Acknowledgments	xxiii
Introduction	xxv
Chapter 1 Control Your Email	1
Hack 1: Empty Your Inbox (and Keep It Empty)	3
Why an Empty Inbox?	4
Set Up the Trusted Trio of Folders	4
The Archive Folder	5
The Follow Up Folder	5
The Hold Folder	6
Process Your Messages	6
Keep It Empty	7
Your First Time	7
The Catch	7
Hack 2: Decrease Your Response Time	8
Process Messages in Batches	9
The One-Minute Rule	9
Respond to Task Requests — Before the Task Is Done	9
Don't Leave It in Your Inbox	10
Hack 3: Craft Effective Messages	10
Composing a New Message	11
Determine Your Purpose	11
Use an Informative Subject Line	11
Be Succinct	12
Put Your Messages on a Diet	12
Facilitate a Complete Response	13

x Contents

Make It Clear Why Everyone Got the Message	14
Don't Forget the Attachment	14
Replying to a Message	14
Respond to Individual Points Inline	15
Task Requests	15
Lead by Example	16
Don't Respond in Real Time	16
Get Outside the Inbox	16
Know When Not to Say a Thing	17
Hack 4: Highlight Messages Sent Directly to You	17
Microsoft Outlook: Color Me Blue	18
All Other Email Programs: Create a Not-to-Me Filter	18
Hack 5: Use Disposable Email Addresses	19
Web-Based Public Email Addresses	19
Multi-Domain Email Addresses	19
Hack 6: Master Message Search	20
Search Criteria	20
Saved Search Folders	23
Hack 7: Future-Proof Your Email Address	25
Don'ts	25
Do's	25
Bottom Line	26
Hack 8: Consolidate Multiple Email Addresses with Gmail	27
Receive Messages for Other Addresses in Your Gmail Inbox	27
Option 1: Set Up Gmail's POP Mail Fetcher	27
Option 2: Forward Messages to Gmail Automatically	29
Write Messages from Non-Gmail Addresses	30
Hack 9: Script Repetitive Responses	32
Hack 10: Filter Low-Priority Messages ("Bacn")	35
Filter Bacn	35
Filter CCed Messages	36
References	38
Chapter 2 Organize Your Data	39
Hack 11: Organize Your Documents Folder	41
How to Change the Windows XP Default Home Directory	43
Beyond the Big Six	44
Hack 12: Instantly Retrieve Files Stored on Your Computer	44
Built-in Desktop File Search Features	45
Google Desktop Installation	46
Google Desktop Configuration	46
Files that Google Desktop Indexes	47
Refining Your Search	48
Hack 13: Overhaul Your Filing Cabinet	50
Give Your Paperwork a Spacious Place to Live	50

Contents xi

Limit One File Folder per Hanging Folder	50
Choose a Simple, Logical Naming Scheme	51
Use a Label Maker	51
Purge and Archive	51
Hack 14: Instantly Recall Any Number of Different Passwords	52
Don't Use the Same Password for Everything	52
Remember 100 Different Passwords with One Rule Set	52
Hack 15: Securely Track Your Passwords	54
One Master Password to Rule All	54
Find and Use Your Passwords with KeePass	58
Hack 16: Tag Your Bookmarks	59
Getting Started with del.icio.us	60
Add a Bookmark	60
Tags, Not Folders	60
Navigating del.icio.us by URL	61
Other del.icio.us Features	62
Hack 17: Organize Your Digital Photos	63
Import Your Photos into Picasa	63
Organize and Label Your Collection	64
Captions	64
Albums	65
Stars	66
Search Your Photos	66
Other Picasa Features	67
Hack 18: Create Saved Search Folders	67
Search Folders in Windows Vista	68
Saved Search Folders in Mac OS	70
Hack 19: Create a Password-Protected Disk on Your PC	70
Set up the Encrypted Volume Location	71
Store and Retrieve Files from the Encrypted Volume	73
Hack 20: Create a Password-Protected Disk on Your Mac	74
Create a New Encrypted Disk Image	75
Access Your Password-Protected Disk	76
Hack 21: Design Your Own Planner	76
Why Build Your Own Planner?	77
How to Assemble Your D*I*Y Planner	77
D*I*Y Planner Templates and Sizes	78
References	78
Chapter 3 Trick Yourself into Getting Done	79
Hack 22: Make Your To-Do List Doable	80
You Are the Boss of You	81
How to Order Yourself Around	81
Only Put Items on the List that You're Definitely Doing	81

xii Contents

Break It Down	81
Focus Only on the Next Action	82
Use Specific, Active Verbs	83
Include as Much Information as Possible	83
Keep Your List Short	83
Prioritize Your Tasks	84
Keep Your List Moving	84
Purge and Update Your List Weekly	84
Log Your Completed Tasks	85
Practice Makes Perfect	85
Hack 23: Set up a Morning Dash	85
Get One Thing Done First	86
Park on a Downward Slope	86
Hack 24: Map Your Time	87
Your Ideal Time Map	87
Submaps	88
Your Actual Time Map	89
Hack 25: Quick-Log Your Workday	89
Paper	90
Notepad .LOG File (Windows Only)	90
Quick-Log in a Plain-Text File (Windows Only)	91
QuickLogger 2 Logs Your Time in a Spreadsheet or Text File (Windows)	94
Hack 26: Dash through Tasks with a Timer	96
Do Your First Dash	96
Adjust Your Dash	96
Why Time Constraints Work	97
Timer Software Applications	97
Hack 27: Form New Habits with Jerry Seinfeld's Chain	99
Hack 28: Control Your Workday	101
Identify and Cut Back on Extra Work	101
Stop Your Time Sinks	102
Make Post-Work Appointments	103
Set Wrap-Up Alerts	103
Hack 29: Turn Tasks into Game Play	103
Make It to the Next Level	104
Collaborate, Compete, and Reward	104
Bribe Yourself	104
Time Yourself	105
References	105
Chapter 4 Clear Your Mind	107
Hack 30: Send Reminders to Your Future Self	108
Hack 31: Build Your Personal Wikipedia	112
What You Need	112

Contents xiii

Set Up MediaWiki	112
Test-Drive Your Wiki	115
Brief Wikitext Primer	116
Hack 32: Develop Your (Digital) Photographic Memory	117
Tag Your Photos on Flickr	117
Upload Photos to Flickr from Your Camera Phone	118
Your Photo Reference	119
Hack 33: Take Great Notes	121
Method 1: Symbolize Next Actions	121
Method 2: Split Your Page into Quadrants	121
Method 3: Record and Summarize	122
Print Custom Note Paper	123
Hack 34: Organize Your Life with Remember the Milk	124
Managing Tasks	124
Prioritizing Tasks	125
Completing Tasks	125
Managing Lists and Tags	126
Setting Task Reminders	127
Searching Tasks	128
Advanced Search Operators	129
Save Searches in Smart Lists	130
Get Your RTM Tasks Offline	130
More RTM Techniques	131
The Weekly Planner	131
Add Tasks via Email	131
Keyboard Shortcuts	132
View Your RTM Tasks on Your Calendar or Homepage	132
Hack 35: Organize Your Life in Text Files	132
Why Plain Text?	133
Using an Editor to Manage Your Text Files	133
Allocate One Task Per Line	134
Sorting Items	134
Transfer Tasks from One File to Another	135
Using the Command Line to Manage Text Files	135
Introducing todo.sh	136
References	136
Chapter 5 Firewall Your Attention	139
Hack 36: Limit Visits to Time-Wasting Web Sites	140
Install and Configure LeechBlock	141
Visiting a Blocked Site	142
Adding Sites to the Block List	143
Make It Difficult to Disable LeechBlock	143
Hack 37: Permanently Block Time-Wasting Web Sites	144
Windows	145

xiv Contents

Mac OS X	145
The Result	146
Hack 38: Reduce Email Interruptions	146
Shut Down Your Email Program	147
Set Your Email Program to Check for Messages Once an Hour	147
Hack 39: Split Your Work Among Multiple Desktops	148
Windows Vista and XP	149
Windows XP	150
Mac OS X 10.4 (Tiger)	150
Mac OS X 10.5 (Leopard)	152
Hack 40: Build a No-Fly Zone	153
Set Yourself Up to Get into the Zone	153
Make Yourself Inaccessible	154
Work at Quieter Times and in Zoned-Off Spaces	154
Hack 41: Clear Your Desktop	155
Windows	155
Mac OS X	156
Hack 42: Make Your House a Usable Home	157
Create a Place for Incoming Stuff	157
Put Items You Need to Remember in Your Path	158
Stow Away Stuff You Don't Use; Put Stuff You Do Within	
Easy Reach	158
Strategically Place Items to Make Tasks Easy	158
Make Task-Based Centers	159
Leave Writing Material Everywhere	159
Set Up an Inbox	159
Collaborate with Housemates	159
Hack 43: Sentence Stuff to Death Row	160
Hack 44: Drown out Distracting Sounds with Pink Noise	161
ChatterBlocker (Windows and Mac)	161
Noise (Mac OS X Only)	162
References	162
Chapter 6 Streamline Common Tasks	163
Hack 45: Search the Web in Three Keystrokes	164
Run a Search with Keyboard Shortcuts	165
Hack 46: Command Your Windows PC from the Keyboard	167
Built-in Windows Keyboard Shortcuts	168
Launch Documents and Applications	
from Vista's Search Box	169
Quickly Run Programs and Open Files with Launchy	170
Hack 47: Command Your Mac from the Keyboard	171
Basic File and Application Launching with Quicksilver	171
Advanced Quicksilver Actions	172

Hack 48: Reduce Repetitive Typing with Texter for Windows	174
Set Up Texter Hotstrings	174
Adding Hotstrings	174
Choosing the Right Hotstring Trigger	176
Configuring Bundles	176
More Texter Features	177
Hack 49: Reduce Repetitive Typing with TextExpander for Mac	178
Configure TextExpander Snippets	178
Adding New Snippets	178
Set the Text Expansion Delimiter	179
Managing Snippet Groups	181
Advanced TextExpander Usage	181
Hack 50: Text-Message Efficiently	182
What You Can Do with SMS	183
Quick-Start Guide for SMS Beginners	183
Save Your Thumbs	184
SMS from Your Computer	184
Hack 51: Batch-Resize Photos	185
Hack 52: Send and Receive Money on Your Cell Phone	186
PayPal Mobile	187
Send Money to an Email Address	188
PayPal Alternative	189
Hack 53: Bypass Free Site Registration with BugMeNot	189
Hack 54: Speed Up Web Pages on a Slow Internet Connection	191
Configure Your Web Browser for a Slow Connection	191
Block and Disable Bandwidth Hogs	193
Use Tabs to Load Pages While You Work	194
Work Offline Whenever Possible	194
Hack 55: Securely Save Web Site Passwords	195
Hack 56: Become a Scheduling Black Belt with Google Calendar	197
Quickly Capture Events	198
Subscribe to Shared Calendars	198
Share a Custom Calendar	198
Book Conference Room B	199
Receive Your Daily Agenda via Email Automatically	199
See This Week's Weather Forecast on Your Calendar	199
Invite Your Friends to Events via GCal	200
Get Your Schedule Details via Text Message	200
Master GCal's Keyboard Shortcuts	200

xvi Contents

Hack 57: Scan Text to PDF with Your Camera Phone	201
Take Photos that Produce the Best Scan Results	202
Sending Images to Qipit	203
Working with Qipit Scans	204
Hack 58: Poll Groups of People with Doodle	204
References	207
Chapter 7 Automate Repetitive Tasks	209
Hack 59: Automatically Back Up Your Files to an External Hard Drive (PC)	210
What You'll Need	211
Configure the Backup System	211
Hack 60: Automatically Back Up Your Files to an External Hard Drive (Mac)	216
Enable Time Machine Backups	217
What Time Machine Does	217
Switch Disks or Exclude Folders from Time Machine's Backup	218
Restore Deleted or Overwritten Files	218
Hack 61: Automatically Back Up Your Files Online	220
Set Up Mozy Online Backups	220
What Mozy Does	221
Restore Files Backed Up with Mozy	222
Hack 62: Automatically Empty Your Digital Junk Drawer (PC)	223
Hack 63: Automatically Clean Up Your Mac	228
Empty Your Downloads Folder with Hazel	228
Take Out the Trash with Hazel	229
More Automatic File Processing	230
Hack 64: Automatically Reboot and Launch Applications	230
Automatically Reboot Your Computer	230
Automatically Launch Software or Documents	231
Automatically Start a Web-Browsing Session	232
Hack 65: Make Google Search Results Automatically Come to You	233
Hack 66: Automatically Download Music, Movies, and More	234
Install and Run wget	234
Mirror an Entire Web Site	235
Resume Partial Downloads on an Intermittent Connection	236
Automatically Download New Music from the Web	237
Automate wget Downloads on Windows	237
Hack 67: Automatically Email Yourself File Backups	238
Set Up the Email Script	238

Contents xvii

Why Not Just Save Files to Flash Drives or a CD?	240
More on Emailing Yourself Backups	240
Email Backup Filtering	240
Scheduling	241
File Size and Type Limitations	241
Troubleshooting	241
Hack 68: Automatically Update a Spreadsheet	242
