<i>Foreword</i>	xix
<i>Preface</i>	xxi
<i>About the author</i>	xxv
<b>1 INTRODUCTION TO BONDS</b>	<b>1</b>
Description	4
Outline of market participants	6
Bond analysis	8
<i>Financial arithmetic: The time value of money</i>	8
<i>Present value and discounting</i>	9
<i>Discount factors</i>	15
Bond pricing and yield: The traditional approach	18
<i>Bond pricing</i>	18
<i>Bond yield</i>	23
Accrued interest	30
<i>Clean and dirty bond prices</i>	30
<i>Day-count conventions</i>	32
Illustrating bond yield using Excel spreadsheets	33
Bibliography	36

---

<b>2 THE YIELD CURVE, AND SPOT AND FORWARD YIELDS</b>	39
The yield curve	40
<i>Yield-to-maturity yield curve</i>	40
<i>The par yield curve</i>	42
<i>The zero-coupon (or spot) yield curve</i>	43
The forward yield curve	47
<i>Theories of the yield curve</i>	48
Spot rates	52
<i>Discount factors and the discount function</i>	53
<i>Implied spot and forward rates</i>	53
<i>Understanding forward rates</i>	65
The term structure of interest rates	67
Bibliography	69
<b>3 BOND INSTRUMENTS AND INTEREST-RATE RISK</b>	71
Duration, modified duration and convexity	72
<i>Duration</i>	73
<i>Properties of Macaulay duration</i>	77
<i>Modified duration</i>	77
<i>Convexity</i>	82
Bibliography	87

---

<b>4 REVIEW OF FLOATING-RATE NOTE BOND INSTRUMENTS</b>	89
Floating-rate notes	90
Inverse floating-rate note	94
<i>Description</i>	94
<i>Hedging the note</i>	97
Indexed amortising note	98
<i>Description</i>	98
<i>Advantages to investors</i>	100
Synthetic convertible note	100
<i>Description</i>	100
<i>Investor benefits</i>	101
Interest differential notes	101
<i>Example of IDN</i>	102
<i>Benefits to investors</i>	103
Convertible Quanto Note	104
<i>Example of Japanese Equity Note</i>	105
Bibliography	107
<b>5 THE MONEY MARKETS</b>	109
Introduction	111
Securities quoted on a yield basis	113
<i>Money market deposits</i>	113
<i>Certificates of deposit</i>	115
<i>CD yields</i>	115
Securities quoted on a discount basis	121

<i>Treasury bills</i>	121
<i>Banker's acceptances</i>	123
<i>Eligible banker's acceptance</i>	124
Commercial paper	124
<i>Commercial paper programmes</i>	126
<i>Commercial paper yields</i>	127
Money market screens on Bloomberg	129
Repo	131
<i>Definition</i>	133
<i>The classic repo</i>	134
<i>Examples of classic repo</i>	137
<i>The sell/buy-back</i>	141
<i>Examples of sell/buy-back</i>	142
<i>Repo collateral</i>	145
<i>Legal treatment</i>	146
<i>Margin</i>	146
<i>Variation margin</i>	148
5.A Currencies using money market year base of 365 days	149
<b>6 THE EUROBOND MARKET</b>	151
Eurobonds	152
Foreign bonds	155
Eurobond instruments	156
<i>Conventional bonds</i>	156
<i>Floating rate notes</i>	157

---

<i>Zero-coupon bonds</i>	157
<i>Convertible bonds</i>	158
The issue process: market participants	159
<i>The borrowing parties</i>	161
<i>The underwriting lead manager</i>	162
<i>The co-lead manager</i>	164
<i>Investors</i>	164
Fees, expenses and pricing	165
<i>Fees</i>	165
<i>Expenses</i>	165
<i>Pricing</i>	166
Issuing the bond	167
<i>The grey market</i>	168
<i>Alternative issue procedures</i>	169
Covenants	170
Trust services	171
<i>Depositary</i>	171
<i>Paying agent</i>	172
<i>Registrar</i>	173
<i>Trustee</i>	173
<i>Custodian</i>	173
Form of the bond	174
<i>Temporary global form</i>	174
<i>Permanent global bond</i>	174
<i>Definitive form</i>	175

<i>Registered bonds</i>	176
<i>Fiscal agent</i>	176
<i>Listing agent</i>	177
Clearing systems	177
Market associations	178
<i>International Capital Market Association</i>	178
Bloomberg screens	179
Secondary market	179
Settlement	181
Bibliography	182
<b>7 CONVERTIBLE BONDS, MTNs AND WARRANTS</b>	183
Description	184
<i>Analysis</i>	184
Value and premium issues	187
Warrants	188
Medium-term notes	190
<i>MTN programme</i>	190
<i>Shelf registration</i>	191
<i>Credit rating</i>	191
<i>Secondary market</i>	191
<i>Issuers and investors</i>	192
<i>MTNs and corporate bonds</i>	193

<b>8 CREDIT RATINGS</b>	195
Credit ratings	197
<i>Purpose of credit ratings</i>	197
<i>Formal credit ratings</i>	198
<b>9 INFLATION-LINKED BONDS</b>	203
Basic concepts	204
<i>Choice of index</i>	204
<i>Indexation lag</i>	205
<i>Coupon frequency</i>	207
<i>Type of indexation</i>	207
Index-linked bond cash flows and yields	209
<i>TIPS cash flow calculations</i>	210
<i>TIPS price and yield calculations</i>	210
<i>Assessing yields on index-linked bonds</i>	214
<i>Which to hold: indexed or conventional bonds?</i>	215
Bibliography	216
<b>10 AN INTRODUCTION TO SECURITISED BONDS</b>	217
The concept of securitisation	220
<i>Reasons for undertaking securitisation</i>	221
<i>Benefits of securitisation to investors</i>	224
The process of securitisation	225
<i>Securitisation process</i>	225

.....	
<i>SPV structures</i>	227
<i>Credit enhancement</i>	228
<i>Impact on balance sheet</i>	230
<i>Credit rating</i>	231
<i>Redemption mechanism</i>	233
<i>Average life</i>	233
Illustrating the process of securitisation	234
Bloomberg screens	238
Bibliography	242
<b>11 INTRODUCTION TO DERIVATIVE INSTRUMENTS</b>	243
Interest-rate swaps	244
<i>Characteristics of IR swaps</i>	246
<i>Swap spreads and the swap yield curve</i>	249
<i>Swap duration</i>	252
<i>Summary of IR swap</i>	252
<i>Non-standard swaps</i>	253
<i>Using swaps</i>	255
<i>Cancelling a swap</i>	257
<i>Zero-coupon swap pricing</i>	258
<i>Hedging using bonds and swaps</i>	259
<i>Swaptions</i>	263
Cross-currency swaps	264
<i>Bloomberg screens</i>	266

---

Futures contracts	269
<i>Description</i>	269
<i>Bond futures contracts</i>	271
<i>Futures pricing</i>	274
<i>Arbitrage-free futures pricing</i>	278
<i>Hedging using futures</i>	280
The hedge ratio	282
Interest-rate options	283
<i>Introduction</i>	283
<i>Definition</i>	283
<i>Option terminology</i>	286
<i>Option premium</i>	287
<i>Pricing options</i>	288
<i>Behaviour of option prices</i>	292
<i>Using options in bond markets</i>	293
<i>Hedging using bond options</i>	295
<i>Exotic options</i>	296
Bibliography	298
<b>12 INTRODUCTION TO CREDIT DERIVATIVES</b>	299
Introduction	302
<i>Why use credit derivatives?</i>	303
<i>Classification of credit derivative instruments</i>	305
<i>Definition of a credit event</i>	306

Asset swaps	307
Credit default swaps	311
Credit-linked notes	315
Total return swaps	318
<i>Synthetic repo</i>	322
<i>Reduction in credit risk</i>	323
<i>Capital structure arbitrage</i>	323
<i>The TRS as a funding instrument</i>	324
Credit options	326
General applications of credit derivatives	327
<i>Use of credit derivatives by portfolio managers</i>	328
Supply and demand and the credit default swap basis	331
<i>A negative basis</i>	331
<i>Supply and demand</i>	333
<i>CDS mechanics</i>	335
Bibliography	337
<b>13 APPROACHES TO GOVERNMENT BOND TRADING AND YIELD ANALYSIS</b>	339
Introduction	340
<i>The determinants of yield</i>	340
<i>Spread trade risk weighting</i>	341
<i>Identifying yield spread trades</i>	347
Coupon spreads	348

---

Butterfly trades	350
<i>Basic concepts</i>	350
<i>Putting on the trade</i>	351
<i>Yield gain</i>	353
<i>Convexity gain</i>	354
Bloomberg screens	358
Bibliography	362
<b>14 RISK MANAGEMENT</b>	<b>363</b>
Characterising risk	364
Risk management	366
<i>The risk management function</i>	367
Interest-rate risk	368
Value-at-Risk	369
<i>Definition</i>	369
<i>Calculation methods</i>	370
<i>Validity of the variance-covariance (correlation) VaR estimate</i>	372
<i>Assessment of VaR tool</i>	373
VaR Methodology for credit risk	374
<i>Modelling VaR for credit risk</i>	375
<i>Time horizon</i>	377
<i>Applications of credit VaR</i>	378
Bibliography	378

<i>Glossary</i>	379
<i>List of abbreviations</i>	387
<i>Index</i>	391
