Boys and Girls Learn Differently! A Guide for Teachers and Parents

Michael Gurian

Paperback

ISBN: 0-7879-6117-5

“*Boys and Girls Learn Differently!* offers valuable and much-needed tools to provide boys and girls with true equal educational opportunities. The new techniques Michael Gurian presents here will transform our classrooms and the way parents teach their children in very positive ways.”

—John Gray, author, *Children Are from Heaven*
and *Men Are from Mars, Women Are from Venus*

“Gurian and the contributing authors . . . suggest creative ways to modify the learning environment to encourage a broader spectrum of achievement in both gender groups.”

—Edward Zigler, Sterling Professor of Psychology, Yale University, and
one of the original planners of the national Head Start program

At last, we have the scientific evidence that documents the many biological gender differences that influence learning. In this profoundly significant book, author Michael Gurian synthesizes current knowledge and clearly demonstrates how a distinction in hard-wiring and socialized gender differences affects how boys and girls learn. Gurian presents a new way to educate our children based on brain science, neurological development, and chemical and hormonal disparities.

The Boys and Girls Learn Differently Action Guide for Teachers

Michael Gurian and Arlette C. Ballew

Paperback

ISBN: 0-7879-6485-9

This important and easy-to-use guide is based on the latest scientific research on the differences between boys' and girls' brains, neurological development, hormonal effects, behavior, and learning needs. It presents experiential learning techniques that teachers can use to create an environment and enriched curriculum that allow both boys and girls to gain maximum learning opportunities, and offers information on what all children need to be able to learn effectively.

Michael Gurian (Spokane, WA) is an educator, family therapist, and author of fourteen books, including the best-selling *The Wonder of Boys*, *A Fine Young Man*, and *The Good Son*. He is an internationally celebrated speaker and writer whose work has been featured in the *New York Times*, *The Wall Street Journal*, *USA Today*, *Time*, and other national publications as well as on the *Today Show*, *Good Morning America*, CNN, and numerous other broadcast media.
