

# Table of Contents

---

<b>Chapter 1: Introduction to Earth Science</b> .....	<b>1</b>
Observations and Measurement Methods .....	1
Basic Units of Measurement .....	1
Derived Units .....	2
Scientific Notation .....	2
Percent Error .....	3
Density .....	3
Types of Graphs .....	4
Natural Resources and Conservation .....	5
Pollution .....	5
Types of Pollution .....	6
<b>Chapter 2: Measurements and Models of the Earth</b> .....	<b>9</b>
Size, Shape, and Roundness of the Earth .....	9
The Size of the Earth .....	9
The Shape of the Earth .....	10
The Smoothness of the Earth .....	11
The Structure of the Earth's Layers .....	11
Types of Models .....	12
<b>Chapter 3: Mapping the Earth</b> .....	<b>15</b>
Latitude and Longitude Measurements .....	15
Latitude .....	15
Longitude .....	16
Great Circles .....	17
Field Maps .....	18
Topographic Maps .....	18
Contour Lines .....	18
Reading Topographic Maps .....	19
Updating Maps .....	20
<b>Chapter 4: Minerals</b> .....	<b>23</b>
Crystal Structure .....	23
Mineral Identification .....	25
Mineral Families .....	26
<b>Chapter 5: Rocks</b> .....	<b>29</b>
Igneous Rocks .....	29
Texture .....	30
Composition .....	30
Sedimentary Rocks .....	32
Metamorphic Rocks .....	34
The Rock Cycle .....	35

<b>Chapter 6: Weathering and Erosion</b> .....	<b>39</b>
Types of Weathering .....	39
Rates of Weathering .....	40
Soils .....	40
Soil Horizons .....	41
Soil Types/Climate .....	41
Soil Conservation .....	42
Agents of Erosion .....	42
Running Water .....	42
Velocity of a Stream .....	43
The Life of a Stream .....	44
Glaciers .....	45
Types of Glaciers .....	45
Glacier Formation .....	46
Glacial Movement .....	46
Erosion by Glaciers .....	46
Waves .....	47
Features of Waves .....	47
Tsunamis .....	47
Currents .....	47
Erosion by Waves .....	48
Gravity .....	48
Mass Movements .....	48
<b>Chapter 7: Deposition</b> .....	<b>51</b>
Factors Affecting Deposition .....	51
Running Water and Wind .....	52
Glaciers .....	52
Streams .....	53
Ocean Waves .....	53
Wind .....	54
Mass Movements .....	54
<b>Chapter 8: Landscape Formation</b> .....	<b>57</b>
Landscape Characteristics .....	57
Stream Patterns .....	57
Hillsides .....	58
Landscape Regions .....	58
Mountains .....	58
Plateaus .....	59
Plains .....	59
Factors of Development .....	59
Rock Types .....	59
Climate .....	59
Human Interactions .....	59
Drainage Patterns .....	60
Features .....	60

<b>Chapter 9: Water in the Ground</b> .....	<b>63</b>
Water in the World .....	63
Water Budget .....	64
Water in the Ground .....	65
Ability of Rocks to Hold Water .....	65
Transmission of Water .....	66
Water Table and Wells .....	66
Groundwater Characteristics .....	67
Conservation .....	67
Caves .....	67
<b>Chapter 10: Plate Tectonics</b> .....	<b>71</b>
Layers of the Earth .....	71
Evidence of Crustal Movement .....	72
Plate Tectonic Theory .....	73
Plate Boundaries .....	73
Diverging Boundaries .....	74
Sliding Boundaries .....	75
Converging Boundaries .....	75
Collision between Plates .....	75
Subducting Plates .....	75
Hot Spots .....	76
Pole Reversal Patterns .....	76
<b>Chapter 11: Earthquakes</b> .....	<b>79</b>
Areas of Frequent Crustal Movement .....	79
Earthquake Waves .....	79
P-Waves .....	80
S-Waves .....	80
L-Waves .....	80
Shadow Zone .....	80
Epicenter Location .....	81
Origin Time .....	83
Magnitude .....	83
Tsunami Formation .....	83
Predicting and Preparing for Earthquakes .....	84
<b>Chapter 12: Volcanoes</b> .....	<b>87</b>
Location .....	87
Formation .....	87
Structure .....	88
Cones .....	89
Volcanic Debris .....	89
Types of Eruptions .....	89
Famous Eruptions .....	90
Other Effects from Volcanoes .....	90

<b>Chapter 13: Mountain Building</b> .....	<b>93</b>
Types of Crustal Movement .....	93
Plate Collisions and Mountain Types .....	93
Fault Types and Mountain Features .....	94
Other Features of the Mountain-Building Process .....	95
Correlation of Mountains and Plate Boundaries .....	96
Growth of Continents .....	96
<b>Chapter 14: Energy and the Earth</b> .....	<b>99</b>
Transfer of Energy .....	99
Radiation .....	99
Convection .....	99
Conduction .....	100
Advection .....	100
Absorption of Energy .....	100
Types of Energy .....	100
Temperature and Heat .....	100
Change in State of Water and Matter .....	102
Conversions between States .....	102
Energy Required for Change of State .....	103
Energy of the Earth .....	104
<b>Chapter 15: Insolation and Seasons on Earth</b> .....	<b>105</b>
Solar Radiation .....	105
Changes in Insolation .....	105
Greenhouse Effect .....	106
Seasons .....	106
<b>Chapter 16: Weather</b> .....	<b>109</b>
Composition of the Atmosphere .....	109
Temperature in the Atmosphere .....	110
The Ionosphere .....	110
Moisture in the Atmosphere .....	110
Measurement of Water in the Air .....	111
Finding Relative Humidity .....	111
Dew Point .....	113
Clouds .....	114
Cloud Development .....	114
Precipitation .....	116
Pressure in the Atmosphere .....	117
Wind .....	119
Causes .....	119
Circulation of Air on Earth .....	119
Sea Breeze/Land Breeze .....	120
Wind Shifts .....	121
Air Masses .....	122

Fronts and Mid-latitude Cyclogenesis .....	122
Storms and Severe Weather .....	124
Thunderstorms .....	124
Formation .....	124
Lightning .....	125
Precautions .....	125
Tornadoes .....	125
Hurricanes .....	126
Winter Storms .....	127
Synoptic Weather Maps .....	127
Station Models .....	128
Temperature .....	128
Pressure .....	129
Forecasting .....	129
<b>Chapter 17: The Oceans .....</b>	<b>131</b>
Salinity .....	131
Layers of the Ocean .....	132
Surface Currents .....	132
Life in the Ocean .....	134
Ocean Floor Features .....	134
Fracture Zones .....	135
Hydrothermal Vents .....	135
<b>Chapter 18: Water and Climate .....</b>	<b>137</b>
The Water Cycle .....	137
Climate .....	137
Factors Affecting Climate .....	138
Factors Controlling Temperature .....	138
Factors Controlling Precipitation .....	138
Altitude .....	139
Unequal Heating Rates of Water and Land .....	139
Mountains .....	140
Long-Term Climate Change .....	141
<b>Chapter 19: The Universe .....</b>	<b>143</b>
Origin of the Universe: The Big-Bang Hypothesis .....	143
Galaxies and Stars .....	144
Telescopes .....	144
Electromagnetic Spectrum .....	145
Doppler Shift .....	146
Constellations .....	146
Distances to Stars .....	147
Star Properties .....	148
Life Cycle of Stars .....	148

The Sun . . . . .	149
Structure of the Sun . . . . .	150
Sunspots . . . . .	150
Planets . . . . .	150
Inner Planets . . . . .	151
Outer Planets . . . . .	152
The Moon . . . . .	152
Properties of the Moon . . . . .	152
History of the Moon . . . . .	153
Comets, Asteroids, and Meteoroids . . . . .	153
<b>Chapter 20: Motions of the Earth, Moon, and Sun . . . . .</b>	<b>155</b>
Motion of the Earth and Its Relation to Other Bodies . . . . .	155
Apparent Motions in the Sky . . . . .	155
Locating the Position of an Object in the Sky . . . . .	156
Geocentric and Heliocentric Models . . . . .	156
Actual Motions of the Earth . . . . .	156
Apparent Diameters of Celestial Objects . . . . .	157
Evidence for Rotation . . . . .	157
Evidence for Revolution . . . . .	157
Time Measurements . . . . .	157
Movements and Effects of the Moon . . . . .	158
Actual Motions of the Moon . . . . .	158
Phases of the Moon . . . . .	159
Tides . . . . .	160
Eclipses . . . . .	161
Lunar Eclipses . . . . .	161
Solar Eclipses . . . . .	161
Kepler's Laws of Planetary Motion . . . . .	161
Gravity . . . . .	163
Space Travel . . . . .	163
<b>Chapter 21: Dating of Rocks . . . . .</b>	<b>165</b>
Uniform Processes . . . . .	165
Relative Dating of Rocks and Events . . . . .	165
Correlation of Rock Layers and Events . . . . .	166
Index Fossils . . . . .	167
Absolute Dating and Radioactive Decay . . . . .	167
Tree Rings . . . . .	168
Varves . . . . .	168
Radioactive Elements . . . . .	168
Half-Life . . . . .	168
Radioactive Dating . . . . .	169

<b>Chapter 22: Evolution of Life on Earth</b> .....	<b>171</b>
Geologic Time Scale .....	171
Precambrian Eon: 4.6 bya–570 mya .....	171
Archeozoic Era: 4.6 bya–2.5 bya .....	172
Proterozoic Era: 2.5 bya–570 mya .....	172
Phanerozoic Eon: 570 mya–present .....	172
Paleozoic Era: 570 mya–230 mya .....	172
Mesozoic Era: 230 mya–65 mya .....	173
Cenozoic Era: 65 mya–present, the Age of Mammals .....	173
Evolution of the Earth and Its Atmosphere .....	174
Development of the Atmosphere .....	174
Major Geologic Events .....	174
Evolution of Life on Earth .....	175
Theory of Evolution .....	175
Fossils .....	176
<b>CQR Review</b> .....	<b>179</b>
<b>CQR Resource Center</b> .....	<b>201</b>
<b>Glossary</b> .....	<b>205</b>
<b>Index</b> .....	<b>219</b>
