# Contents

*Introduction* . . . . . *xiii*

**Chapter 1 • The Basics** . . . . . **1**

- Color vs. Number . . . . . 1
  - Anti-aliasing and Resolution . . . . . 7
  - Raster Data Storage and Compression . . . . . 8
- Understanding Modes, Bits, and Channels . . . . . 8
  - Bitmaps and Grayscale Images . . . . . 9
  - Color Images . . . . . 13
  - Color Bit Depth . . . . . 15
  - Additive versus Subtractive Color . . . . . 15
  - Selecting Pixels . . . . . 16
  - Saving and Loading Selections with Channels . . . . . 16
- Using Layers . . . . . 17
  - Organizing Layers . . . . . 17
  - Layer Attributes . . . . . 21
  - Layer and Vector Masks . . . . . 22
  - Clipping Groups and Knockouts . . . . . 26
  - Layer Styles . . . . . 28
- Painting, Adjusting, and Filtering . . . . . 31
  - Using Brushes . . . . . 31
  - Making Adjustments . . . . . 34
  - Using Adjustment and Fill Layers . . . . . 35
  - Applying Filters . . . . . 36
  - Reversing Changes: Undo, Fade, and History . . . . . 38
- Text, Shapes, and Paths . . . . . 40
  - Creating and Editing Text . . . . . 40
  - Creating and Editing Shapes and Paths . . . . . 42
- Sizing and Transforming . . . . . 45
  - Setting Image Size, Resolution, and Document Size . . . . . 45
  - Straightening Images . . . . . 46
  - Correcting for Two-Point Perspective . . . . . 49
- Summary . . . . . 52

**Chapter 2 • Working with Color** . . . . . **53**

- Modes and Gamuts . . . . . 53
- Color Spaces . . . . . 56
- Calibration and Profiles . . . . . 59
  - Profiling Your Monitor . . . . . 59
  - Disabling a Printer's Color Correction . . . . . 62
- Consistent Color Printing . . . . . 64

Professional Color .....	67
Studio Environment .....	67
Calibration Systems .....	68
Display Devices .....	69
RGB Printers .....	68
Inks .....	69
Specialty Paper .....	70
Summary .....	70
<b>Chapter 3 • Digital Darkroom Skills .....</b>	<b>71</b>
Working with Digital Film .....	71
Adjusting Tonal Range .....	78
Balancing Color .....	82
Replacing the Sky .....	87
Sharpening and Blurring .....	91
Sharpening and Removing Color Noise .....	91
Alternative Edge Enhancements .....	94
Simulating Camera Effects .....	96
Summary .....	98
<b>Chapter 4 • You and Your Entourage .....</b>	<b>99</b>
Extracting Entourage .....	99
Extracting People from Photos .....	99
Extracting Objects from Photos .....	111
Enhancing Entourage .....	123
Adding People to an Elevation .....	124
Adding Trees to an Elevation .....	126
Building an Entourage Library .....	130
Entourage in Autodesk VIZ .....	131
Creating Entourage Geometry .....	131
Designing an Entourage Material .....	135
Summary .....	138
<b>Chapter 5 • Presenting Plans .....</b>	<b>139</b>
Preparing Plans in AutoCAD .....	139
Cleaning Drawings .....	140
Setting Up an Image Printer Driver in AutoCAD .....	142
Creating a Plot Style Table for Images .....	145
Scale and Resolution .....	147
Transferring Multilayer Drawings to Photoshop .....	153
Using Patterns .....	159
Creating and Applying a Basic Pattern .....	159
Generating Tilable Patterns .....	160
Creating a Custom Pattern Library .....	162
Applying Patterns .....	164

Layer Style Techniques ..... 166

    The Kitchen Project ..... 166

    The Hollyhock Project ..... 179

Laying Out Plans on a Sheet ..... 186

Summary ..... 192

**Chapter 6 • Elevating the Elevation ..... 193**

    Converting AutoCAD Drawings ..... 193

    Simulating Texture ..... 197

    Casting Shadows ..... 204

    Faking Reflection and Refraction ..... 211

    Adding Entourage ..... 217

    Summary ..... 220

**Chapter 7 • Creative Compositing ..... 221**

    Rendering in Autodesk VIZ ..... 221

        Exploring the 3D Model ..... 222

        Composing the Scene ..... 225

        Rendering Matted Objects with Alpha Channels ..... 229

        Automating Output with MAXScript ..... 233

        Rendering the Shadow Element ..... 236

    Compositing in Photoshop ..... 238

        Converting Alpha Channels to Layer Masks ..... 238

        Creating an Action to Automate Conversion ..... 240

        Transferring Masked Layers to a Project ..... 241

        Organizing Layers ..... 243

    Applying Effects to Masked Layers ..... 245

    Working with the Environment ..... 249

    Making Adjustments with Clipping Groups ..... 253

    Adding to the Composite ..... 254

    Summary ..... 256

**Chapter 8 • Illustrating Architecture ..... 257**

    Illustrating a 3D Model ..... 257

        Rendering in VIZ ..... 258

        Rendering Special Image Channels with MAXScripts ..... 264

    Integrating and Painting in Photoshop ..... 268

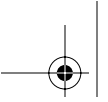

        Integrating the Renderings ..... 268

        Masking and Painting Surfaces ..... 275

    Working in Black and White ..... 286

    Reproducing Grayscale Images with Colored Inks ..... 289

    Summary ..... 290

**Chapter 9 • Showing Work to Your Clients. . . . . 291**

Producing Prints . . . . . 291

E-Mailing Images . . . . . 299

Generating Web Photo Galleries . . . . . 303

Creating Optimized Web Pages with ImageReady . . . . . 306

    Creating and Optimizing Slices . . . . . 306

    Creating Rollovers . . . . . 309

    Viewing the Optimized Web Page . . . . . 312

Presenting Slide Shows . . . . . 313

    An In-Photoshop Demonstration . . . . . 314

    Acrobat PDF Presentation . . . . . 315

Protecting Your Intellectual Property . . . . . 317

    Adding Metadata . . . . . 317

    Adding Watermarks . . . . . 320

    Securing Your Data . . . . . 324

Summary . . . . . 326

*Index. . . . . 327*
