Chapter 4: Getting Around with Hyperlinks .....	71
Chapter 5: Graphically Speaking .....	105
Chapter 6: Forms for Any Purpose .....	135
<b><i>Part III: Great Design Doesn't Have to Be Difficult</i></b> .....	<b>159</b>
Chapter 7: Using Styles to Gussy Up Your Content .....	161
Chapter 8: Putting Page Elements in Their Place .....	197
Chapter 9: External Style Sheets and CSS Code .....	227
Chapter 10: Tables for Data (And Layout, If You Must) .....	259
Chapter 11: Streamlining Sites with Dynamic Web Templates .....	287
<b><i>Part IV: Going Live and Keeping House</i></b> .....	<b>303</b>
Chapter 12: Making Your Worldwide Debut .....	305
Chapter 13: Web Site Management .....	319
Chapter 14: Getting Cozy with Code .....	337
<b><i>Part V: The Part of Tens</i></b> .....	<b>357</b>
Chapter 15: Ten Cool Gizmos for Your Web Site .....	359
Chapter 16: Ten Essential Resources for Web Designers .....	365
<b><i>Bonus Online Material</i></b>	
Chapter 17: Ten Ways to Make Your Web Site Better, Even Before You Begin .....	BC1
Chapter 18: Ten Ways to Drag a Site Out of the Stone Age .....	BC7
<b><i>Index</i></b> .....	<b>371</b>

# Table of Contents

---

<b><i>Introduction</i></b> .....	<b>1</b>
About This Book.....	1
Foolish Assumptions .....	2
How This Book Is Organized.....	2
Conventions Used in This Book .....	3
Icons Used in This Book.....	4
Where to Go from Here.....	4
<b><i>Part 1: Getting Started with Expression Web</i></b> .....	<b>5</b>
<b>Chapter 1: Creating a Web Site with Expression Web</b> .....	<b>7</b>
Starting Expression Web for the First Time.....	8
Touring the Expression Web Screen .....	10
Workspace.....	10
Menu bar and toolbars .....	11
Editing window .....	12
Quick Tag Selector bar.....	14
Task panes.....	14
Status bar .....	16
Creating and Saving a New Web Site.....	16
Creating a New Web Site from a Template .....	19
Opening an Existing Web Site in Expression Web .....	21
Adding Existing Files to a Web Site.....	22
Deleting a Web Site.....	24
Closing a Web Site and Closing Expression Web.....	25
<b>Chapter 2: Working with Web Pages</b> .....	<b>27</b>
Creating and Saving Pages .....	27
Saving a Web page in the current site.....	29
Adding new pages and folders in the Folder List .....	30
Creating a page based on an existing page .....	32
Opening Web Pages.....	33
Opening a page that's part of the current Web site .....	33
Opening a page stored on your computer or network.....	33
Closing Web Pages .....	34
Taking a Peek at a Page in a Web Browser .....	34
Adding a browser to the list.....	37
Previewing by using more than one browser .....	39
Creating and Using Page Templates .....	39

**Part II: Coaxing Content onto the Page .....43****Chapter 3: Just the Text, Ma'am .....45**

Tools for Text.....	45
Adding Text to a Page in Design View .....	47
Entering text from scratch .....	47
Pasting existing text into a Web page .....	48
Fonts and Font Tools .....	49
Using font tools.....	49
Bold, italic, and beyond.....	50
Changing fonts .....	52
Creating a new font family.....	54
Changing text size .....	57
Changing text color .....	58
Changing character spacing .....	60
Creating Stylish Paragraphs .....	60
Adjusting paragraph alignment, indenting, and spacing .....	62
Adding borders and shading.....	64
Handling headings.....	66
Creating bulleted and numbered lists .....	67
Nesting a list in a list.....	68

**Chapter 4: Getting Around with Hyperlinks .....71**

Adding Hyperlinks to Your Site: The What and the Where.....	71
Linking to a Web page or file.....	72
Linking to an e-mail address .....	76
Editing Hyperlinks.....	77
Changing a hyperlink's text or destination and adding a ScreenTip.....	77
Displaying a hyperlink's destination in a new browser window .....	78
Changing hyperlink color .....	79
Making Sure Your Hyperlinks Work .....	81
Verifying hyperlinks .....	82
Fixing broken hyperlinks.....	84
Unlinking Hyperlinks .....	85
Using Bookmarks to Get Somewhere within a Page .....	86
Creating bookmarks .....	86
Linking to a bookmark.....	87
Dismantling bookmarks.....	88
Nifty Text-Based Navigation Bars.....	89
Creating attractive text-based navigation .....	89
Using lists to create a navigation bar .....	92

Inserting an Interactive Button .....	94
Adding an interactive button to your page .....	94
Changing an interactive button's text formatting .....	95
Altering an interactive button's image .....	97
Swapping Images to Make Interactive Buttons .....	98
Embedding More than One Hyperlink in a Picture .....	100
Adding hotspots to a picture .....	102
Setting the default hyperlink .....	104

## **Chapter 5: Graphically Speaking .....105**

Understanding the Quirks of Web Pictures .....	106
Choosing Web-friendly picture formats .....	106
A word or two about colors .....	107
Creating quick-loading pictures .....	108
Practicing graphical restraint .....	109
Adding a Picture to Your Page .....	109
Importing pictures into your Web site .....	110
Inserting a picture .....	112
Adding a picture from another application or location .....	114
Editing a Picture on a Page .....	116
Editing a picture in a graphics program .....	117
Setting a picture's display dimensions .....	118
Resampling a picture .....	119
Creating a transparent GIF .....	120
Cropping a picture .....	121
Applying a special effect to a picture .....	122
Deleting a picture .....	124
Using Thumbnails to Speed Up Your Page .....	124
Controlling a Picture's Position on the Page .....	127
Aligning a picture with surrounding text .....	127
Controlling the amount of space surrounding a picture .....	129
Adding or removing a picture border .....	130
Adding a Tiled Background Picture .....	131

## **Chapter 6: Forms for Any Purpose .....135**

Looking at How Forms Work .....	135
Creating Forms and Form Fields .....	137
Beginning with a form area .....	138
Text boxes .....	139
Text areas .....	142
Check boxes .....	143
Option buttons .....	145
Drop-down boxes .....	147
Submit and Reset buttons .....	150
Specifying What Happens to Form Results .....	153
Creating a Confirmation Page .....	157
Making Sure Your Form Works .....	158

**Part III: Great Design Doesn't Have to Be Difficult ..... 159****Chapter 7: Using Styles to Gussy Up Your Content .....161**

What's So Great about Styles? .....	162
Understanding How Styles Cascade .....	163
Introducing Classy Classes and Other Selectors .....	166
Element-based style rules .....	167
Class-based style rules .....	168
ID-based style rules.....	170
Pseudo classes and other selectors.....	170
Recognizing Style Rule Geography .....	170
Internal (embedded) styles.....	171
External styles .....	173
Inline styles .....	175
Checking Out Your Style Tools .....	177
Apply Styles task pane.....	177
Manage Styles task pane .....	178
CSS Properties task pane.....	180
Style toolbar .....	181
Style Application toolbar.....	183
Performing Common Style-Rule Maneuvers .....	183
Renaming a class-based style .....	184
Removing styles from page elements .....	185
Removing a class or an ID from an element.....	186
Creating a style rule from scratch.....	187
Copying style properties to a new rule .....	193
Applying style rules to page elements.....	194
Modifying an existing style rule.....	194
Deleting style rules.....	195

**Chapter 8: Putting Page Elements in Their Place .....197**

The Positioning Building Blocks .....	198
Divide and Conquer with <div> Tags .....	199
Wrapping <div> tags around existing page content.....	201
Adding <div> elements and then adding content.....	204
Giving a <div> element an identity all its own .....	205
The CSS Box Is No Ordinary Box.....	208
Understanding the CSS box.....	208
Setting CSS box properties in Expression Web.....	211
Document Flow and Positioning .....	214
Ready, set, layout .....	215
Creating and positioning a page content “container” .....	217
Using float to create a two-column layout .....	221
Beyond the basics .....	225

**Chapter 9: External Style Sheets and CSS Code . . . . . 227**

Using External Style Sheets.....	228
Creating a new style sheet .....	228
Attaching an external style sheet to a Web page .....	229
Moving internal (embedded) styles to an attached style sheet .....	231
Attaching multiple style sheets to Web pages.....	233
Detaching a style sheet.....	235
Attaching a style sheet to another style sheet .....	236
Working with Style Sheet Code.....	237
Changing style rule formatting .....	238
Changing style rule defaults.....	238
Using CSS IntelliSense .....	239
Adding comments to external style sheets .....	240
Running CSS Reports .....	241
CSS Errors report.....	241
CSS Usage report .....	244
Style Sheet Links report.....	246
Understanding Expression Web Template Style Sheets .....	246
The layout style sheet .....	248
The formatting style sheet .....	249

**Chapter 10: Tables for Data (And Layout, If You Must) . . . . . 259**

Table Layout versus CSS Positioning .....	260
Creating Tables of Data .....	262
Inserting a data table .....	262
Scrunching existing text into a data table.....	263
Inserting stuff into a table .....	264
Selecting table parts .....	266
Changing a data table's dimensions.....	266
Aligning a table .....	268
Wrapping text around a table .....	269
Inserting blank space inside or between table cells.....	269
Adding borders to data tables .....	271
Tweaking the table with the Tables toolbar.....	273
Adding a single cell .....	275
Adding a background picture .....	276
Changing cell, row, and column dimensions.....	276
Deleting a data table .....	278
Laying Out Pages with Tables.....	278
Using a "canned" table layout.....	280
Drawing a layout table from scratch.....	280
Turning a data table into a layout table .....	281
Changing a layout table's width, height, and alignment on the page .....	281

Changing row and column dimensions .....	282
Adding and deleting rows and columns .....	283
Filling layout tables with content .....	284
Adding borders and backgrounds to layout table cells .....	284
Deleting a layout table .....	285
<b>Chapter 11: Streamlining Sites with Dynamic Web Templates . . . . .</b>	<b>287</b>
Introducing Dynamic Web Templates .....	287
Separating fixed and unique content .....	288
Dynamic Web Templates versus regular page templates .....	288
Deciding whether you should use Dynamic Web Templates in your site .....	289
Creating a Dynamic Web Template .....	289
Building the template .....	289
Defining editable regions inside the template .....	291
Saving the template .....	292
Attaching a Dynamic Web Template to a Web Page .....	293
Creating a New Page from a Dynamic Web Template .....	298
Updating a Site That Uses Dynamic Web Templates .....	298
Updating the template itself .....	298
Swapping Dynamic Web Templates .....	299
Detaching a page from a Dynamic Web Template .....	301
 <b>Part IV: Going Live and Keeping House .....</b>	 <b>303</b>
<b>Chapter 12: Making Your Worldwide Debut . . . . .</b>	<b>305</b>
Determining What “Publishing Your Web Site” Means .....	305
Testing, Testing, and More Testing .....	307
Checking Your Site against Accessibility Guidelines .....	308
Running a Compatibility Report .....	311
Going Public .....	313
Excluding unfinished pages from publishing .....	313
Publishing your Web site .....	313
Letting the World Know That You’re Ready for Visitors .....	316
Keeping Your Web Site Fresh .....	317
 <b>Chapter 13: Web Site Management . . . . .</b>	 <b>319</b>
Taking In the Views .....	319
Folders view .....	320
Reports view .....	321
Hyperlinks view .....	322
Remote Web Site view .....	324

---

Working with Web Site Files and Folders .....	325
Renaming files and folders .....	325
Renaming the home page .....	326
Renaming a Web site .....	326
Working with subsites.....	327
Deleting files and folders.....	329
Backing up and moving a Web site.....	330
Importing and Exporting Personal Web Packages.....	332
<b>Chapter 14: Getting Cozy with Code .....</b>	<b>337</b>
Understanding Why You Can't Just Ignore the Code.....	338
Introducing the HTML Basics .....	338
Looking at the essential Web page parts.....	339
Taking a closer look at HTML elements.....	340
Structuring HTML content .....	344
Checking Out the Cool Code Tools .....	345
Code view .....	345
Quick Tag Selector bar.....	346
Quick Tag Editor .....	348
IntelliSense .....	350
Code View toolbar .....	350
Code snippets .....	352
Find and Replace in Code view.....	353
Code bookmarks.....	353
Controlling How Expression Web-Created Code Looks.....	354
Using Comments in HTML .....	355
<b><i>Part V: The Part of Tens .....</i></b>	<b><i>357</i></b>
<b>Chapter 15: Ten Cool Gizmos for Your Web Site .....</b>	<b>359</b>
Search Locally or Worldwide-Web-ly .....	360
Search Only the Sites You Trust.....	360
Include a Map on Your Site .....	360
Share Your Favorite Places .....	361
Share Video .....	361
Add Flash.....	361
Accept Payments on Your Site .....	362
Place Ads by Google .....	362
Create Drop-Down Menus .....	362
Replace Your Favorite FrontPage Bots.....	362

<b>Chapter 16: Ten Essential Resources for Web Designers</b> . . . . .	<b>365</b>
Expression Web Help and Online Tutorials .....	365
Knowledge Base Builders .....	366
Consult the Web Powers That Be.....	366
CSS and Web Design Expertise .....	367
Third-Party Extensions and Add-Ins .....	367
Code Validation .....	368
Design-Related Goodies.....	368
Treasure Trove of Downloads .....	369
Inspiration .....	370
Last, but Certainly Not Least. . . . .	370

## *Bonus Online Material*

<b>Chapter 17: Ten Ways to Make Your Web Site Better, Even Before You Begin</b> . . . . .	<b>BC1</b>
Know Thy Audience .....	BC1
Hunt and Gather .....	BC2
Hire a Host.....	BC3
Circle the Wagons.....	BC3
Map It .....	BC3
Sketch It .....	BC4
Chill .....	BC4
Boil It Down.....	BC4
Content! Content! Content!.....	BC4
Begin! .....	BC5
<b>Chapter 18: Ten Ways to Drag a Site Out of the Stone Age</b> . . . . .	<b>BC7</b>
Decide Whether the Site is Worth Updating .....	BC8
Back It Up and Keep It Safe .....	BC8
Add a Doctype .....	BC8
Run the Compatibility Checker .....	BC9
Fix the Worst Code Offenders.....	BC9
Remove Formatting from HTML Tags .....	BC9
Check Your Content .....	BC9
Add Alternative Text to All Pictures .....	BC10
Replace Formatting with CSS Styles .....	BC10
Seek Validation .....	BC10
