Introduction 1

About This Book.....	1
Conventions Used in This Book	2
Foolish Assumptions	2
How This Book Is Organized.....	3
Part I: The ABCs Of Modding	4
Part II: Making Your Own Maps	4
Part III: Expanding Your Creation	4
Part IV: Going Beyond the Basics	5
Part V: The Part of Tens.....	6
Icons Used in This Book.....	6

Part 1: The ABCs of Modding 7

Chapter 1: Modifying the Game 9

Shoot First, Ask Questions Later.....	10
Checking Out Quake 4	11
Adding To or Changing the Game	11
Finding out what you can mod	12
Knowing what tools you need	13
The Modding Process Goes Something Like This.....	14
Sharing the Game with Others	15

Chapter 2: Getting Familiar with Modding Tools and Techniques ... 17

Gathering the Tools Involved	17
Writing plain text	18
Unpacking your luggage	18
Drawing, painting, and taking pictures	19
Using Best Modding Practices.....	20
Following standard naming conventions	20
Instructing the end user	21
Including all the files required.....	21
Avoiding the overwriting headache.....	22
Saving and saving again.....	22
Differences between Quake and Other Games.....	22

Chapter 3: Breaking Down the Game 23

Making Maps and Playing Levels	23
Making Your Own Maps.....	24
Building blocks of a map	25
Setting boundaries	25
Seeing in three dimensions	26
Measuring in units	27
Toying with Textures	28
Painting the walls	28
Building interest	28
Evoking Entities	29
Sorting Out the Scripts	30
Messing with User Interfaces.....	30

Part II: Making Your Own Maps* 31*Chapter 4: Getting Set Up for Mapping 33**

Firing Up the System.....	34
Creating a shortcut to Quake 4.....	34
Customizing your Quake shortcut	35
Adjusting Your Game's Video Settings	36
Changing from Fullscreen to Windowed mode.....	37
Turning off antialiasing.....	38
Reducing the brightness.....	39
Launching the Editor	41
Arranging Your Windows	41
Adjusting your screen resolution	42
Adjusting your work environment	43
Working the Windows and Exploring the Interface	45
Looking at windows	45
Pressing buttons and working menus	47
Using shortcuts for success.....	48
Avoiding errors	48

Chapter 5: Creating Your First Game Map 49

Selecting a Texture.....	49
Loading texture sets.....	50
Caulking your map	51
Drawing the First Brush	53
Maneuvering the 2D Window.....	54
Counting in power of two	55
Zooming and moving the view.....	55
Resizing and Moving Brushes.....	56

Hollowing Out the Room	58
Maneuvering the CAM Window	60
Fixing Overlapping Issues	60
Leaking Is Not an Option	64
Saving Your Map	64
Chapter 6: Decorating the Scene	67
Loading the Common Walls Texture Set	67
Selecting and Painting Faces on the Walls	68
Inspecting the Surface	70
Painting the Remaining Faces	72
Chapter 7: Adding Lights and a Player	75
Lighting the Way	75
Positioning the entity	78
Adding a bit of color	78
Adding a Place to Start	79
Positioning and providing some direction	80
Playing with properties on the Entity tab	81
Chapter 8: Putting the Pieces Together	83
Leveling the Playing Field	83
Building the BSP	84
Seeing what can be seen	85
Lighting the scene	86
Comparing the old with the new	87
Processing the Pieces	87
Listening to the console	88
Building the puzzle	89
Playing the Result	90
Exiting the game	90
<i>Part III: Expanding Your Creation</i>	<i>91</i>
Chapter 9: Expanding Your Map with Additions	93
Making Copies	93
Joining Rooms	96
Drawing your halls	96
Making room to play	97
Retexturing the Hallway Walls	104
Lighting the Path	105
Running in the Halls	106

Chapter 10: Building with Optimization in Mind	109
Commanding as a developer.....	110
Outlining your world.....	111
Mitering for Mappers.....	112
Fixing those corners	114
Mitering the floor and ceiling?.....	116
Automatic optimization.....	117
Creating Portals.....	118
Can You See Me?.....	122
Chapter 11: Heading to the Great Outdoors	125
Building Another Addition.....	125
Multiplying the ground	128
Filling in the useless corner	129
Defining your boundaries.....	130
Making a Scene.....	132
Throwing dirt on the ground	132
Fitting the outer building.....	132
Climbing the roof.....	133
Walling in the yard and adding sky	134
Getting Outside.....	136
Clipping out some doors	136
Touching up the textures	138
Fixing a Bottleneck.....	141
Sliding the Door Open	142
Making that door move	142
Sealing your area	144
Lighting from Above	145
Understanding your real environment	145
Adding a virtual sun.....	146
Simulating ambient light.....	149
Testing Your Progress.....	150
Chapter 12: Adding a Few Details	151
Doing Some Decorating.....	151
Pulling a ledge.....	152
Lighting the porch.....	155
Defining the indoor lights.....	160
Pairing the Doors	162
Adding Some Crates.....	163
Creating climbable crates.....	164
Placing crates for strategy	166
Making crates for other environments	168

Picking Up on Pickups170
 Adding armor170
 Restoring health172
 Finding weapons173
 Grabbing ammo176
 Powering up179
 Placing a model to decorate the power-up179
 Testing and Having Fun182

Chapter 13: Playing Alone or with Someone Else185

Adding Single-Player Enemies186
 Inserting a Strogg.....186
 Inserting a gladiator192
 Adding Multiplayer Opponents195
 Playing one-on-one195
 Teaming up with others197
 Playing Multiplayer Levels204
 Defining your level204
 Making a custom loading screen206
 Creating a thumbnail image211
 Determining the level size212
 Considering Other Game Types215
 Playing the tourney215
 Capturing the arena216

Part IV: Going Beyond the Basics219

Chapter 14: Scripting Advanced Actions221

Finding Tools You Already Had221
 Breaking Apart the Script.....226
 Lifting Sensations228
 Constructing the platform.....229
 Texturing the platform.....231
 Creating the track.....233
 Turning the platform.....234
 Controlling your lift236
 Scripting the action239
 Adding the final touches243

Chapter 15: Creating Custom Textures245

Slicing Up the Texture246
 Installing Some Tools.....247
 Bricking Up the Joint247

Finding the Right Size	248
Tiling on Forever	251
Shifting the image to expose the seam	252
Stamping out your seams	255
Shifting back to ground zero	258
Mapping Your Images	260
Splashing on some color: The diffuse map	260
Picking out the highlights: The specular map	261
Bumping polygons in and out: The normal map	267
Creating a normal map without the filter	271
Defining the ups and downs: The height map	272
Finding the texture: The editor image	276
Making Everything Work Together	281
Building a shader	281
Applying your material	283
Chapter 16: Gaming with GUIs	285
Opening Doors	286
Looking at the wall	286
Interacting with an entity	288
Controlling your doors	290
Working on your own	292
Creating a Custom Interface	293
Starting the GUI editor	294
Building your first GUI	294
Saving your work	307
Applying Your Custom Interface	308
Exploring Deeper into the Game	310
Chapter 17: Separating Your Files	311
Understanding Game-Defined Mods	313
Naming a Mod of Your Own	315
Chapter 18: Re-Skinning the Models	319
Locating the Models and Their Skins	320
Hunting Down Your Mod Files	325
Searching in materials	325
Making changes	331
Compressing to DDS	343
Viewing the mod	344

Chapter 19: Showing the World345
 Creating the Package345
 Packaging additions to the game346
 Packaging mods that alter the game.....351
 Distributing the Goods354

Part V: The Part of Tens355

Chapter 20: Ten Great Tips and Tricks357
 Come Up with Original Ideas357
 Plan Your Build358
 Design Minimally358
 Avoid Errors359
 Subtracting with CSG360
 Dragging out a triangle361
 Super-sizing brushes361
 Follow Examples362
 Use Prefabs362
 Mesh Objects363
 Measure the Player363
 Find More to Mod364
 Look for Help365

Chapter 21: Ten Great Mods367
 Corpse Stay and Self Shadow367
 Possible pitfalls.....369
 Drach-FPS-Mappack369
 Possible pitfalls.....370
 Fleischhaus370
 Possible pitfalls.....371
 Logo Crosshair371
 Possible pitfalls.....372
 Q4GIB372
 Possible pitfalls.....373
 Dark Matter Mayhem373
 Possible pitfalls.....374
 Quake 4 WOD374
 Possible pitfalls.....376
 Q4 X-Battle Battlemod376
 Possible pitfalls.....377

Q4MAX.....	377
Possible pitfalls.....	377
SABot	378
Possible pitfalls.....	378
<i>Appendix</i>	379
System Requirements	379
Using the CD with Microsoft Windows.....	380
What You'll Find on the CD	380
Author-created material	381
WinZip.....	381
Adobe Photoshop Elements.....	381
The Compressorator	381
Normal Map Generator	381
<i>Index</i>	383
