bio-centric approach 9, 25
biodiversity 7, 191
biosphere 26
biotechnology 59
business
– business decisions 43
– eco-efficiency 180
– long-term success 44

C

capital
– artificial capital 32, 35
– capital stocks 72

man-made capital 69, 71, 160
– natural capital 9, 34, 68, 71, 74, 160
– reproducible capital 72
– social capital 34, 142
carrying capacity 22, 30, 58, 112
catastrophe
– catastrophe points 75
– catastrophe threshold 66, 79
– environmental catastrophe 78
chaos 131
civil society 2
climate change 13, 59, 62
climax 138, 228
Cobb-Douglas production function 72
condominial solutions 211
commercialism 197
compassion 231
conflicts
– conflict generation 107
– conflict of demarcation 109
– conflict of goals 117
– conflict over priorities 109
– equity conflicts 29
– management 111, 113, 119
– resolution 111
– social conflicts 117
consumer
– habits 198
control
– environmental factor control 228
– feedback control 91
– process control 105
corruption 207
costs
– cost benefit analysis 71
– finite cost 66
– infinite costs 66
– labour costs 45
creation
– respect of creation 142
crime 216
