

Contents

Preface	vii
CHAPTER 1 – Accident Prevention and First Aid	1
1.1 Safety	1
1.2 Avoiding Accidents	4
CHAPTER 2 – Environmentally Responsible Handling of Chemicals and Solvents	9
2.1 Dangerous Materials: Poisons, Laws, Regulations and Classes	10
2.2 EU Poison Regulations	10
2.3 Concentration Limits	13
2.4 Chemical Carcinogens	14
CHAPTER 3 – Crystallisation	19
CHAPTER 4 – Distillation	27
4.1 Some Theoretical Considerations	28
4.2 Distillation in Practice	30
CHAPTER 5 – Chromatographic Methods	37
5.1 Basic Principles	37
5.2 Analytical and Preparative Thin-Layer Chromatography	40
5.3 Column Chromatography	42
5.4 Rapid Column Chromatography	49
5.5 HPLC	51
CHAPTER 6 – Extraction and Isolation	55
6.1 Separation of Mixtures According to Acidity	56
CHAPTER 7 – Structure Determination Using Spectroscopic Methods	63
7.1 Infrared Spectroscopy (IR)	63
7.2 Mass Spectrometry (MS)	64
7.3 Nuclear Magnetic Resonance Spectroscopy (NMR)	64
7.4 Ultraviolet and Visible Spectroscopy (UV/VIS)	64

CHAPTER 8 –Searching the Chemical Literature	73
8.1 The Information Mountain	73
8.2 Strategy	74
8.3 Databases	74
8.4 Reviews	105
8.5 Monographs, Reference Works and Handbooks	107
8.6 Data Collections	108
CHAPTER 9 –Laboratory Notebooks	111
CHAPTER 10 –Writing a Report	115
CHAPTER 11 –Example of a Laboratory Report	119
CHAPTER 12 –Hints on the Synthesis of Organic Compounds	123
12.1 The Route to Success	123
12.2 Some Tips on Handling Water- and Air-Sensitive Substances	129
12.3 Hints on Working at Low Temperatures	136
12.4 Hints on the Synthesis and Analysis of Chiral Compounds	138
12.5 Hints on the Synthesis of Isotopically Labelled Compounds	140
CHAPTER 13 –Disposal and Destruction of Dangerous Materials	147
13.1 Classification of Waste Material	148
13.2 Environmentally Acceptable Substances for Treating Dangerous Materials in the Laboratory	149
13.3 Special Instructions for the Destruction of the Main Classes of Dangerous Substances	149
13.4 Deactivation of Unknown Laboratory Chemicals	155
13.5 Waste Disposal	156
CHAPTER 14 –Purification and Drying of Solvents	159
14.1 Some Drying Agents	160
14.2 Solvents	165
CHAPTER 15 –EU <i>R</i> and <i>S</i> Phrases	185
15.1 <i>R</i> Phrases: Indication of Particular Risks	185
15.2 Combinations of <i>R</i> Numbers	187
15.3 <i>S</i> Phrases: Indication of Safety Precautions	189
15.4 Combinations of <i>S</i> Numbers	191
Index	193
