Introduction	xxiii
Chapter 1 Free Up Mental RAM	1
Hack 1: Email Your Future Self	2
Hack 2: Manage a todo.txt File at the Command Line	5
The Command Line Interface	5
Why Plain Text?	6
Install todo.sh	6
Using todo.sh	8
Create a Sortable, Searchable todo.txt	8
List Tasks with todo.sh	10
Prioritize Tasks	10
More Uses for todo.txt	11
Hack 3: Develop Your (Digital) Photographic Memory	12
Tag Your Photos on Flickr	12
Upload Photos to Flickr from Your Camera Phone	13
Your Photo Reference	14
Hack 4: Install Your Personal Wikipedia	15
What You Need	16
What to Do	16
You're Ready to Go	18
Brief Wikitext Primer	19

Hack 5: Keep an Instiki Wiki Hyperlinked Notebook	20
Installing Instiki	20
You're Ready to Go	22
Securing and Accessing Your Wiki	25
Hack 6: Take Great Notes	25
Method 1: Symbolize Next Actions	26
Method 2: Split Your Page into Quadrants	26
Method 3: Record and Summarize	26
Create Your Own Custom Note Paper	28
References	28
Chapter 2 Firewall Your Attention	29
Hack 7: Limit Access to Time-Wasting Web Sites	30
Install the Invisibility Cloak	31
Set Which Sites Should Wear the Cloak	32
Customize the Script	33
Hack 8: Permanently Block Time-Wasting Web Sites	35
Windows	36
Mac OS X	36
The Result	36
Hack 9: Reduce Email Interruptions	37
Shut Down Your Email Program	37
Set Your Client to Check for Messages Once an Hour	38
Hack 10: Split Your Work Among Multiple Desktops	39
Windows XP	39
Mac OS X	41
Hack 11: Build a No-fly Zone	42
Set Yourself up to Get into the Zone	42
Make Yourself Inaccessible	42
Work at Quieter Times and in Zoned-Off Spaces	43
Hack 12: Filter Low-Priority Email Messages	43
Filter Low-Priority Messages	44
Filter CC'ed Messages	45
Hack 13: Clear Your Desktop	46
Windows	46
Mac OS X	47
Hack 14: Make Your House a Usable Home	48
Create a Place for Incoming Stuff	48
Put Items You Need to Remember in Your Path	49
Stow Away Stuff You Don't Use; Put Stuff You Do	
Within Easy Reach	49
Strategically Place Items to Make Tasks Easy	49
Make Task-Based Centers	50
Leave Writing Material Everywhere	50
Set up an Inbox	50
Collaborate with Housemates	50

	Hack 15: Sentence Stuff to Death Row	51
	Hack 16: Drown out Sound with Pink Noise	51
	Mac OS X	52
	Windows	52
	Hack 17: Keep Software from Stealing Focus	52
	References	53
Chapter 3	Automate Repetitive Tasks	55
	Hack 18: Automatically Back up Your Files	56
	What You'll Need	56
	Configure the Backup System	57
	Off-Site Backup	61
	Hack 19: Automatically Defragment Your Hard Drive	62
	Hack 20: Automatically Empty Your Digital Junk Drawer	65
	Hack 21: Automatically Download Music, Movies, and More	69
	Install and Run Wget	69
	Mirror an Entire Web Site	70
	Resume Partial Downloads on an Intermittent Connection	71
	Automatically Download New Music from the Web	72
	Automate wget Downloads on Windows	72
	Hack 22: Automatically Email Yourself File Backups	73
	Set up the Email Script	73
	More on Emailing Yourself Backups	75
	Hack 23: Automatically Reboot and Launch Applications	76
	Automatically Reboot Your Computer	76
	Automatically Launch Software or Documents	77
	Automatically Start a Web Browsing Session	78
	Hack 24: Automatically Log Your Progress in a Spreadsheet	79
	References	81
Chapter 4	Streamline Common Tasks	83
	Hack 25: Search the Web in Three Keystrokes	84
	Hack 26: Quick-Launch Software Applications	85
	Windows: Essential, Built-In Keyboard Shortcuts	86
	Windows: Define Your Own Keyword Shortcuts	87
	Mac OS X: Quicksilver Keyboard Commander	89
	Hack 27: Save Time with Text Substitution	90
	AutoHotkey Hotstring	90
	Personalize the Script	92
	Hack 28: Text Message Efficiently	95
	What You Can Do with SMS	95
	Quick Start Guide for SMS Beginners	96
	Save Your Thumbs	96
	SMS from Your Computer	96
	Hack 29: Batch Resize Photos	97

Hack 30: Send and Receive Money on Your Cell Phone	98
PayPal Mobile	99
Send Money to an Email Address	100
PayPal Alternative	101
Hack 31: Bypass Free Site Registration with BugMeNot	101
Hack 32: Speed up Web Pages on a Slow Internet Connection	103
Configure Your Web Browser for a Slow Connection	103
Block and Disable Bandwidth Hogs	105
Use Tabs to Load Pages While You Work	105
Work Offline Wherever Possible	106
Hack 33: Securely Save Web Site Passwords	106
Chapter 5 Get Your Data to Go	109
Hack 34: Carry Your Life on a Flash Drive	110
Portable Applications	110
Useful Data to Store on Your Thumb Drive	112
Secure Your Drive	112
Using Your Thumb Drive	114
Hack 35: Run a Home Web Server	114
Step 1: Disable Other Servers or Firewall Software	115
Step 2: Install Apache HTTP Server	115
Step 3: Configure Apache to Share Documents	117
Step 4: Password-Protect Your Web Site Documents	118
Hack 36: Remote Control Your Home Computer	120
Step 1: Install the VNC Server	122
Step 2: Install the VNC Client	123
More Tips	123
Hack 37: Give Your Home Computer a Web Address	124
Step 1: Set Up Your DynDNS Account	125
Step 2: Set up Your Computer to Update DynDNS	125
Step 3: Give Your New Domain a Spin	126
DynDNS Options	126
Hack 38: Search the Web from Your Phone	126
Get Help	129
Test Drive SMS Search on the Web	129
Pre-Schedule Search Result SMS Alerts	129
Hack 39: Optimize Your Laptop	130
Extend Your Battery Life	130
Save Your Keyboard and Screen	131
Keep It Cool	131
Set Yourself up to Work Offline	131
Secure Your Data	132
Carry with Care	132
Back Up	132

Pack Helpful Extras	132
Find a Hotspot	133
Hack 40: Back up Data to Your iPod	133
Encrypt Your Data	134
Take Your Software with You on the iPod	135
Hack 41: Turn Your Cell Phone into a Modem	135
What You'll Need	135
Configure Your Cell Phone as a Modem	136
Keep an Eye on the Meter	138
Hack 42: Use Gmail as an Internet Hard Drive	138
Windows: Gmail Drive Extension	138
Mac OS X: gDisk	140
Chapter 6	
Control Your Email	141
Hack 43: Craft Effective Messages	142
Composing New Messages	142
Replying to a Message	146
Hack 44: Highlight Messages Sent Directly to You	148
Color Me Blue	149
All Other Email Programs: Create a Not-to-Me Filter	149
Hack 45: Use Disposable Email Addresses	150
Web-Based Public Email Addresses	150
Multi-Domain Email Addresses	150
Hack 46: Decrease Your Email Response Time	151
Respond in Batches	151
The One-Minute Rule	152
Respond to Task Requests — Even When It's Not Done	152
Don't Leave It in Your Inbox	153
Hack 47: Empty Your Inbox (and Keep It Empty)	153
The Trusted Trio	153
What to Do	154
Keep It Empty	155
The Catch	155
Hack 48: Master Message Search	156
Search Criteria	156
Saved Search Folders	159
Hack 49: Future-Proof Your Email Address	160
DON'Ts	160
DO's	161
Bottom Line	161
Hack 50: Script Repetitive Responses	162
Hack 51: Encrypt Private Email	164
How PGP Email Encryption Works	165
Configure PGP in Thunderbird	165
References	167

Chapter 7	Organize Your Stuff	169
	Hack 52: Organize My Documents	170
	A Word About the Windows XP Default Home Directory	172
	Beyond the Big 6	173
	Hack 53: Instantly Retrieve Files from Your Hard Drive	173
	Google Desktop Installation	174
	Configuration	174
	Files Google Desktop Indexes	175
	Search Operators	176
	Hack 54: Overhaul Your Filing Cabinet	178
	Give Your Paperwork a Spacious Place to Live	178
	Limit One File Folder Per Hanging Folder	178
	Choose a Simple, Logical Naming Scheme	179
	Use a Label Maker	179
	Purge and Archive	179
	Hack 55: Choose Secure, Memorable Passwords	180
	Don't Use the Same Password for Everything	180
	Remember 100 Different Passwords with One Rule Set	180
	Hack 56: Securely Track Your Passwords	182
	One Master Password to Rule All	182
	Find and Use Your Passwords with KeePass	185
	Hack 57: Tag Your Bookmarks	186
	Getting Started with del.icio.us	186
	Add a Bookmark	187
	Tags, Not Folders	187
	Navigating del.icio.us by URL	188
	Other del.icio.us Features	189
	Hack 58: Encrypt Your Data	189
	Set up the Encrypted Volume Location	190
	Store and Retrieve Files from the Encrypted Volume	191
	Hack 59: Design Your Own Planner	193
	Why Build Your Own Planner?	194
	How to Assemble Your D*I*Y Planner	194
	D*I*Y Planner Templates and Sizes	194
	References	195
Chapter 8	Kickstart Your Productivity	197
	Hack 60: Make Your To-Do's Doable	198
	Finish Thinking Before You Start Doing	198
	Chunk up Your Tasks into Five-Minute Actions	199
	Get Physical	200
	Include as Much Information as Possible	200
	Essential Elements of a To-Do Task	200
	Purge Your List	200
	Keep an Auxiliary Someday/Maybe List	201

Hack 61: Set up a Morning Dash	201
Get One Thing Done First	201
Park on a Downward Slope	202
Hack 62: Map Your Time	202
Your Ideal Time Map	203
Sub-Maps	204
Your Actual Time Map	204
Hack 63: Quick-Log Your Work Day	204
How to Keep Your Work Log	205
Hack 64: Dash Through Tasks with a Timer	209
Choose Your Timer	210
Adjust Your Dash	210
Employing Constraints	210
Timer Software Applications	211
Hack 65: Control Your Workday	211
Get Your Priorities Straight	212
Stop up Your Time Sinks	213
Make Post-Work Appointments	213
Wrap-up Alerts	213
Hack 66: Turn Tasks into Gameplay ⁷	213
Make It to the Next Level	214
Earn Points	214
Collaborate, Compete, and Reward	214
Bribe Yourself	215
Time Yourself	215
Hack 67: Schedule Think Time	215
What You Need for Think Time	216
Creating Think Time	216
References	216

Chapter 9 Master the Web 219

Hack 68: Google Like a Pro	220
Exact Phrase with Quotations	221
Include and Exclude Words with + and –	221
Search Within a Site	221
Search Certain Types of Files	222
Calculations	222
Synonyms	223
Combine Criteria and Operators	223
Hack 69: Subscribe to Web Sites with RSS	224
How to Subscribe to Web Site Feeds	224
Other Popular Feedreaders	226
Dynamic Feeds	226

Hack 70: Quick Search Dependable Engines	227
Download Bookmark Set	228
Lifehacker Quick Searches	229
Hack 71: Extend Your Web Browser	230
How to Install a Firefox Extension	230
Recommended Firefox Extensions	232
Hack 72: Get 10 Must-Have Bookmarklets	234
Hack 73: Get Your Data on a Map	236
Hack 74: Set Multiple Sites as Your Homepage	238
Multi-Tab Homepage	238
Bookmark Sets of Tabs	239
Open a Set of Tabs	239
Hack 75: Access Unavailable Web Sites via Google	240
Hack 76: Take Your Browser Configuration with You	241
Hack 77: Find out About a Web Site	243
View Site Traffic and Related Information with Alexa	243
See What Others Are Saying About a Site in Technorati	244
View Past Versions of a Site in the Internet Archive	244
See What Sites Link to a Site with Google and Yahoo!	244
Hack 78: Have a Say in What Google Says About You	245
But I Already Have a Web Site	245
Get Your Domain	245
Author Your Nameplate	246
Find a Web Host	246
Link up Your Name Site	247
Hack 79: Capture Web Clippings with Google Notebook	247
Hack 80: Clear Your Web Browsing Tracks	249
Internet Explorer 6 (Windows XP)	249
Internet Explorer 7 (Windows Vista)	251
Mozilla Firefox	251
References	252
Chapter 10 Tune Your Computer	253
Hack 81: Save Your PC from Malware	254
Symptoms	254
Malware Removal and Prevention Tools	255
How to Clean an Infected System	255
Virus Protection	257
Web Browser Hijacking	258
Hack 82: Clean up Your Startup	259
Start Menu (Easy)	259
System Configuration Utility (Medium)	260
AutoRuns (Advanced)	261

Hack 83: Undo System Configuration Changes	262
Create or Restore a Saved Point with System Restore	263
When System Restore Takes Snapshots	263
Limit System Restore's Disk Usage	264
Hack 84: Truly Delete Data from Your Hard Drive	265
Windows	265
Mac OS X	266
Hack 85: Firewall Your Computer	267
Does Your Computer Need a Firewall?	267
ZoneAlarm Software Firewall	268
Control What Programs Can Connect to the Internet	268
Hack 86: Free up Hard Drive Space	270
Visualize Disk Hogs	270
Clean Your Entire System with CCleaner	272
