Introduction	xiii
PART I ■ ESSENTIALS FOR SERIOUS IMAGE EDITING	1
Chapter 1 ■ Resolution: The Cornerstone of Image Detail	3
In Terms of Resolution	4
What Image Resolution to Use	7
Resizing Images	8
Multipurpose Images	10
Can You Have Too Much Resolution?	11
Chapter 2 ■ Seeing Images as Color, Contrast, and Tone	15
Tonal Range, Brightness, Contrast, and Image Dynamics	16
Color as Tone	17
Types of Color	20
Gaining Perspective on Color Management	26
Making What You See What You Get: Monitor Calibration and Color Preferences	29
Chapter 3 ■ The Image Editing Process Outline	43
The Image Editing Process	44
The Tools You'll Need	46
PART II ■ WRESTLING WITH IMAGE TONE AND CONTRAST	55
Chapter 4 ■ Separating and Combining Image Components	57
The Art of Turning Color into Black-and-White	58
Turning Black-and-White to Color Again	79
Applying Color: Hand-Coloring	82

Chapter 5 ■ Correcting Image Tone 95

Doing Minor Cleanup First	96
Evaluating Image Tones	104
Redistributing Tone with Levels	111
Snapping and Fading Contrast with Curves	114
(Un)Sharpening and Boosting Contrast	117
Managing Image Noise	124
Masking with Image Tone	127
Soft Focus Effects Using Masking	133
Shaping Image Elements with Light and Shadow	134

PART III ■ SERIOUS IMAGE CORRECTION 137

Chapter 6 ■ Color and Tone Enhancement 139

Minor Cleanup for Color Images	140
Levels Correction for Color	144
Gradient Map Corrections for Accurate Color	146
Using Hue/Saturation for Color Adjustment	156
Color Masking with Hue/Saturation	158
Adjusting Color Balance	163
Painting in Color Changes: History Brush Application	166

Chapter 7 ■ Altering Composition 173

Problems in Composition (Ten Tips for Better Images)	174
Cropping as a Tool for Composition	178
Transformations and Distortions	180
Isolating Image Elements	187
Compositing Image Elements	199
Creating a Panorama	204

Chapter 8 ■ The Image Process in Action 211

The Wild Stallion	212
-------------------	-----

PART IV ■ CONTROLLING AND ENHANCING IMAGES IN PRINT	221
Chapter 9 ■ Creating and Using Vectors	223
Making Vectors	224
Making Custom Shapes	227
Creating Scalable Vector Art	230
Applying a Clipping Path	234
Chapter 10 ■ Color Separations for Print	239
Making Duotones	240
Separating CMYK Color	252
Using CMYK Components	262
Chapter 11 ■ Options for Printing	267
Understanding Printers and Printer Resolution	268
Making Prints at Home	274
Printing to the Edge	289
Using Other Printing Options	289
At the End of the Book	291
Appendix ■ Community, Concepts, and References	293
How to Run Actions in Photoshop Elements	294
The Toolbox	306
Resolution	310
File Types	316
Bit Depth	319
Blending Modes	320
Camera RAW Files	322
Advantages and Disadvantages of 16-Bit	327
Reader Requests	328
Index	329
