

# Contents at a Glance

---

<b><i>Introduction</i></b> .....	<b>1</b>
<b><i>Part I: Developing a Web Database Application Using PHP and MySQL</i></b> .....	<b>7</b>
Chapter 1: Introduction to PHP and MySQL.....	9
Chapter 2: Setting Up Your Work Environment.....	21
Chapter 3: Developing a Web Database Application.....	47
<b><i>Part II: MySQL Database</i></b> .....	<b>73</b>
Chapter 4: Building the Database .....	75
Chapter 5: Protecting Your Data.....	111
<b><i>Part III: PHP</i></b> .....	<b>131</b>
Chapter 6: General PHP.....	133
Chapter 7: PHP Building Blocks for Programs .....	165
Chapter 8: Data In, Data Out.....	211
Chapter 9: Moving Information from One Web Page to the Next .....	285
<b><i>Part IV: Applications</i></b> .....	<b>305</b>
Chapter 10: Putting It All Together.....	307
Chapter 11: Building an Online Catalog .....	321
Chapter 12: Building a Members Only Web Site .....	359
<b><i>Part V: The Part of Tens</i></b> .....	<b>387</b>
Chapter 13: Ten Things You Might Want to Do Using PHP Functions .....	389
Chapter 14: Ten PHP Gotchas .....	397
<b><i>Part VI: Appendixes</i></b> .....	<b>403</b>
Appendix A: Installing PHP, MySQL, and Apache from XAMPP.....	405
Appendix B: Configuring PHP .....	415
<b><i>Index</i></b> .....	<b>421</b>

# Table of Contents

---

<b><i>Introduction</i></b> .....	<b>1</b>
About This Book .....	1
Conventions Used in This Book .....	2
What You're Not To Read .....	2
Foolish Assumptions .....	3
How This Book Is Organized .....	3
Part I: Developing a Web Database Application	
Using PHP and MySQL .....	4
Part II: MySQL Database .....	4
Part III: PHP .....	4
Part IV: Applications .....	4
Part V: The Part of Tens .....	4
Part VI: Appendixes .....	4
Icons Used in This Book .....	5
Where to Go from Here .....	5
<b><i>Part I: Developing a Web Database Application Using PHP and MySQL</i></b> .....	<b>7</b>
<b>Chapter 1: Introduction to PHP and MySQL</b> .....	<b>9</b>
What Is a Web Database Application? .....	9
The database: Storing data .....	11
The application: Moving data in and out of the database .....	11
MySQL, My Database .....	12
Advantages of MySQL .....	13
How MySQL works .....	14
Communicating with the MySQL server .....	14
PHP, a Data Mover .....	15
Advantages of PHP .....	16
How PHP works .....	16
MySQL and PHP, the Perfect Pair .....	17
Advantages of the relationship .....	18
How MySQL and PHP work together .....	18
Keeping Up with PHP and MySQL Changes .....	19
PHP versions .....	19
MySQL versions .....	20

**Chapter 2: Setting Up Your Work Environment . . . . . 21**

Anatomy of a Web Site .....	21
Building a Web Site.....	22
Deciding Where to Publish Your Web Site .....	23
Using a Web hosting company.....	24
Using a company Web site.....	28
Setting up your own server .....	29
Deciding Where to Develop Your Web Site.....	30
On your own computer .....	30
On another computer.....	30
Setting Up Your Web Site .....	31
With a Web hosting company .....	31
On a company Web site .....	32
Information you need .....	33
Setting Up Your Development Environment.....	34
Your own computer.....	34
Web hosting company.....	38
A company computer.....	39
Testing, Testing, 1,2,3 .....	39
Understanding PHP/MySQL functions .....	40
Testing PHP .....	40
Testing your local PHP configuration file .....	43
Testing MySQL .....	43

**Chapter 3: Developing a Web Database Application . . . . . 47**

Planning Your Web Database Application .....	47
Identifying what you want from the application.....	48
Taking the user into consideration .....	50
Making the site easy to use .....	51
Leaving room for expansion.....	51
Writing it down.....	52
Presenting the Two Running Examples in This Book .....	52
Stuff for Sale.....	52
Members Only .....	53
Designing the Database .....	54
Choosing the data.....	54
Organizing the data .....	56
Designing the Sample Databases .....	60
Pet Catalog design process.....	61
Members Only design process.....	63
Types of Data .....	66
Character data.....	66
Numerical data.....	66
Date and time data.....	67
Enumeration data .....	67

MySQL data type names ..... 67  
 Writing it down..... 69  
 Taking a Look at the Sample Database Designs ..... 69  
     Stuff for Sale database tables ..... 69  
     Members Only database tables..... 70  
 Developing the Application..... 71  
     Building the database..... 72  
     Writing the programs ..... 72

***Part II: MySQL Database ..... 73***

**Chapter 4: Building the Database ..... 75**

Communicating with MySQL..... 75  
     Building SQL queries ..... 76  
     Sending SQL queries..... 77  
 Building a Database..... 82  
     Creating a new database..... 82  
     Viewing the databases ..... 85  
     Deleting a database ..... 85  
     Adding tables to a database ..... 86  
     Changing the database structure..... 90  
 Moving Data Into and Out of the Database ..... 92  
     Adding information..... 93  
     Viewing information ..... 98  
     Retrieving information ..... 99  
     Combining information from tables ..... 104  
     Updating information ..... 109  
     Removing information..... 110

**Chapter 5: Protecting Your Data ..... 111**

Controlling Access to Your Data ..... 111  
     Understanding account names and hostnames..... 112  
     Finding out about passwords..... 113  
     Taking a look at account privileges..... 115  
 Setting Up MySQL Accounts..... 116  
     Adding accounts ..... 117  
     Allowing access to a database ..... 118  
     Changing privileges ..... 120  
     Adding and changing passwords..... 121  
     Removing accounts ..... 121  
 Backing Up Your Data ..... 122  
     Exporting your data with phpMyAdmin ..... 123  
     Viewing the Export file ..... 125  
 Restoring Your Data ..... 127

**Part III: PHP ..... 131****Chapter 6: General PHP .....133**

Adding a PHP Section to an HTML Page.....	133
Writing PHP Statements.....	136
Using PHP Variables.....	139
Naming a variable.....	140
Creating and assigning values to variables.....	140
Dealing with notices.....	142
Using PHP Constants.....	142
Working with Numbers.....	144
Working with Character Strings.....	146
Single-quoted strings versus double-quoted strings.....	147
Joining strings.....	148
Working with Dates and Times.....	149
Setting local time.....	149
Formatting a date.....	150
Storing a timestamp in a variable.....	151
Using dates with MySQL.....	153
Comparing Values.....	154
Making simple comparisons.....	155
Matching character strings to patterns.....	157
Joining Comparisons with and/or/xor.....	161
Adding Comments to Your Program.....	163

**Chapter 7: PHP Building Blocks for Programs .....165**

Useful Simple Statements.....	166
Using echo statements.....	167
Using assignment statements.....	170
Using increment statements.....	171
Using exit.....	172
Using function calls.....	173
Using PHP Arrays.....	173
Creating arrays.....	173
Viewing arrays.....	174
Removing values from arrays.....	176
Sorting arrays.....	176
Getting values from arrays.....	178
Walking through an array.....	180
Multidimensional arrays.....	183
Useful Conditional Statements.....	186
Using if statements.....	187
Using switch statements.....	190

Using Loops.....	191
Using for loops .....	192
Using while loops.....	194
Using do..while loops .....	196
Infinite loops.....	197
Breaking out of a loop .....	199
Using Functions .....	201
Using variables in functions .....	203
Passing values between a function and the main program.....	204
Using built-in functions .....	209

## **Chapter 8: Data In, Data Out . . . . . 211**

PHP and MySQL Functions.....	212
Making a Connection.....	214
Connecting to the MySQL server .....	214
Selecting the right database.....	218
Sending SQL queries.....	219
Getting Information from a Database.....	220
Sending a SELECT query.....	220
Getting and using the data.....	221
Using functions to get data.....	228
Getting Information from the User .....	232
Using HTML forms .....	233
Making forms dynamic.....	238
Using the information from the form .....	251
Checking the information .....	253
Giving users a choice with multiple submit buttons.....	263
Putting Information into a Database .....	265
Preparing the data .....	265
Adding new information.....	270
Updating existing information.....	276
Getting Information in Files.....	279
Using a form to upload the file.....	280
Processing the uploaded file .....	280
Putting it all together.....	282

## **Chapter 9: Moving Information from One Web Page to the Next . . . 285**

Moving Your User from One Page to Another .....	286
Moving Information from Page to Page .....	289
Adding information to the URL.....	290
Storing information via cookies .....	294
Passing information with HTML forms .....	297
Using PHP Sessions .....	298
Understanding how PHP sessions work .....	298
Opening sessions .....	299

Using PHP session variables.....	299
Sessions without cookies.....	301
Making sessions private.....	303
Closing PHP sessions.....	304

## **Part IV: Applications ..... 305**

### **Chapter 10: Putting It All Together ..... 307**

Organizing the Application.....	307
Organizing at the application level.....	308
Organizing at the program level .....	309
Keeping It Private .....	316
Ensure the security of the computer .....	316
Don't let the Web server display filenames.....	317
Hide things.....	317
Don't trust information from users .....	318
Use a secure Web server.....	318
Completing Your Documentation.....	318

### **Chapter 11: Building an Online Catalog ..... 321**

Designing the Application .....	322
Showing pets to the customers.....	322
Adding pets to the catalog.....	323
Building the Database .....	323
Building the Pet table .....	324
Building the PetType table .....	327
Building the Color table .....	328
Adding data to the database .....	330
Designing the Look and Feel .....	331
Showing pets to the customers.....	331
Adding pets to the catalog.....	335
Writing the Programs.....	337
Showing pets to the customers.....	338
Adding pets to the catalog.....	344

### **Chapter 12: Building a Members Only Web Site ..... 359**

Designing the Application .....	360
Building the Database .....	360
Building the Member table .....	361
Building the Login table.....	363
Adding data to the database .....	364
Designing the Look and Feel .....	365
Storefront page.....	365
Login page.....	366

---

New Member Welcome page .....	368
Members Only section .....	368
Writing the Programs .....	369
Writing PetShopFront .....	370
Writing Login .....	371
Writing New_member .....	384
Writing the Members Only section .....	385
Planning for Growth .....	386
<b><i>Part V: The Part of Tens</i> .....</b>	<b>387</b>
<b>Chapter 13: Ten Things You Might Want to Do     Using PHP Functions</b> .....	<b>389</b>
Communicate with MySQL .....	389
Send E-Mail .....	390
Use PHP Sessions .....	392
Stop Your Program .....	392
Handle Arrays .....	392
Check for Variables .....	393
Format Values .....	393
Compare Strings to Patterns .....	395
Find Out about Strings .....	395
Change the Case of Strings .....	396
<b>Chapter 14: Ten PHP Gotchas</b> .....	<b>397</b>
Missing Semicolons .....	397
Not Enough Equal Signs .....	398
Misspelled Variable Names .....	398
Missing Dollar Signs .....	398
Troubling Quotes .....	399
Invisible Output .....	399
Numbered Arrays .....	400
Including PHP Statements .....	401
Missing Mates .....	401
Confusing Parentheses and Brackets .....	402
<b><i>Part VI: Appendixes</i> .....</b>	<b>403</b>
<b>Appendix A: Installing PHP, MySQL, and Apache     from XAMPP</b> .....	<b>405</b>
Installing XAMPP on Windows .....	405
Installing XAMPP on Mac .....	410
Using XAMPP .....	412

<b>Appendix B: Configuring PHP .....</b>	<b>415</b>
Changing Settings in php.ini.....	416
In the general php.ini file .....	416
In a php.ini file on your Web site .....	417
Changing Settings with an .htaccess File.....	418
Changing Settings with PHP Statements.....	419
 <b><i>Index</i> .....</b>	 <b>421</b>
