Introduction	xix
Part I: Getting Started	1
Chapter 1: What Is Community Server?	3
Introduction to Community Server	3
Telligent's Role in Community Server	4
Previous Versions	4
Exploring the Applications	5
Understanding the Role of the First Version	5
Community Server 3.0	6
New Features	6
Usage	6
Choosing the Right Edition for You	6
Feature Matrix	7
Licensing Community Server	8
Express Edition	9
Standard Edition	10
Professional Edition	10
Enterprise Edition	10
The Future of Community Server	11
Future Support	11
The Roadmap	11
Summary	11
Chapter 2: Installation	13
Requirements for Community Server	13
System Requirements	13
Software Requirements	14
Your Site's Requirements	15
Community Server Hosted Edition	15
Shared Hosting of Community Server	15

Contents

Getting Ready to Install	16
Where to Download Community Server	16
Understanding the Folder Structure	17
Looking at the Database Schema	18
Installing Locally	19
Configuring the Database Server	19
Running the Windows MSI Installer	20
Installing on a Remote Server	23
Configuring the Server	23
Preparing to Run the Web Installer	24
Using the Web Installer	24
Manual Installation	28
Installing a Development Environment	30
Configuring Visual Studio 2005	30
Configuring IIS or Webdev.Webserver and Database	30
Opening the Solution	31
Debugging	32
Upgrading from a Previous Version	32
Backing Up Important Data	32
Updating Necessary Files	33
Updating the Database Schema	33
Testing the Results	33
Troubleshooting Installation Issues	33
Potential Issues	33
Where to Go for Help	34
Summary	34
Chapter 3: Guided Tour	35
Getting Started	35
A Look Around	35
Signing in as an Administrator	36
Joining	37
Changing the Content	38
Enabling Google Ads	39
Blogs	40
Purpose	40
Create a New Blog	41
Writing Content for Your Blog	41
Basic Usage	43
Additional Tools for Authoring Blog Content	44
Case Study	45

Forums	46
Creating a New Forum	46
Posting to a Forum	47
Basic Usage	50
Case Study	51
File Gallery	51
Creating a File Gallery	51
Publishing Files	52
Basic Usage	54
Limitations	55
Photo Gallery	55
Standard Features	55
Purpose	57
Basic Usage	57
Creating an Album	58
Publishing Photos	58
Reader	59
Basic Usage	59
Summary	60
Part II: Configuring Community Server	61
Chapter 4: Configuring a Site to Meet Your Requirements	63
<hr/>	
Understanding Your Requirements	63
The Default Home Page	64
Blogs	64
File Gallery	64
Implementing a Personal Site	64
Blogging at the Root	66
Implementing a Small to Medium-Sized Community	68
Optimizations	68
Configuring a Site to Generate Ad Revenue	69
Summary	70
Chapter 5: Changing the Look-and-Feel	71
<hr/>	
Understanding Chameleon	72
Understanding Themes	72
Understanding Master Pages	72
Default Master Page	73
Creating a Master Page	74
Included Master Pages	76

Contents

File Organization	77
Editing Stylesheets	78
Changing the Blog Post Header	79
Changing a Site's Header	80
Changing a Site's Footer	83
Editing Skin Files	84
Creating Stylesheets	85
Adding Custom Images	86
Changing the Default Color Scheme	87
Common Community Server Controls	89
Modifying the Look of Custom Controls	91
Editing the Sidebar	92
Creating a Blog Theme	93
Use Existing Template	94
Edit LayoutTemplate	94
Editing Style.css	96
Deploying the Theme	98
Using the Theme	99
Packaging the Theme for Distribution	99
New Theming Enhancements	100
Summary	101
Part III: Administering Community Server	103
Chapter 6: Control Panel	105
Accessing the Control Panel	105
Understanding the Layout	106
Exploring Standard Options	106
Understanding Organizational Structure	108
Administering Blogs	109
Creating a New Blog	109
Creating a New Post	110
Modifying an Existing Entry	111
Understanding Blog Groups	112
Modifying Default Settings	112
Managing Comments	113
Tweaking the Presentation	114
Global Settings	115
Additional Options	116

Administering Photo Galleries	116
Creating a New Gallery	116
Publishing New Photos	117
Reviewing Comments	118
Managing Content	118
Managing Quotas	119
Tweaking Gallery Presentation	119
Administering File Galleries	120
Creating a New Folder	120
Adding Files	121
Editing Files	122
Additional Settings	122
Administering Forums	123
Creating a New Forum	123
Creating Posts	124
Managing Ranks	124
Global Settings	125
Administering the Reader	126
Managing Feeds	127
Additional Settings	127
Managing Settings	127
General Site Settings	128
Site Name & Description	128
Applications	129
Post Settings	129
Date and Time Settings	129
Email Settings	129
IP Address Tracking	129
Summary	130
Chapter 7: User Management	131

Creating a New Member	131
Managing Registration Settings	133
Searching for Users	135
Global Account Profile Settings	137
Cookies	138
Anonymous User Settings	138
Avatar Settings	139
Summary	139

Contents

Chapter 8: Managing Security **141**

Overview	141
Roles	142
Built-in Roles	142
Managing Roles	143
Role Assignment	144
Permissions	146
Managing Blog Permissions	146
Managing Photo Gallery Permissions	148
Managing File Gallery Permissions	149
Managing Forum Permissions	150
Managing Reader Permissions	153
Summary	154

Chapter 9: Reporting Capabilities **155**

Exceptions Report	155
Managing Exceptions	157
Jobs Report	158
Site Reports	159
Page Views	159
User Activity	160
Overview Report	160
Blog Reports	160
Blog Activity	160
Popular Topics by Views	161
Popular Topics by Comments	161
Forum Reports	161
Forum Post Activity	162
Popular Topics by Views	162
Popular Topics by Replies	162
Custom Reports	162
Integrating a Custom Report	167
Summary	171

Chapter 10: Core Configuration Options **173**

ASP.NET Configuration	173
ASP.NET Configuration and Community Server	174
Common ASP.NET Sections	174
appSettings Section	178

CommunityServer.config	179
Core Options	179
Understanding the Markup Section	181
Gallery Options	181
Weblog Options	182
Forum Options	183
File Gallery Options	183
Reader Options	184
Understanding the CSModules Section	184
Understanding the Jobs Section	185
Common Sections	185
Configuration Changes	186
Adding Custom Pages	187
Modifying the Navigation Bar	188
Advanced Configuration Options	188
ApplicationConfiguration	188
Extending ApplicationConfiguration	189
Additional Configuration Files	190
Directory-Level web.config Files	191
Tabs.config	191
SetupNavBar.config	192
Summary	193
Part IV: Extending Community Server	195
Chapter 11: Modules	197
Module Benefits	197
Module Architecture	198
Community Server Events	199
Where to Get Modules	202
Installation Considerations	202
Installing a CSModule	203
Test First, Use Later	204
Maintaining Your New Module	204
Building Your First Module	205
Exception Notification Module Example	205
Summary	206

Chapter 12: Modifying Community Server Code	207
Recommendations	207
Dutiful Open Source Development	208
Working with the Development Community	209
Bug Handling	209
Identifying Bugs	209
Reporting Bugs	210
Fixing Bugs	211
Improving Existing Features	212
Modifying Core Code	212
Core Code Modification Scenario	213
Gallery Provider	216
Available Providers	220
Sharing Your Knowledge	221
Summary	221
Chapter 13: Writing Custom Modules	223
Community Server APIs	224
ApplicationKey and SectionID	224
CSContext	225
Post	227
Extended Properties	230
Query/Set Model	231
Attachments	239
Users	241
Roles	244
Site URLs	245
Event Logs	247
CSException	249
Sending Emails	250
Configuration	252
CSModule	253
CSJob	255
Spam Rule	257
Add a New Page or User Control to Control Panel	260
Summary	261

Chapter 14: Extending the Database	263
Overview of Database	263
Adding Stored Procedures	270
Modifying Tables	271
Providers	272
Summary	275
Chapter 15: Localizing Community Server	277
Translation	278
Languages Folder	278
Resources	280
Messages	284
Templates	284
Emails	285
Resource APIs	286
WYSIWYG Editor	287
Right-to-Left Languages	288
Right-to-Left Display	288
Right-to-Left Typing	289
Packaging for Distribution	290
Sharing Your Localization Files	291
Summary	291
Appendix A: Command Add-ons	293
Appendix B: Resources	297
Index	299
