

# Contents at a Glance

---

<b><i>Introduction</i></b> .....	<b>1</b>
<b><i>Part I: Getting to Know FileMaker Pro</i></b> .....	<b>7</b>
Chapter 1: Introducing FileMaker Pro.....	9
Chapter 2: Creating a Database .....	29
Chapter 3: Calculation Programming: You Have the Power!.....	55
<b><i>Part II: Building the Perfect Beast</i></b> .....	<b>77</b>
Chapter 4: Designing a Good FileMaker Application .....	79
Chapter 5: Whipping the Layout into Shape .....	105
Chapter 6: Finding and Sorting Your Data.....	125
Chapter 7: Making FileMaker Do Tricks.....	139
<b><i>Part III: Taking Control with FileMaker Programming...</i></b>	<b>155</b>
Chapter 8: It's All in the Script!.....	157
Chapter 9: Your Programming Toolbox.....	179
<b><i>Part IV: FileMaker Exposed! Sharing and Protecting Your Database</i></b> .....	<b>193</b>
Chapter 10: Share (Data) and Share Alike .....	195
Chapter 11: Batten Down the Hatches! Keeping Your Data Safe .....	227
Chapter 12: Putting Your Databases on the Web.....	241
<b><i>Part V: The Part of Tens</i></b> .....	<b>255</b>
Chapter 13: Ten Cool Things You Can Do with FileMaker .....	257
Chapter 14: Ten (Or So) Items to Aid Your FileMaker Development .....	275
<b><i>Appendix: Scripting Reference</i></b> .....	<b>281</b>
<b><i>Index</i></b> .....	<b>343</b>

# Table of Contents

<b><i>Introduction</i></b> .....	<b>1</b>
About This Book.....	1
Foolish Assumptions .....	2
How This Book Is Organized.....	2
Part I: Getting to Know FileMaker Pro .....	2
Part II: Building the Perfect Beast .....	3
Part III: Taking Control with FileMaker Programming.....	3
Part IV: FileMaker Exposed! Sharing and Protecting Your Database .....	3
Part V: The Part of Tens.....	4
Appendix: Scripting Reference .....	4
Icons Used in This Book.....	4
Downloads for This Book.....	4
Where to Go from Here.....	5
<b><i>Part I: Getting to Know FileMaker Pro</i></b> .....	<b>7</b>
<b>Chapter 1: Introducing FileMaker Pro</b> .....	<b>9</b>
Why Use FileMaker?.....	9
Common uses for FileMaker .....	10
Picking the Version That’s Best for You .....	11
The Happy Modes of FileMaker.....	12
Dealing with data in Browse mode.....	13
Searching in Find mode .....	14
Taking a look in Preview mode .....	15
Laying out the layouts in Layout mode .....	15
What’s on the Menu? .....	18
The Right Toolbar for the Job .....	21
The Standard toolbar .....	22
The Text Formatting toolbar .....	22
The Arrange toolbar.....	23
The Tools toolbar.....	23
Configuring Your FileMaker Installation.....	24
Setting general preferences.....	24
Choosing your layout preferences .....	25
Practicing memory control .....	26
Plugging (and unplugging) plug-ins .....	27
Fiddling with fonts.....	27
<b>Chapter 2: Creating a Database</b> .....	<b>29</b>
Starting a Custom Database from Scratch.....	30
Adding and Renaming a Table .....	31

Playing the Field: Adding Fields to the Table .....	33
Adding an identifier field .....	33
Adding the fields that hold the data .....	35
Robotic table field data entry .....	38
Automatic garbage detector .....	40
The bit bucket: Setting Storage options .....	43
Connecting Tables with Parent/Child Relationships .....	45
Setting up a child table .....	46
Defining the table relationships .....	48
Exploring your options in the relationships graph .....	50

### **Chapter 3: Calculation Programming: You Have the Power! . . . . . 55**

Introducing the Calculation Editor .....	55
Understanding the basic syntax .....	57
Operator, could you please connect these values? .....	58
Deciding Where to Put a Calculation .....	60
Embedding calculations in your database .....	60
Building calculations and scripts in ScriptMaker .....	63
Getting Crazy with the Calculation Functions .....	68
Adding a database status dialog box .....	68
Formatting a phone number by calculation .....	72

## ***Part II: Building the Perfect Beast . . . . . 77***

### **Chapter 4: Designing a Good FileMaker Application . . . . . 79**

Analysis Isn't Just for Doctors .....	80
Asking the initial questions .....	80
Turning your answers into requirements .....	82
Data In: Creating a Well-Designed Database .....	84
Identifying the fields .....	84
Organizing fields into tables for efficiency .....	86
Building good relationships (between tables) .....	87
Data Out: Designing an Effective Layout .....	88
Adding a layout to a database .....	91
Setting options for a layout .....	93
Organizing Data within FileMaker's Layout Parts .....	96
Adding basic objects to a layout .....	99
Saving and Previewing a Layout .....	103

### **Chapter 5: Whipping the Layout into Shape . . . . . 105**

Aligning Objects the Easy Way .....	106
Inserting the Current Date on the Layout .....	107
Simplifying Life with the Format Painter .....	107

Adding Pretty Pictures to the Layout .....	108
Inserting a background image .....	109
Using pictures for buttons .....	109
Make Those Fields Behave.....	111
Setting field options .....	111
Setting the tab order for layout fields.....	112
I Need a Tooltip! .....	113
Organizing the Layout into Tabs .....	114
It's Mini-Me! — Adding Subtables .....	117
Adding a Grand Summary .....	120
<b>Chapter 6: Finding and Sorting Your Data .....</b>	<b>125</b>
Searching for Data.....	125
Doing a simple search.....	126
Narrowing a search criteria .....	127
Omitting a record from the search.....	128
Viewing omitted records .....	128
Creating a button to do your search automatically.....	129
Putting Your Jobs in Order (By Sorting) .....	132
Sorting A to Z and 1, 2, 3.....	132
Setting up a custom sort order.....	134
Adding a button to sort columns .....	136
<b>Chapter 7: Making FileMaker Do Tricks .....</b>	<b>139</b>
Buttoning Up the Layout.....	139
Putting a Data Field to Work.....	143
Using Those Wonderful Drop-Down Lists .....	144
Popping Up Menus.....	146
Presenting Choices with Check Boxes and Radio Buttons.....	147
Storing Pictures, Documents, Sounds, and More in a Container Field .....	149
Creating a Container field.....	149
Adding stuff to the Container field.....	150
Customizing the Menus.....	151
<b><i>Part III: Taking Control with FileMaker Programming ...</i></b>	<b>155</b>
<b>Chapter 8: It's All in the Script! .....</b>	<b>157</b>
Saving Time with FileMaker Scripts.....	158
Checking Out the Parts in a Script.....	159
Creating a Script in ScriptMaker .....	160
Creating a script .....	160
Defining and editing scripts .....	164
Adding conditionals and other logic to a script.....	166
Assigning a script to a layout object .....	171

Playing with Animation: The ShipMover Database .....	174
Laying the groundwork for ShipMover .....	174
Managing a global variable with several scripts .....	175
Designing the ship-movement script .....	176

## **Chapter 9: Your Programming Toolbox .....179**

Good Commenting Practices .....	180
Adding a comment .....	181
Adding header comments .....	182
Keeping application notes .....	183
Structuring your script listing .....	184
Auto-Centering a Layout .....	185
Using External Scripts and Value Lists .....	186
Linking to an external file .....	186
Using linked scripts .....	187
Using linked value lists .....	188
Calling Up an Address with Google Maps .....	189
Automated Error E-Mails .....	190

## ***Part IV: FileMaker Exposed! Sharing and Protecting Your Database ..... 193***

### **Chapter 10: Share (Data) and Share Alike .....195**

Sharing a Database over a Network.....	196
Enabling sharing for the database .....	199
Connecting to a hosted FileMaker database.....	200
Exporting Your Data to Other Formats .....	202
Understanding your options .....	202
Exporting to Microsoft Excel .....	204
Exporting to HTML.....	207
Importing Data from Other Sources .....	207
Excellent data from Excel .....	208
Getting text into your database.....	211
Taming the dreaded comma-separated variable file .....	211
Importing from SQL via ODBC, and other strange acronyms.....	212
Importing XML data .....	217
Linking to Other FileMaker Databases .....	219
Setting up a file reference .....	219
Using a file reference.....	220
Sharing Data with Another Database System via ODBC/JDBC.....	222
Generating the Ultimate Database Report.....	224

### **Chapter 11: Batten Down the Hatches! Keeping Your Data Safe ..227**

Introducing FileMaker Security Methods.....	228
Defining User Accounts.....	228
Creating a user account.....	229
Enabling logins for the database.....	231

Changing the admin password .....231

Using Privilege Sets.....232

    Creating a privilege set .....232

    Using the Custom Privilege feature.....236

Managing Extended Privileges.....237

    Adding an extended privilege to a privilege set .....238

    Adding a new extended privilege .....239

FileMaker Security Guidelines .....240

**Chapter 12: Putting Your Databases on the Web .....241**

Designing Layouts for the Web.....241

    Keeping a layout Web friendly .....242

    Checking out the browser interface.....243

Script Writing for the Web.....246

    Choosing Web-compatible features .....247

    Considering scripts for the Web application .....248

    Handling the two-faced script statements .....249

Putting Your Database on the Web .....250

***Part V: The Part of Tens .....255***

**Chapter 13: Ten Cool Things You Can Do with FileMaker .....257**

Making Hidden Buttons .....257

Giving Your Layouts Pizazz with Graphics .....259

Making Layout Titles and Text Dynamic .....262

Reusable Layouts .....264

Showing Movies in FileMaker .....266

Using Auto Start & End Script Code .....268

Sending E-Mail from FileMaker .....269

Launching a Web Site with FileMaker .....270

Changing a Field Background Color.....271

Running Another Application .....274

**Chapter 14: Ten (Or So) Items to Aid Your FileMaker Development .....275**

Checking Out Online Resources for FileMaker Pro.....276

    FileMaker Pro mailing lists and newsgroups .....276

    FMNewswire .....276

    FileMaker Magazine.....276

    comp.databases.filemaker .....277

Plugging into FileMaker Pro .....277

    Troj Automatisering .....278

    24U Software .....278

    WorldSync .....278

Expanding Your Themes .....278

Not Just Scripting, but AppleScripting .....279

*Appendix: Scripting Reference*.....281

*Index*.....343
