

Contents

Preface	ix
CHAPTER 1	
Energy Markets and Budgets at Risk	1
Recent Price Increases	1
Applying Risk Management to Energy Budgets	4
Energy Budgets at Risk Workshops	5
An Energy Budgets at Risk (EBaR) Overview	6
A Look Back at Energy Prices	15
A Look Forward: Energy Demand and Supply Factors	20
Energy Price Forecasts	26
Going Green—The Critical Role of Efficiency Investments	32
EBaR as a Policy Option	33
Summary	34
CHAPTER 2	
Facility Efficiency Options	37
Facility Energy Management	37
Efficiency Options	39
Calculating Cost and Savings	49
Summary: A Word to Nonenergy Engineers	50
CHAPTER 3	
The Nature of Energy Costs and Prices	53
Energy Price Overview	53
Electric Costs and Rates	54
Deregulated Electric Markets	62
End-Use Costs	69
Incentives to Reduce Energy Use	71
Financing Energy-Efficiency Investments	76
Summary	77

CHAPTER 4	
Capital Budgeting: Theory and Practice	79
Net Present Value and IRR Analysis	80
Real Options—When Procrastination Pays	85
Capital Budgeting in Practice	86
Summary	92
CHAPTER 5	
Facility Energy Risk Management Foundations	95
Capital Budgeting and Risk Management	96
A Brief History of Financial Risk Analysis (VaR)	96
Applying a VaR Approach to Facility Energy Risk Management	101
Prognosis	106
Summary	107
CHAPTER 6	
EBaR Concepts and Results	109
Energy Budgets at Risk (EBaR) Overview	109
EBaR Management Presentations	114
Summary	122
CHAPTER 7	
Beginning Empirical EBaR Analysis: Risk and Probability Distributions	123
Energy Risk	123
Probability Distribution Fundamentals	124
Extracting Information from Probability Distributions	135
Applying Distributions with Monte Carlo Analysis	137
energybudgetsatrisk.com	138
Summary	138
CHAPTER 8	
EBaR Budget Analysis Implementation—Developing Quantitative Relationships	141
EBaR Analysis Steps	142
Analysis Complexity	142
Budget Variable Identification	145
Budget Variable Analysis	147
Distribution Development	172
Summary	180

Contents **vii**

CHAPTER 9	
EBaR Budget Analysis (EBaR_{budget})	181
Monte Carlo Framework	181
Evaluation and Assessment	182
Summary	187
CHAPTER 10	
EBaR Efficiency Investment Analysis (EBaR_{irr})	189
Solving the Efficiency Investment Problem	189
Case Study: Efficiency Investment Options	190
Representing Investment Analysis Uncertainty	191
Case Study Efficiency Investment Analysis Results	196
Achieving CO ₂ and Other Green Goals	198
Summary	201
CHAPTER 11	
Energy Budgets at Risk in Competitive Markets	203
Competitive Energy Suppliers	203
Pricing/Efficiency Misconceptions in Competitive Markets	204
EBaR Simultaneous Pricing and Efficiency Investment Choice	208
Summary	209
CHAPTER 12	
EBaR Reports: Making the Case for Energy Efficiency Investments	211
EBaR Budget and Investment Analysis	213
Additional Report Information	220
Additional Information on EBaR Applications, Experience, and Reporting	221
Appendix: Benchmarking Your Facility's Energy Use with MAISY Data	223
Notes	289
Index	295
