimulating hormone (TSH)	51
Taking Nonhormonal Blood Tests.....	52
Thyroid autoantibodies	52
Serum thyroglobulin	54
Determining the Size, Shape, and Content of Your Thyroid	54
Radioactive iodine uptake and scan	55
Thyroid ultrasound	57
Fine needle aspiration biopsy (FNAB).....	58
Core needle biopsy of the thyroid.....	59

Part II: Diagnosing and Treating Thyroid Conditions61

Chapter 5: Dealing with Decreased Thyroid Function63

Living with Autoimmune Thyroiditis.....63
 Signs and symptoms65
 Approach to treatment65
 Coexisting autoimmune diseases66
 Identifying Hypothyroidism.....67
 Signs and symptoms of hypothyroidism.....67
 Diagnosing the disease68
 Related conditions69
 Fat abnormalities69
 Changes in reproductive function70
 Pinpointing the Causes of Hypothyroidism.....70
 Removal of the thyroid70
 Absence of brain hormones70
 Foods that cause hypothyroidism71
 Drugs that cause hypothyroidism.....72
 Diagnosing Severe Hypothyroidism.....72
 Treating Hypothyroidism with Hormones72
 Turning to the right hormones73
 Determining the right amount73
 Filling your prescription and taking your medication.....75
 Testing hormone levels75
 Treating Myxedema Coma76
 Managing Subclinical Hypothyroidism.....76
 Understanding the Nonthyroidal Illness Syndrome77

Chapter 6: Taming the Hyperactive Thyroid79

Detecting the Signs and Symptoms of Hyperthyroidism80
 The body generally81
 The thyroid.....81
 The eyes.....82
 The skin and hair83
 The heart83
 The nervous system and muscles83
 The reproductive system84
 The stomach, intestines, and liver84
 The bones84
 The urinary system85
 Confirming a Diagnosis of Hyperthyroidism85
 Determining Whether Graves' Disease Is the Culprit86
 Causes of Graves' disease86
 Symptoms specific to Graves' disease87
 Thyroid eye disease87
 Thyroid skin disease89

Recognizing Other Causes of Hyperthyroidism	89
Choosing the Best Treatment for Graves' Disease	91
Thyroid surgery	91
Radioactive iodine treatment	93
Antithyroid pills	94
Other helpful considerations and medications	96
Treating Other Causes of Hyperthyroidism	97
Surviving Thyroid Storm	98
Chapter 7: Thyroid Nodules	99
What's a Thyroid Nodule?	100
Evaluating Cancer Risks	101
Securing a Diagnosis	102
Thyroid function tests	102
The thyroid scan	102
The thyroid ultrasound study	103
The fine needle aspiration biopsy	104
Treating Cancerous Nodules	105
Dealing with Nodules That Aren't Cancer	106
Hot nodules	107
Benign cysts	107
Warm or cold nodules	108
Ignoring small nodules	108
Chapter 8: Thyroid Cancer	109
Determining What Causes Thyroid Cancer	110
Identifying the Types of Thyroid Cancer	112
Papillary thyroid cancer	113
Follicular thyroid cancer	114
Medullary thyroid cancer	114
Undifferentiated (anaplastic) cancer	116
The Stages of Thyroid Cancer and the Treatment Options	117
Stage I	117
Stage II	119
Stage III	119
Stage IV	120
Medullary thyroid cancer	120
Following up on Cancer Treatment	120
Chapter 9: Multinodular Goiters: Thyroids with Many Nodules ...	123
A Multinodular Goiter Grows Up	123
Making a Diagnosis	125
Choosing to Treat It or Ignore It	127
Treating a Multinodular Goiter	127
The nontoxic goiter	127
The toxic goiter	128
Dealing with a Goiter Behind the Sternum	129

Chapter 10: Drugs That Impact Your Thyroid131

- Revealing the Drug-Food-Thyroid Connection.....132
- Identifying the Effects of Specific Substances135
 - Initiating or aggravating hypothyroidism135
 - Drugs and chemicals that compete with iodine135
 - Drugs and chemicals that prevent the addition of iodine to form thyroid hormones136
 - Drugs that affect the transport of thyroid hormone.....137
 - Amiodarone138
 - Drugs that treat severe hyperthyroidism.....139
 - Growth hormone.....139
 - Drugs that remove thyroid hormone from your system139
 - Drugs that decrease your TSH.....140
 - Creating false test results141
 - Initiating hyperthyroidism141
- Looking At the New Drugs142
- Discovering Whether You're at Risk142
 - Anemia drugs143
 - Antiaddiction agents143
 - Antibiotics143
 - Anti-inflammatory drugs143
 - Antithyroid drugs144
 - Diabetes drugs144
 - Diuretics (reduce body water)144
 - Drugs to improve alertness.....144
 - Fat-lowering drugs.....144
 - Growth-hormone controlling drugs144
 - Heart rhythm drugs.....144
 - Hormone replacement145
 - Nausea-controlling drugs145
 - Pain medication145
 - Peptic ulcer drugs146
 - Prolactin controlling drugs146
 - Psychoactive drugs.....146

Chapter 11: Thyroid Infections and Inflammation147

- Putting a Face on Subacute Thyroiditis147
 - Causes and effects.....148
 - Laboratory findings.....149
 - Treatment options.....150
- Coping with Postpartum and Silent Thyroiditis.....151
 - Understanding the disease.....151
 - Interpreting lab results152
 - Getting treatment152

Identifying Acute Thyroiditis	153
Describing the disease	153
Confirming the diagnosis with lab tests	154
Treating acute thyroiditis	154
A Rare Form of Thyroiditis	155

Chapter 12: Iodine Deficiency and Excess Disease157

Consuming Iodine in the U.S., Canada, and the U.K.	158
Realizing the Vastness of the Problem	158
Facing the Consequences of Iodine Lack	161
From pregnancy to adulthood	161
Pregnancy	161
Infancy	162
Childhood	162
Adulthood	162
Changes brought on by iodine deficiency	162
Defining the problem: Endemic cretinism	163
Goiter: The body's defense	164
Neurologic cretinism	165
Myxedematous cretinism	165
Looking at the geographic distribution	166
Contributing factors	167
Dietary factors	167
Lack of selenium	168
Managing the Problem of Iodine Deficiency	168
A sprinkle of salt	168
An injection of oil	170
A slice of bread or cup of water	171
Delineating the Drawbacks of Iodization	171

Chapter 13: Surgery of the Thyroid173

Deciding If Surgery Is Necessary	173
Finding Your Surgeon	174
Making Final Preparations Before Surgery	176
What Happens During Surgery	176
Making the initial incisions	176
Dealing with surgical obstacles	177
Parathyroid glands	177
Recurrent laryngeal nerves	178
Determining the extent of surgery	179
Considering a New Approach	181
Recuperating After the Operation	182
Getting back on your feet	182
Dealing with complications	182

***Part III: Reviewing Special Considerations
in Thyroid Health* 185**

Chapter 14: The Genetic Link to Thyroid Disease 187

Taking Genetics 101	188
Pouring over pea plants	188
Talking the genetics talk	189
Observing the great divide.....	190
Mapping traits with genes and chromosomes	191
Getting down to the DNA.....	191
Determining whether to be a liver or a heart	193
Probing the Origins of Genetic Thyroid Diseases	194
Inheriting a disease through a single gene.....	194
Recessive inheritance	195
Dominant inheritance	195
X-linked inheritance	196
Inheriting a disease through multiple genes.....	197
Inheriting a chromosome abnormality	199
Viewing the Future of Managing Hereditary Thyroid Disease.....	200
Genetic engineering	200
Exploring the ethics of germline gene therapy	202

Chapter 15: The Thyroid and Your Mental Health 205

The Underactive Thyroid and Your Mood	206
Overactivity of the Thyroid and Your Mind.....	208
Fighting Depression	209
Determining if the thyroid is the cause	209
Using thyroid hormone to treat depression	210

Chapter 16: What's New in Thyroid Treatment? 211

Treating Subclinical Hypothyroidism.....	212
Finding the Right Dose of Hormone.....	213
Dealing with Hyperthyroidism	214
Connecting hyperthyroidism and the heart	214
Exploring hyperthyroid eye disease.....	215
Assessing Goiters and Nodules	217
Differentiating benign from malignant nodules	217
Performing surgery after ethanol injections.....	218
Shrinking goiters and nodules	219
Using Antithyroid Drugs Properly	220
Handling Thyrotoxic Periodic Paralysis.....	220

Taking New Approaches to Thyroid Cancer	222
Understanding the impact of radioactive iodine exposure	222
Blocking estrogen to slow tumor growth	223
Predicting thyroid cancer	223
Detecting residual thyroid cancer	224
Following up on thyroid-cancer treatment	224
Knowing what to expect from medullary thyroid cancer	225
Using recombinant TSH with thyroid-cancer patients	226
Checking testicular function after radiation therapy	226
Testing calcium levels after cancer surgery	227
Understanding familial papillary thyroid cancer	227
Tackling Iodine-Deficiency Disease	228
Recognizing the importance of selenium	228
Using iodized oil for goiters	229
Increasing the intelligence of babies born to hypothyroid mothers	230
Chapter 17: The Thyroid and Pregnancy	231
The Normal Thyroid During Pregnancy	232
Pregnancy and Hypothyroidism	234
Decreased fertility	234
Iodine deficiency	235
Autoimmune hypothyroidism	235
Understanding the risks to the mother and fetus	235
Knowing when to treat the mother	236
Hyperthyroidism in Pregnancy	237
Graves' disease	239
Finding hyperthyroidism in the fetus	239
Treating the mother during pregnancy	240
Checking mother and child after birth	241
Breastfeeding with Graves' disease	242
Gestational transient thyrotoxicosis	242
Hydatidiform mole and choriocarcinoma	243
New Thyroid Nodules in Pregnancy	244
Chapter 18: Thyroid Conditions and Children	245
Understanding the Onset and Development of Thyroid Function	245
Focusing on the fetus	246
Bringing a baby into the world	247
Screening the Newborn	248
Coping with Hypothyroidism in Children	249
Transient congenital hypothyroidism	250
Congenital hypothyroidism	250
Causes	250
Signs and symptoms	251
Treatment	251

Acquired hypothyroidism252
 Causes252
 Signs and symptoms252
 Laboratory confirmation254
 Treatment254
 Dealing with Hyperthyroidism in Children254
 Signs and symptoms255
 Laboratory confirmation256
 Treatment256
 Radioactive iodine257
 Antithyroid drugs257
 Surgery of the thyroid257
 Diagnosing Goiters in Children.....258
 Finding Nodules and Cancer in Children259

Chapter 19: Thyroid Disease and the Elderly261

Thyroid Changes in the Elderly Due to Aging
 and Nonthyroidal Disease262
 Normal aging changes.....262
 Changes due to chronic illness or drugs.....262
 Real Thyroid Disease in the Elderly.....263
 Looking at current definitions of thyroid disease.....263
 Trying thyroid hormone for subclinical patients.....264
 Sources of Confusion in Diagnosis265
 Other chronic illnesses, conditions, and diseases.....266
 Medications.....266
 Discovering Hypothyroidism in the Elderly267
 Deciphering signs and symptoms267
 Getting laboratory confirmation268
 Taking treatment slowly268
 Hyperthyroidism in the Elderly.....269
 Sorting through confusing signs and symptoms270
 Securing a diagnosis271
 Treating hyperthyroidism in the elderly272
 Thyroid Nodules in the Elderly273

Chapter 20: Diet, Exercise, and Your Thyroid275

Guaranteeing Your Best Nutrition.....275
 Maintaining a healthy weight.....276
 Using the Food Guide Pyramid to make your food choices.....277
 Counting calories278
 Selecting a variety of foods279
 Energy sources.....279
 Vitamins280
 Minerals280

Choosing your fats properly	281
Measuring your cholesterol	282
High cholesterol and hypothyroidism	282
Moderating your sugar intake	283
Choosing and preparing foods with less salt.....	283
Drinking alcohol in moderation.....	284
Keeping foods safe to eat	284
Making good food choices	285
Clarifying the Thyroid-Weight Connection	286
Does my metabolism slow when I lose weight?	286
If I'm treated for hyperthyroidism,	
am I doomed to gain weight?	286
Getting Enough Iodine in a Vegetarian Diet	288
Exercising for Your Thyroid.....	289
Recognizing the natural consequences of aging	290
Working out with hypothyroidism	290
Exercising with hyperthyroidism	291
Meeting your minimal exercise needs	292
Aerobic exercise	292
Anaerobic exercise	292
Uncovering a New Hormone: Connecting Leptin	
to Weight Loss and the Thyroid	293
Learning the functions of leptin	293
Interacting with thyroid hormone.....	294

***Part IV: The Part of Tens*.....295**

Chapter 21: Ten Myths about Thyroid Health297

I'm Hypothyroid, so I Can't Lose Weight	297
I'm Hyperthyroid, so I Can't Gain Weight.....	299
Breastfeeding and Antithyroid Pills Don't Mix	299
Brand-Name Thyroid Hormone Pills Are Best.....	300
I Have to Take Thyroid Medication for Life	301
Natural Thyroid Hormones Are Better Than Synthetic Hormones	302
Thyroid Disease Is Contagious.....	303
Iodine Deficiency Is a Medical Problem	304
The Higher My Autoantibody Levels, the Worse	
My Thyroid Disease.....	305
Clinical Symptoms Are More Reliable Than Blood Tests.....	305

Chapter 22: Ten Ways to Maximize Thyroid Health307

Screening at Appropriate Intervals.....	308
Checking Thyroid Function As Your Body Changes	308
Performing a "Neck Check"	309
Getting Enough Iodine to Satisfy Your Thyroid.....	310

Stopping Thyroid Medication, If Possible.....	310
Using Both Types of Thyroid Hormone.....	311
Preventing the Regrowth of Thyroid Cancer	312
Using the Same Thyroid Preparation	313
Anticipating Drug Interactions	314
Protecting Your Thyroid from Radiation.....	315
Keeping Up-to-Date with Thyroid Discoveries	316
Chapter 23: Ten Questions Readers Have Posed	317
Basing Doses of Methimazole on TSH	318
Reversing Cold Sensitivity	319
Treating a Teenager for Hyperthyroidism	320
Taking Methimazole All at Once.....	321
Insisting on Radioactive Iodine Treatment	321
Treating with Thyroid after Pregnancy	322
Explaining Joint Problems.....	323
Taking Antithyroid Drugs Long Term	323
Reversing Chronic Thyroiditis	324
Changing Thyroid Dosage	325
<i>Part V: Appendixes</i>	327
Appendix A: A Glossary of Key Terms	329
Appendix B: Sources of More Information	333
<i>Index.....</i>	337
