
CONTENTS

Figures, Tables, Exhibits, and Worksheets vii

Preface xi

The Authors xv

PART ONE: DEVELOPING AND ADMINISTERING QUESTIONNAIRES 1

1 An Overview of the Sample Survey Process 3

2 Designing Effective Questionnaires: Basic Guidelines 30

3 Developing Survey Questions 52

4 Utilizing Focus Groups in the Survey Research Process 73

PART TWO: ENSURING SCIENTIFIC ACCURACY 87

5 Descriptive Statistics: Measures of Central Tendency
and Dispersion 89

6 The Theoretical Basis of Sampling 115

7 Confidence Intervals and Basic Hypothesis Testing 127

- 8 Determining the Sample Size 142
- 9 Selecting a Representative Sample 157

PART THREE: PRESENTING AND ANALYZING SURVEY RESULTS 177

- 10 Analyzing Cross-Tabulated Data 179
- 11 Testing the Difference Between Means 202
- 12 Regression and Correlation 220
- 13 Preparing an Effective Final Report 240
- Resource A: Table of Areas of a Standard Normal Distribution 253
- Resource B: Glossary 259
- Resource C: Answers to Selected Exercises 267
- Bibliography 275
- Index 277

FIGURES, TABLES, EXHIBITS, AND WORKSHEETS

Figures

- 5.1 The Normal Curve 103
- 5.2 Distribution with Positive Skew 104
- 5.3 Distribution with Negative Skew 105
- 5.4 Frequency Polygon Showing Fire Department Emergency Response Time in Community A and Community B 114
- 6.1 Area Under the Normal Curve 117
- 6.2 Proportionate Areas Under the Normal Curve for Military Weights 118
- 6.3 Standardized Proportionate Areas Under the Normal Curve: An Example 119
- 6.4 Distribution of Sample Means 121
- 6.5 Hypothetical Normal Distributions for Sample Means Compared to Raw Data 122
- 6.6 Properties of Normal Curves Applied to Hypothetical Distribution of Sample Mean Weights 124
- 7.1 Dual-Direction Research Question (Two-Tail Test at 95 Percent Confidence Level) 134
- 7.2 Single-Direction Research Question (One-Tail Test at 95 Percent Confidence Level) 135

- 8.1 Determining Sample Size 153
- 11.1 ANOVA Table for Public Works Employees 211
- 12.1 Rehabilitation Subsidy/Market Value Increase Analysis 221
- 12.2 Scatter Plot and Regression Line 222
- 12.3 Violent Crimes and Population 224
- 12.4 Prior Convictions and Sentence Length 225
- 12.5 ANOVA Table for Regression Line of Subsidy and Value
Increases 227
- 12.6 Rehabilitation Subsidy/Market Value Increase Analysis 230
- 13.1 Favor or Oppose Building Seawater Desalination Facilities 247
- 13.2 Rating of Police Response to Emergency and Nonemergency
Calls 247
- 13.3 Mean Satisfaction Ratings for Various Features of Bus Service 248
- 13.4 Household Has Automatically Controlled Sprinkler System
for Lawn 249
- 13.5 Believe Seawater Desalination Process Is Harmful or Not Harmful to
the Local Ocean Environment 251

Tables

- 2.1 Ways in Which City Government Can Serve Community Needs 49
- 2.2 Important Issues Facing Residents of the City of San Antonio 51
- 5.1 Political Party Affiliation 90
- 5.2 Rating of Local Police Services 92
- 5.3 Number of Children Per Household in St. Augustine, Florida 93
- 5.4 Consultants' Hourly Fees Paid by Cities in New York, 1996 93
- 5.5 Travel Time to Work in Asbury Park, New Jersey 96
- 5.6 Fire Department Physical Fitness Endurance 98
- 5.7 Willingness to Spend for Expanded Parks and Recreation 106
- 5.8 Impression of Effect of Susanville City Government on Business 107
- 5.9 Hourly Earnings of Blue-Collar Workers 110
- 5.10 Annual Household Income for Benedict County for the Year 1990 111
- 5.11 Distance Traveled by Baseball 112
- 5.12 Willingness to Spend for Expanded Parks and Recreation 112
- 6.1 Distribution of 100 Hypothetical Sample Mean Weights 121
- 8.1 Minimum Sample Sizes for Variables Expressed as Proportions 147
- 8.2 Minimum Sample Sizes for Selected Small Populations 150
- 9.1 Abridged Table of Random Numbers 163
- 9.2 Proportionate Sample Representation for a Hypothetical Ethnic
Distribution 166

| | | |
|-------|---|-----|
| 9.3 | Population of Davis Planning Areas | 168 |
| 9.4 | Outdoor Recreation Facilities Used Most Often by Davis Residents, by Planning Area | 170 |
| 10.1 | Number of Years Resided on the Reservation | 180 |
| 10.2 | Number of Years Resided on the Reservation by Tribe | 181 |
| 10.3 | Number of Years Resided on the Reservation, by Tribe (Male Respondents) | 183 |
| 10.4 | Opinion Concerning Gun Control by Political Party | 184 |
| 10.5 | Value of Psychiatric Care, by Age of Respondent | 188 |
| 10.6 | Political Orientation of Local Businesspersons, by Gender | 191 |
| 10.7 | Educational Level by Socioeconomic Status | 192 |
| 10.8 | Opinion Concerning Negotiations with the Palestine Liberation Organization, by Religious Preference | 196 |
| 10.9 | Number of Children by Level of Education of Parent | 196 |
| 10.10 | Support for Urban Light Rail to University by Level of Education | 197 |
| 10.11 | Favorite Recreational Activity by State of Residence | 197 |
| 10.12 | Voter Preference Regarding Growth Management Plan for the City of Willowbend by Annual Household Income | 198 |
| 10.13 | Most Frequently Used Mode of Transportation to Work by Subarea | 200 |
| 11.1 | Promotional Examination Score by Employer (City or County) | 203 |
| 11.2 | Efficiency Test: City Workers | 217 |
| 13.1 | Statistically Significant Differences for Various Potential Uses of Recycled Water | 250 |
| 13.2 | Area Where Convenience Goods Are Purchased Most Frequently by Ethnic Group | 251 |
| 13.3 | Area Where Shopping Goods Are Purchased Most Frequently by Ethnic Group | 252 |
| C.1 | SAT Scores Among High School Seniors | 269 |
| C.2 | Citizen Rating of Police Effectiveness | 269 |
| C.3 | Political Preference by Ethnic Background | 272 |
| C.4 | NAFTA Opinion by Region of United States | 272 |

Exhibits

| | | |
|-----|--|----|
| 2.1 | Mail-Out Introduction | 34 |
| 2.2 | Telephone Introduction | 34 |
| 2.3 | In-Person Introduction | 35 |
| 2.4 | Series of Questions Demonstrating Sensitizing of Respondents | 38 |

| | | |
|------|--|-----|
| 2.5 | Filter or Screening Questions | 40 |
| 2.6 | Screening Used to Disqualify Respondents | 40 |
| 4.1 | Sample Focus Group Confirmation Letter | 81 |
| 4.2 | Structured Format for a Focus Group Discussion | 84 |
| 5.1 | Salaries of Employees of a Small, Private Business | 106 |
| 5.2 | SAT Scores: High School Seniors | 110 |
| 7.1 | Values of Critical Z Scores for Research Hypotheses (According to Research Hypothesis Direction) | 136 |
| 7.2 | Critical Values of the t Distribution | 138 |
| 9.1 | Sample Sizes and Weights for City of Davis Planning Areas | 169 |
| 9.2 | Sample Sizes and Weights for Stratified Sample for Table 9.2 | 171 |
| 10.1 | Critical Values of the Chi-Square Distribution | 186 |
| 10.2 | Interpretation of Calculated Cramér's V , Phi, and Lambda Measures of Association | 189 |
| 10.3 | Interpretation of Calculated Gamma | 194 |
| 11.1 | Table of F -Statistics, $P = 0.05$ | 212 |
| 11.2 | Table of F -Statistics, $P = 0.01$ | 213 |
| 11.3 | Studentized Range (Q) Distribution | 215 |
| 12.1 | Choosing the Appropriate Statistical Test or Measure | 234 |
| 13.1 | Example of a Cover Page | 241 |

Worksheets

| | | |
|------|---|-----|
| 5.1 | Determination of Median | 94 |
| 5.2 | Calculation of Mean Number of Children, St. Augustine, Florida | 96 |
| 5.3 | Calculation of Mean Travel Time to Work in Asbury Park, New Jersey | 97 |
| 5.4 | Calculation of Standard Deviation for Individual Case Data | 101 |
| 5.5 | Calculation of Standard Deviation for a Frequency Distribution with Single-Value Categories | 102 |
| 5.6 | Calculation of Standard Deviations for Table 5.6 | 102 |
| 5.7 | Calculation of 75th Percentile Endurance Times for Community A (Table 5.6) | 113 |
| 9.1 | Calculation of Weighted Citywide Total for Outdoor Recreation Facilities Used Most Often | 171 |
| 10.1 | Chi-Square Matrix ($n = 500$) | 185 |
| 10.2 | Lambda as a Measure of Reduction in Predictive Error | 200 |
| 11.1 | Public Works Employees' Earnings | 209 |
| 12.1 | Calculation of Regression Line | 223 |
| 12.2 | Residual Sum of Squares | 227 |
