*Symposium on Innate immunity to pulmonary infection, held at the Wolfson Pavillion,
University of Cape Town Medical School, South Africa, 28–30 November 2005*

Editors: Derek J. Chadwick (Organizer) and Jamie Goode

This symposium is based on a proposal made by Siamon Gordon and Gordon Brown

- Siamon Gordon** Chair's introduction 1
- Eric D. Bateman** and **Anamika Jithoo** Lung diseases in South Africa: an
overview 4
Discussion 11
- Paul D. van Helden, Marlo Möller, Chantal Babb, Robin Warren, Gerhard
Walzl, Pieter Uys** and **Eileen Hoal** TB epidemiology and human
genetics 17
Discussion 31
- David P. Speert** Bacterial infections of the lung in normal and
immunodeficient patients 42
Discussion 51
- Malik Peiris** Pathogenesis of avian flu H5N1 and SARS 56
Discussion 60
- Claudia Montagnoli, Silvia Bozza, Roberta Gaziano, Teresa Zelante,
Pierluigi Bonifazi, Silvia Moretti, Silvia Bellocchio, Lucia Pitzurra** and
Luigina Romani Immunity and tolerance to *Aspergillus fumigatus* 66
Discussion 77
- Cecilia Garlanda, Barbara Bottazzi, Giovanni Salvatori, Rita De Santis,
Alessia Cotena, Livija Deban, Virginia Maina, Federica Moalli, Andrea**

- Doni, Tania Veliz-Rodriguez and Alberto Mantovani** Pentraxins in innate immunity and inflammation 80
Discussion 86
- Anthony W. Segal** How superoxide production by neutrophil leukocytes kills microbes 92
Discussion 98
- Ralph M. Steinman** Linking innate to adaptive immunity through dendritic cells 101
Discussion 109
- Gordon D. Brown** Macrophage receptors and innate immunity: insights from dectin-1 114
Discussion 123
- Bernhard Ryffel, Muazzam Jacobs, Shreemanta Parida, Tania Botha, Dieudonné Togbe and Valerie Quesniaux** Toll-like receptors and control of mycobacterial infection in mice 127
Discussion 139
- T. J. Williams and C. L. Weller** Population of lungs by mast cells 142
Discussion 151
- John K. Sheehan, Mehmet Kesimer and Raymond Pickles** Innate immunity and mucus structure and function 155
Discussion 167
- R. B. Sim, H. Clark, K. Hajela and K. R. Mayilyan** Collectins and host defence 170
Discussion 181
- Bart N. Lambrecht and Leonie S. van Rijt** Infections and asthma pathogenesis: a critical role for dendritic cells? 187
Discussion 200
- L. A. Vella and O. J. Finn** Innate and adaptive immunity in lung cancer 206
Discussion 213
- Siamon Gordon** Summing-up 216
- Index of contributors 220
- Subject index 222
