

Index

401(k) plans. *See* Retirement plans
usage. *See* Roth 401(k) plans

A

American consumer, impact, 198
American economy, future/optimism, 203–205
American workers, prosperity, 203
Arctic National Wildlife Refuge (ANWR), reserves
(arguments), 160
Automobile companies, corporate debt
(downgrading), 127–128
Average U.S. gross domestic product (GDP), 4f
Avian flu, volatility, 72–73

B

Baby Boomers
aggressive savings moves, impact, 204–205
community interest, 141
generational worry, 60–63, 106–107
parent retirement, 123
sandwich generation, 106
savings, problems, 146
stocks, sale (impact), 150–151
Baby Boomers, funding imbalance awareness, 55
Bank of Japan
monetary policy, quantitative easing, 82
response, 82–83
yen, flooding, 83
Benefit imbalance, bipartisan political cooperation
(impact), 203
Bernanke, Ben, 72
introduction, 76–77
market credibility, 87–88
transparency, push, 77–78

Bipartisan political cooperation, impact. *See* Benefit
imbalance; Entitlement
Blue collar manufacturing
jobs, loss, 29–31
sector, vulnerability, 111
Bond market pressure, impact. *See* Federal Reserve
Borrowing, increase (problems), 58–59
Brazil, economic position (rise), 195
Bridging, 123–125
Budget
buster, 64–65
cost projection, 64–65
deficits, 45–48
surpluses, 47
Burns, Arthur, 78
credibility, 79–80
Bush, George W.
Medicare prescription drug program, problems, 50–51
perspective, 51
veto power, 51
Business investment, reduction, 83

C

Canada
dollar (loonie), appreciation, 185
global player, 183–186
growth, continuation, 184–185
home values, increase, 184
political leadership, response, 184
universal health care, problems, 186
winners/losers, 185–186
Capital gains tax rates (1980s), 41
Capital gains tax revenues
decrease, 41
increase, 40

Carter, Jimmy
 economic failings, 9
 Federal Reserve chair, selection/appointment, 78–79
 financial markets, pressure, 79
 Central banks, impact, 80–84
 Certificate of deposit interest rates, increase, 152–153
 Change, impact, 198
 China
 dollar accumulation, issue, 172–173
 economic rival, 194
 global player, 171–173
 job creation, opportunities, 32–33
 labor, issue, 171–172
 rise, 194
 Churchill, Winston, 199
 Churning. *See* Jobs
 College graduates, income (measures), 109–110
 Commodity prices
 increase, 11
 performance, 75
 volatility, 72–73
 Communism, incentives (absence), 199
 Community college, relationship, 113
 Community interest. *See* Baby Boomers
 Competition, impact, 193
 Confidence, 197–198
 impact, 195–198
 Congressional Budget Office (CBO), impact.
See Deficit
 Consumer behavior, change, 69
 Consumer debt, 96–98
 Consumer incomes, 93–96
 Consumer Price Index (CPI), 71
 Consumer spending, 96–98
 Contract mentality, adoption, 24
 Corporate debt, 127–128
 Corporate success, 21–22
 CPI. *See* Consumer Price Index
 Credit cards, impact, 97
 Currencies, 162–166
 intervention, 163
 realignment, 164
 relative value, 165
 U.S. government position, 163–164
 values, global swings, 162

D
 Death tax. *See* Estate tax
 Debt. *See* Consumer debt
 monetization, 75–76
 Deficit. *See* Budget
 CBO forecast, 45–46
 forecasts, 46–47
 projections. *See* Longer-term deficit projections

Defined benefit pension program, defined contribution plan replacement, 25
 Defined benefit plans, 125–128
 decrease, 126
 Defined contribution plans, 128–131
 Defined contribution program value, introduction/enhancement, 125
 Deflation. *See* Japan
 Deflationary pressures. *See* Japan
 Democrats/Republicans, relationship (problem), 56–57
 Demographics, 105–109
 groups, 105–109
 DJIA. *See* Dow Jones Industrial Average
 Dollar-denominated financial instruments, usage, 164
 Domestic labor availability, importance, 17–18
 Dow Jones Industrial Average (DJIA)
 10000 call, chronology, 146–147
 comparison. *See* Gross domestic product level, 82, 173–174
 Downsizing efforts, 33
 Dual-income households, 94–96
 value, 95f
 Dynamic analysis, adoption, 42

E

ECB. *See* European Central Bank
 Economic decline, extended periods, 3
 Economic growth. *See* U.S. economic growth
 Economics
 definition, 48–49
 dismal science, 75–76
 life, study, 195
 Economic theory, linkage, 69
 Education
 employment, relationship, 23–24, 110
 funding, advocacy, 112
 impact, 109–115
 importance. *See* Higher education
 income, relationship, 110–111
 role, 113–114
 solution, 115
 Emotions, impact, 195–198
 Employers
 free money, 129–130
 stress, 17–18
 work, change, 124–125
 Employment
 illegal immigrants, impact, 119
 numbers, 10–11
 relationship. *See* Education
 Energy
 impact, 159–162
 renewable sources, impact, 161
 Energy prices
 Fed concern, 72
 perspective, 161–162

Entitlement
 funding, bipartisan political cooperation
 (impact), 203–204
 issues, 55
 programs, size, 63

Estate tax (death tax), 42–43

Europe
 competition, realization, 179–181
 economic issues, 177–178
 future, 178
 global player, 177–183
 population decline, 178–179
 unemployment rates, 180–181

European Central Bank (ECB)
 monetary policy, 78
 representation, 81–82
 short-term interest rate increase, 163

European nations, impact. *See* U.S. economic
 dominance

European Union, 178

Euro weakness, perspective, 162–163

Eurozone expansion, 179

Excess revenues, state spending, 13

F

Fear, impact. *See* Real estate; Stocks

Federal funds rate, 73

Federal Open Market Committee (FOMC), water
 torture approach. *See* Monetary policy

Federal Reserve, 72–80
 bond market pressure, impact, 204
 central banker, 72
 creation, 74
 credibility, 79–80
 Flow of Funds Accounts of the United States,
 quarterly calculation, 154
 monetary policy, 71, 74–75
 responsibilities, 73–74
 water torture approach. *See* Monetary policy

Federal Reserve chair
 learning curve, difficulty, 77
 speech, 77–78
 Wall Street/global financial community reaction,
 78–79

FICA taxes, withholding solution, 57–58

Financial markets, excess, 98–99

Financial planning, 138–140

Financial professionals, benefit, 139–140

Flex-time employment, increase, 123–124

Flippers, impact, 196–197
