

Preface	xvii
Acknowledgments	xix
Contributors	xxi

PART I

Sexual Dysfunctions	1
----------------------------	----------

Chapter 1	
Disorders of Male Sexual Desire	5

Geoffrey Ian Hackett

Characterizing Sexual Desire and Its Components	6
Epidemiology	8
Physiology of Desire and Drive Disorders in Men	10
Clinical Evaluation of Desire Disorders	18
Management of Hypoactive Sexual Desire Disorder	20
Ethical Concerns	27
Summary and Conclusions	27
References	28

Chapter 2	
Male Sexual Arousal Disorder	32

Ronald W. Lewis, JiuHong Yuan, and Run Wang

Definition of Erectile Dysfunction	33
Anatomy of the Penis	34
Physiology	38
Pathophysiology, Risk Factors, and Clinical Correlates of Erectile Dysfunction	41
Evaluation of the Patient with Erectile Dysfunction	50
Management Paradigms for Erectile Dysfunction	57
Summary and Conclusions	62
References	63

Chapter 3

Premature Ejaculation **68**

David L. Rowland and Chris G. McMahon

Ejaculatory Response	69
Nomenclature, Definition, and Prevalence	71
Etiology of Premature Ejaculation	76
Assessment of Premature Ejaculation	82
Treatment of Premature Ejaculation	87
Summary and Conclusions	94
References	95

Chapter 4

Retarded and Inhibited Ejaculation **100**

Michael A. Perelman and David L. Rowland

Definition and Descriptive Characteristics	101
Prevalence	103
Etiology	104
Organogenic	105
Evaluation	110
Treatment	113
Summary and Conclusions	118
References	119

Chapter 5

Androgens and Endocrine Function in Aging Men: Effects on Sexual and General Health **122**

Louis Gooren

Sexuality and Aging in Men: An Introduction	122
Physiological Aspects of Male Aging	123
Correlations between Androgen and Symptoms of Male Aging	128
Impact of Androgens on Sexual Functioning with Age	131
Diagnosis: General Issues	133
Diagnosis of Late Onset Hypogonadism	138
Treatment of Late Onset Hypogonadism	140

Integrated Treatment for Sexual Problems in Aging Men	148
Summary and Conclusions	148
References	149

Chapter 6

Problems with Sexual Interest and Desire in Women 154

Jacques van Lankveld

Definitions and Classifications	155
Physiological Aspects of Female Sexual Arousal	158
Epidemiology and Risk Factors	163
Assessment and Measurements	169
Treatment	174
Summary and Conclusions	181
References	182

Chapter 7

Problems with Arousal and Orgasm in Women 188

Cindy M. Meston, Brooke N. Seal, and Lisa Dawn Hamilton

Definitions and Epidemiology	188
Etiologic Factors	192
Psychological Factors, Sexual Arousal, and Orgasm	199
Assessment	203
Treatment	207
Summary and Conclusions	211
References	213

Chapter 8

Female Genital Pain and Its Treatment 220

Melissa A. Farmer, Tuuli Kukkonen, and Yitzchak M. Binik

Definitions	222
Course, Development, and Prevalence of Pain	225
Risk Factors	226

Assessment	229
Treatment	238
Therapeutic Mechanisms and Strategies	243
Summary and Conclusions	245
References	246

Chapter 9

Menopause, Aging, and Sexual Response in Women 251

Lori A. Brotto and Mijal Luria

What Is Menopause?	252
Hormonal Alterations with Menopause and Their Effects	254
Menopause and Sexuality	258
Age and Sexuality	262
Effects of Age versus Effects of Menopause	263
Physiological Aspects of Sexual Response in Menopausal Women	264
Mood Changes with Menopause	265
Cultural Aspects of Menopause and Sexuality	266
Classification, Diagnosis, and Treatment	267
Future Directions	277
Summary and Conclusions	278
References	279

Chapter 10

Disease and Sexuality 284

Luca Incrocci and Woet L. Gianotten

Cancer and Sexual Function	284
Prostate Cancer	285
Hematological Cancer	291
Penile Cancer	293
Bladder Cancer	293
Rectal Cancer	294
Testicular Cancer	296
Gynecological Cancer	298
Breast Cancer	299
Broader Issues Surrounding Cancer and Sexuality	300

Chronic Disease	303
Spinal Cord Injury	305
Spina Bifida	308
Stroke-Cerebrovascular Accident	309
Traumatic Brain Injury	311
Cerebral Palsy	312
Multiple Sclerosis	314
Parkinsons Disease	315
Diabetes Mellitus	316
Summary and Conclusions	318
Appendix I: Cancer and Noncancer Related Factors Influencing Sexual Function	319
Appendix II: Cancer Treatment and Its Effects on Sexual Functioning	320
References	321

PART II

Gender Identity Disorders 325

Part Editor: Kenneth J. Zucker

**Chapter 11 _____
Genetics of Sexual Development and Differentiation 329**

Eric J. N. Vilain

Defining Sex Determination	332
Genes of Sexual Differentiation	343
On the Topic of Genetics and Sex: Sexual Orientation	347
Summary and Conclusions	348
References	349

**Chapter 12 _____
Disorders of Sex Development and Atypical
Sex Differentiation 354**

Vickie Pasterski

Typical Sexual Differentiation	355
Behavioral Effects of Gonadal Steroids	358

Disorders of Sex Development	360
Clinical Management of Disorders of Sex Development	370
Summary and Conclusions	371
References	372

Chapter 13

Gender Identity Disorder in Children and Adolescents **376**

Kenneth J. Zucker and Peggy T. Cohen-Kettenis

Terminology	377
Children with Gender Identity Disorder	380
Diagnosis and Assessment	382
Associated Psychopathology	386
Developmental Trajectories	389
Therapeutics	393
Adolescents with Gender Identity Disorder	401
Diagnosis and Assessment	402
Associated Psychopathology	407
Developmental Trajectories	408
Treatment	409
Legal Issues	417
References	418

Chapter 14

Gender Identity Disorders in Adults: Diagnosis and Treatment **423**

Anne A. Lawrence

History	423
Terminology	424
Diagnostic Criteria	426
Transsexual Typology	429
Epidemiology	433
Clinical Presentation and Course	434
Associated Features	437
Diagnosis and Assessment of Gender Identity Disorders	439

Treatment	442
Results of Sex Reassignment	449
Treatment of Families of Persons with Gender Identity Disorders	450
Summary and Conclusions	451
References	452

Chapter 15

Cross-Cultural Issues **457**

Serena Nanda

The Hijras: An Alternative Gender Role in India	461
Men and Not-Men: A Sex/Gender Dichotomy in Brazil	464
<i>Kathoey</i> and Gay: The Changing Sex/Gender System in Thailand	466
Blurring Categories: From Sex/Gender Binaries to Transgenderism in the United States	471
Cultural Patterns and Sex/Gender Diversity	475
Summary and Conclusions	482
References	483

PART III

Paraphilias and Atypical Sexual Behaviors **487**

Chapter 16

Paraphilia and Paraphilia-Related Disorders: An Introduction **491**

Luk Gijs

Definition, Prevalence, Incidence, and Phenomenology	494
Care for Persons with Paraphilia	509
Psychotherapeutic Interventions	512
Biomedical Interventions	514
Effectiveness of Interventions	518
Paraphilia-Related Disorders	518
Summary and Conclusions	521
References	523

Chapter 17

The Etiology of Sexual Deviance **529**

Patrick Lussier, Kristie McCann, and Eric Beauregard

General Etiological Models of Sexual Deviance	530
Comorbidity	535
Specific Etiological Models of Sexual Deviance	541
Co-Occurrence of Paraphilia	551
Theoretical Intergration and Clinical Considerations	552
Summary and Conclusions	556
References	557

Chapter 18

Treatment of Paraphilic Sexual Disorders **563**

J. Paul Fedoroff

The Myth: Paraphilias Are Untreatable	563
The Issue(s)	564
The Paraphilias	565
Treatments	566
Putting It All Together	578
Summary and Conclusions	579
References	582

Chapter 19

Sexual Addiction **587**

Matt O'Brien, Liam E. Marshall, and W. L. Marshall

Sexual Addiction in Sexual Offenders	588
Online Sexual Behavior Problems	593
Treatment of Sexual Addiction	598
Summary and Conclusions	599
References	600

Chapter 20

Legal and Privacy Issues Surrounding Sexual Disorders 603*Renee Sorrentino*

History of Sex Offender Legislation 604

Modern Sex Offender Legislation 605

Sex Offender Evaluations 612

Sex Offender Treatment 614

Summary and Conclusions 620

References 621

**Appendix: Alphabetical Listing of *DSM-IV* Sexual
and Gender Identity Disorders Reviewed 623****Author Index 633****Subject Index 657**
