- Alien Tort Claim Act (USA) 181–3
- Alternative predictions 199, 201
- Amazon 4
- Anchoring and adjustment 267
- Anomalous information 296–7
- Anticipated event 324–5, 330, 338
- Anticipatory (inductive) scenario development 270–1
- Apple 4, 5
- Appreciative inquiry 295
- Appreciative judgement 351–63
- Appreciative systems 67–8, 281
- Associative network 264
- AT&T 16
- Atomistic approach 280
- Atomized methods 44–6, 47–8  
modelling tool 380–1, 383–4  
second-generation 380, 383
- Backward inferences 27
- Balanced scorecard 323, 334–6
- Balancing loop 129, 130
- BAT 188
- Belief perseverance 286
- Belief system 294
- Biases 264  
confirmation 268  
experience 268–9  
single outcome 269–70
- Bolstering 269
- Boundaries, crossing 363–7
- Boundary objects 364–5
- Brainstorming 21, 45
- British Telecom 185
- Business-as-usual 33, 60, 68, 69, 83, 151, 284, 288, 305, 392
- Business Idea 163, 389
- Causal Layered Analysis 356
- Causal logics 125
- Causal loops 123, 127, 129
- Causal thinking 271
- Cause and effect, language of 203

- Certainty/uncertainty factors 61–3,  
294–5, 304–5
- Chance, Clifford 173–4
- Change management programme 161
- Change, innovation and 80
- Chronos, Greek notion of 136–7
- Cisa 102
- Cisco 103
- Civil law courts 183–4
- Closed innovation 78, 82
- Co-production 89
- Cognitive priming 62
- Cognitive re-priming 299
- Cognitive schema 263
- Cognitive skills 291–3
- Collaborative Learning and Innovation  
Network (COIN) 244–5, 257
- Colligation 202–3
- Colligatory term 204, 210
- Collyns, Napier 13–26, 32
- Communicated world 358–63
- Complexity 352–3  
understanding of 18–19
- Component Level Implementation  
Process (CLIP) 337
- Confirmation bias 286
- Conservatism 100
- Constructed futures 359
- Construction 266
- Constructive doubt 297
- Contextual environment 64–6, 92, 93,  
94, 95–6
- Contingency planning 65, 166–7
- Contingent strategy 91
- Core narratives 206
- Corporate Social Responsibility (CSR)  
162–4, 175, 178  
international 179–87  
practical approach 179–81  
theoretical approach 181–5  
wind-tunnelling legal forecasts  
185–7
- Creative stage 76
- Critical futures studies (CFS) 366
- Critical uncertainties 61–3
- Cross-impact analysis 152–4
- CSS Insurance 154–6
- Cues to causality 271
- Darwin, Charles 81
- Decision making 163–7
- Decision scenarios 37
- Decisions to signals loop back 167–9
- Deductive scenario development  
270–1
- Deductive scenario structuring 205
- Defensive planning 65
- Delphi technique 153, 170
- Descriptive 125
- Development stage 76
- Digital networking 198
- Dilemmas 125, 281
- Disciplined intuition 260
- Discontinuous changes, time span of  
134–42
- Disruptive innovation 79, 139
- Dissociation 110
- Dominant loop 71, 135, 138, 140,  
142, 392
- Dominant view in the organization  
221–3
- Double-loop learning 289, 320
- Dreaming 39–40, 50
- Drivers of change 148
- Early warning indicated planning 168
- ED&F Man Group 164–6
- Emotional intelligence 286
- Enron 186
- Entrepreneurial commitment 6
- Entrepreneurial insight 10
- Entrepreneurial stage 76
- Entreprise & Personnel (E&P) 107–10,  
111, 112, 113–15, 116, 117
- Environment, role in scenario thinking  
91–4
- Environmental architecture 108
