

Subject Index

- ABCs of emotion, 72–73, 81, 90–92, 462
 Acculturation, 279, 290–291
 Achievement motivation, 209, 233–234
 Acute Stress Disorder, 478
 Adjustment Disorder:
 with Anxiety, 409
 with Depressed Mood, 444
 with Disturbance of Conduct, 342
 Affective education, 421–423
 African Americans, 235, 279, 281, 286–289,
 292–294, 301–302, 417, 453–454
 culture, 283, 292
 Aggression Questionnaire, 382
 Aggression and violence, 375–406
 anger management, 393–395
 assertiveness training, 396–399
 assessment of, 382–384
 bullying, 389–390
 communication techniques, 397–399
 conflict:
 avoidance, 390–392
 management, 390, 397
 resolution, 399–401
 etiology, 410–415
 Golden Rule, 387, 391–392
 hostile attributional bias, 392–393
 Intermittent Explosive Disorder, 376
 outcome research, 384–385
 perspective-switching, 391–392
 proactive aggression, 377, 379, 385
 Proactive-Reactive Aggression Scale, 382
 reactive aggression, 377, 382, 385
 values, 387–389
 walking away, 402–403
 Anger management, 393–395
 Anhedonia, 445, 451
 Anxiety, 407–442
 Adjustment Disorder with Anxiety, 409
 affective education, 421–423
 Anxiety Disorders Interview Schedule for
 Children, 415
 assessment of, 415–416
 avoidance learning, 410–411
 contingency management, 425
 decatastrophizing, 428–429
 etiology, 410–415
 exposure, 421, 431–432
 Generalized Anxiety Disorder, 408
 Hansel and Gretel technique, 438–440
 Multidimensional Anxiety Scale for Children, 415
 outcome research, 416–419
 Panic Disorder, 408
 parent training, 425–426
 psychodynamic therapy, 432–438
 rational analysis, 428–430
 Revised Children's Manifest Anxiety Scale,
 415
 self-instruction, 426–428
 Separation Anxiety Disorder, 409
 Social Phobia, 408–409
 Specific Phobia, 408
 Anxiety Disorders Interview Schedule for
 Children, 415
 Art, 30–31, 153, 285
 Asian Americans, 286–287, 291–292, 299
 culture, 284, 291–292
 Assertiveness training, 254, 272, 396–399
 Assessment:
 of aggression, 382–384
 of anxiety, 415–416
 basic skills, 15–17, 312–314
 in behavior therapy, 47–50
 in cognitive therapy, 76–79
 in constructivist therapy, 141–143
 of cultural factors, 289–292
 of depression, 451–452
 of disruptive behavior disorders in adolescents,
 347–348
 of disruptive behavior disorders in children,
 314–315
 in family systems therapy, 176–178
 in psychodynamic therapy, 113–116
 of stress and trauma, 486–489
 of suicide risk, 456–457
 Attachment, 318, 346–347, 381
 Attention Deficit Hyperactivity Disorder,
 308–309, 325, 378
 Attitudes toward Guns and Violence
 Questionnaire, 382

- Attribution, 447–449, 463–466, 552
 Automatic thoughts, 74–75, 79, 86
- Beck Youth Inventories, 76–77
 Behavioral-systemic:
 etiology, 309–311, 345–346
 treatment, 319–331, 351–368
 Behavior therapy, 40–70
 assessment in, 47–50
 change processes, 51–53
 contingency contracting, 59–66
 etiology, 46–47
 learning theory, 41–46
 classical conditioning, 42–43, 46, 53, 57
 observational learning, 45–46
 operant conditioning, 43–47, 51–52
 shaping, 44
 modeling, 45–46, 66–68
 covert, 67
 outcome research, 53–55
 reinforcement:
 continuous, 44–45
 intermittent, 44–45
 negative, 43–44
 positive, 44
 relaxation training, 54, 56–57
 social skills training, 53, 55, 66–70
 systematic desensitization, 43, 53–54, 57–59
 therapist's style, 55–56
 Bereavement, 480, 488, 490, 504–506
 Black-and-white thinking. *See* Dichotomous thinking
 Bullying, 389–390
- Callous and unemotional traits, 344
 Capability versus motivation, 333–334, 345, 347–348, 350–351, 363, 372, 377, 426
 Change processes:
 in behavior therapy, 51–53
 in cognitive therapy, 80–81
 in family systems therapy, 181–185
 in narrative therapy, 145–147
 in psychodynamic therapy, 117–121
 in solution-oriented therapy, 143–145
 Child Behavior Checklist, 48, 289, 314, 347, 382, 415
 Child Post-Traumatic Stress Disorder Reaction Index, 486
 Child Post-Traumatic Stress Disorder Symptom Scale, 486
 Children's Depression Inventory, 451
 Children's Hopelessness Scale, 451
 Classical conditioning, 42–43, 46, 53, 57, 410–411, 481
 Client-centered therapy, 20–21, 251, 321
- Clinical reasoning:
 components of, 265, 270
 integration with outcome research, 260, 262, 267–268, 274–275
 strengths of, 266–267
 weaknesses of, 248–249
 Cognition:
 definition, 72
 structure, 74
 Cognitive distortions, 80, 97
 Cognitive restructuring, 90–92
 Cognitive theory, 72–76
 Cognitive therapy, 71–100
 assessment in, 76–80
 automatic thoughts, 74–75, 79, 86
 Beck Youth Inventories of Emotional and Social Impairment, 76–77
 cognitive distortions, 80, 97
 dichotomous thinking, 80, 94, 96, 99
 overgeneralization, 80
 cognitive restructuring, 90–92
 cognitive theory, 72–76
 Content Specificity Hypothesis, 73
 etiology, 75
 Hierarchical Structural Organizational Model, 74, 79
 outcome research, 81–83
 personal experiments, 98–99
 schemas, 74–75, 79
 self-instruction, 88–89
 self-monitoring, 86–88
 self-reinforcement, 89–90
 Socratic questioning, 93–95
 tests of evidence, 95–97
 therapist's style, 83–85
 Cognitive Triad Inventory for Children, 451
 Collaboration, intersystem, 34–35, 377. *See also* Teachers, collaboration with
 Collaborative problem solving approach, 317–318, 331–334, 353
 Common factors in therapy, 262–263, 411
 Communication techniques, 397–399
 Compliance training periods, 322–333
 Conduct Disorder, 342–348
 Confidentiality, 13–14, 296
 Conflict:
 avoidance, 390–392
 management, 390, 397
 resolution, 399–401
 Connors' Rating Scales-Revised, 314
 Consequences of behavior. *See* Reinforcement
 Constructivism, 136–138, 147. *See also* Solution-oriented therapy; Narrative therapy
 Content Specificity Hypothesis, 73
 Contingency contracting, 59–66, 325–326, 352–361
 Contingency management, 54, 425

- Coping, 109, 115, 155, 234, 283, 300, 435, 448, 468, 495, 498
 approach versus avoidance in, 483–486, 504
 Coping Cat program, 418, 427
 Coping with Depression Course for
 Adolescents, 453
 problem- versus emotion-focused, 496–497
 strategies, 483, 496
 style, 257
- Corrective emotional experience, 120–121, 131–132, 371, 435–436, 472
- Countertransference, 113, 288
- Cultural factors in therapy, 277–306
 acculturation, 279, 290–291
 African American culture, 283, 292
 Asian American culture, 284, 291–292
 assessment of, 289–292
 culturally responsive therapy, 279–281, 287, 296–299
 ethnocentrism, 280–281
 ethnocultural identity, 278, 291–295, 301
 Euro-American culture, 282–283, 293
 role in therapy, 279–280
 Familism, 283, 293, 300
 Hispanic culture, 283–284
 Native American culture, 284–285
 outcome research, 292–294
 political orientation, 285–286
 racism, 281–283, 300–301
 religion (see Spirituality)
 spirituality, 302–304
 stereotyping, 279, 281
 therapist's style, 295–296
 treatment utilization, 286–287
- Culturally responsive therapy, 279–281, 287, 296–299
- Decatastrophizing, 428–429
- Defense mechanisms, 108–112, 126, 337, 381, 413, 450, 482
- Depression, 443–476
 Adjustment Disorder with Depressed Mood, 444
 anhedonia, 445, 451
 assessment of, 451–452
 attribution, 447–449, 463–466
 Children's Depression Inventory, 451
 Children's Hopelessness Scale, 451
 Cognitive Triad Inventory for Children, 451
 Dysthymic Disorder, 444
 etiology, 446–451
 family therapy and parent counseling, 472–473
 interpersonal therapy, 473–474
 Major Depressive Disorder, 444
 outcome research, 452–455
 pleasant event scheduling, 460–461
 psychodynamic therapy, 468–472
 self-blame, 463
 behavioral, 449, 452, 464
 characterological, 449, 452, 464
 self-esteem, 446, 448, 452, 461, 466
 suicide, 456–459
 tests of evidence, 462–463
 time projection, 467–468
- Diagrams, 73, 92, 200–201, 207–208, 227, 336–337
- Dialectical behavior therapy, 494–495
- Dichotomous thinking, 80, 94, 96, 99, 130, 195, 396
- Directives:
 by parents, 310–311, 315, 322, 330, 332, 334, 364
 by therapists, 27, 119, 184–185, 196–199, 216, 436–438
 versus non-directive approach, 83–85, 93, 123, 149, 186, 212, 215, 253, 293
- Disengagement, in families, 175, 195–196
- Disruptive behavior disorders in adolescents, 341–374
 Adjustment Disorder with Disturbance of Conduct, 342
 assessment of, 347–348
 behavioral-systemic therapy, 351–368
 callous and unemotional traits, 344
 capability versus motivation, 345, 347–348, 350–351, 363, 372
 Conduct Disorder, 342–348
 contingency contracting, 352–361
 Disruptive Behavior Disorders Checklist, 347
 etiology, 345–347
 functional family therapy, 349
 hierarchy of consequences, 357–358
 juvenile delinquency, 344–345
 motivation versus capability (see Capability versus motivation)
 multisystemic therapy, 349–350, 367–368
 outcome research, 348–350
 parent counseling, 371–372
 psychodynamic therapy, 368–371
 social ecology, 346, 351
 substance abuse, 368
- Disruptive Behavior Disorders Checklist, 347
- Disruptive behavior disorders in children, 307–340
 assessment of, 314–315
 Attention Deficit Hyperactivity Disorder, 308–309, 325
 behavioral-systemic parent training, 319–331
 capability versus motivation, 333–334
 collaborative problem solving approach, 331–334
 compliance training periods, 322–323

- Disruptive behavior disorders in children
(Continued)
- Connors Rating Scale-Revised, 314
 - contingency contracting, 325–326
 - directives, from parent, 310–311, 315, 322, 330, 332, 334
 - Disruptive Behavior Disorders Rating Scale, 314
 - etiology, 309–312
 - executive cognitive functions, 312, 331, 335
 - Home Situations Questionnaire, 314
 - 1-2-3 technique, 329–330
 - Oppositional-Defiant Disorder, 308
 - outcome research, 316–318
 - parent-child interaction therapy, 318
 - problem-solving skills training, 317, 335–337
 - psychodynamic therapy, 337–339
 - response cost, 327
 - School Situations Questionnaire, 314
 - special time, 321–322
 - time out, 327–328
- Disruptive Behavior Disorders Rating Scale, 314
- Distraction, 494–496
- Divorce, 479–480, 488, 490, 500–503
- Double bind, 174, 179, 191, 414–415
- Dysfunction in families, 171–172, 346, 381, 491, 511
- Dysthymic Disorder, 444
- Eclectic therapy, 268–269
- Ego, 105–106
 - immature, 106, 109–111, 115, 118–120, 129
 - mature, 106, 109–111, 118–120, 450
- Empathy, 20–21, 68–69, 139, 151, 182, 219, 371, 391–392
- Empirically supported treatments (ESTs):
 - criteria for, 252–253
 - lists of, 252–255, 263
- Enmeshment, in families, 175, 195–196
- Equilibrium, in families, 171–173, 180, 362, 414, 450–451
- Ethnocentrism, 280–281
- Ethnocultural identity, 278, 291–295, 301
- Euro-American culture, 282–283, 293
 - role in therapy, 279–280
- Exceptions to the problem, 153–156
- Executive cognitive functions, 312, 331, 335
- Exposure, 131, 372, 411, 417–423, 425, 431–432, 438, 491, 493–494
- Extendincorp technique, 228–239
- Externalizing versus internalizing, 11–12, 27, 48, 111, 121–122, 218–219, 225, 234–235, 383
- Externalizing the problem, 139, 145–147, 158–161
- Facilitating communication, in families, 181–182, 187–190
- Familism, 283, 293, 300
- Family systems therapy, 167–204
 - assessment in, 176–178
 - change processes, 181–185
 - disengagement, 175, 195–196
 - double bind, 174, 179, 191
 - dysfunction in families, 171–172
 - enmeshment, 175, 195–196
 - equilibrium in families, 171–173, 180
 - etiology, 175–176
 - facilitating communication, 181–182, 187–190
 - feedback loops:
 - negative, 173, 180, 198–199
 - positive, 173–174, 180–181, 199–202
 - functional family therapy, 186, 193
 - genogram, 181–182
 - identified patient, 172, 176–177
