# INDEX

- Accounting for lean:  
  activity-based management and, 195  
  attacking waste, 225  
  Balanced Scorecard and, 199  
  communications and, 265  
  development based on management  
    accounting tools, 201  
  goal and focus, 210  
  grenzplankostenrechnung and 197  
  Kaizen activities and, 213–234  
  Kanban and, 229  
  resource consumption accounting and,  
    197  
  system design essentials, 295  
  systems, 219  
  work triangle, 226
- Accounting work triangle, 226
- Activity-based costing:  
  customer segmentation issues, 143
- Activity-based management, 125, 195
- Anna Karenina principle, xi
- Balanced Scorecard as improvement tool, 57
- Bateson, Gregory, 5
- Box scores, 166
- Business value-add, 123–124
- Byrne, Art, 48, 58, 261
- Cells. *See* Work cells
- CEO. *See* Chief executive officer
- CFO. *See* Chief financial officer
- Chief executive officer (CEO):  
  lean culture and, 46  
  twelve lean leadership responsibilities,  
    47–55
- Chief financial officer:  
  goals and focus in lean transformation, 212  
  lean implementation responsibilities,  
    57–65  
  right-sizing responsibilities, 39–40
- Cho, Fujio, 20
- Collective system design:  
  cost perspective, 270  
  coupled design, 281  
  evaluation, 295  
  Kaizen and, 284  
  lean accounting communications, 265  
  map structure, 284  
  path dependent design, 280  
  purpose, 263  
  system design language, 277  
  typical system designs, 283  
  uncoupled system design, 280
- Committee of Sponsoring Organizations, 238  
  historical perspective on Sarbanes-Oxley,  
    241  
  integrating with lean principles, 249
- Compensation systems, 53
- Confusion of levels:  
  defined, 5  
  management accounting and, 7–9
- Consortium of Advanced Management –  
  International, 195
- Contribution margin, 169
- Cooper, Robin, 195
- Cost:  
  cost/volume fluctuations, 36–38  
  customer’s perspective, 123  
  mapping customer preferences, 147  
  mapping for the value stream, 158–163  
  standard costing. *See* Standard costing  
  unit cost equation, 292

- Cost and Effect*, 202
- Cost-value gap, 148
- Culture:
- command and control, 181
  - compatibility with lean, 181–185
  - continuous improvement and lean, 70
  - defined, 46
  - lean and, 46–47
  - management accounting transforming culture, 113–118, 215
  - obstacles to lean transformation, 185
- Customer-driven lean management:
- customer service perspective, 149
  - customer's perspective, 123
  - economics of the market and, 122
  - implementation, 146–149
  - incremental steps, 151
  - performance metrics, 148
  - revenue enhancers, 145
  - target costing and, 122
  - value segmentation, 136–146
- Customer Value:
- customer value-add, 123
  - shareholder value and, 71
- Deming, W. Edwards, 9–13, 32, 261
- 14 principles, 11
- Donaldson, William, 244
- DNA, organizational, 243, 261
- Economies of scale:
- costing contrasts with limited production, 26–29
  - defined, 18–19
  - limited production and, *See* Limited production
  - overhead and, 19
- Ecosystems, xi, 14–15
- Emiliani, Robert, 183
- Employee competence in the lean environment, 94–96
- Employee motivation in the lean environment:
- accountant's role, 113–118
  - empowerment, 103–108:
    - authority and independence, 105
    - competencies, 104
    - value to enterprise, 106
    - work contributions, 106
- innovation and creativity, 96–99:
- acknowledgement through resource allocation, 98
  - decision making and process ownership, 97
  - inhibitors, 99
  - performance evaluations, 97
- intrinsic motivation, 99
- management control systems and, 108–111
- metric boards and, 110
- performance motivation, 101–103
- Epistemological error, 5
- Flame model of system design, 274
- Flow:
- defined, 23
  - one-piece flow, 18, 25
  - right-designing and, 23–25
- Foreign Corrupt Practices Act, 239
- Functional requirements:
- collective system design language for, 277
  - defined, 264
- Grenzplankostenrechnung, 197
- Hickory Chair Company, 99
- Horizontal improvement, 271
- Hoshin planning:
- Balanced Scorecard and, 200
- Human assets, 94
- Institute of Management Accountants, 191
- JIT. *See* Just-in-time
- Johnson, H. Thomas, xiv, xv, 19, 55, 185, 265, 269
- Just-in-time (JIT):
- flow and, 24
  - history, 20
- Kaizen events:
- activities for a lean transformation, 213–234
  - closing calendar and, 218

- collective system design and, 284
- Kaizen costing and targets, 183
- management accountant participation, 204
- participants, 212
- purpose and phases, 211
- Sarbanes-Oxley and, 249
- Kanban, 229
- Kaplan, Robert S., xv, 55, 193, 195, 199, 269
- Lean:
  - accounting. *See* Accounting for lean as a management system, 180
  - as manufacturing tactic, 45
  - compensation systems, 53
  - culture, 46–47, 70
  - employee competence, 94–96
  - employee motivation guidelines, 111–113
  - Kaizen activities and, 213–234
  - lean accounting:
    - financial controls and, 9–13
    - management accounting biases, 11–15
    - performance measurement. *See* Performance measurement
  - principles, 79–82
  - right-sizing and, 21–23
  - Sarbanes-Oxley and, 246
  - strategy and, xii
    - CFO responsibilities, 57–65
    - strategy implementation, 44–45
  - transformation:
    - as a production initiative, 204
    - CFO goals and focus, 210
    - exposing the fear of, 291
    - five dimensions, 184
    - lead by management accounting, 205
    - obstacles, 185–194, 271
    - no layoff policy, 52
    - sustainability, 271–295
  - scope, xii
- Lean Accounting Summit, xii
- Lean Enterprise Institute, 177
- Levers of control, xv, 12–15:
  - management control systems and employee motivation, 108–111
  - performance measurement and, 76
  - performance motivation and, 101
- Limited production:
  - costing contrasts with economies of scale, 26–29
  - defined, 19–21
  - flexibility, 29
  - implementation, 30–33
- Management accounting:
  - accountants serving nonaccountants, 193
  - anti-lean biases, 13–15
  - control systems, 7–9
  - Kaizen activities and, 213–234
  - Kanban and, 229
  - leading the lean transformation, 205, 215
  - lean versus command and control cultures:
    - actions, 183
    - assumptions, 182
  - obstacles to lean transformation, 185–194
  - participation in Kaizen events, 204
  - relationship with lean, 178
  - role in lean transformation, 113–118
  - supporting lean measures, 223
  - tools used in lean transformations, 179
- Management by means (MBM), xiv
- Management by results (MBR), xiv:
  - traditional performance measurements and, 72
- Management cost equation, 268
- Mishina, Kazuhiro, 8
- MBM. *See* Management by means
- MBR. *See* Management by results
- Monden, Yasuhiro, 34
- Muda, 9, 108
- No layoff policy, 52
- Non-value-add, 124
- Ohno, Taiichi, 9, 19
- Performance measurement:
  - accountant's role, 113–118
  - changing for lean transformation, 49
  - employee motivation guidelines, 111–113
  - financial measure shortcomings, 82
  - implementing lean performance measures, 91

- lean measurements:
  - characteristics, 79
  - problem-solving, 74, 76
- linking value streams to strategy and goals
- measurement framework for cells and value streams, 85
- problems with traditional measures, 70–79
- standards for lean measures, 83
- starter set of lean measures, 86–91
- Plain-English profit and loss statement, 61
- Profit Beyond Measure*, xiv, 11, 19, 26, 269
- Physical solutions:
  - collective system design language for, 277
  - defined, 264
- Resource consumption accounting, 197
- Relevance Lost*, xv, 55, 269
- Right-designing:
  - cost management and, 33–38
  - defined, 23–25
  - implementation, 30–33
  - machine lines, 32–22
  - takt time and, 32
  - value streams and, 24
- Right-sizing: *See also* Right-designing
  - defined, 21–23
- Sarbanes-Oxley:
  - CEOs and CFOs and, 64
  - common denominators with lean, 246
  - COSO and, 241
  - integrating with lean principles, 249
  - lean monitoring process, 255
  - major provisions, 241
  - new SEC and PCAOB interpretations, 243
  - operations attitudes, 56
  - overview, 238
  - SEC and, 240
- Shewhart, Wallace, 9–13
- Shook, John, 20–21
- Simons, Robert, 101
- Standard costing:
  - anti-lean characteristics, 157
  - assumptions, 155
  - eliminating, 228
  - inventory valuation and, 156
  - traditional mass manufacturing problems, 155
- Strategy:
  - implementation in lean environment, 44–45
  - lean, xii,
    - Wiremold and, 44
  - sustainable, xi
  - time-based, 44
  - top-down versus continuous feedback approaches, 75
  - True North and, 11
  - value stream, 75
- Sustainability:
  - as purpose of lean, xi
  - obstacles to sustaining lean transformations, 271–295
  - problem-solving and, 74
- Systems:
  - business as mechanical versus living system, 4–6, 11–15
  - compensation in lean, 53
  - design: *See also* Collective system design
    - flame model, 274
    - manufacturing system, 30–33
  - lean management, 180
  - lean accounting, 219
  - management accounting control systems, 7–9, 11–15
  - management control systems versus lean regulatory systems, 108–111
  - new sciences and natural systems, 70
  - performance/control relationships, 11
  - self-organizing, 5
  - Toyota Production System. *See* Toyota Production System
