Introduction	1	Technique 15: Exploring Effectively	136
Part I: Making Windows Work Faster	7	Technique 16: Finding the Files You Want Fast	149
Technique 1: Experiencing the Windows Experience Index	9	Technique 17: Listing Files Quickly	169
Technique 2: Tracking Performance and Reliability	19	Part IV: Making the Most of the Internet	177
Technique 3: Keeping Programs from Starting Automatically	30	Technique 18: Customizing Internet Explorer and Firefox	179
Technique 4: Getting Your Drives Up to Speed	40	Technique 19: Saving Time with Google	203
Technique 5: Making the Screen Run Faster	49	Technique 20: Downloading from the Newsgroups	211
Technique 6: Scheduling a Nightly Reboot	55	Technique 21: Instant Messaging with Microsoft and Trillian	221
Part II: Convincing Windows to Work Your Way	61	Technique 22: Using Windows Live Mail Desktop — Or Not	237
Technique 7: Streamlining the Start Menu	63	Technique 23: Zapping Junk Mail	247
Technique 8: Building a Power Desktop	76	Technique 24: Surfing Anonymously	256
Technique 9: Tricking Out the Taskbar	90	Part V: Cranking Up Your Audio	265
Technique 10: Using Built-In KeyboardShortcuts	98	Technique 25: Fighting for Your Musical Rights	267
Technique 11: Making Your Own Keyboard Shortcuts	103	Technique 26: Using Windows Media Player	272
Part III: Packing Programs and Files	115	Technique 27: No-Nonsense Music Gathering	282
Technique 12: Launching Your Most-Used Programs Quickly	117	Technique 28: Creating Your Own Music CDs and DVDs	289
Technique 13: Making Programs Run Your Way	123	Technique 29: Picking Up Podcasts	294
Technique 14: Removing and Reinstalling Programs	129	Technique 30: Transferring Music to iPods and MP3 Players	299
		Technique 31: Getting Music Off Your iPod	304

Part VI: Having Fun and Saving Time with Visual Media	311	Part IX: Keeping Your PC Alive	439
Technique 32: Organizing the Photo Gallery	313	Technique 49: Running Disk Chores While You Sleep	441
Technique 33: Touching Up Photos Quickly	318	Technique 50: Running Periodic Maintenance	449
Technique 34: Managing Pictures from a Digital Camera	324	Technique 51: Requesting Remote Assistance	456
Technique 35: Editing Your Home Movies	331	Technique 52: Getting Help Fast	462
Technique 36: Doing More with Your Pics and Videos	339	Part X: Fast (Nearly Painless) Disaster Recovery	469
Technique 37: Posting Pics on Flickr and MySpace	351	Technique 53: Making Backups — Fast	471
Part VII: Networking at the Speed of Light	357	Technique 54: Restoring Your System after Calamitous Change	478
Technique 38: Installing a Small Network	359	Technique 55: Recovering a Lost Password	486
Technique 39: Securing Your Wireless Network	370	Part XI: The Scary (Or Fun!) Stuff	491
Technique 40: Adding and Configuring a New User	376	Technique 56: Changing the Registry without Getting Burned	493
Technique 41: Sharing Drives and Folders	384	Technique 57: Making Screen Shots with the Snipping Tool	502
Technique 42: Meeting with Meeting Space	389	Technique 58: Fast, Easy, and Safe Online Shopping	509
Technique 43: Controlling Your PC from Afar with LogMeIn	394	Technique 59: Create Your Own Desktop Theme	517
Part VIII: Fast Security Techniques	399	Technique 60: Saving Time (And Your Eyes) On-Screen	522
Technique 44: Updating Vista Cautiously	401	Technique 61: Top Ten Tiny Timesaving Tweaks	529
Technique 45: Protecting Your PC from Viruses	408	Technique 62: Top Ten Tiny Timesaving Tips	535
Technique 46: Plugging and Unplugging Windows Firewall	419	Index	541
Technique 47: Zapping Scumware	429		
Technique 48: Checking Your Security Perimeter	435		

Table Of Contents

Introduction 1

About This Book	1
Foolish Assumptions	2
What's in This Book	2
<i>Part I: Making Windows Work Faster</i>	3
<i>Part II: Convincing Windows to Work Your Way</i>	3
<i>Part III: Packing Programs and Files</i>	3
<i>Part IV: Making the Most of the Internet</i>	3
<i>Part V: Cranking Up Your Audio</i>	3
<i>Part VI: Having Fun and Saving Time with Visual Media</i>	3
<i>Part VII: Networking at the Speed of Light</i>	3
<i>Part VIII: Fast Security Techniques</i>	3
<i>Part IX: Keeping Your PC Alive</i>	4
<i>Part X: Fast (Nearly Painless) Disaster Recovery</i>	4
<i>Part XI: The Scary (Or Fun!) Stuff</i>	4
Conventions Used in This Book	4
Icons Used in This Book	4
Where to Go from Here	5

Part I: Making Windows Work Faster 7

Technique 1: Experiencing the Windows Experience Index 9

Problems with Performance Benchmarks	10
Analyzing Benchmarks	10
Calculating the WEI	11
<i>Maxing out the WEI</i>	12
<i>Breaking down components</i>	12
<i>Assembling a base score</i>	14
Analyzing the WEI	14
Digging Deeper	16
The Most Important Benchmark Score	18

Technique 2: Tracking Performance and Reliability 19

Watching for Redliners	19
<i>Trolling the Task Manager</i>	20
<i>Bringing up the CPU Meter</i>	21
<i>Starting with the Task Manager</i>	21
<i>Interpreting the CPU monitors</i>	22
Monitoring Resources	23

Monitoring Performance Your Way	25
Reading the Reliability Report	26
Generating a System Health Report	27
Slogging through the Event Log	28

Technique 3: Keeping Programs from Starting Automatically 30

Recognizing That You Have a Problem	30
Finding and Eliminating Auto-Starting Programs	31
<i>Understanding where auto-starting programs hook into your computer</i>	32
<i>Detecting and deleting auto-starters</i>	33
Getting the Junk out of Internet Explorer and Firefox	36
<i>Escaping the endless add-on cycle</i>	36
<i>Removing rogue toolbars in Internet Explorer</i>	38
<i>Removing rogue toolbars in Firefox</i>	38
Preventing New Auto-Starters	39

Technique 4: Getting Your Drives Up to Speed 40

Cleaning and Defragging Your Hard Drive	40
<i>Understanding fragmentation</i>	40
<i>Cleaning unnecessary files</i>	41
<i>Running a manual defrag</i>	43
<i>Defragmenting — the advanced course</i>	43
Expanding Paging Volumes	45
Changing Partitions on the Fly	46
What about Drive Accelerators?	47

Technique 5: Making the Screen Run Faster 49

Understanding Aero Glass	49
<i>Running Aero</i>	49
<i>Superimposing Glass</i>	52
Tweaking the Display for Speed	53
Reclaiming Automatically Zapped Visual Elements	54

Technique 6: Scheduling a Nightly Reboot 55

Hibernating with a Hot Key	55
Using Other Shutdown Switches	57
Restarting Overnight	57

Part II: Convincing Windows to Work Your Way

Technique 7: Streamlining the Start Menu 63

Navigating the Start Menu	64
Pinning and Unpinning	64
<i>Unpinning your Web browser and e-mail program from the Start menu</i>	64
<i>Pinning what you like to the Start menu</i>	65
Reining In the All Programs Submenu	67
<i>Where All Programs comes from</i>	67
<i>Rearranging the All Programs submenu</i>	69
Cascading to Save Time	72
<i>Introducing the options</i>	72
<i>Choosing the options you want</i>	73

Technique 8: Building a Power Desktop 76

Desktop Brevity: The Soul of Wit	77
<i>Adding key icons</i>	77
<i>Cleaning up old icons</i>	78
<i>Aligning icons</i>	80
<i>Moving icons so you have more room on the desktop</i>	81
<i>Getting the most from the Sidebar</i>	82
Generating One-Click E-Mail	82
<i>Setting up the e-mail</i>	82
<i>Improving one-click e-mail</i>	83
Opening Multiple Documents at Once	85
Arranging Multiple Windows Side by Side	88
Shooting a Picture of Your Desktop	88

Technique 9: Tricking Out the Taskbar 90

Customizing the Taskbar	90
<i>Making the taskbar taller</i>	90
<i>Changing taskbar settings in one fell swoop</i>	91
<i>Grouping Windows</i>	93
Blitzing the Address Bar	95
Navigating from the Taskbar	97

Technique 10: Using Built-In Keyboard Shortcuts 98

Shortcuts Everybody Needs	99
Important Windows Key Combinations	100

A Grab Bag of Application Shortcuts	101
Odds 'n' (Sometimes Useful) Ends	102

Technique 11: Making Your Own Keyboard Shortcuts 103

Putting Custom Hot Keys to Work for You	103
Knowing What You Can't Do with Hot Keys	104
Creating and Organizing Hot Keys	104
<i>Starting a program with a hot key</i>	105
<i>Opening a folder with a hot key</i>	106
<i>Surfing to a Web site with a hot key</i>	107
<i>Sending e-mail with a hot key</i>	108
<i>Opening a file with a hot key</i>	111
<i>Running presentations with a hot key</i>	112
<i>Undoing hot keys</i>	113
Using ActiveWords for Expanded Hot Keys	114

Part III: Packing Programs and Files 115

Technique 12: Launching Your Most-Used Programs Quickly 117

Using the Quick Launch Toolbar	117
Making the Quick Launch Toolbar Appear	118
Adding Programs to the Quick Launch Toolbar	118
Making Room for More Programs on the Quick Launch Toolbar	118
Changing Quick Launch Screen Tips	119
Opening Documents Quickly	121
Opening Web Pages Quickly	121
Adding a Blank E-Mail Message to the Quick Launch Toolbar	121

Technique 13: Making Programs Run Your Way 123

Running a Program When Windows Starts	123
Allowing Other Users to Run Your Programs	125
Bringing Back Word's Last Document	126

Technique 14: Removing and Reinstalling Programs 129

Removing Programs Thoroughly	129
Cleaning Up before a Reinstall	131
Adding Windows Components	132

Removing Windows Patches	133		
Using Non-Microsoft Replacements	134		
Technique 15: Exploring Effectively	136		
Making Windows Show Filename Extensions	136		
Customizing Explorer for Speed	138		
<i>Seeing all your files and folders</i>	138		
<i>Seeing pathnames in Explorer</i>	139		
Choosing the Right View	140		
<i>Working with Details view</i>	141		
<i>Sorting files by group</i>	143		
Setting Folders' Behaviors	143		
Copying Files Quickly	145		
Changing Filename Associations	146		
Renaming Files En Masse	147		
Technique 16: Finding the Files You Want Fast	149		
The Cardinal Rule of Searching	150		
Building an Index	150		
<i>Setting index file type options</i>	151		
<i>Adding locations to the index</i>	152		
<i>Rebuilding or moving the index</i>	154		
Engaging Your Brain Before the Search	156		
Searching from the Start	156		
Searching Simply	158		
<i>Modifying a simple search</i>	159		
<i>Searching with OR and AND</i>	160		
<i>Changing Simple Search parameters</i>	161		
Searching Advanced	163		
Saving and Reusing Searches	165		
Finding Files That Got Lost	166		
<i>First, don't panic</i>	167		
<i>Second, get determined</i>	167		
Technique 17: Listing Files Quickly	169		
Showing Directory Listings	170		
<i>Writing a program to show directory listings</i>	170		
<i>Adding the program to the right-click menu</i>	172		
Embellishing the File Listings	173		
<i>Listing files by filename extension</i>	173		
<i>Printing a file list automatically</i>	175		
		Part IV: Making the Most of the Internet	177
		Technique 18: Customizing Internet Explorer and Firefox	179
		Using IE and Firefox Together	179
		Hardening Internet Explorer	180
		Tweaking Firefox	184
		<i>Getting used to tabs</i>	184
		<i>Put the Close button on the active tab</i>	185
		<i>Squeeze more tabs on the screen</i>	186
		Speeding Up Your Browser	186
		<i>Choosing a fast home page</i>	187
		<i>Showing placeholder pictures</i>	188
		<i>Bumping up the cache</i>	189
		Speeding Up Yourself	191
		<i>Feeding on RSS</i>	192
		<i>Using important shortcuts</i>	195
		<i>Unhijacking the Back button</i>	196
		<i>Creating custom shortcuts from the Address bar</i>	197
		Keeping Your Browser Under Control	197
		<i>Removing "saved" passwords and usernames</i>	197
		<i>Checking for add-ons and parasites</i>	199
		Choosing Antiphishing Technology	199
		<i>The Internet Explorer approach</i>	200
		<i>The Firefox approach(es)</i>	201
		<i>Comparing the two</i>	202
		Technique 19: Saving Time with Google	203
		Using Google Effectively	203
		<i>Saving time with search terms</i>	204
		<i>Using Advanced Search</i>	206
		Posting on the Newsgroups	206
		Finding Images, News, and More	208
		Refining Browser Choices	208
		Technique 20: Downloading from the Newsgroups	211
		Understanding Newsgroups	211
		<i>Working with newsgroup limitations</i>	212
		<i>Spreading messages around</i>	212
		<i>Legally speaking</i>	213

Using Newsgroups	213	Fighting Back	253
<i>Breaking up and posting files</i>	214	<i>Taking spam action</i>	254
<i>Assembling files</i>	215	<i>Biting the phishers</i>	254
<i>Connecting to a news server</i>	215	<i>Don't add to the problem</i>	255
<i>Setting up a good news reader</i>	216		
Technique 21: Instant Messaging with Microsoft and Trillian	221	Technique 24: Surfing Anonymously	256
Saving or Shooting the Messenger?	221	Understanding Anonymous Surfing	257
Choosing a Messenger	222	Using Anonymous Sites and Toolbars	258
Using Windows Live Messenger	223	Hooking into Anonymous Proxy Servers	259
<i>Messaging in a Microsoft World</i>	223	Routing the Onion Way	261
<i>Installing WLM</i>	224		
<i>Getting the skinny on user IDs</i>	225	Part V: Cranking Up Your Audio	265
<i>Setting up your Messenger account</i>	226	Technique 25: Fighting for Your Musical Rights	267
<i>Adding contacts</i>	229	What's Going On Here?	267
<i>Making contact</i>	231	What You Need to Know about CRAP	268
<i>Using the fancier features</i>	232	Comparing Music Formats	268
Using Trillian	232	Making Your Own MP3s	269
<i>Weighing Trillian against the competition</i>	233	Sorting through the Stores	270
<i>Installing Trillian</i>	233		
<i>Using Trillian</i>	233	Technique 26: Using Windows Media Player	272
Technique 22: Using Windows Live Mail Desktop — Or Not	237	Getting the Right Media Player	272
Counting Microsoft's E-Mail Programs	237	Running WMP for the First Time	273
Choosing an E-Mail Program	238	Making Media Player Improvements	276
Starting Windows Live Mail Desktop	239	Running WMP	278
Mauling Windows Mail	242	Controlling WMP from the Keyboard	279
<i>Arranging Your Windows Mail desktop</i>	242	Working with Codecs	279
<i>Making Windows Mail wait to send and receive</i>	243		
<i>Dealing with read receipts</i>	244	Technique 27: No-Nonsense Music Gathering	282
<i>Using signatures the smart way</i>	244	Adding Music to the Media Library	282
<i>Dealing with e-mail attachment security</i>	245	Ripping CDs You Own	284
Technique 23: Zapping Junk Mail	247	<i>Ripping ethics</i>	284
Understanding Spam	247	<i>Choosing a file format and sampling rate</i>	285
Phishing Phor Phun and Prophit	250	Ripping from A to Z	286
Avoiding Spammesters and Phishers	251	Looking for Music in All the Right Places	288
Lurking in Web Beacons	251		
Crawling and Trawling	253	Technique 28: Creating Your Own Music CDs and DVDs	289
Unsubscribing — Not!	253	Choosing the Type of CD/DVD to Burn	290
		Picking Songs and Burning the CD	291

Technique 29: Picking Up Podcasts	294	Adding Titles and Credits	336
Understanding Podcasts	294	Saving the Movie	337
Finding Worthwhile Podcasts	295		
Rolling Your Own Podcast Quickly	297		
Technique 30: Transferring Music to iPods and MP3 Players	299	Technique 36: Doing More with Your Pics and Videos	339
Choosing an MP3 Player	299	Putting Your Pic on the Desktop	340
Copying Files to an MP3 Player	301	Using Your Pictures and Videos for a Screen Saver Slide Show	341
Technique 31: Getting Music Off Your iPod	304	Burning Pictures on a CD	342
Disabling the iPod's Automatic Sync Feature	304	Burning a Slide Show on a CD	343
Copying iPod Music to Your PC	306	Recovering Deleted Pictures from Your Camera	345
Restoring Missing Information	307	Decreasing Picture Download Times	347
		<i>Understanding digital pic file sizes</i>	347
		<i>Changing the resolution of pictures</i>	348
Part VI: Having Fun and Saving Time with Visual Media	311	Technique 37: Posting Pics on Flickr and MySpace	351
Technique 32: Organizing the Photo Gallery	313	Sharing with Flickr	351
Coping with Photo Gallery Limitations	313	Gabbing in MySpace	355
Futzing with the Photo Gallery	314	Going for the Yahoo! Groups	356
Scanning into the Gallery	316		
Technique 33: Touching Up Photos Quickly	318	Part VII: Networking at the Speed of Light	357
Changing Pics	318	Technique 38: Installing a Small Network	359
Bringing Back the Old Version	321	Putting the Pieces Together	360
Technique 34: Managing Pictures from a Digital Camera	324	<i>Choosing the right hardware</i>	360
Transferring Pictures to Your PC Automatically	325	<i>Pulling cable through your office or house</i>	361
Using a Camera's Memory Card as a Storage Device on Your PC	329	<i>Locating the hardware</i>	361
Technique 35: Editing Your Home Movies	331	Preparing for Vista Networking	362
Understanding the Limitations of WMM	331	Cranking Up Vista Networking	362
Importing and Combining Clips	332	Checking the Pieces	365
Trimming Clips	334	Understanding Addresses	366
Using Transitions and Effects	334	<i>IP addresses on the Internet</i>	366
		<i>IP addresses on your local network</i>	367
		<i>Assigning local IP addresses</i>	367
		Technique 39: Securing Your Wireless Network	370
		Running the Wireless Router Setup Wizard	371
		Propagating Changes	374

Technique 40: Adding and Configuring a New User	376	Technique 46: Plugging and Unplugging Windows Firewall	419
Grasping User Accounts	376	Understanding Firewalls	420
<i>Recognizing account types</i>	377	Coping with Windows Firewall	421
<i>Working with account types</i>	378	<i>Checking out the inbound firewall</i>	422
<i>Increasing security with passwords</i>	379	<i>Watching a program poke through the firewall</i>	423
<i>Using simple, common-sense protection</i>	379	<i>Making your own firewall exceptions</i>	425
Creating a New Account	380	Closing the Inbound Firewall Fast	426
Modifying an Account	381	Getting at the Outbound Firewall	427
Hobbling the Guest Account	382	Technique 47: Zapping Scumware	429
Technique 41: Sharing Drives and Folders	384	What Is Scum?	430
Sharing the Vista Way	384	Knowing When You've Been Slimed	430
Opening Up the Network	385	Using Windows Defender	430
Sharing Folders	386	<i>Understanding the problems with Defender</i>	431
Technique 42: Meeting with Meeting Space	389	<i>Removing scum with Defender</i>	431
Setting Up Meeting Space	390	<i>Running the other parts of Defender</i>	433
Holding a Meeting	391	Technique 48: Checking Your Security Perimeter	435
Collaborating	392	Approaching Your Security Perimeter	435
Technique 43: Controlling Your PC from Afar with LogMeIn	394	Running Steve Gibson's ShieldsUp!	436
Installing LogMeIn	395	Running Microsoft's Baseline Security Analyzer	437
Starting, Stopping, and Disabling LogMeIn	396	Part IX: Keeping Your PC Alive	439
Using LogMeIn	396	Technique 49: Running Disk Chores While You Sleep	441
Part VIII: Fast Security Techniques	399	Fragging Fragmentation	442
Technique 44: Updating Vista Cautiously	401	Running a Disk Cleanup	442
Reining In Windows Update	402	Scheduling Disk Cleanup	445
Downloading the Big Updates	405	Checking Up on Scheduler	447
Checking for Small Updates	406	Adjusting the Timing of Defrags	447
Retrieving and Installing a Declined Update	406	Technique 50: Running Periodic Maintenance	449
Technique 45: Protecting Your PC from Viruses	408	Making Your Maintenance Shopping List	449
Understanding Viruses — and Hoaxes	409	Weekly Cleaning	450
Dissecting a Virus	410	<i>Vacuuming strategies</i>	450
Discerning Whether Your PC Is Infected	413	<i>Dusting tips</i>	450
Dealing with Your Infected PC	414	<i>Cleaning screens</i>	451
Protecting Yourself — Quickly	416	<i>Ungunking the mouse</i>	451
Installing AVG Anti-Virus Free	417	<i>Checking the floppy drive</i>	452
		Monthly Cleaning	452

Fixing Components As Needed	453	Technique 55: Recovering a Lost Password	486
<i>Cleaning CDs and DVDs</i>	453	Creating a Password Reset Disk	487
<i>Recovering from spilled coffee or soda</i>	453	Using Your Password Reset Disk	488
<i>Pulling out a stuck disk</i>	454	Getting Around Your Own Password	489
<i>Pulling out a stuck CD</i>	455		
Technique 51: Requesting Remote Assistance	456	Part XI: The Scary (Or Fun!) Stuff	491
Using Remote Assistance Wisely — Quickly	457	Technique 56: Changing the Registry without Getting Burned	493
Coping with Remote Assistance Limitations	457	Don't Mess with This?	493
Requesting Remote Assistance	458	Understanding the Registry	494
Sending a Remote Assistance SOS Using IM	458	Backing Up Data the Registry Way	496
Fine-Tuning Remote Assistance	460	Making Changes Safely	497
Technique 52: Getting Help Fast	462	Running My Favorite Quick Registry Tweaks	497
Exploring the Help and Support Center	463	Technique 57: Making Screen Shots with the Snipping Tool	502
Using Help Effectively	465	Using Fast Keyboard Shortcuts	503
Saving and Retrieving Help Articles — Quickly	466	Cranking Up the Snipping Tool	504
Using Other Help Sources	467	Making Paint Behave Itself	506
		Going Beyond the Basics	507
Part X: Fast (Nearly Painless) Disaster Recovery	469	Technique 58: Fast, Easy, and Safe Online Shopping	509
Technique 53: Making Backups — Fast	471	Searching for Reliable E-Tailers	509
Using Different Types of Backup	472	Paying It Safe	511
Understanding Vista File Backup	473	<i>Choosing a payment method</i>	511
Running a Quick File Backup	473	<i>Getting what you pay for</i>	511
Restoring Backed Up Files and Folders	475	<i>Using reputable Web sites</i>	512
Using ZipBackup	477	<i>Handling credit card fraud</i>	513
Technique 54: Restoring Your System after Calamitous Change	478	<i>Keeping private information private</i>	515
Understanding System Restore's Limitations	479	Complaining Effectively	515
Turning on System Restore Everywhere	479	Mastering eBay	515
Creating a Restore Point	481	Technique 59: Create Your Own Desktop Theme	517
Deleting Restore Points	482	What's in a Theme?	517
Restoring to a Restore Point — Quickly	483	Creating a Theme	518
<i>If Windows isn't running and won't start</i>	483	Distributing Your Theme	520
<i>If Windows runs</i>	483		

Technique 60: Saving Time (And Your Eyes)			
On-Screen	522	Tweak 4: Run Webroot Spy Sweeper	533
Applying Basic, Vision-Saving Tactics	522	Tweak 3: Dump Your AV Program	533
Understanding How Characters		Tweak 2: Get More Gadgets	534
Appear On-Screen	523	Tweak 1: Use Firefox	534
Adjusting Resolution Settings	524	Technique 62: Top Ten Tiny Timesaving Tips	535
High-Resolution Tricks	526	Tip 10: Watch Autostarting Programs	535
Fine-Tuning ClearType	527	Tip 9: Get a USB Drive for Backup	536
Technique 61: Top Ten Tiny Timesaving Tweaks	529	Tip 8: Learn How to Run	536
Tweak 10: Bring Back Menus	529	Tip 7: Change Icon Sizes Quickly	536
Tweak 9: Show Filename Extensions/Hidden Files	530	Tip 6: Use Quick Launch Quickly	537
Tweak 8: Adjust Power Settings	531	Tip 5: Check Your Experience Index	537
Tweak 7: Use Trillian	532	Tip 4: Plug into the Grid	537
Tweak 6: Bring on the Eye Candy	532	Tip 3: Turn Off Automatic Updates	538
Tweak 5: Get AI Roboform	533	Tip 2: Don't Buy CRAP Music	538
		Tip 1: Get a Faster Internet Connection	538
		Index	541
