## Part I: Getting Going 1

**Chapter 1: Introduction to Linux Troubleshooting . . . . . 3**  
    Introducing Fedora Linux . . . . . 4  
        Learning Linux Troubleshooting with Fedora . . . . . 4  
        Finding Opportunities with Fedora . . . . . 5  
    Going with Fedora (Without Going It Alone) . . . . . 9  
        Choosing a Fedora Version . . . . . 9  
        Getting Fedora . . . . . 10  
        Connecting with the Fedora Project . . . . . 11  
        Getting Fedora Documentation . . . . . 11  
        Getting on Fedora Mailing Lists . . . . . 12  
        Getting on Fedora Internet Relay Chat . . . . . 13  
        Getting More Software . . . . . 14  
    Giving Back to Fedora . . . . . 15  
        Finding Bugs and Filing Reports . . . . . 15  
        Joining Fedora Projects . . . . . 16  
    Moving to Fedora Core 2 . . . . . 17  
    Summary . . . . . 18

**Chapter 2: Troubleshooting Installation . . . . . 19**  
    Understanding Installation . . . . . 19  
    Choosing Hardware . . . . . 23  
        Random Access Memory (RAM) . . . . . 23  
        Installation Media (CD-ROM) . . . . . 24  
        Video Cards . . . . . 25  
        Laptop Problems . . . . . 27  
        If All Else Fails... . . . . 27  
    Overcoming Installation Problems . . . . . 27  
        Failing to Start the Install Process . . . . . 28  
        From the Boot Prompt . . . . . 29  
        Partitioning Problems . . . . . 33  
    General Installation Troubleshooting Tips . . . . . 34  
    Getting Linux to Boot After Installation . . . . . 35  
        Adding Kernel Options After Installation . . . . . 35  
        Entering Rescue Mode . . . . . 36  
    Installation Troubleshooting Reference . . . . . 37  
    Summary . . . . . 37

**xviii** Contents

**Chapter 3: Updating and Upgrading Fedora . . . . . 39**

- Keeping Fedora Core Up to Date . . . . . 39
  - Using Automated Updates . . . . . 40
  - Manual Updates . . . . . 46
  - Source Updates . . . . . 51
  - Troubleshooting Update Problems . . . . . 51
- Upgrading to Fedora Core . . . . . 51
- Troubleshooting Upgrade Problems . . . . . 58
  - Updating a Ximian Desktop . . . . . 58
  - Checking Third-Party Updates . . . . . 59
  - Breaking Graphics Drivers . . . . . 59
- How to Keep Your Current Red Hat Linux Systems Running . . . . . 59
  - Fedora Legacy . . . . . 60
  - Progeny Linux Systems . . . . . 60
- Summary . . . . . 61

**Part II: Preventing Problems 63**

**Chapter 4: Securing and Automating Desktop and Server Installs . . . . . 65**

- A Kickstart Overview . . . . . 65
- Starting Your Kickstart Templates . . . . . 66
  - Looking Inside Your ks.cfg File . . . . . 66
  - Network Enabling the ks.cfg File . . . . . 70
  - Using the Red Hat Kickstart Configuration Tool . . . . . 71
  - Saving Your ks files . . . . . 73
- Locking Down Desktops and Servers . . . . . 73
  - Identifying Your Enterprise Desktop Needs . . . . . 73
  - Identifying Your Enterprise Server Needs . . . . . 74
  - Locking Down Your Template Installs . . . . . 74
  - The Final %postscript . . . . . 80
- Creating a Kickstart Provisioning Server . . . . . 82
- Centralizing and Standardizing Your Kickstart Files . . . . . 83
- Creating Your Kickstart Provisioning Boot Media . . . . . 85
  - Finding Red Hat Boot Images . . . . . 85
  - Considering Network Install Options . . . . . 87
  - Creating Customized Boot Floppies . . . . . 88
  - Making a Network Install Boot CD . . . . . 90
  - More Floppy and CD Customization Information . . . . . 94
- Testing Your New Kickstart Media . . . . . 94
  - Floppy Installs . . . . . 94
  - CD Installs . . . . . 95
- Troubleshooting Common Kickstart Problems . . . . . 96
- Kickstart Troubleshooting References . . . . . 98
- Summary . . . . . 98

**Chapter 5: Preparing for Backups and Migration . . . . . 99**

- Backup Types . . . . . 99
  - Types of Backups . . . . . 100

Which Backup Strategy Should You Use? . . . . .	103
The Classic Elegance of Level-Based Backups . . . . .	103
The Power of TOH . . . . .	104
Backup Media Types and Hardware . . . . .	106
Other Backup Hardware Tips . . . . .	110
Backup Strategies . . . . .	112
What to Back Up? . . . . .	112
Backing Up the Entire Operating System . . . . .	113
Other Important System Config Files . . . . .	114
Backing Up Databases . . . . .	115
Setting Up Tape Drive Devices . . . . .	116
Shutting Off Services . . . . .	117
Backup Tools and How to Use Them . . . . .	118
Tar or Star . . . . .	119
Dump/Restore . . . . .	119
Amanda Client/Server . . . . .	120
Other Useful Tools . . . . .	121
Backup Examples . . . . .	122
Using Tar Locally . . . . .	122
Scripting Tar with Runlevel 4 . . . . .	122
Using Tar Remotely . . . . .	124
Using Dump . . . . .	125
Using Dump Remotely . . . . .	129
Testing and Doing Restores . . . . .	129
Restoring from Tar . . . . .	130
Restoring from Dump . . . . .	130
Restoring MySQL Databases . . . . .	132
Server Migrations . . . . .	133
Disk-to-Disk Magic . . . . .	133
Software Issues . . . . .	133
Web/Apache Gotchas . . . . .	135
Security . . . . .	135
Backup-Related Resources . . . . .	136
Summary . . . . .	136

**Part III: Troubleshooting Basic Features 137**

**Chapter 6: Troubleshooting Tools . . . . . 139**

Getting Around with the Shell . . . . .	139
Using Fancy Shell Tricks . . . . .	140
Obtaining Root Privilege . . . . .	151
Getting Root Access from the Shell . . . . .	151
Getting Root Access from the GUI . . . . .	153
Examining System Processes . . . . .	153
Tracking Processes with Top . . . . .	154
Tracing down Failed Commands with strace . . . . .	156
Going into Rescue Mode . . . . .	157
Detecting and Configuring Hardware . . . . .	159
Using Kudzu to Detect Hardware . . . . .	159
Configuring Hardware Modules . . . . .	159

**XX** Contents

Using Network Troubleshooting Tools . . . . .	162
Remote Login and Execution with ssh . . . . .	163
Monitoring the LAN with Ethereal . . . . .	164
Keeping a Session Active with Screen . . . . .	165
Trying Network Troubleshooting Basics . . . . .	165
Summary . . . . .	166
<b>Chapter 7: X Troubleshooting: Video, Mouse, and Keyboard . . . . .</b>	<b>169</b>
Beginning with X (Video, Mouse, and Keyboard) . . . . .	169
Configuring Video, Mouse, and Keyboard . . . . .	170
Configuring Video, Keyboard, Mouse during Installation . . . . .	171
Configuring Video Card after Installation . . . . .	172
Configuring the Keyboard after Installation . . . . .	173
Configuring the Mouse after Installation . . . . .	173
Digging into the X Server and XF86Config File . . . . .	174
Understanding the X Server . . . . .	174
Understanding the XF86Config File . . . . .	175
Setting and Tuning Your Video Driver . . . . .	179
Determining Your Video Card Driver . . . . .	180
Tuning and Testing Your Video Card . . . . .	182
Refining Video Settings with xvidtune . . . . .	184
Video Troubleshooting Tips . . . . .	185
Tips for Getting DRI to Work . . . . .	186
Tips for Particular Video Cards (Chipsets) . . . . .	186
Tips to Fix Video Crashes . . . . .	188
Mouse Troubleshooting Tips . . . . .	188
Video Troubleshooting Reference . . . . .	189
Summary . . . . .	190
<b>Chapter 8: Software Package Troubleshooting . . . . .</b>	<b>191</b>
Introduction to RPM . . . . .	191
Installing, Upgrading, and Deleting Packages . . . . .	192
Checking Software Packages . . . . .	193
Checking Software Package Signatures . . . . .	194
Checking Software Package Dependencies . . . . .	197
Cross-Checking Software Package Contents . . . . .	200
Checking Software Package Scripts . . . . .	201
Querying Software Packages . . . . .	202
Querying Local or Remote Packages . . . . .	203
Querying Individual Packages . . . . .	203
Querying Multiple Packages . . . . .	205
Verifying Software Packages . . . . .	206
Repairing a Broken RPM Database . . . . .	207
Troubleshooting Software Package Tips . . . . .	207
Software Package Troubleshooting Reference . . . . .	208
Summary . . . . .	209
<b>Chapter 9: File System, Disk, and Power Troubleshooting . . . . .</b>	<b>211</b>
Starting with Linux File Systems . . . . .	211

Checking Partitions and File Systems . . . . .	212
Troubleshooting Partitions and File Systems . . . . .	215
Checking and Tuning Your Hard Disk . . . . .	221
Getting Information about Your Disk . . . . .	221
Changing Hard Disk Settings . . . . .	224
Making hdparm Changes Permanent . . . . .	232
Managing Power Settings for Laptops . . . . .	232
Managing Power with APM . . . . .	233
Managing Power with ACPI . . . . .	235
Changing Power Settings with hdparm . . . . .	235
Disk, File System, and Power Troubleshooting References . . . . .	236
Summary . . . . .	237

**Part IV: Troubleshooting the Network 239**

**Chapter 10: Detecting and Responding to Intrusions 241**

Intrusion Detection and Response: An Overview . . . . .	241
Intrusion Detection Tools . . . . .	242
Red Hat Package Manager . . . . .	242
File System Tools . . . . .	243
Watching Your System . . . . .	243
Third-Party Tools . . . . .	244
Verifying Your Files with RPM . . . . .	245
Using RPM for Maintenance . . . . .	245
Using RPM to Check Security . . . . .	247
Creating a Security Baseline . . . . .	249
Making an RPM Baseline . . . . .	249
Adding chkrootkit Scans . . . . .	251
Automating System Scanning and Notification . . . . .	252
A Simple Scanning Script . . . . .	253
Running the Script . . . . .	255
Automating the Script . . . . .	257
Intrusion Troubleshooting . . . . .	258
I think I've Been Cracked! . . . . .	258
What Should I Do if I've Been Compromised? . . . . .	259
My ISP Is Threatening Me . . . . .	260
I Thought I Was Covered! What Happened? . . . . .	261
Intrusion Detection Resources . . . . .	262
Summary . . . . .	263

**Chapter 11: Firewall Troubleshooting 265**

Firewall Theory . . . . .	266
Ports and the IP Stack . . . . .	266
Port Assignments . . . . .	267
TCP/IP Packet Structures . . . . .	267
Firewalls in Action . . . . .	269
Full Firewall or Trusted Access Control? . . . . .	270

**xxii** Contents

Linux Firewall Mechanisms . . . . . 272  
    TCP Wrappers . . . . . 273  
    iptables . . . . . 274  
TCP Wrappers: Securing Local Services . . . . . 275  
    The host\_access Files . . . . . 277  
    TCP Wrappers Troubleshooting Tips . . . . . 280  
iptables and the Single Server . . . . . 281  
    iptables Configuration Tools . . . . . 282  
    Configuring a Stand-Alone Server . . . . . 283  
    Hands-on Testing with iptables Rules . . . . . 288  
iptables and Network Firewalls . . . . . 293  
    Building Firewall Rules . . . . . 295  
    Apply Security Settings . . . . . 298  
    The Final Configuration . . . . . 300  
Graphical Firewall Tools . . . . . 302  
    Firewall Distributions . . . . . 302  
    Firewall Tools . . . . . 302  
Troubleshooting iptables . . . . . 304  
    Enabling Packet Forwarding . . . . . 304  
    SSH Access Denied . . . . . 304  
    Conflict with ipchains . . . . . 305  
    Denied Access Persists . . . . . 306  
Firewall Resources . . . . . 307  
Summary . . . . . 309

**Chapter 12: Troubleshooting BIND9 and DNS . . . . . 311**

DNS History and Theory . . . . . 311  
    DNS Structure . . . . . 312  
    Master and Slave DNS Servers . . . . . 313  
    DNS Caching . . . . . 314  
Configuring a Master DNS Server . . . . . 315  
    BIND9 Directory Structure . . . . . 316  
    /etc/named.conf . . . . . 316  
    The localhost Zone File . . . . . 320  
    Name Service Tools . . . . . 321  
    Creating Your Own Zone Files . . . . . 324  
    Defining Reverse Lookups . . . . . 326  
    Set-Up Tips . . . . . 328  
Slave BIND9 DNS Servers . . . . . 328  
    Configuring the Slave Server . . . . . 329  
    Zone Refresh Settings . . . . . 330  
BIND9 Security . . . . . 331  
    Lock Down Your Name Servers . . . . . 331  
    Running BIND9 in chroot Mode . . . . . 332  
Troubleshooting BIND9 and DNS Issues . . . . . 334  
    The Slave Name Server Is Not Updating Itself . . . . . 335  
    Using whois Effectively . . . . . 336  
    A New Alias or Address Record Won't Load . . . . . 337  
    Automated DNS Zone File Troubleshooting . . . . . 338  
    Troubleshooting Tools . . . . . 338

DNS and BIND Resources . . . . .	338
Summary . . . . .	339
<b>Chapter 13: Modem Troubleshooting . . . . .</b>	<b>341</b>
Choosing a Modem . . . . .	342
Using PCI Modems . . . . .	342
Using USB Modems . . . . .	346
Using Serial Modems . . . . .	347
Probing and Trying Your Modem . . . . .	347
Setting Up Your Modem through the GUI . . . . .	349
Setting Up Your Modem with minicom . . . . .	350
Starting minicom . . . . .	351
Displaying and Changing Modem Settings . . . . .	352
Making Modem Settings Permanent . . . . .	354
Modem Troubleshooting Tips . . . . .	354
Finding Modem Troubleshooting Resources . . . . .	355
Summary . . . . .	356

**Part V: Troubleshooting Internal Services 357**

<b>Chapter 14: Printer Troubleshooting . . . . .</b>	<b>359</b>
CUPS: The Common UNIX Printing System . . . . .	359
Getting the Right Printer . . . . .	362
Understanding Page Description Languages . . . . .	362
Finding Details on Print Drivers . . . . .	363
Where to Get Help Choosing a Printer . . . . .	363
Setting Up a Printer under Fedora Core . . . . .	364
Setting Up a Printer during Installation . . . . .	364
Using Red Hat's Printer Configuration Tool . . . . .	365
Adding a Printer Using the CUPS Web Configuration Tool . . . . .	368
Sharing a Printer under Fedora Core . . . . .	371
Going Beyond Setup . . . . .	373
Troubleshooting the Basic Printer Setup . . . . .	374
Troubleshooting Remote Printer Access . . . . .	375
Tuning Up Your Printer . . . . .	377
Top Troubleshooting Tips . . . . .	379
Printing Clients Expect LPD and not CUPS . . . . .	379
Printer Breaks Down with Jobs in the Queue . . . . .	379
One Guy is Hogging the Printer . . . . .	379
Nobody Can Print Outside the Local LAN . . . . .	379
No-GUI Printer Administration . . . . .	380
Adding a Printer with lpadmin . . . . .	382
Printer Resources . . . . .	382
Summary . . . . .	384
<b>Chapter 15: Samba Troubleshooting . . . . .</b>	<b>385</b>
Understanding Samba . . . . .	385
Samba Users . . . . .	386
Samba Shares . . . . .	387

**xxiv** Contents

Basic Samba Setup . . . . .	387
Samba Configuration Tool . . . . .	388
Command-Line Configuration . . . . .	388
SWAT . . . . .	390
Configuration Resources . . . . .	393
Using Samba . . . . .	394
See Who Is Connected . . . . .	394
Check an IP Address . . . . .	395
Check Available Shares . . . . .	395
Samba Troubleshooting Tips . . . . .	396
Preventing Outside Access to Samba . . . . .	396
Troubleshooting Security Modes . . . . .	397
Troubleshooting [homes] Directory Sharing . . . . .	399
Troubleshooting Printer Sharing . . . . .	399
Name Service Problems in Samba . . . . .	400
No Server Access . . . . .	401
Performance Problems . . . . .	402
Troubleshooting File Permission Problems . . . . .	402
Samba Resources . . . . .	403
Summary . . . . .	405

**Chapter 16: NFS Troubleshooting . . . . . 407**

Configuring NFS . . . . .	407
The NFS Server . . . . .	408
The NFS Client . . . . .	410
NFS User Permissions . . . . .	412
Troubleshooting NFS . . . . .	414
Export Failures . . . . .	414
Unmount Failure . . . . .	415
Mount Failures . . . . .	416
File and Directory Permissions . . . . .	417
Performance Is Slow . . . . .	417
Unexpected NFS Behavior . . . . .	418
Monitoring NFS Behavior . . . . .	419
NFS Troubleshooting References . . . . .	422
Summary . . . . .	422

**Part VI: Troubleshooting External Services 425**

**Chapter 17: Web Server Troubleshooting . . . . . 427**

Apache 2.0: An Overview . . . . .	427
UNIX Threading . . . . .	427
New Build System . . . . .	428
Multiprotocol Support . . . . .	428
Better Support for Non-UNIX Platforms . . . . .	428
New Apache API . . . . .	428
IPv6 Support . . . . .	428
Filtering . . . . .	429
Multilanguage Error Responses . . . . .	429
Simplified Configuration . . . . .	429

Separate Configuration Files for Apache Applications . . . . .	429
Updated Regular Expression Library . . . . .	429
Apache Configuration . . . . .	430
Configuration Files . . . . .	430
Log Files . . . . .	430
Other Files . . . . .	431
httpd.conf . . . . .	431
Common Apache Usage . . . . .	437
Migrating from Apache 1.x to 2.0 . . . . .	439
Apache 2.0 Tips and Tricks . . . . .	440
Testing the Configuration File . . . . .	440
Controlling User Access . . . . .	440
Restarting versus Reloading Apache . . . . .	442
Listing Virtual Host Settings . . . . .	443
Listing Apache Compile-Time Options . . . . .	443
Defining Web Directory Permissions . . . . .	444
Tweaking Apache for Higher Loads . . . . .	448
Server Loads and Hardware Requirements . . . . .	449
Benchmarking . . . . .	450
Using server-status to track performance . . . . .	452
Apache Troubleshooting . . . . .	452
Apache Resources . . . . .	453
Summary . . . . .	454

**Chapter 18: File Transfer Troubleshooting . . . . . 455**

Which File Transfer Method To Use? . . . . .	455
FTP . . . . .	455
scp and sftp . . . . .	456
WebDAV . . . . .	457
Configuring and Using FTP . . . . .	457
Restricting Access to FTP . . . . .	459
Configuring Environmental Variables . . . . .	460
Passive FTP . . . . .	461
Configuring and Using scp and sftp . . . . .	462
OpenSSH and Fedora Core . . . . .	463
Using SCP . . . . .	467
User Clients . . . . .	472
SSH and Firewalls . . . . .	473
Configuring and Using WebDAV . . . . .	474
Defining a WebDAV Share . . . . .	475
Securing WebDAV with SSL . . . . .	478
Other File Transfer Solutions . . . . .	479
Network-Based tar Backups . . . . .	479
Keeping Multiple Servers in Sync . . . . .	480
File Transfer Troubleshooting . . . . .	482
File Transfer Resources . . . . .	483
Summary . . . . .	484

**Chapter 19: E-Mail Server Troubleshooting . . . . . 485**

Switching between MTAs with the alternatives System . . . . .	486
Understanding the alternatives System . . . . .	486

**xxvi** Contents

Using the alternatives System . . . . .	488
Using GUI Configuration Tools for alternatives . . . . .	491
Sendmail Configuration . . . . .	493
/etc/mail/virtusertable . . . . .	496
/etc/aliases . . . . .	498
Sendmail Tips and Tricks . . . . .	499
Redirecting System Mail . . . . .	499
What Are My Sendmail Settings? . . . . .	499
Securing User .forward Files . . . . .	500
Looking at the Outgoing Mail Queue . . . . .	500
Changing Sendmail Options . . . . .	500
Diagnosing Sendmail Problems . . . . .	503
Using Log Files to Diagnose Problems . . . . .	503
Diagnosing MTA Problems Using Telnet . . . . .	505
Sendmail Troubleshooting . . . . .	506
Not Receiving Expected E-mail Volume . . . . .	506
Sendmail Not Accepting Connections . . . . .	506
E-mail Address Not Deliverable . . . . .	506
Trouble in the Queue . . . . .	507
POP3 Not Running . . . . .	507
Top Sendmail Problems (and Solutions) . . . . .	509
Blacklisted IP Address . . . . .	509
Mail Server Misconfiguration . . . . .	510
Mail Bounces due to Dynamic IP Configuration . . . . .	511
PostFix Overview . . . . .	511
PostFix versus Sendmail . . . . .	512
Configuring PostFix . . . . .	513
Sendmail and PostFix Resources . . . . .	517
Summary . . . . .	518
<b>Appendix A : Fedora Software Repositories . . . . .</b>	<b>521</b>
<b>Appendix B : Troubleshooting SUSE Linux . . . . .</b>	<b>523</b>
<b>Appendix C : Troubleshooting Debian GNU/Linux . . . . .</b>	<b>545</b>
Index . . . . .	575
