

Contents at a Glance

<i>Introduction</i>	1
<i>Book I: Photoshop Fundamentals</i>	7
Chapter 1: Examining the Photoshop Environment.....	9
Chapter 2: Getting to Know the Tools Palette	27
Chapter 3: Starting, Finishing, and Getting It on Paper	39
Chapter 4: Viewing and Navigating Images	57
Chapter 5: Customizing Your Workspace and Preferences	85
<i>Book II: Image Essentials</i>	107
Chapter 1: Specifying Size and Resolution	109
Chapter 2: Choosing Color Modes and File Formats	129
Chapter 3: Using and Managing Color	153
Chapter 4: Time Travel — Undoing in Photoshop	179
Chapter 5: Creating Actions for Productivity and Fun	191
<i>Book III: Selections</i>	205
Chapter 1: Making Selections.....	207
Chapter 2: Creating and Working with Paths	223
Chapter 3: Modifying and Transforming Selections and Paths	245
<i>Book IV: Painting, Drawing, and Typing</i>	267
Chapter 1: Painting and Drawing with Photoshop	269
Chapter 2: Filling and Stroking.....	293
Chapter 3: Creating and Editing Type.....	311
<i>Book V: Working with Layers</i>	341
Chapter 1: Creating Layers.....	343
Chapter 2: Managing Layers.....	367
Chapter 3: Playing with Opacity and Blend Modes.....	389
Chapter 4: Getting Jazzy with Layer Styles and Clipping Groups	405
Chapter 5: Working with Smart Objects	429
<i>Book VI: Channels and Masks</i>	437
Chapter 1: Using Channels	439
Chapter 2: Quick and Dirty Masking	459
Chapter 3: Getting Exact with Advanced Masking Techniques	475

<i>Book VII: Filters and Distortions</i>	493
Chapter 1: Making Corrections with Daily Filters	495
Chapter 2: Applying Filters for Special Occasions	511
Chapter 3: Distorting with the Liquify Command	535
<i>Book VIII: Retouching and Restoration</i>	549
Chapter 1: Enhancing Images with Adjustments	551
Chapter 2: Repairing with the Focus and Toning Tools	593
Chapter 3: Fixing Flaws and Removing What's Not Wanted	605
<i>Book IX: Photoshop and Print</i>	627
Chapter 1: Prepping Graphics for Print	629
Chapter 2: Creating Contact Sheets, Picture Packages, and More	647
<i>Bonus Chapters</i>	<i>On the Web</i>
Bonus Chapter 1: Prepping Web Graphics	BC-1
Bonus Chapter 2: Slicing and Showing Web Images	BC-31
Bonus Chapter 3: Other Sources of Information	BC-53
<i>Index</i>	663

Table of Contents

Introduction 1

About This Book.....	1
What's in This Book.....	2
Conventions Used in This Book.....	5
Icons Used in This Book.....	6

Book 1: Photoshop Fundamentals 7

Chapter 1: Examining the Photoshop Environment 9

Getting a Warm Welcome.....	9
Launching Photoshop and Customizing the Desktop.....	10
Setting display settings with the Window menu.....	12
Setting up the status bar.....	13
Playing with Palettes.....	16
Working with Your First Photoshop File.....	18
Opening, printing, and saving files.....	18
Making selections.....	19
Making simple image edits.....	19
Adjusting size, color, and contrast.....	20
Creating layers.....	21
Applying filters.....	22
Simplifying your edits with the Options bar.....	24
Viewing and navigating the image.....	25

Chapter 2: Getting to Know the Tools Palette 27

Turning On the Tools Palette.....	27
Selecting tools.....	27
Getting to know your tools.....	29
Introducing the Photoshop Tools.....	30
Using selection tools.....	30
Creating and modifying paths.....	30
Using painting tools.....	31
Using tools for cloning and healing.....	32
Creating effects with typographical tools.....	32
Using focus and toning tools.....	33
Creating shapes.....	33
Viewing, navigating, sampling, and annotating tools.....	34
Using tools for the Web.....	35
Saving Time with Tool Presets.....	35
Creating custom tool presets.....	35
Managing your presets.....	37

Chapter 3: Starting, Finishing, and Getting It on Paper	39
Browsing for Files.....	39
Opening an Image.....	40
Opening special files	43
Opening a Photo CD image.....	44
Placing Files	45
Creating a New Image	46
Saving a File	48
Closing and Quitting	50
Getting It on Paper	51
Taking a look at printers.....	51
Printing an image.....	52
Setting printing options	53
Chapter 4: Viewing and Navigating Images	57
Looking at the Image Window	57
Zooming In and Out of Image Windows	60
Zooming with keyboard shortcuts.....	60
Using the Zoom tool.....	60
Handling the Hand tool.....	62
Cruising with the Navigator Palette.....	63
Choosing a Screen Mode.....	65
Getting Precise Layout Results.....	66
Creating guides	67
Using guides	67
Using grids.....	69
Measuring On-Screen.....	70
Using the Info Palette.....	72
Working with Extras	73
Managing Images with Adobe Bridge	74
Brief anatomy of Bridge.....	75
Configuring the Bridge window	77
Using the menu bar and buttons	78
Using keywords.....	82
Chapter 5: Customizing Your Workspace and Preferences	85
Creating Workspace Presets	85
Saving and Deleting Workspace Presets	87
Customizing Keyboard Shortcuts	87
Customizing Menus.....	89
Setting Your Preferences	91
Setting general preferences.....	91
Deciding how you want files handled.....	95
Adjusting your display and cursors.....	97
Adjusting transparency and gamut.....	98
Setting measurement preferences.....	100
Setting up guides, grids, and slices	101
Plug-Ins and Scratch Disks	102

Changing Memory and Cache Settings	104
Managing memory	105
Setting aside memory for storing screen images	105
Using the Preset Manager	106

Book II: Image Essentials..... 107

Chapter 1: Specifying Size and Resolution109

Putting Images under the Microscope	110
Vector images.....	110
Raster images.....	111
Viewing Raster Images On-Screen.....	112
Using the Image Size Command	113
Resampling Images	115
Adding pixels to an image	118
Taking pixels out of an image.....	119
Resizing Images with the Resize Image Wizard.....	120
Changing the Canvas Size	121
Cropping an Image	122
Using the Crop tool	123
Cropping with the Marquee tool	124
Using the Trim command	125
Using the Crop and Straighten Photo Command	126

Chapter 2: Choosing Color Modes and File Formats129

Selecting a Color Mode.....	129
RGB Color	130
CMYK Color.....	131
Grayscale.....	131
Monotone, Duotone, Tritone, and Quadtone.....	132
Indexed Color.....	133
Lab Color	133
Bitmap.....	134
Multichannel	135
Converting to a Different Color Mode	135
Converting from RGB to CMYK.....	136
Converting to grayscale.....	136
Using the Conditional Mode Change command	138
Choosing the Right File Format	139
TIFF.....	139
JPEG	142
JPEG 2000	142
GIF.....	143
EPS.....	143
PDF: The universal donor.....	145
Photoshop	148
Photoshop Raw.....	148

Camera Raw	149
PICT	151
BMP	151
Large Document Format (PSB)	152
Chapter 3: Using and Managing Color	153
Dealing with Foreground and Background Colors	153
Defining Color	154
Poking around Color Picker	155
Mixing with the Color palette	156
Grabbing color from the Swatches palette	158
Lifting and sampling color	159
Using the Color Sampler tool to measure color	160
Color Management Essentials	162
Setting up your work environment	163
Calibrating your monitor.....	164
Establishing Your Settings	166
Handling Photoshop's predefined settings	167
Indicating your working spaces.....	169
Working with your newly defined settings.....	171
Setting Color Management Policies	173
Getting Consistent Color among Adobe Applications.....	176
Proofing Colors in the Final Output (Soft Proofing)	178
Chapter 4: Time Travel — Undoing in Photoshop	179
Undoing What's Done with the Undo Command.....	179
Reverting to What's Saved	180
Working with the Almighty History Palette	180
Understanding states and snapshots	181
Introducing History palette options and tools	181
Viewing an Image's Various States	182
Going back to a particular state	183
Reviewing your image at different states	183
Removing a state	183
Clearing all states	183
Navigating the history list.....	183
Looking at the History Options Dialog Box	184
Taking Snapshots	185
Restoring Part of an Image.....	186
Using the Eraser with the Erase to History option	187
Using the History Brush tool	188
Using the Fill to History feature.....	189
Using the Art History Brush tool.....	189
Chapter 5: Creating Actions for Productivity and Fun	191
Using the Actions Palette	191
Introducing Preset Actions	193
Loading preset actions	193
Playing a preset action	194

Creating a New Action	195
Editing and Managing Actions	197
Re-recording an action.....	197
Editing an action.....	198
Creating sets and saving actions	199
Batch Processing Actions	199
Creating Droplets	202

Book III: Selections205

Chapter 1: Making Selections207

Defining Selections.....	207
Marqueeing When You Can.....	208
Using the Rectangular Marquee tool	208
Using the Elliptical Marquee tool	209
Using the Single Column and Single Row Marquee tools	210
Using the marquee options	211
Lassoing When You Can't.....	214
Selecting straight sides with the Polygonal Lasso tool	215
Attracting with the Magnetic Lasso tool	217
Adjusting the Magnetic Lasso options	218
Performing Wand Wizardry.....	219
Selecting with the Magic Wand tool.....	220
Setting your tolerance	220
Using the Magic Wand Options bar.....	221

Chapter 2: Creating and Working with Paths223

Introducing Paths.....	223
Creating a Path with the Pen Tool.....	225
Knowing your Pen tool options	225
Creating your first work path	225
Drawing curves.....	228
Connecting a straight segment to a curve segment	230
Connecting curve segments with cusp points	231
Closing a path	232
Creating subpaths	232
Working with the Paths Palette	233
Creating a path.....	233
Creating a new path	233
Saving a work path	234
Deleting, duplicating, and renaming a path	234
Stroking a path.....	234
Filling a path.....	235
Loading Paths as Selections	236
Turning a Selection into a Path	237

Using the Kinder Freeform Pen	237
Curve Fit	238
Magnetic	239
Width, Contrast, Frequency, and Pen Pressure	239
Creating Paths without the Pen.....	239
Editing Paths.....	242
Using the Options Bar	244

Chapter 3: Modifying and Transforming Selections and Paths245

Achieving Selection Perfection.....	245
Adding to a selection	246
Subtracting from a selection	247
Intersecting two selections	248
Getting the Keys to Behave.....	248
Adding a perfectly square or circular selection	249
Deleting from an existing selection while drawing from the center out	249
Using the Select Menu	250
Selecting all or nothing.....	250
Reselecting a selection	251
Swapping a selection	251
Feathering a selection.....	252
Using the Modify commands	254
Applying the Grow and Similar commands.....	255
Moving and Cloning Selections	256
Cloning.....	257
Moving the selection outline, but not the pixels.....	257
Transforming Pixels	258
Transforming Selection Marquees	261
Transforming Paths	262
All paths.....	262
Single path.....	263
Part of a path	263

Book IV: Painting, Drawing, and Typing267

Chapter 1: Painting and Drawing with Photoshop269

Introducing the Pencil and Brush Tools.....	269
Finding out what the Pencil tool does	270
Using the Pencil tool	271
Painting with the Brush tool	272
Working with the Brushes palette.....	273
Choosing a brush tip shape	274
Using the preset brushes	277
Viewing preset brushes	278

Drawing with Vector Shapes282
 Drawing a preset shape283
 Drawing multiple shapes in a shapes layer.....286
 Setting geometry options287
 Creating your own custom shape289
 Using vector masks290
 Manipulating shapes290

Chapter 2: Filling and Stroking293

Filling a Selection with a Solid Color293
 Filling Options and Tips294
 Pouring with the Paint Bucket Tool296
 Stroking a Selection296
 Working with Gradients.....298
 Applying a preset gradient to a selection299
 Customizing and editing gradients300
 Adding transparency to a gradient303
 Managing and Saving Gradients305
 Working with Patterns306
 Applying a preset pattern.....306
 Creating a new pattern307
 Using the Pattern Maker filter.....308

Chapter 3: Creating and Editing Type311

Selecting a Type Mode.....311
 Understanding Different Kinds of Type.....312
 Exploring the Type Tools313
 Entering Text in Point Type Mode314
 Entering Text in Paragraph Type Mode.....315
 Creating Type on or in a Path.....317
 Using the Options Bar318
 Working with the Character Palette.....319
 Leading320
 Tracking.....320
 Kerning.....321
 Vertical and Horizontal Scale.....321
 Baseline shift and text attributes322
 Working with the Paragraph Palette.....323
 Editing Text326
 Finding and replacing text.....326
 Checking your spelling327
 Masking, Shaping, and Warping Type.....328
 Playing with type layer opacity328
 Creating fade effects329
 Creating type outlines.....333
 Rasterizing your type layer334
 Transforming type into vector shapes and paths334
 Wreaking havoc on your type.....336

Book V: Working with Layers341

Chapter 1: Creating Layers343

Getting to Know the Layers Palette	343
Looking at the Background and Layers.....	346
Introducing Different Types of Layers.....	348
Using plain vanilla layers.....	348
Using adjustment layers	349
Taking advantage of fill layers	351
Making use of shape layers	353
Using type layers	354
Making Layers.....	355
Creating a new layer.....	355
Using Layer via Copy and Layer via Cut.....	357
Duplicating layers.....	357
Compositing with Multiple Images	357
Copying and pasting images	358
Dragging and dropping layers.....	358
Using the Paste Into command.....	359
Transforming Layers.....	361

Chapter 2: Managing Layers367

Rearranging Layers	368
Moving Layer Elements	369
Aligning and Distributing Layers.....	373
Linking Layers	375
Locking Layers.....	376
Color-Coding Layers	378
Creating Layer Groups.....	378
Flattening and Merging Layers	380
Merging layers	381
Stamping layers	382
Flattening layers	382
Working with the Layer Comps Palette.....	385

Chapter 3: Playing with Opacity and Blend Modes389

Adjusting Layer Opacity.....	389
Adjusting the Fill Opacity.....	391
Creating Effects with Blend Modes	392
General blend modes	392
Blend modes that darken	393
Blend modes that lighten	395
Lighting blend modes	396
Blend modes that invert.....	397
HSL color model blend modes.....	398
Working with the Advanced Blending Options	399
Advanced options to blend with	400
Blend If options.....	402

Chapter 4: Getting Jazzy with Layer Styles and Clipping Groups . . . 405

Layer Styles Basics	405
Introducing the Many Layer Styles	406
Applying a Layer Effect.....	408
Managing and Editing Layer Styles	409
Managing layer styles	409
Editing drop shadow or inner shadow effects.....	410
Changing default inner and outer glow effects.....	412
Editing Bevel and Emboss Effects	413
Structure.....	413
Shading	414
Texture.....	414
Contour.....	414
Editing Satin Effects	414
Changing Overlay Effects	415
Changing Stroke Effects.....	416
Playing with Contours	416
Adjusting contour settings.....	417
Modifying contours with the Contour Editor	418
Applying and Modifying Preset Styles.....	419
Managing preset styles	420
Saving your own style.....	421
Clipping Layers into Masks.....	422

Chapter 5: Working with Smart Objects 429

Introducing Smart Objects.....	429
Creating Smart Objects	430
Placing artwork.....	430
Copying and pasting	432
Converting a layer into a Smart Object and vice versa.....	433
Creating one Smart Object from another	433
Editing Smart Objects.....	434
Replacing contents.....	435
Exporting contents.....	436

Book VI: Channels and Masks* 437*Chapter 1: Using Channels 439**

Understanding Channels.....	440
Working with Channels.....	441
Viewing channels without a remote.....	441
Changing the default channel view	442
Duplicating and deleting channels.....	442
Rearranging and renaming channels	444
Splitting channels.....	445
Merging channels	446

Using Painting and Editing Tools with Channels.....	447
Introducing Alpha Channels	449
Saving a selection as an alpha channel	449
Loading an alpha channel	451
Using the Channel Mixer	452

Chapter 2: Quick and Dirty Masking 459

Working with Quick Masks.....	460
Using the Color Range Command	462
Color Range basics.....	462
Executing the Color Range command.....	462
Selective Erasing with the Eraser Tools	464
The Eraser tool	465
The Magic Eraser tool.....	466
The Background Eraser tool	467
Extracting an Image	468

Chapter 3: Getting Exact with Advanced Masking Techniques . . . 475

Working with Layer Masks	475
Creating layer masks.....	476
Using the Gradient and Brush tools on a layer mask	476
Managing layer masks.....	478
Creating and Editing Vector Masks	482
Adding a vector mask to a layer.....	482
Managing vector masks	483
Creating Channel Masks	484

Book VII: Filters and Distortions.....493

Chapter 1: Making Corrections with Daily Filters 495

You Say You Want a Convolution?.....	495
Corrective and destructive filters	496
Filter basics	496
Sharpening What's Soft	497
Sharpen.....	498
Sharpen More.....	498
Sharpen Edges	498
Smart Sharpen	498
Unsharp Mask	500
Blurring What's Sharp	501
Smoothing with the Facet and Median Filters	504
The Facet filter.....	504
The Median filter	504
Applying a Filter Again	507
Fading a Filter	507
Selectively Applying a Filter	508

Chapter 2: Applying Filters for Special Occasions 511

- Working in the Filter Gallery.....512
- Getting Artsy.....514
- Stroking Your Image with Filters515
- Distorting for Fun.....518
- Pumping Up the Noise.....521
- Pumping Down the Noise.....522
- Breaking Your Image into Pieces.....523
- Rendering.....524
 - Using the Clouds filter524
 - Creating fibers.....525
 - Using other rendering filters.....525
- Getting Organic with the Sketch Filters529
- Adding Texture.....532
- Looking at the Other Filters.....534

Chapter 3: Distorting with the Liquify Command 535

- Exploring the Liquify Window535
 - The painting tools536
 - The other tools538
- The Options Areas538
- Transforming an Image.....541
- Mastering Freezing and Thawing543
- Reconstructing an Image.....544
- Extending and Cloning Distortions545
 - Reconstruct modes545
 - More Reconstruct modes546
 - Using Displace, Amplitwist, and Affine.....547

Book VIII: Retouching and Restoration549

Chapter 1: Enhancing Images with Adjustments 551

- Introducing the Histogram Palette.....551
- Choosing Automatic Color Correctors.....555
 - Auto Levels.....555
 - Auto Color556
 - Auto Contrast.....556
- Setting Auto Color Correction Options557
- Using Simple Color Correctors.....559
 - Avoiding Brightness/Contrast559
 - Tweaking with the Color Balance controls560
- Fixing Lighting with Shadow/Highlight.....562
- Adjusting Exposure.....564
- Correcting Colorcast with Variations566
- Washing Out Color with Desaturate570

Working with Professional Color Correctors	570
Leveling for better contrast	570
Setting black and white points manually	572
Adjusting curves for hard-to-correct photos	573
Getting colorful with Hue/Saturation	576
Using the Colorize option	578
Matching Color Between Documents	581
Switching Colors with Replace Color	584
Increasing and Decreasing Color	585
Using the Selective Color command	585
Using gradient maps	586
Adding color with photo filters	587
Playing with the color mappers	588

Chapter 2: Repairing with the Focus and Toning Tools 593

Lightening and Darkening with Dodge and Burn Tools	593
Turning Down the Color with the Sponge Tool	596
Smoothing with the Smudge Tool	597
Softening with the Blur Tool	599
Cranking Up the Focus with the Sharpen Tool	600

Chapter 3: Fixing Flaws and Removing What's Not Wanted 605

Cloning with the Clone Stamp Tool	606
Digital Bandaging with the Healing Brush Tool	609
Patching without Seams	611
Zeroing In with the Spot Healing Brush	614
Colorizing with the Color Replacement Tool	616
Getting Rid of Dreaded Red Eye	618
Working with Vanishing Point	620

***Book IX: Photoshop and Print*** **627**

Chapter 1: Prepping Graphics for Print 629

Getting the Right Resolution, Mode, and Format	629
Resolution and modes	629
Screen frequencies	630
File formats	631
Working with a Service Bureau	631
Getting the ball rolling	632
Using a prepress checklist	632
Saving and Printing Vector Data in a Raster File	634
Choosing Color Management Print Options	635
Getting Four-Color Separations	638
Creating Spot Color Separations	642
Creating a spot channel	642
Editing a spot channel	646

Chapter 2: Creating Contact Sheets, Picture Packages, and More647

- Cataloging with Contact Sheets.....647
- Pretty as a Picture Package.....651
- Using the Photomerge Command654
- Using the Merge to HDR command.....657
- Creating PDF Presentations660

Bonus ChaptersOn the Web

Bonus Chapter 1: Prepping Web GraphicsBC-1

- Understanding Basic Web OptimizationBC-2
 - Choosing a resolutionBC-2
 - Picking a resolution (and sticking with it)BC-3
 - Selecting a color modeBC-3
 - Understanding file formats.....BC-4
- Choosing the Right File FormatBC-4
 - GIF pros and consBC-5
 - JPEG pros and consBC-6
 - JPEG 2000 pros and cons.....BC-8
 - Saving a file as JPEG 2000BC-9
 - PNG pros and consBC-11
- Using a Web-Safe Palette and Hexadecimal ColorsBC-13
 - Selecting individual Web-safe colorsBC-14
 - So what are hexadecimal colors?BC-14
- Keeping Color Consistent in Web ImagesBC-15
- Making Type Look Good On-Screen.....BC-15
 - Anti-aliasing.....BC-15
 - Fractional width/system layout.....BC-16
 - Faux styles.....BC-16
- Optimizing Images with Save for WebBC-17
 - Exploring the Save for Web dialog box.....BC-18
 - Optimizing your image.....BC-22

Bonus Chapter 2: Slicing and Showing Web ImagesBC-31

- Why Slice?BC-31
- Slicing Up ImagesBC-32
- Selecting and Modifying SlicesBC-35
 - Showing/hiding slices and slice numbersBC-36
 - Changing the color of the linesBC-36
 - Selecting slices.....BC-36
 - Resizing and moving slicesBC-36
 - Dividing a slice.....BC-38
 - Stacking slices.....BC-38
- Setting Slice Options.....BC-39

Saving Your Slices	BC-40
Creating a Web Photo Gallery.....	BC-46
Planning Your Page	BC-47
Cooking Up a Web Gallery.....	BC-49

Bonus Chapter 3: Other Sources of InformationBC-53

Applying Annotations and Notes	BC-53
Creating a text annotation.....	BC-54
Creating an audio note.....	BC-56
Importing and exporting PDF files with annotations.....	BC-57
Working with Metadata.....	BC-57
Accessing Help When You Need It	BC-60
