Customizing the Tools panel.....	25
Rearranging the workspace.....	26
Saving a custom workspace .....	26
Managing workspaces .....	28
Changing keyboard shortcuts .....	28
Setting Flash preferences.....	31

<b>Chapter 2: Introducing Graphics, Symbols, and Animations . . . . .</b>	<b>33</b>
Working with Flash Graphics .....	33
Creating graphics with drawing tools .....	34
Introducing the Text tool.....	35
Getting colorful .....	36
Finding Out about Symbols and Instances .....	37
Understanding graphic symbols.....	38
Buttons, buttons, and more buttons .....	38
Changing movie clip properties.....	39
Checking out symbols from the library .....	40
Introducing Flash Animation.....	41
Frame-by-frame animation (the old school).....	41
Motion tweening will move ya.....	42
Shape tweening will morph ya .....	43
Inverse kinematics is bad to the bone .....	44
<b>Chapter 3: The Engine Beneath Flash: ActionScript 3. . . . .</b>	<b>47</b>
Understanding What ActionScript 3 Can Do for You.....	47
Controlling the Timeline .....	48
Working with the Timeline .....	49
Creating Timeline Functions with ActionScript.....	49
Creating two buttons.....	49
Formatting the buttons .....	50
Adding the ActionScript.....	52
The ActionScript's actions .....	52
Bringing in New Objects .....	53
Providing information just in time.....	55
Organizing tasks.....	55
Looking at the Many Levels of ActionScript .....	56
The Timeline code .....	56
ActionScript files and classes.....	59
<b>Chapter 4: Creating Your First Flash Project . . . . .</b>	<b>63</b>
Planning Your Project .....	63
Mapping out the project .....	64
Determining the scope of your project.....	65
Making a list and checking it twice.....	66
Covering your assets .....	66
Creating Your First Flash Document.....	66
Ye olde Welcome screen.....	67
Creating a document from a template .....	68
Creating a document from scratch.....	69
Setting the document size, background color, and frame rate.....	70
Creating your first animation .....	72

**Chapter 5: Pushing the Panic Button — Help! . . . . . 77**

- Getting By with a Little Help from Flash..... 77
  - Using Flash Help..... 78
  - Getting ActionScript help ..... 79
- Updating Flash ..... 80
- Extending Flash..... 83
  - Finding Flash extensions..... 83
  - Installing Flash extensions..... 84
  - Managing Flash extensions..... 85
- Flash Online Resources ..... 86

***Book II: Creating Graphics ..... 89***

**Chapter 1: Creating Flashy Graphics . . . . . 91**

- A Tale of Two Graphic Types..... 91
  - Understanding vector graphics ..... 92
  - Understanding bitmap (raster) graphics..... 92
- Creating Shapes ..... 93
  - Using the Primitive Oval and Rectangle tools..... 93
  - Creating shapes with the Oval and Rectangle tools..... 98
  - Mastering the Polystar tool ..... 100
    - Creating unique shapes with the Oval Rectangle  
and Polystar tools ..... 100
  - Creating lines — the straight and narrow ..... 103
  - Using the basic shape tools in Object Drawing mode..... 104
  - Modifying basic shapes..... 104
- Using the Drawing Tools..... 107
  - Drawing with the Pencil tool ..... 107
  - Painting with the Brush tool..... 109
  - Using the Spray Brush tool..... 110
  - Creating paths with the Pen tool ..... 111
  - The Eraser tool — the quicker picker-upper ..... 113
- Modifying Objects ..... 114
  - Selecting objects ..... 114
  - Modifying shapes point by point ..... 115
  - Modifying objects with the Pen tool and friends..... 116
  - Modifying objects with the Property inspector..... 116
  - Using the Free Transform tool ..... 117
    - The Transform panel — a geek’s best friend ..... 119
    - The Info panel — read all about it ..... 120
    - The Align panel — when precision counts..... 121
  - Creating groups..... 122

**Chapter 2: A Splash of Color, S'il Vous Plaît . . . . . 123**

Getting to Know Color: The Skinny on RGB, HSB, and Hexadecimal . . .	123
Stroked and Filled, but Not Punched . . . . .	124
Defining the stroke color . . . . .	125
Defining the fill color . . . . .	126
Finding Your Way around the Swatches Panel . . . . .	127
Understanding Web-safe colors . . . . .	127

Mixing a Color . . . . .	131
Getting up close and personal with the Color panel . . . . .	131
Mixing a swatch of color . . . . .	131
Creating a gradient . . . . .	133
Using the Transform Gradient tool . . . . .	136
Changing Colors . . . . .	137
Using the Ink Bottle tool . . . . .	137
Using the Paint Bucket tool . . . . .	138
Using the Kuler Extension . . . . .	138

**Chapter 3: Getting the Word Out with Text . . . . . 141**

Using the Text Tool . . . . .	141
Creating static text . . . . .	142
Adding a hyperlink to text . . . . .	143
Creating input text . . . . .	144
Creating dynamic text . . . . .	144
Formatting Text . . . . .	145
Specifying text character parameters . . . . .	145
Working with paragraph text . . . . .	148
Creating Text . . . . .	149
Font considerations . . . . .	150
Converting text to graphics . . . . .	151
Editing Text Fields . . . . .	152
Resizing a text field . . . . .	152
Editing text . . . . .	152
Spell-checking text fields . . . . .	152
Setting up the Flash spell check . . . . .	153
Running the Flash spell checker . . . . .	154
Using the Find and Replace Command . . . . .	156

**Chapter 4: Creating Graphic Symbols for Fun and Profit . . . . . 159**

Understanding Symbols and Instances . . . . .	159
Creating Symbols . . . . .	160
Understanding symbol types . . . . .	160
Converting an object to a symbol . . . . .	161
Creating a new symbol . . . . .	163
Spraying symbols . . . . .	166

- Editing Symbols ..... 168
  - Editing symbols in place ..... 168
  - Using symbol-editing mode ..... 169
  - Editing symbols in another window ..... 169
  - Swapping symbols ..... 170
  - Modifying symbol instance properties ..... 171
- Using the Document Library ..... 172
  - Creating library folders ..... 172
  - Duplicating symbols ..... 174
  - Understanding that default names are not your friends ..... 175
  - Keeping the document library neat and tidy:
    - The Felix Unger factor ..... 175
  - Importing symbols from another Flash document ..... 176

- Organizing a Project with Layers ..... 179
  - Creating a new layer ..... 180
  - Creating layer folders ..... 181
  - Editing layers ..... 182
  - Editing layer properties ..... 183
- Being Precise with Rulers and Guides and the Grid ..... 184
  - Using rulers ..... 185
  - Creating guides ..... 185
  - Using the grid ..... 186

**Chapter 6: Working with Images (Or, Bumpin' with Bitmaps) ..... 189**

- Knowing Your File Formats ..... 189
- Preparing Images for Flash ..... 191
- Importing Image Sequences ..... 193
- Importing a Photoshop Document with Layers ..... 195
- Tracing Bitmaps ..... 196
- Editing Images ..... 198
  - Editing images in an external editor ..... 199
  - Editing image properties ..... 199
- Creating a Bitmap Fill ..... 201
- Swapping Bitmaps — It's Legal in All 50 States ..... 202

***Book III: Animating Graphics ..... 205***

**Chapter 1: Working with the Flash Timeline ..... 207**

- Getting to Know the Timeline ..... 207
- Frames and Keyframes and Blank Keyframes ..... 208
- Creating Frames, Keyframes, and Blank Keyframes ..... 209
  - Adding a frame ..... 209
  - Adding multiple frames ..... 210

Adding a keyframe .....	210
Adding multiple keyframes .....	211
Adding a blank keyframe .....	211
Editing Frames .....	212
Selecting a frame .....	212
Copying a frame .....	212
Managing a Timeline .....	213

**Chapter 2: Creating a Flash Animation . . . . . 215**

Creating an Animated Background .....	216
Creating a Frame-by-Frame Animation .....	217
Making a Motion Tween Animation.....	218
Building a Shape Tween Animation.....	220
Reversing an Animation.....	222
Simulating 3D Animation .....	223
Using the 3D Rotation tool.....	224
Using the 3D Translation tool.....	225
Animating with the Spray Brush Tool.....	226
Creating an Inverse Kinematics (IK) Animation .....	227
Creating the IK chain minus the daisies .....	227
Constraining the bones .....	229
Creating the animation.....	231
Using the Bind tool .....	232

**Chapter 3: Animating Text . . . . . 233**

Creating Typewriter Text .....	233
Creating Flying Text .....	235

**Chapter 4: Advanced Animation Techniques . . . . . 241**

Using Motion Presets .....	241
Creating a motion preset .....	242
Managing motion presets .....	243
Manually Editing a Motion Path.....	244
Editing Motion Tween Animations .....	245
Fine-tuning the animation .....	245
Introducing the Motion Editor .....	249
Understanding nonroving and roving keyframes .....	253
Copying Motion.....	254
Using the Copy Motion command .....	254
Copying motion using ActionScript.....	255
Editing a Shape Tween Animation.....	258
Editing Multiple Frames and Other Delights.....	261
Using onion skins .....	261
Editing multiple frames .....	261

**Book IV: Adding ActionScript 3.0 Magic ..... 265****Chapter 1: Who's Afraid of the Big Bad ActionScript 3.0? ..... 267**

Vive la Différence: New versus Old ActionScript .....	268
Button scripts .....	268
Bossing around movie clip scripts .....	271
Movin' On the Timeline .....	273
Controlling Movie Clip Timelines .....	276

**Chapter 2: Working Off the Timeline with Symbol and Component Classes ..... 283**

Breaking the Timeline Habit .....	284
Forming a tag team with ActionScript and a Flash file .....	284
Comments and clip code .....	286
The world's simplest class .....	287
Code and Design Made Easy .....	295
Going back to instance names .....	296
Easy application and easy objects .....	296
The Simple Power of User Interface (UI) Component Classes .....	299
Choosing from a list .....	299
Don't quote me! .....	301

**Chapter 3: Formal Features and Structures ..... 305**

Checkin' Out the Basics: "My, My, I Declare!" .....	306
You are soooo not my type! .....	306
Access denied! Setting access .....	312
Operators: Assign, Compare, and Do the Math .....	315
Operator? Operator? .....	315
Elementary logic, my dear Watson .....	317

**Chapter 4: Making Decisions . . . and Repeating Yourself ..... 321**

On One Condition! (Or, Maybe More than One):	
Conditional Statements .....	322
The <code>if</code> statement .....	322
The <code>else</code> clause .....	323
Let's do the <code>switch</code> ! .....	325
Let the Looping Computer Do the Work .....	329
The <code>for</code> loop .....	329
The <code>foreign . . . er, for . . in</code> loop .....	331
The <code>for each . . in</code> loop .....	332
The <code>while</code> and <code>do . . while</code> loops .....	334

**Chapter 5: Harnessing the Power of ActionScript 3.0 . . . . . 337**

Meet the Gang: Arrays .....	338
Creating an array .....	338
Getting pushy: Adding data to an array .....	339
pop ( ) goes the element! Retrieving data from an array .....	339
Sorting with an array .....	341
Array practice .....	341
New in Flash CS4: Vectors .....	345
Checking out non-numeric ID for vector elements .....	345
Using the forEach ( ) method .....	347
Look what the cat dragged in! .....	350
An Introduction to ActionScript Graphic Programming .....	351
Get in Shape! .....	351
The triangle and the vector .....	355

***Book V: Working with Flash Audio* .....** **359**

**Chapter 1: Understanding Web Audio . . . . . 361**

Exploring Flash-Sanctioned Audio Formats .....	361
Understanding Bit Depths, Data Rates, and Sample Rates .....	362
Recording Hardware .....	364
Zoom H2 .....	364
Blue Snowball .....	365
Blue Snowflake .....	366
Sound-Editing Software .....	367
Adobe Audition .....	367
Sony Sound Forge .....	368
Sony ACID Music Studio (Windows only) .....	369

**Chapter 2: Adding Sound to a Flash Production . . . . . 371**

Importing Audio .....	371
Using Sound in a Project .....	373
Adding a sound from the document library .....	374
Synching sound .....	374
Adding sound effects .....	375
Adding Sound to Buttons .....	376
Using the Flash Sounds Library .....	377
Use ActionScript to Load an External Sound File .....	378
Using ActionScript to Load a Soundtrack .....	381

**Chapter 3: Editing Sound Files . . . . . 385**

Optimizing Sound for Your Project .....	385
Editing Your Sound Files .....	388
Editing sound in Flash .....	388
Editing in an external editor .....	390

**Book VI: Working with Flash Video ..... 391**

**Chapter 1: Playing Video with Flash: The Producer’s Chair. . . . . 393**

What Is Web Video?..... 393  
 Embedded Video in Flash: Old School..... 394  
     Converting a video file for use in Flash..... 395  
     Embedding the video in a Flash file..... 395  
 Progressive Downloading: Almost Streaming from a Web Server ..... 399  
     Understanding progressive downloading..... 399  
     Creating a progressive download..... 400

     Audio ..... 440  
     Others..... 441  
 Adding Cue Points ..... 442

**Chapter 4: Getting Fancy with Video . . . . . 445**

Making Your Own Video Player ..... 445  
     Understanding the process ..... 445  
     Creating a video player ..... 446

Getting to the Cue Points.....	448
Extracting and displaying cue points .....	448
Working with cue point properties .....	450
Managing Metadata .....	451
Putting on a Show with ActionScript Cue Points.....	453
Captioning a Video .....	458
Using timed text in an XML file .....	458
Launching the captions.....	459

**Chapter 5: Live! From Your Desktop! . . . . . 463**

Understanding Streaming versus Broadcasting .....	463
Streaming media .....	464
Open socket technology .....	464
Streaming Media with Flash Media Server .....	464
Installing the server .....	465
Connecting to the server .....	467
Configuring your connection.....	468
Making a Live Audio/Video Receiver .....	469
Making an inventory.....	470
Creating the receiver.....	471
Testing the player .....	476
Creating a Universal Chat Application.....	477
Sending video and audio.....	478
Making the server-side application .....	479
Creating the chat application.....	480
Testing the application .....	483

**Chapter 6: Shooting a Video That Looks Good on the Web . . . . . 485**

Getting It Right in the Camera.....	485
Panning, Zooming, and Other Delights .....	487
To zoom or not to zoom?.....	488
Panning smoothly and at the right speed.....	488
Using a tripod .....	488
Composing a Scene .....	489
Lights, Camera, Action!.....	490
Being a director.....	490
Telling a story.....	491
Conducting an interview .....	491
Editing DV for the Web .....	491
The cutting-room floor .....	492
Transitions, transitions.....	493
Beginning and ending credits.....	493
Rendering for the Web .....	494

**Book VII: Getting Interactive..... 495**

**Chapter 1: Adding Buttons to a Flash Project .....497**

Creating Buttons ..... 497  
 Creating a multistate button ..... 498  
 Creating an invisible button ..... 499  
 Creating an animated button..... 501  
 Creating a navigation menu with buttons..... 502  
 Using the Button Library ..... 505  
 Making Buttons Functional with ActionScript ..... 506  
 Creating the ActionScript Code to Make a Button Interactive ..... 507

**Chapter 2: Using Flash Components ..... 511**

Working with Flash Components..... 511  
 Using the List and Label Components ..... 512  
 Creating a calculator application..... 512  
 Adding a CHANGE choice ..... 515  
 Extending visible selections without scrolling ..... 516  
 The Check Box and Radio Button: Making Life Easier for the User ..... 517  
 Reading results..... 518  
 Creating a swinging shop..... 519  
 Creating an Interface with Flash Components ..... 523  
 Setting up the components..... 524  
 Tracking the elements..... 525  
 Loading As You Go: Why You'll Love the ULoader ..... 525  
 Graphic versus SWF files..... 526  
 What about loading text and XML files? ..... 527  
 Creating the Bottom Feeder Travel Agency Web Site..... 528  
 Adding the site's components..... 528  
 Adding text ..... 528  
 Adding maps..... 529  
 Finishing the application ..... 530

**Chapter 3: The Art and Science of Creating a Flash Application . . .533**

Organizing a Flash Page..... 533  
 Separating static and dynamic elements ..... 534  
 Laying out the parts ..... 535  
 Organizing the layout for ActionScript ..... 538  
 Styling Code..... 543  
 Formatting the TextField class with the TextFormat class ..... 543  
 Applying dynamic text style to UI components..... 544

<b>Chapter 4: Up in the AIR</b> .....	<b>555</b>
The AIR on Your Desktop .....	555
Making a Simple AIR Application.....	556
Creating the Flash file.....	556
Creating the ActionScript file .....	558
Publishing the AIR file .....	560
Installing and testing the application .....	562
Converting Standard Flash Applications to AIR .....	565
Made for AIR: Using ActionScript Exclusively for AIR .....	566
Making a Desktop AIR Browser.....	567
Using the File class .....	567
Creating the AIR application .....	568
Modifying the AIR application.....	573

***Book VIII: Finalizing a Flash Project..... 575***

<b>Chapter 1: Testing and Debugging a Flash Project</b> .....	<b>577</b>
Testing a Movie.....	577
Testing a Movie in Another Window.....	578
Previewing a Movie .....	579
Debugging a Movie .....	579
Setting breakpoints.....	580
Using the debugger.....	580
<b>Chapter 2: Fine-Tuning and Optimizing Your Flash Project</b> .....	<b>585</b>
Using the Movie Explorer .....	585
Optimizing a Flash Movie .....	587
<b>Chapter 3: Dealing with Bandwidth</b> .....	<b>589</b>
Using the Bandwidth Profiler.....	589
Creating a Preloader .....	592
Adding ActionScript to the preloader.....	594
Displaying the percentage of a file that's been loaded .....	596
<b>Chapter 4: Publishing Your Flash Project</b> .....	<b>599</b>
Publishing a Flash File.....	599
Specifying publish settings.....	600
Publishing Flash documents in other formats .....	608
Integrating Flash Movies with HTML Documents .....	613
